Contract Terms

This Contract is made on the 4th day of November 2021
between:

The Department for Education with offices at Sanctuary Buildings, 20 Great Smith St, London
SW1P 3BT ("the Customer"); and

Kantar Public, a company registered in England and Wales under Company Number
3073845 whose registered office is at 6 More London Place, London, SE1 2QY ("the
Supplier"),

Both the Customer and the Supplier can be referred to as a **"Party"** or together the **"Parties"**.

INTRODUCTION

- (1) The Supplier is one of a number of organisations appointed by Crown Commercial Service (**CCS**) to the Dynamic Purchasing System (DPS) and is therefore able to enter into this Contract to provide the Project(s) to the Customer.
- (2) This Contract, made between the Customer and the Supplier, sets out the terms of the Supplier's appointment as a provider of the Project to the Customer. The Project will be delivered according to the terms of this Contract, any agreed Statement of Work, and the DPS Agreement.
- (3) The Supplier's appointment has been confirmed in the Letter of Appointment.
- (4) The Parties agree that the Project and associated Deliverables shall be supplied in accordance with the terms of the DPS Agreement and this Contract.

1. **APPOINTMENT & STATEMENTS OF WORK**

- 1.1. Throughout the Term of this Contract, the Supplier will perform Projects in accordance with agreed Statements of Work.
- 1.2. Subject to Clause 1.4 the Parties may agree new Projects to be delivered under this Contract by agreeing a new Statement of Work. This must be done in writing and using the form set out at Schedule 2 (Statement of Work). Once both Parties have signed a Statement of Work, it shall form part of this Contract.
- 1.3. Any schedule attached to a Statement of Work will describe in detail the different types of Services to be provided under that Statement of Work. A schedule attached to a Statement of Work only applies to the relevant Project to be delivered under that Statement of Work, and not to any other Statement of Work, or to the provision of the Project as a whole.
- 1.4. Where a Customer requires changes to the Project being provided this shall be dealt with as a proposed Variation to this Contract in accordance with the Variation procedure set out in Clause 9.

2. **TERM**

- 2.1. This Contract starts on the **Effective Date** and ends on the **Expiry Date**, as stated in the Letter of Appointment unless changed in accordance with the terms of this Contract.
- 2.2. The Customer may extend this Contract for any period up to the Extension Expiry Date by giving the Supplier notice in writing before the Expiry Date. The minimum notice which must be given in order to amend the Expiry Date is specified in the Letter of Appointment.
- 2.3. The revised date the contract will end (the **New Expiry Date**) will be set out in the notice given under Clause 2.2 above.
- 2.4. The terms and conditions of this Contract will apply throughout any extended period.
- 2.5. Each Project starts on the Project Commencement Date and ends on the Project Completion Date, unless it is terminated earlier in accordance with Clause 23.

3. **CONTRACT GUARANTEE**

- 3.1. Where the Customer has stated in the Letter of Appointment that this Contract is conditional on receipt of a Guarantee, then, on or prior to the Effective Date (or on any other date specified by the Customer), the Supplier must provide:
 - 3.1.1. an executed Guarantee from a Guarantor; and

- 3.1.2. a certified copy extract of the board minutes and/or resolution of the Guarantor approving the execution of the Guarantee.
- 3.2. The Customer may at any time agree to waive compliance with the requirement in Clause 3.1 by giving the Supplier notice in writing.

4. CUSTOMER'S OBLIGATIONS

- 4.1. The Customer will give the Supplier instructions as to its requirements for the Project. These will be included in a Statement of Work and may include start and end dates for each stage of the proposed Project.

5. SERVICE DELAY, DELIVERY & RECTIFICATION

Service Delivery

- 5.1. The Supplier will give the Customer full and clear instructions as to what, if any, Customer Materials it reasonably requires to perform the Project.
 - 5.1.1 comply with all Law;
 - 5.1.2 use all reasonable and proper skill and care in its performance of Project;
 - 5.1.3 comply with all reasonable Customer instructions regarding the Project, as long as these instructions do not materially amend the Statement of Work (unless the amendment has been agreed in accordance with Clause 9.1);
 - 5.1.4 keep Customer Materials under its control safe and secure and in accordance with any security policy provided by the Customer; and
 - 5.1.5 provide all Deliverables by any dates set out in the applicable Statement of Work or any other date(s) agreed by the parties in writing.

Delay

- 5.2. If the Customer materially breaches its obligations in connection with this Contract (including its payment obligations), and consequently delays or prevents the Supplier from performing any of the agreed Services or providing any of the agreed Deliverables this will be a "**Customer Cause**". In the event of a Customer Cause, the Supplier will be granted an appropriate extension of time (to be approved by the Customer, acting reasonably) to perform the agreed Services or provide the agreed Deliverables. The Supplier will not be liable for any Losses incurred by the Customer as a result of Customer Cause, provided the Supplier complies with its obligations set out at Clause 5.4.
- 5.3. The Supplier must notify the Customer within two (2) Working Days of the Supplier becoming aware that the Customer has breached, or is likely to breach, its obligations in connection with this Contract. This notice must detail:
 - 5.3.1 the Customer Cause and its actual or potential effect on the Supplier's ability to meet its obligations under this Contract, and
 - 5.3.2 any steps which the Customer can take to eliminate or mitigate the consequences and impact of such Customer Cause.

