Ocean Country Partnership Programme:

The [Ocean Country Partnership Programme](#) (OCP) was announced this year as a key bilateral aid programme under the £500m Blue Planet Fund. Through £5.7m of secured funding for 2021-22, the UK will work in partnership with at least six countries to deliver marine science technical assistance across the 3 core themes of marine pollution, biodiversity loss and supporting sustainable seafood. OCP objectives are to support countries to tackle marine pollution, support sustainable seafood practices and establish designated, well-managed and enforced Marine Protected Areas (MPAs).

In 2021-25, Cefas will lead delivery of the Marine Pollution and Sustainable Seafood themes of OCP, working in partnership with experts from the Joint Nature Conservation Committee (JNCC) and the Marine Management Organisation (MMO).

The OCP Marine Pollution strand will build on work in countries where Cefas and UK marine partnerships are already active, as well as forge new relationships in priority regions.

The OCP will begin by building on the successes of the Commonwealth Litter Programme (CLiP), using established foundations to expand technical training and capacity building in Overseas Development Assistance (ODA) eligible countries and foster collaboration internationally to tackle marine pollution.

Background:

Cefas are working on a package of support for Sri Lanka which includes undertaking training and capacity building to strengthen and enhance their preparedness for marine pollution emergency response. As part of this, Cefas require a suitable contractor to support our OCP team to deliver a package of support on oiled wildlife response for Sri Lanka and Maldives. The successful Tenderer will be working with a small team in Cefas and with partners, to deliver elements of oiled wildlife response support both remotely and in person. The package of support will require travel to Sri Lanka and possibly the Maldives, where the successful tenderer will work with both in-country contacts from Government agencies and the OCP team to deliver stakeholder engagement sessions, tabletop exercises and training within a workshop. Remote elements for knowledge exchange and sharing is likely to be carried out over Microsoft Teams. The requirements of the work are provided in detail below.

Requirement:

The successful Tenderer will deliver a package of oiled wildlife response (OWR) support for Sri Lanka work packages 1-3 and Maldives Work Package 4 to include:

1. Work Package 1

Country assessment (via remote meetings), review and update of current OWR Standard Operating Procedure (SOP) (current SOP is high level and 7 pages in length), transforming this document into a full OWR contingency plan which aids OWR preparedness and response planning in Sri Lanka.

The updated SOP will be a live document which includes the best practice guidance for OWR in Sri Lanka, including:

- a. Scope, purpose and aim of the document.
- b. An activation process covering the notification, planning, mobilisation and delivery of OWR in Sri Lanka.

- c. Key stakeholders and their roles and responsibilities for OWR in Sri Lanka.
- d. Outlined procedure of each phase of OWR (from receiving notification of oiled wildlife through the capture, cleaning, care and release/ post-release monitoring) covering clear roles and requirements for oiled wildlife responders and linkages to the National Contingency Plan.
- e. A tiered approach to OWR and the requirements for resources in each including facilities available.
- f. Communications to wider pollution response.
- g. Equipment stockpiles for OWR in country and any regional agreements or mutual aid.
- h. Training, Health and Safety of responders.
- i. Legal permitting requirements and necessary approvals (including capture and euthanasia of oiled wildlife).
- j. Annexes of relevant forms to gather information relevant to OWR (including data collection and reporting, compensation costs/ auditing and personnel records).

Deliverable: An updated OWR SOP that covers the above delivered as a Microsoft Word document of adequate length (maximum 25 pages not including annexes).

Initial draft to be shared with OCPP Team in mid-September, with any changes required delivered by mid-October 2023, where it will be shared for feedback at an in-person workshop with key in country stakeholders (see Work Package 3 below). The finalised version of the plan to be delivered based on the workshop feedback/outcomes, by mid-December 2023.

2. Work Package 2

Provision of OWR training to specific in-country staff (online/ remote delivery preferred) to include:

- a. Impacts of oil on wildlife (birds, marine mammals and turtles) and relevant in country receptors.
- b. Scale of impacts.
- c. Responding to an incident.
- d. Planning and managing incident operations.
- e. Methods to deal with impacts and how to develop preparedness and response capabilities.
- f. International resources/ assistance.
- g. Integration into wider pollution response.

The successful Tenderer will provide a detailed proposal in their bid including an outline of what sort of responder-specific training can be offered, how long the sessions and/or how many sessions, and what it would include, in further detail.

Tenderers should include two cost options (in Part 2 – Pricing document) for a) 15 staff, and b) 30 staff. Training to be delivered between June 2023 and February 2024, with dates to be confirmed with Cefas upon Contract commencement.

3. Work Package 3

In-person support with a workshop in Sri Lanka (likely Colombo) covering OWR. The workshop will likely be 4- or 5-days in October or November 2023, to be confirmed. The workshop will be facilitated by the OCPP team, covering range of aspects relating to spill response including contingency planning, EIA, post-spill monitoring, modelling, and remote sensing. The Tenderer will support with the following.

