Section 4 – Specification and about this procurement

UK Research and Innovation (UKRI), wishes to establish a Framework Agreement for Estates and Construction Services (ECS) across the NERC UK Managed Science Estate.

UK SBS is managing this process in accordance with the Public Contracts Regulations 2015 (as may be amended from time to time) (the “Regulations”).

This is a Services Framework Agreement being procured under the Open OJEU Procedure regulations.

This RFP and supporting documentation set out details of the Framework Agreement and expectations of any successful supplier.

This Framework Agreement is for a duration of 4 years and will be awarded to a sole supplier.

It is intended that the Estates and Construction Services call off services will be managed using NEC4 Framework Terms with options for Term Service Short Contract, Professional Services Short Contract and Engineering and Construction Short Contract to be instructed on a Call Off basis depending on the individual requirement.

Introduction

The purpose of this framework agreement is to appoint a sole supplier to support the Natural Environment Research Council (NERC) in developing and delivering a broad range of Estate Professional Services and Construction Project Management Services across its UK Managed Science Estate.

Background to NERC

NERC delivers and funds independent research, innovation, survey, training and knowledge transfer in the environmental sciences, to advance knowledge of planet earth as a complex, interacting system.

This work covers the full range of atmospheric, earth, biological, terrestrial and aquatic sciences, from the deep oceans to the upper atmosphere, and from the poles to the equator and the science is delivered through universities and research centres.

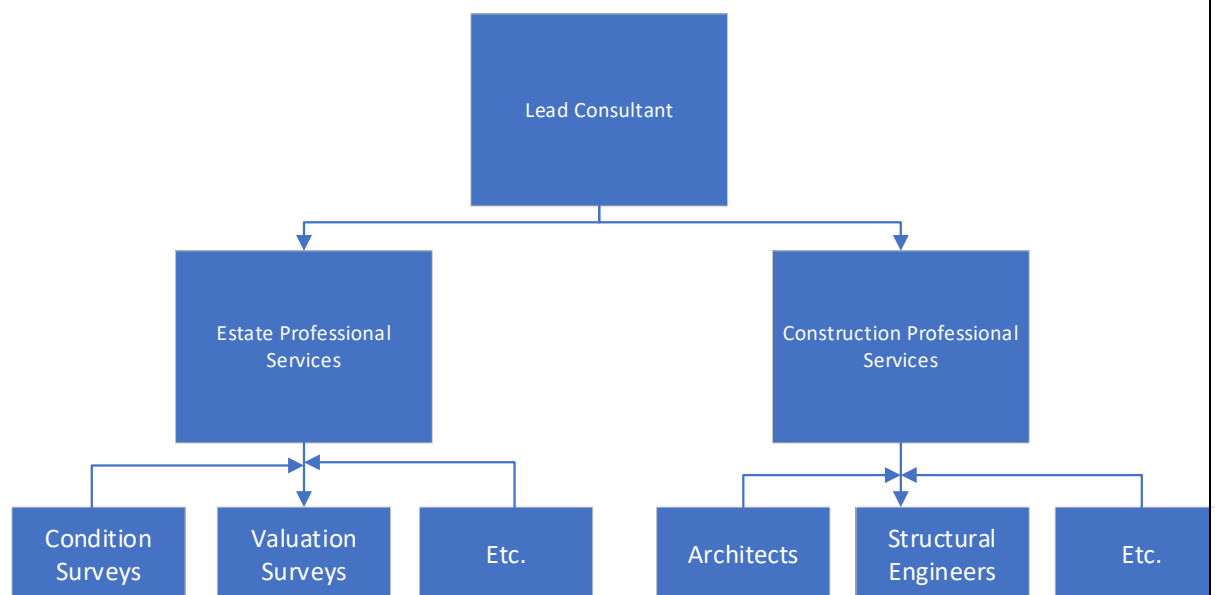

Our ambition is to lead a broad and diverse research community to bring about the environmental solutions we need in the UK and worldwide for a productive, healthy and resilient environment.

To deliver the best environment for research and innovation, the NERC UK Managed Science Estate which provides its primary science infrastructure and support facilities is divided across the four research centres and the science is currently delivered across 9 geographically spread sites and supported by 6 research facilities.

Overview

This tender is for the appointment Estates and Construction Services to support NERC in the delivery of a wide range of construction projects and estate services. The Framework Agreement is for a maximum period of 4 years. The Contracting Authority shall be UKRI.