- 5.4. The Supplier must use all reasonable endeavours to eliminate or mitigate the consequences and impact of a Customer Cause. The Supplier must try to mitigate against any Losses that the Customer or the Supplier may incur, and the duration and consequences of any delay or anticipated delay.
- 5.5. If at any time the Supplier becomes aware that it may not be able to deliver the Project by any date set out in the applicable Statement of Work (or any other deadline agreed by the Parties in writing), this will constitute a Default and the Supplier will immediately notify the Customer of the Default and the reasons for the Default.
- 5.6. If the Default described in Clause 5.5 above is in the Customer's opinion capable of remedy the Customer may, up to 10 Working Days from being notified of the Default, instruct the Supplier to comply with the Rectification Plan Process.

Rectification Plan Process

- 5.7. If instructed to comply with the Rectification Plan Process by the Customer under Clause 5.6 above, the Supplier will submit a draft Rectification Plan to the Customer to review as soon as possible and in any event within ten (10) Working Days (or such other period as may be agreed between the Parties) from being instructed to do so. The Supplier shall submit a draft Rectification Plan even if the Supplier does not agree that the Default is capable of remedy.
- 5.8. The draft Rectification Plan shall set out:
 - 5.8.1 full details of the Default that has occurred, including the underlying reasons for it;
 - 5.8.2 the actual or anticipated effect of the Default; and
 - 5.8.3 the steps which the Supplier proposes to take to rectify or mitigate the Default and to prevent any recurrence of the Default, including timescales for such steps and for the rectification of the Default (where applicable).
- 5.9. The Supplier shall promptly provide to the Customer any further documentation that the Customer requires to assess the Supplier's reasoning behind the default. If the Parties do not agree on the root cause set out in the draft Rectification Plan, either Party may refer the matter to be determined in accordance with paragraph 5 of Schedule 4 (Dispute Resolution Procedure).
- 5.10. The Customer may reject the draft Rectification Plan by notice to the Supplier if, acting reasonably, it considers that the draft Rectification Plan is inadequate. An example of an inadequate draft Rectification Plan is one which:
 - 5.10.1 is insufficiently detailed to be capable of proper evaluation;
 - 5.10.2 will take too long to complete;
 - 5.10.3 will not prevent reoccurrence of the Default;
 - 5.10.4 will rectify the Default but in a manner which is unacceptable to the

Customer; or

5.10.5 will not rectify the Default.

- 5.11 The Customer will tell the Supplier as soon as reasonably practicable if it agrees to or rejects the draft Rectification Plan.
- 5.12 If the customer rejects the draft Rectification Plan, the customer will give reasons for its decision in its rejection notice. The Supplier must take these reasons into account in the preparation of a revised Rectification Plan. The Supplier shall submit a revised draft of the Rectification Plan to the Customer for review within five (5) Working Days (or such other period as agreed between the Parties) of the Customer's rejection notice.
- 5.13 If the Customer agrees the draft Rectification Plan, or any revised draft Rectification Plan, the Supplier shall immediately start work on the actions set out in the Rectification Plan.

6. SUPPLIER: OTHER APPOINTMENTS

- 6.1 Adverse public perception could have a detrimental impact on the Customers desired outcomes for the Project. To minimise this risk, the Supplier must not, without the Customer's Approval (not to be unreasonably withheld), provide research services to a third party during the Term of this Contract where the provision of such services (in the reasonable opinion of the Customer):
- 6.1.1 has the potential to adversely affect the Customer's desired outcome of the Project or diminish the trust that the public places in the Customer; or
 - 6.1.2 is likely to cause embarrassment to the Customer or bring the Customer into disrepute or may result in a conflict of interest for the Customer.
- 6.2 Where the Supplier is already providing research services to a third party in the situations set out in 6.1 prior to the Effective Date, the Supplier warrants that it has informed the Customer of this before entering into this Contract.
- 6.3 If the Supplier becomes aware of a breach, or potential breach, of its obligations under Clause 6.1, the Supplier must notify the Customer immediately, providing full details of the nature of the breach and the likely impact on any Projects
- 6.4 If the Supplier breaches Clause 6.1, the Customer may terminate this Contract, a Project, or any part of a Project with immediate effect in accordance with Clause 23.3.

7. CUSTOMER: OTHER APPOINTMENTS

- 7.1 Subject to Clause 6 the relationship between the Parties is non-exclusive. The Customer is entitled to appoint any other Supplier to perform the Project which are the same or similar to the Project.

8. PERSONNEL

- 8.1 The Supplier must ensure that Supplier personnel who provide the Project:
- 8.1.1 are appropriately experienced, qualified and trained to provide the Project in accordance with this Contract;
 - 8.1.2 apply all reasonable skill, care and diligence in providing the Project;
 - 8.1.3 obey all lawful instructions and reasonable directions of the Customer and provide the Project to the reasonable satisfaction of the Customer, and
 - 8.1.4 are vetted in accordance with Good Industry Practice and where

applicable, the security requirements of the Customer and the Standards.

- 8.2 The Supplier will be liable for all acts or omissions of the Supplier personnel. Any act or omission of a member of any Supplier personnel which results in a breach of this Contract is a breach by the Supplier.
- 8.3 The Customer acknowledges and agrees that it may be necessary for the Supplier to replace the personnel providing the Project with alternative personnel with similar levels of seniority and experience.
- 8.4 The Supplier will seek to ensure that any Key Individual responsible for the provision of the Project will remain involved in the Project. If any Key Individual leaves the Supplier, or ceases to be involved in the provision of the Project for any reason (for example, if they are promoted to a different role within the Supplier), the Supplier will consult with the Customer and, subject to the Customer's Approval, appoint a suitable replacement.
- 8.5 If the Customer reasonably believes that any of the Supplier personnel are unsuitable to undertake work on this Contract, it will notify the Supplier who will then end the person's involvement in providing the Project.

