Section IV: Procedure

IV.1) **Description**

IV.1.1) **Type of procedure**

Negotiated procedure without prior publication

- The works, supplies or services can be provided only by a particular economic operator for the following reason:

- absence of competition for technical reasons

Explanation:

NHS Supply Chain believes that for this procurement the award of a contract without prior publication of a contract notice in OJEU is lawful under Article 32(2)(b)(ii) of Directive 2014/24/EU. The Framework Agreements were novated to NHS Supply Chain as part of the arrangements necessary to implement the restructuring of the NHS procurement model. Due to the exceptional circumstances created by the restructuring of the NHS procurement model, the need to ensure the most effective use of public funds and due also to the critical and essential nature of the applicable products to patient health and well-being, it is essential to ensure that the NHS may continue to procure these products in a timely and cost-effective manner. NHS Supply Chain's intention was to establish the procurement of the applicable goods on basis of the evaluation criteria and on the terms of the Framework Agreements. NHS Supply Chain published a Prior Information Notice (PIN) on 10.5.2019 setting out its requirements and its intention to publish a relevant Contract Notice. However, this PIN did not receive any expressions of interest from further suppliers who supply goods within the scope of the Framework Agreements, beyond the current incumbent suppliers awarded to NHS Supply Chain Framework Agreements. For these reasons, NHS Supply Chain concludes that:

- (i) no suppliers (other than the ones identified in this Notice and those awarded to existing NHS Supply Chain Framework Agreements) have the technical and capacity to supply the applicable goods;
- (ii) it is extremely unlikely that any further capable supplier would bid for any contract if a call for competition was then issued via the intended Contract Notice (which would then excessively and unnecessarily delay the award); and
- (iii) it is reasonable to conclude that competition for this award is absent for technical reasons. Given the nature and importance of the continued supply of the goods NHS Supply Chain does not believe that there is any reasonable alternative or substitute to the use of this procedure to award the contract to the suppliers currently awarded under the Framework Agreements. NHS Supply Chain believes that it is entitled to enter into the contract with these suppliers under Article 32(2)(b)(ii) of Directive 2014/24/EU and intends to conclude the contract after 10 days from the date of publication of this Notice.

IV.1.3) Information about framework agreement

The procurement involves the establishment of a framework agreement

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: yes