The framework will be set up to appoint one sole supplier who will act as the lead contractor, the services will then be split into two workstreams that will both be managed by the framework supplier. Workstream 1 will focus on Estates Professional Services (i.e. more specialist services such as condition surveys, valuation surveys) and Workstream 2 will focus on Construction Professional Services (such as architects, structural engineering, building services), set out roughly as follows:

The full scope of construction projects and estate services that will be undertaken during the Framework Agreement period is not known, and therefore no guarantee can be given as to the actual amount or type of work that may be ordered during the Framework Agreement period.

The Contracting Authority will be utilising a model job for this procurement to allow bidders to provide an accurate cost that will be used for evaluation purposes. This model job is based on a Condition Survey of the NERC Estate, further information on this model job can be found in Appendix E. For clarity this is at this stage a model job and is not fully funded; it gives an indication of the type and scale of work that bidders may be required to undertake under this framework agreement.

However, a series of projects have been identified and, subject to confirmation of funding will require support from the ECS framework. These services include;

- Estate Professional & Technical Services: this comprises of services in accordance with professional standards and competencies. Core services include the provision of multidisciplinary disciplines such as Condition Surveys, Long Term Maintenance Planning, Valuations, Strategic Advice, Planning, Estate Management, Building H&S Compliance, Building Surveying Services, Asset Management, with non-core activities capturing specialist areas (including but not limited to) as Fire Strategy, Sustainability, Energy Efficiency.
- Construction Project Management Services - comprising of Core Service Disciplines of Client Adviser, Project Lead and Contract Administrator, Architect, BIM, Building Services, Civil & Structural Engineer; Cost Consultant; Lead Designer; Principal Designer and Non-Core Service Disciplines consisting of specialist surveys.

A brief summary of the requirements has been provided above, please ensure you review all specifications for full details of this requirement.

Minimum Financial Threshold

In order to be eligible to tender for this procurement, you must be able to demonstrate that you have a minimum financial turnover of £500,000 per annum.

This is requested on the basis that we need to ensure that the successful supplier can demonstrate their ability to be financially stable for the full term of this Framework Agreement.

As part of your bid response, you will be asked to confirm and provide evidence to support this within SEL4.2

Pricing Model

Within AW5.2 Pricing Schedule, Bidders are asked to complete all the 'Red' highlighted Cells with the rates that are relevant to the positions stipulated.

All rates provided in the AW5.2 Pricing Schedule will be firm and fixed until 31st March 2022. Following this period, the rates will be subject to amendment in alignment with the Indices prepared by Building Cost Information Service of the RICS.

The AW5.2 Pricing Schedule is made up of the following sections:

- Condition Survey – This price is to be reflective of the information provided in Appendix E - Part 4 NERC ECS Estate Condition Survey Specification and will be applied to this element of the requirement. For the avoidance of doubt, the cost for this service will be used for evaluation purposes and will be the committed cost for this piece of work should this go ahead on contract award.
- Rate Card – The rates entered within the Rate Card tab will be applied to all work carried out until 31st March 2022 at which point the rates will adjusted in lines with RICS indices. Please ensure that all disciplines are included for each of the 21 disciplines detailed within Appendix D - Part 3 NERC ECS Scope of Service. This information will be viewed for information purposes only at this stage, however, will be taken forward at Call Off stage in the event your bid is successful.
- Sub-Contractors Mark Up – Bidders are required to allow for the percentage mark up on all sub contracted work as detailed in the guidance section of the tab in AW5.2. This information will be used for information purposes only at this stage, however in the event your bid is successful these percentage mark ups would need to be applied under the individual Call Offs.

Travel and Expenses

To ensure that all bidders have a fair and even grounding for pricing we want to be clear on the Travel and Expenses Policy that will apply for the duration of this Framework Agreement. A copy of the UKRI Travel and Subsistence Policy is attached in Appendix F.

Award Scoring criteria

Evaluation Justification Statement

In consideration of this particular requirement the Contracting Authority has decided to evaluate Potential Providers by adopting the weightings/scoring mechanism detailed within this RFP. The Contracting Authority considers these weightings to be in line with existing best practice for a requirement of this type.