9. VARIATIONS AND CANCELLATIONS

- 9.1 Either Party may request a change to this Contract, a Project or a Statement of Work. Any requested change must not amount to a material change of this Contract (within the meaning of the Regulations and the Law). A change, once implemented, is called a "**Variation**".
- 9.2 A Party may request a Variation by completing, signing and sending the Variation Form to the other Party. The requesting Party must give sufficient information for the receiving Party to assess the extent of the proposed Variation and any additional cost that may be incurred by it.
- 9.3 Subject to Clause 9.5, the receiving Party must respond to the request within the time limits specified in the Variation Form. The time limits shall be reasonable and ultimately at the discretion of the Customer, having regard to the nature of the Project and the proposed Variation.
- 9.4 If the Supplier requests a Variation, the Customer can ask the Supplier to carry out an assessment of the effects of the proposed Variation (an **Impact Assessment**). The Impact Assessment must consider:
 - 9.4.1 the impact of the proposed Variation on the Project and Supplier's ability to meet its other obligations under this Contract (including in relation to other Statements of Work);
 - 9.4.2 the initial cost of implementing the proposed Variation and any ongoing costs post-implementation;

- 9.4.3 any increase or decrease in the Contract Charges, any alteration in the resources or expenditure required by either Party and any alteration to the working practices of either Party;
- 9.4.4 a timetable for the implementation, together with any proposals for the testing of the Variation; and
- 9.4.5 any other information the Customer reasonably asks for in response to the Variation request.
- 9.5 The Parties may agree to adjust the time limits specified in the Variation Form so the Impact Assessment can be carried out.
- 9.6 If the Parties agree the Variation, the Supplier will implement it, and be bound by it as if it was part of this Contract.
- 9.7 Until a Variation is agreed, the Supplier must continue to perform and be paid for the Project as originally agreed, unless otherwise notified by the Customer.
- 9.8 Subject to Clauses 9.9 and 23.1 the Customer can require the Supplier to suspend or cancel any Project or Statement of Work, or any part of a Project, including any plans, schedules or work in progress at any time, regardless of whether a Variation has been requested. Any request shall be made by an Authorised Customer Approver in writing. The Supplier will take all reasonable steps to comply with any such request as soon as possible.
- 9.9 In the event of any cancellation under Clause 9.8, the Customer will pay the Supplier all Contract Charges reasonably and properly incurred by the Supplier during the Project Notice Period, provided that the Supplier uses all reasonable endeavours to mitigate any charges or expenses.

10. APPROVALS AND AUTHORITY

- 10.1 For the purposes of this Contract, any reference to Customer Approval means written approval in one of the following ways:
 - 10.1.1 the Customer issuing a purchase order bearing the signature of an Authorised Customer Approver, or
 - 10.1.2 e-mail from the individual business e-mail address of an Authorised Customer Approver, or
 - 10.1.3 the signature of an Authorised Customer Approver on the Supplier's documentation
- 10.2 Any reference to Supplier Approval means written approval in one of the following ways:
 - 10.2.1 e-mail from the individual business e-mail address of an

Authorised Supplier Approver, or

10.2.2 the signature of an Authorised Supplier Approver on the Customer's documentation

10.3 The Supplier will seek the Customer's Approval of:

10.3.1 any estimates or quotations for any costs to be paid by the Customer that are not agreed in a Statement of Work.

10.4 The Supplier will seek the Customer's Approval of any draft Deliverables. The Customer's Approval will be the Supplier's authority to proceed with the use of the relevant Deliverables.

10.5 If the Customer does not approve of any matter requiring Approval, it must notify the Supplier of its reasons for disapproval within fourteen (14) days of the Supplier's request.

10.6 If the Customer delays giving Approval or notifying the Supplier as to its disapproval, the Supplier will not be liable for any resulting delays or adverse impact caused to the delivery of the Project.

11. PROJECT MANAGEMENT

11.1 During the Term of this Contract, the Supplier will:

11.1.1 keep the Customer fully informed as to the progress and status of all Services and Deliverables, by preparing and submitting written reports at such intervals and in such format as is agreed by the Parties.

11.1.2 promptly inform the Customer of any actual or anticipated problems relating to provision of the Deliverables.

11.2 During the Term, the Parties' respective project managers will arrange and attend meetings to review the status and progress of the Project(s) and to seek to resolve any issues that have arisen. These meetings will be held at locations and intervals as agreed by the parties.

11.3 Unless otherwise agreed in the Statement of Work, the Supplier will produce contact reports providing each Party with a written record of matters of substance discussed at meetings or in telephone conversations between the parties within three (3) Working Days of such discussions. If the Customer does not question any of the subject matter of a contact report within seven (7) Working Days of its receipt, it will be taken to be a correct record of the meeting or telephone conversation.

