

ITT Clarifications

Tender Reference: 5305-SRB-080424

Issued: 20/052024

Q1	5.2.1 Details of organisations expected to work together- is this in relation to organisations tendering for the Delivery Plan work, or companies expected to deliver the Opportunity?
A1	The primary interest is companies expected to deliver the opportunity, however there is an expectation that there will also be a level of involvement in the preparation of the tender.
Q2	Should the study consider supply chains located within Cornwall only, the SW in general, the Celtic Sea region or the entire UK?
A3	We are interested in outline delivery plans which involve logical organisations with the potential to (collectively) scale up to meet the challenge of the Celtic Sea. Current location of such organisations is somewhat immaterial; however we would draw bidders' attention to the question of impact on Cornwall.
Q3	Terms & Conditions. Will CSP consider minor deviations to the Terms & Conditions?
A3	Our preference is for bidders to accept the Terms and Conditions as is. However, we will consider minor drafting changes provided there are no material changes.