Questionnaire	Q No.	Question subject	Maximum Marks
Price	AW5.2	Price	30.00%
Quality	PROJ1.1	Condition Survey	10.00%
Quality	PROJ1.2	Health and Safety	10.00%
Quality	PROJ1.3	UKRI Values	5.00%
Quality	PROJ1.4	Supply Chain Management	5.00%
Quality	PROJ1.6	Sustainability	15.00%
Quality	PROJ1.7	Construction Project Management	15.00%
Quality	PROJ1.8	Supporting NERC Policies	10.00%

Award Evaluation of criteria

Non-Price elements

Each question will be evaluated on a score from 0 to 100, which shall be subjected to a multiplier to reflect the percentage of the evaluation criteria allocated to that question.

Where an evaluation criterion is worth 20% then the 0-100 score achieved will be multiplied by 20%.

Example if a Bidder scores 60 from the available 100 points this will equate to 12% by using the following calculation:

$$\text{Score} = \{\text{weighting percentage}\} \times \{\text{bidder's score}\} = 20\% \times 60 = 12$$

The same logic will be applied to groups of questions which equate to a single evaluation criterion.

The 0-100 score shall be based on (unless otherwise stated within the question):

0	The Question is not answered, or the response is completely unacceptable.
10	Extremely poor response – they have completely missed the point of the question.
20	Very poor response and not wholly acceptable. Requires major revision to the response to make it acceptable. Only partially answers the requirement, with major deficiencies and little relevant detail proposed.
40	Poor response only partially satisfying the selection question requirements with deficiencies apparent. Some useful evidence provided but response falls well short of expectations. Low probability of being a capable supplier.
60	Response is acceptable but remains basic and could have been expanded upon. Response is sufficient but does not inspire.
80	Good response which describes their capabilities in detail which provides high levels of assurance consistent with a quality provider. The response includes a full description of techniques and measurements currently employed.
100	Response is exceptional and clearly demonstrates they are capable of meeting the requirement. No significant weaknesses noted. The response is compelling in its description of techniques and measurements currently employed, providing full assurance consistent with a quality provider.

All questions will be scored based on the above mechanism. Please be aware that there may be multiple evaluators. If so, their individual scores will be averaged (mean) to determine your final score as follows:

Example

Evaluator 1 scored your bid as 60
Evaluator 2 scored your bid as 40
Evaluator 3 scored your bid as 80
Evaluator 4 scored your bid as 60
Your final score will $(60+40+80+60) \div 4 = 60$

Price elements will be evaluated on the following criteria.

The lowest price for a response which meets the pass criteria shall score 100.

All other bids shall be scored on a pro rata basis in relation to the lowest price. The score is then subject to a multiplier to reflect the percentage value of the price criterion.

For example - Bid 1 £100,000 scores 100.

Bid 2 £120,000 differential of £20,000 or 20% remove 20% from price scores 80
 Bid 3 £150,000 differential £50,000 remove 50% from price scores 50.
 Bid 4 £175,000 differential £75,000 remove 75% from price scores 25.
 Bid 5 £200,000 differential £100,000 remove 100% from price scores 0.
 Bid 6 £300,000 differential £200,000 remove 100% from price scores 0.
 Where the scoring criterion is worth 50% then the 0-100 score achieved will be multiplied by 50

In the example if a supplier scores 80 from the available 100 points this will equate to 40% by using the following calculation: Score/Total Points multiplied by 50 ($80/100 \times 50 = 40$)

The lowest score possible is 0 even if the price submitted is more than 100% greater than the lowest price.

5.5. Evaluation process

5.5.1. The evaluation process will feature some, if not all, the following phases

Stage	Summary of activity
Receipt and Opening	<ul style="list-style-type: none"> RFP logged upon opening in alignment with UK SBS's procurement procedures. Any RFP Bid received after the closing date will be rejected unless circumstances attributed to the Contracting Authority or the e-sourcing tool beyond the bidder control are responsible for late submission.

Scoring of the Bid	<ul style="list-style-type: none"> Evaluation team will independently score the Bid and provide a commentary of their scoring justification against the Selection criteria.
Clarifications	<ul style="list-style-type: none"> The Evaluation team may require written clarification to Bids
Re - scoring of the Bid and Clarifications	<ul style="list-style-type: none"> Following Clarification responses, the Evaluation team reserve the right to independently re-score the Bid and Clarifications and provide a commentary of their re-scoring justification against the Selection criteria.