12. FEES AND INVOICING

- 12.1. The Contract Charges for the Project will be the full and exclusive remuneration of the Supplier for supplying the Project. Unless expressly agreed in writing by the Customer in the Statements of Work, the Contract Charges will include every cost and expense of the Supplier directly or indirectly incurred in connection with the performance of the Project.
- 12.2. All amounts stated are exclusive of VAT which will be charged at the prevailing rate. The Customer shall, following the receipt of a valid VAT invoice, pay to the Supplier a sum equal to the VAT chargeable in respect of the Project.
- 12.3. The Supplier will invoice the Customer in accordance with the payment profile agreed in the Statements of Work. Each invoice will include all supporting information required by the Customer to verify the accuracy of the invoice, including the relevant Purchase Order Number and a breakdown of the Project supplied in the invoice period.
- 12.4. The Customer will pay the Supplier the invoiced amounts no later than thirty (30) days after verifying that the invoice is valid and undisputed and includes a valid Purchase Order Number. The Customer may, without prejudice to any other rights and remedies under this Contract, withhold or reduce payments in the event of unsatisfactory performance.
- 12.5. If the Customer does not pay an undisputed amount properly invoiced by the due date, the Supplier has the right to charge interest on the overdue amount at the interest rate specified in the Late Payment of Commercial Debts (Interest) Act 1998.
- 12.6. The Customer is entitled to deduct from any sum due any money that the Supplier owes the Customer. This includes any sum which the Supplier is liable to pay to the Customer in respect of breach of this Contract. In these circumstances, the Supplier may not assert any credit, set-off or counterclaim against the Customer.
- 12.7. The Supplier will indemnify the Customer on a continuing basis against any liability (to include any interest, penalties or costs incurred, levied, demanded or assessed) on the Customer at any time in respect of the Supplier's failure to account for or to pay any VAT on payments made to the Supplier under this Contract. Any amounts due under Clause 12.2 will be paid by the Supplier to the Customer not less than five (5) Working Days before the date upon which the tax or other liability is payable by the Customer.
- 12.8. If there is a dispute between the Parties about an amount invoiced, the Customer will pay the undisputed amount by the due date. The Supplier will not suspend the supply of the Project in any Project, unless the Supplier is entitled to terminate that Project for a failure to pay undisputed sums in accordance with Clause 23.7.7.

13. THIRD PARTY AGENCIES: ASSIGNMENT AND SUB-

CONTRACTING Assignment and Sub-Contracting

- 13.1. Other than where a Sub-Contractor is agreed in the Letter of Appointment or a Statement of Work, the Supplier will not, without the Approval of the Customer, assign, sub-contract, novate or in any way dispose of the benefit or the burden of this Contract or any part of it.
- 13.2. In requesting Approval to sub-contract, the Supplier will:
 - 13.2.1 use reasonable care and skill in the selection of proposed Sub-Contractors;
 - 13.2.2 if the Customer requests, the Supplier will obtain more than one quote for a particular sub-contracted service; and
 - 13.2.3 provide the Customer with a business case for sub-contracting all or part of the Project, identifying the reasons for the Supplier to sub-contract to its proposed Sub-Contractor. The Customer may reject the Supplier's request to appoint a proposed Sub-Contractor if it considers the proposed Sub-Contractor does not provide value for money.
- 13.3. If the Customer consents to the Supplier's proposed Sub-Contractor, it shall be a Sub- Contractor as the term is defined in Schedule 1 (Definitions).
- 13.4. In granting consent to any assignment, novation sub-contracting or disposal, the Customer may set additional terms and conditions it considers necessary.
- 13.5. The Supplier shall ensure that its Sub-Contractor does not further sub-contract all or part of the Project or Deliverables without the Customer's Approval.
- 13.6. Any contracts the Supplier enters into with third party suppliers for Services and Deliverables ("**Sub-Contracts**") must be on terms that are in line with the Supplier's standard contractual terms and conditions, must not permit further sub-contracting, and must not conflict with the terms of this Contract.
- 13.7. Provided that the Supplier has notified the Customer of any significant restrictions or contract terms contained in any Sub-Contracts, the Customer hereby acknowledges that:
 - 13.7.1. its right to use or otherwise benefit from any Services or Deliverables acquired under Sub-Contracts will be as set out in the Sub-Contracts; and
 - 13.7.2. it will be responsible for any reasonable and proper charges or liabilities (including cancellation payments) that the Supplier is directly liable for under Sub-Contracts only to the extent that that these are caused by an act or omission of the Customer or its Affiliates.
- 13.8. The Supplier will promptly provide the Customer with a copy of any Sub-Contract if requested to do so.
- 13.9. The Supplier will be responsible for the acts and omissions of its sub-contractors as though those acts and omissions were its own.
- 13.10. The Supplier will obtain the Customer's Approval before commissioning services from any Supplier Affiliate.

Supply Chain Protection

13.11. The Supplier will ensure that all Sub-Contracts contain provisions:

- 13.11.1 Requiring the Supplier to pay any undisputed sums which are due from it to the Sub-Contractor within a specified period not exceeding thirty (30) days from the receipt of a Valid Invoice;
- 13.11.2. requiring the Supplier to verify any invoices submitted by a Sub-Contractor in a timely manner;
- 13.11.3. giving the Customer the right to publish the Supplier's compliance with its obligation to pay undisputed invoices to the Sub-Contractor within the specified payment period;
- 13.11.4. giving the Supplier a right to terminate the Sub-Contract if the Sub-Contractor fails to comply with legal obligations in the fields of environmental, social or labour law; and
- 13.11.5. requiring the Sub-Contractor to include in any Sub-Contract which it in turn awards provisions to the same effect as those required by this Clause 13.11.

14. DISCOUNTS AND REBATES

- 14.1. The Supplier will disclose to the Customer any commission, discount or rebate earned by the Supplier arising in respect of third party costs directly related to the Projects. The Customer will receive the full benefit of such commission, discount or rebate.

15. CONFIDENTIALITY, TRANSPARENCY AND FREEDOM OF INFORMATION

CONFIDENTIALITY

- 15.1. For the purposes of the Clauses below, a Party which receives or obtains, directly or indirectly, Confidential Information is a "**Recipient**". A Party which discloses or makes available Confidential Information is a "**Disclosing Party**".

 - 15.2.1. treat the Disclosing Party's Confidential Information as confidential and store it securely;
 - 15.2.2. not disclose the Disclosing Party's Confidential Information to any other person except as expressly set out in this Contract or with the owner's prior written consent;
 - 15.2.3. not use or exploit the Disclosing Party's Confidential Information in any way except for the purposes anticipated under this Contract, and
 - 15.2.4. immediately notify the Disclosing Party if it suspects or becomes aware of any unauthorised access, copying, use or disclosure in any form of any of the Disclosing Party's Confidential Information.
- 15.3 A Recipient is entitled to disclose Confidential Information if:
 - 15.3.1. where disclosure is required by applicable Law or by a court with the

1 SCOPE

The Covid-19 pandemic has greatly impacted the lives of children and families. To better understand and respond to this, and building on last year's panel, the Department is setting up a new online panel with pupils/learners and parents/ carers, to be used as an omnibus survey, continuing for the next two academic years (AY2021/22, and AY2022/23). The contract will act as a gateway for conducting research with these audiences.

The purpose of the panel is to gather robust and timely data from a nationally representative (England) sample of pupils/learners and their parents/carers. This has covered various policy areas within the Department rather than focusing on a single area.

Given the fast-moving nature of the current situation, the exact timings will be flexible. We plan to run panel waves once every half term (around every six weeks), whilst allowing for the possibility of ad hoc waves if needed. This will ensure we have a planned programme of research to meet DfE needs, whilst allowing for the possibility of additional fieldwork waves if required.

Fieldwork waves will need to be aligned with the DfE-managed School and College Panel (SCP) which uses a similar approach to the PPLP with school teachers and leaders. Both panels cover cross-cutting topics and will go into field every 6 weeks. To manage internal processes and the burden on individual teams, the project timelines and fieldwork periods will need to align across both projects.

To maximise value, the department will use this contract flexibly to undertake additional project work. For example: conduct ad hoc panel waves; qualitative follow-up research on topic areas; and draw off panel members to form policy-focussed stakeholder discussion groups. We are also keen to learn and experiment with ways to engage our research audiences to ensure we achieve the best insights possible. Delivery of these options may include contractor- or departmental-led research, or a combination.

2 REQUIREMENTS

AIM

The Contractor shall use all reasonable endeavours to set-up and run the PPLP for 2 years, covering 2021-23 academic years; providing robust and nationally representative (England) data in a timely manner, ensuring the views of families are used to inform policy decisions.

OBJECTIVES

The Department needs to understand the perspectives of primary school-aged parents/ carers; secondary school-aged pupils and their parents/carers, and FE learners aged 16-18.

Objectives include (but are not limited to):

- To maintain the research project to inform key policy decision-making and monitor the impact of existing policies in the Department.
- Provide the data from each panel wave in a timely manner in the form of data tables and a research report.
- To provide a research gateway to pupils/learners and parents for research purposes and offer flexibility within the research project such as: ad hoc panel waves, qualitative follow-up research.
- To boost numbers on the panel where necessary through panel refresh exercises.

Topics include (but are not limited to):

- Attitudes towards- and compliance with- systems of control. This will be important as we approach Winter 2021/ 22.
- Education recovery, including attitudes towards – and engagement with- catch-up initiatives.
- Pupil MH and wellbeing, RHSE, citizenship.
- Perceptions of pupil behaviour around school and in the classroom, and safeguarding issues.
- Education options, exams and post-16 education plans.
- Attitudes towards – and take-up of- vaccinations.

METHODOLOGY

As outlined above, the research requirement is to deliver the DfE-owned PPLP to provide robust and frequent panel surveys and deliver the data from each wave in a timely manner. The survey for each panel wave will need to be administered to pupils/learners and parents/carers once a half term (around every 6 weeks), with the flexibility to deliver ad hoc waves if needed.

Based upon year groupings in the 2020/21 academic year, the research audiences fall into three broad target audiences:

- Parents/ carers of primary school pupils in years 1 to 6
- Parents/ carers of secondary school pupils in years 7 to 11
- School pupils in years 7 to 13
- FE learners in years 12 and 13, aged 16-18

Engaging such audiences using the NPD (National Pupil Database) and Individual Learner Record (ILR) as sampling frames ensures that the research will be representative of these audiences, and therefore will provide robust statistics. However, it takes time to initially engage contacts drawn from the NPD and ILR as the contact method is postal. To deliver robust research with timely results via an online research panel, the project shall be split into two phases:

- Phase 1 will sample participants from the NPD and ILR, using a postal push-to-web methodology. Participants will be engaged in a cross-sectional omnibus survey in November for pupils and parents, and in January for FE learners, and invited to join the online research panel.
- Phase 2 will consist of regular research panel engagement via short surveys which will predominantly be online, with the option of telephone interviews where requested by participants. Elements of this engagement will be flexible to meet the demands of the Department.

Methodology, Outputs and Timings

Sample

To produce accurate statistics, it is important to achieve enough responses at the final wave of each panel (in phase 2). As such, initial engagement and recruitment to the panel has been calculated to account for attrition. The below table outlines mailouts and expected response rates. The exact stratification across the groups is expected to change slightly from this table, although the final

figures are expected to be in this region. For example, further stratification criteria may be used to more accurately account for the degree of overlap between the subgroups (the below example does not account for potential overlap of SEND, FSM and CIN, but should be taken as minimum numbers for each of these groups).

Table 1: Response targets for each year group

		Per wave of panel		Panel Size	Initial Recruitment	
Group	Sub-group	Minimum responses	Response Rate	Panel members	Response Rate	Mailout
Primary Parents	Non FSM/SEND/CIN	672	60%	1,120	24%	4,668
	FSM	224	60%	373	17%	2,197
	SEND	171	60%	285	21%	1,355
	CIN	384	50%	768	12%	6,400
	<i>Total</i>	<i>1,451</i>		<i>2,546</i>		<i>14,620</i>
Secondary Parents	Non FSM/SEND/CIN	672	60%	1,120	25%	4,481
	FSM	224	60%	373	18%	2,075
	SEND	171	60%	285	19%	1,498
	CIN	384	50%	768	10%	7,680
	<i>Total</i>	<i>1,451</i>		<i>2,546</i>		<i>15,734</i>
Secondary School Pupils (Y7-Y11)	Non FSM/SEND/CIN	1,101	60%	1,834	23%	7,975
	FSM	408	60%	680	17%	4,002
	SEND	266	60%	444	17%	2,610
	CIN	384	30%	1,280	10%	12,800
	<i>Total</i>	<i>2,159</i>		<i>4,238</i>		<i>27,387</i>
16 -18 learners	Schools	480	60%	800	23%	3,478
	Colleges	520	60%	867	23%	3,768
	<i>Total</i>	<i>1,000</i>		<i>1,667</i>		<i>7,246</i>
Total		6,061		10,998		64,871 *

The sample will be boosted for pupils who are eligible for Free School Meals (FSM) or are Children in Need (CIN). We expect that the response rates across different groups will need to be monitored and replenished regularly (approximately 1-2 times per year in addition to initial panel recruitment).

The contractor will pair secondary pupils/learners and their parents to allow for paired analysis where possible, and this means that mail-outs can be reduced where secondary pupils/learners and their parents/ carers are engaged together.

To ensure balance across sample characteristics beyond what would be achieved with a simple random sample, the sample should be stratified by:

- School/ FE URN (Unique Reference Number),
- FE or FE/post-18 route for FE learners,
- Local Authority (LA),
- Pupil/ learner age,
- Pupil/ learner school/ college year,
- Pupil/ learner gender,
- Pupil/ learner ethnic group,
- Pupil/ learner FSM eligibility,
- Pupil/ learner Special Educational Needs (SEN) provision,
- Income Deprivation Affecting Children Indices (IDACI) rank.

In the longer-term, we would like to embed a replenishment strategy that accounts for when DfE sample frames are updated, and allows for managed replenishment over time. We estimate that 2,000 additional parents and 1,000 additional pupils will need to be recruited to the panel every year.

Engagement

Invitation letters will be tailored to the following groups:

- Parents/ carers of primary and secondary school pupils.
- Pupils in 2019/20 Academic Years 6-10 secondary (joint mailout with parents/ carers).
- Pupils in 2019/20 Academic Years 11-13 secondary pupils only (addressed to the pupil directly).
- FE learners aged 16-18.

The Contractor will send the invitation to each target audience; and at least one reminder letter where required. Messages will be tailored to maximise engagement, including Departmental branding, using behavioural economics 'levers', using a visual format for pupils, and moving legal text to outside the main text where possible.

For each panel wave, the Contractor will send an invitation email, one general e-mail reminder to all non-responders after approximately 2 days, then one further reminder to parents/ carers who have responded but whose children have not to try to maximise the pupil response. The contractor will also send a text notification to all who share their mobile numbers letting them know the invite e-mail has been sent (and giving another link to the survey) alongside the initial e-mail invite.

Incentives

Incentives will be offered to all respondents who complete the survey (£5 for recruitment, £2.50 for subsequent waves), with differential incentives for hard-to-reach groups. To avoid exceeding costs allocated for incentives, no more incentives will be given when the sign-up quotas are met. The contractor will manage this in a systematic way across year groups and target audiences to maintain panel composition.

Questionnaire Design and Testing

A questionnaire will be developed, with questions tailored to each audience. For phase 1, the questionnaire will take respondents around 15-minutes to complete, including around 5 minutes of demographic and consent questions. Each group will receive approximately 10 minutes of survey questions per subsequent panel wave.

The surveys will consist of mainly closed questions, but we have previously included some open questions in each wave. These open questions will be within the overall survey length for respondents. The Department will liaise with policy teams internally to gather and prioritise questions and will provide a list of draft questions to the contractor.

The contractor will review the draft questionnaires and in consultation with the Department's Project Manager will make any required amendments ahead of cognitive testing. This will include at least 2 rounds of feedback. Estimated timings of questionnaire length will also be provided by the contractor.

Many questions are repeated across waves, which do not require cognitive testing. Some questions will apply to all respondent groups. Where questions are new, they will need cognitive testing across all groups. You should expect to create up to 10 minutes total of new survey questions across all groups per wave.

The contractors will use all reasonable endeavours to cognitively test the questionnaire each wave on around 6 secondary pupils (mixing year group) and 10 parents/ carers (mixing primary and secondary) to ensure questions are understood as expected. Following testing, the contractor will send a short report outlining findings.

The contractor will deliver any findings from the cognitive testing and recommended questionnaire changes to the Department. The contractor will review the questionnaire and, in consultation with the Department, make any required amendments. The Department will agree the final questionnaire.

To maximise response to the online survey, the contractor will ensure the survey is:

- **Well-designed:** The presentation, look and layout of the questionnaire will be engaging and as easy as possible to complete. The survey should: not have too many questions per page; have a completion bar indicating how far through the survey the participant is; and provide clear instructions on how to answer each question.
- **'Mobile friendly'**. The contractor will programme online survey templates so that they auto-render correctly when accessed through different mobile devices and are suitable for completion on touch-screen devices.
- **Where possible, accessible for individuals with visual impairments.** As far as is possible, the contractor will ensure that surveys are compatible with screen-readers and include a tool for adjusting font size.

Mode

Whilst the survey will be predominantly delivered online, the contractor will offer telephone interviews where accessibility and access to online could be a barrier. Telephone fieldwork will be conducted by experienced interviewers, who will be fully briefed by the research team each wave. The contractor will also offer the option to conduct these interviews by video (Zoom, Microsoft Teams etc.) if respondents prefer this. This option will be mentioned in invitation and reminder letters.

Data analysis

The results from each wave will be robust and generalisable to the population of pupils/learners and parents, whilst allowing for sub-group analysis.

To quality assure the data, the contractor will check for, and if necessary remove, any online questionnaires that show signs of 'speeding' i.e. where the questionnaire has been completed far more quickly than average given the number of questions they answer, and those with a very high incidence of don't know responses.

Coding of 'other' (or open) responses will use code frames based on the most common responses made. The Contractor's research team will brief the coders each wave, and quality control their work by examining at least 5% of their coding.

To compare family-level data, the contractor will produce derived variables comparing parent and pupil responses within each household. For a specific question this might be both parties agree, parent agrees but child does not, child agrees but parent does not, both parties disagree. Similarly,

for longitudinal questions, the contractor will indicate whether respondents have changed their view over time.

Weighting

Weights will be required to correct for any deviance from a simple random sample (design weights), and to account for non-response adjustments made. The contractor will do this using RIM/calibration weights, based on NPD and ILR population data.

The Contractor may have several weights on the dataset, for parent and pupils separately, for paired responses and for longitudinal responses, and will make it clear which weight is used for each table.

Data and Data Tables

The Contractor will produce a set of weighted data tables that will cross all the questions in the questionnaires by a set of key analysis breaks (for example region, FSM status, ethnicity) that will be agreed in advance with Department.

The contractor will run z-tests/t-tests and highlight where sub-groups show significantly different results. Different sets will be needed for pupils/learners and parents, and potentially between primary and secondary parents. The tables and the data will be thoroughly checked by multiple members of the Contractor's team, using established data-checking protocols.

To allow for DfE-run analysis, the full panel data will need to be shared with the Department in a way that is easy to understand and be accompanied by supporting documentation.

The raw dataset from each wave will be managed by the contractor ensuring the data is sufficiently labelled and shared with the department in SPSS to enable internal analysis. These will indicate where data is directly from a question, where it is a derived variable defined by combining responses on different questions, or demographic data 'carried across' from the Omnibus wave (or even previous panel waves). The weighting variable will be the final one in the dataset.

Reporting and Outputs

For each wave we will require anonymised summary data tables covering that wave. This will provide consistent cross-breaks. This must be in an accessible format and excel-based.

For each wave we will require a research report summarising key findings from the survey, up to 90 pages. The reports will contain graphics and charts to aid dissemination of the data, with some written narrative.

In addition to this we require a technical report which will detail the methodology, sampling and questionnaire development. The technical report can be developed at the start of the contract, with relevant sections updated after each panel wave where needed.

Reporting should be completed using the Department for Education research report template and in line with the Department's style and formatting guide for research publications which can be found [here](#).

Reports and data tables should also be provided in an accessible format so they can be published on gov.uk.

Timings

Given the need for timely data, we require the survey fieldwork and analysis to have a quick turnaround. Our required turnaround for the panel surveys are as follows:

- Survey launched on Wednesday, closing on the Sunday.

- Data tables and individual dataset provided to DfE by COB Wednesday – 3 days after fieldwork close.
- Draft report would be provided to DfE by COB Friday the following week (2 weeks after fieldwork close).

We plan to run surveys with the panel once every half term (around every 6-weeks). We expect all surveys would run during term time to align with the School and College Panel.

Phase 2 will have up to 9 waves. The exact timings and target audiences of these waves will be flexible. Given the need for timely data, the survey fieldwork and analysis will have a quick turnaround.

The dates required will be agreed as the project progresses and will fall between November 2021 and August 2023. Lead-in, fieldwork, and reporting timings for each wave are detailed in table 2 above.

Optional additional research elements and flexibilities

To maximise value, the department will use this contract flexibly to undertake other smaller-scale project work. For example: conduct ad hoc panel waves in case of urgent data needs; qualitative follow-up research on topic areas and to engage panel members for internally (DfE) managed focus groups or explore policy areas.

If qualitative follow-up research is required, this will need to be scoped with the contractor and will only be agreed if funding is approved.

Stakeholder engagement

The contractor will keep the panel membership up to date throughout the course of the study. This will be done after each wave. This process will include: updating contact details; removing those that indicate they no longer wish to be panellists; etc.

To keep engagement among panellists, the contractor will maintain branding, utilising DfE logos, to use for all communication. To keep internal DfE stakeholders informed and engaged with the panel, the contract includes the option for additional elements such as infographics with headline data, and for recorded webinars.

Project management

To assist the department in gathering, developing and reviewing questions at each wave the contractor will need to maintain an up-to-date question log.

As outlined in the timescales above a first draft of the research report will be sent two weeks after fieldwork closes. The department will then work to ensure teams provide comments and feedback on the report within two weeks and return to the contractor for comments to be addressed. The second draft will then be returned to the department a week later.

CONSENT ARRANGEMENTS

The Department and the contractor shall agree in advance of any survey activity taking place the consent arrangements that shall apply for each of the participant groups. All participants should be informed of the purpose of the research, that the Contractor is acting on behalf of the Department and that they have the option to refuse to participate (opt out). Contact details should be provided including a contact person at the Department. All children under 16 must be required to provide parental consent.

RISK MANAGEMENT

The supplier and customer will monitor and mitigate risks throughout the project. The key risks identified by the supplier to delivering the project and contingencies put in place to deal with them are outlined below.

Those without internet access will have the opportunity to complete the survey via a telephone interview.</p> <p>Both the NPD data, ILR data and the data collected through the survey will be analysed for research and statistical purposes. This will help provide DfE evidence on a number of key areas, including</p> <ul style="list-style-type: none">• Attitudes towards- and compliance with- systems of control. This will be important as we approach Winter 2021/ 22.• Education recovery, including attitudes towards – and

This will be six months post project closure. Identifiable research results data will be anonymised when reporting and quality control is complete. Linked data will be used for the duration of the project until the completion of the present survey (25th December 2023), after which the data will be fully deleted (unless extended due to unforeseen circumstances). In the event of termination of contract due to expiry, liquidation or non-performance, all information assets provided, created or resulting from the service shall not be considered as the supplier's assets and must be returned to the department and written assurance obtained from an appropriate officer of the supplying organisation that these assets regardless of location and format have been fully sanitised throughout the organisation in line with clause 12.15.

3.13. In the event of termination, equipment failure or obsolescence, all

Departmental information and data, in either hardcopy or electronic format, that is physically held or logically stored by the Contractor must be accounted for and either physically returned or securely sanitised or destroyed in accordance with the current HMG policy using an NCSC approved product or method.

Where sanitisation or destruction is not possible for legal, regulatory or technical reasons, such as data stored in a cloud system, Storage Area Network (SAN) or on shared backup tapes, then the Contractor or sub-contractor shall protect the Department's information and data until such time, which may be long after the end of the contract, when it can be securely cleansed or destroyed.

Evidence of secure destruction will be required in all cases.

- 3.14. Access by Contractor or sub-contractor staff to Departmental Data, including user credentials, shall be confined to those individuals who have a "need-to-know" in order to carry out their role; and have undergone mandatory pre-employment screening, to a minimum of HMG Baseline Personnel Security Standard (BPSS); or hold an appropriate National Security Vetting clearance as required by the Department. All Contractor or sub-contractor staff must complete this process before access to Departmental Data is permitted. Any Contractor or sub-contractor staff who will be in contact with children or vulnerable adults must, in addition to any security clearance, have successfully undergone an Enhanced DBS (Disclosure and Barring Service) check prior to any contact.
- 3.15. All Contractor or sub-contractor employees who handle Departmental Data shall have annual awareness training in protecting information.
- 3.16. The Contractor shall, as a minimum, have in place robust Business Continuity arrangements and processes including IT disaster recovery plans and procedures that conform to ISO 22301 to ensure that the delivery of the contract is not adversely affected in the event of an incident. An incident shall be defined as any situation that might, or could lead to, a disruption, loss, emergency or crisis to the services delivered. If a ISO 22301 certificate is not available the supplier will provide evidence of the effectiveness of their ISO 22301 conformant Business Continuity arrangements and processes including IT disaster recovery plans and procedures. This should include evidence that the Contractor has tested or exercised these plans within the last 12 months and produced a written report of the outcome, including required actions.
- 3.17. Any suspected or actual breach of the confidentiality, integrity or availability of Departmental Data, including user credentials, used or handled in the course of providing this service shall be recorded as an incident. This includes any non-compliance with these Departmental Security Standards for Contractors, or other Security Standards pertaining to the solution.

Incidents shall be reported to the department immediately, wherever practical, even if unconfirmed or when full details are not known, but always within 24 hours of discovery. If incident reporting has been delayed by more than 24 hours, the contractor should provide an explanation about the delay.

Incidents shall be reported through the department's nominated system or service owner.

Incidents shall be investigated by the contractor with outcomes being notified to the Department.

- 3.18. The Contractor shall ensure that any IT systems and hosting environments that are used to handle, store or process Departmental Data shall be subject to independent IT Health Checks (ITHC) using an NCSC CHECK Scheme ITHC provider before go-live and periodically (at least annually) thereafter. The findings of the ITHC relevant to the service being provided are to be shared with the Department and all necessary remedial work carried out. In the event of significant security issues being identified, a follow up remediation test may be required.
- 3.19. The Contractor or sub-contractors providing the service will provide the Department with full details of any actual or future intent to develop, manage, support, process or store Departmental Data outside of the UK mainland. The Contractor or sub-contractor shall not go ahead with any such proposal without the prior written agreement from the Department.
- 3.20. The Department reserves the right to audit the Contractor or sub-contractors providing the service within a mutually agreed timeframe but always within seven days of notice of a request to audit being given. The audit shall cover the overall scope of the service being supplied and the Contractor's, and any sub-contractors', compliance with the clauses contained in this Section.
- 3.21. The Contractor and sub-contractors shall undergo appropriate security assurance activities and shall provide appropriate evidence including the production of the necessary security documentation as determined by the department. This will include obtaining any necessary professional security resources required to support the Contractor's and sub-contractor's security assurance activities such as: a Security and Information Risk Advisor (SIRA) certified to NCSC Certified Cyber Security Consultancy (CCSC) or NCSC Certified Cyber Professional (CCP) schemes.
- 3.22. Where the Contractor is delivering an ICT solution to the Department they shall design and deliver solutions and services that are compliant with the HMG Security Policy Framework in conjunction with current NCSC Information Assurance Guidance and Departmental Policy. The Contractor will provide the Department with evidence of compliance for the solutions

and services to be delivered. The Department's expectation is that the Contractor shall provide written evidence of:

- Compliance with HMG Minimum Cyber Security Standard.
- Any existing security assurance for the services to be delivered, such as: ISO/IEC 27001 / 27002 or an equivalent industry level certification.
- Any existing HMG security accreditations or assurance that are still valid including: details of the awarding body; the scope of the accreditation; any caveats or restrictions to the accreditation; the date awarded, plus a copy of the residual risk statement.
- Documented progress in achieving any security assurance or accreditation activities including whether documentation has been produced and submitted. The Contractor shall provide details of who the awarding body or organisation will be and date expected.

3.23. The Contractor shall contractually enforce all these Departmental Security Standards for Contractors onto any third-party suppliers, sub-contractors or partners who could potentially access Departmental Data in the course of providing this service.