Deliverables:

- a. Presenting country assessment and facilitating specific feedback session on updated OWR Plan with key stakeholders, identifying further gaps in response readiness (likely 0.5 days).
- b. Supporting/ involved in tabletop exercise to test knowledge and cement learning – general tabletop exercise scenario and materials already developed, but OWR aspect to be developed by the Tenderer and incorporated (working with OCPP project team), which links to the OWR Plan (1 day).
- c. Working with OCPP project team post-workshop to input to 'Recommendations for Better Readiness' report, highlighting key gaps in preparedness and priority next steps for OWR preparedness for Sri Lanka. It will also consider regional response and mutual aid. Overall document likely to be Microsoft Word, approximately 20-30 pages, to be finalised for handover to Sri Lanka in February 2024. Tenderer will lead on OWR aspect of this report.

4. Work Package 4

The Tenderer will also provide a proposal to support with an additional in-person workshop in Maldives, delivering similar but reduced support. Annex 4 – Tender Submission

REQUIREMENT

Please describe your organisational experience working within oiled wildlife response delivering workshops, training and contingency planning, working with multiple stakeholders and a variety of countries both in person and remotely.

NARRATIVE

The Southern African Foundation for the Conservation of Coastal Birds (SANCCOB)

SANCCOB is a marine oriented non-profit organisation, operating two strategically placed seabird centres in Cape Town (Western Cape) and Gqeberha (Eastern Cape) fully equipped to respond to an oiled wildlife incident off the South African coastline. SANCCOB treats approximately 2 500 seabirds a year, of which approximately 1 500 are endangered African penguins. SANCCOB has responded to every major oil spill affecting marine wildlife along the Southern African coastline since it was established in 1968, including Tier 3 incidents in Namibia and Tristan da Cunha in the Southern Ocean. SANCCOB is listed as the mandated oiled wildlife response organisation for seabirds in South Africa's National Oil Spill Contingency Plan.

SANCCOB has a long history of extensive stakeholder engagement working alongside government and industry both locally and internationally advocating for the implementation of best practice methods. SANCCOB participates on several committees, including government working groups aimed at oil spill preparedness and response. SANCCOB has coordinated and hosted several oiled wildlife and first responder training workshops for responders (government officials, rangers, management authorities, volunteers, SPCA) locally and internationally.

In 2021 and 2022 SANCCOB hosted 13 responders from Namibia for oiled wildlife and first responder training. These responders were from government (Ministry of Fisheries and Marine Resources), industry (DebMarine and NamDeb), university veterinarian (university of Namibia) and one first responder. SANCCOB also hosted two groups of officials (27 individuals in total) from SANParks, Cape Nature, Department of Forestry, Fisheries and the Environment (DFFE) and the SPCA as part of a Benguela Current Commission (BCC) tender contract that SANCCOB was awarded to deliver First Responder and Oiled Wildlife training. The training was in person and took one week per group. Two Oceans Aquarium hosted the participants for one day each week and covered oiled wildlife response for turtles and marine mammals. The rest of the week focused on seabird response and covered transportation, handling (in person), stabilization, tubing and feeding, oil spill response and how to wash birds. SANCCOB regularly conducts oiled wildlife response training (both in person and remotely) with local volunteers building up a database of personnel that can be called on during a spill affecting wildlife.

SANCCOB as an organization has been involved in contingency planning for many years both nationally and internationally for a range of stakeholders including government. SANCCOB was involved in the drafting of South Africa's National Oiled Wildlife Preparedness and Response Contingency Plan and in 2021 SANCCOB drafted the National Oiled Wildlife Preparedness and Response Contingency Plan for Namibia. SANCCOB will be coordinating a workshop in 2023 to finalize the National Oiled Wildlife Preparedness and Response Contingency Plan for Namibia. SANCCOB also drafted an Oiled Wildlife Preparedness and Response Contingency Plan for one of the main seabird colonies (Robben Island) and commented on draft versions for three other important seabird colonies.

SANCCOB has also worked with industry on various preparedness and response activities (contingency plans, exercises, retainer agreements). Historical engagements include Debmarine (Namibia), BP Southern Africa (Mozambique and South Africa), ConocoPhillips (Angola) in partnership with Sea Alarm, TOTAL Energies South Africa, Azinam (Eco Atlantic). SANCCOB's most recent engagements include a workshop on oiled wildlife preparedness at the Angola Technical Forum for Oil Spill Response Limited (OSRL) alongside Sea Alarm and the development of a wildlife response action plan for Azinam's (Eco Atlantic) drilling operations off the west coast of South Africa. In June 2023, SANCCOB will co-facilitate a training workshop with GI WACAF and ITOF focusing specifically on developing an oiled wildlife contingency plan for Nigeria.

In addition to contingency plans SANCCOB has done feasibility assessments both locally and internationally. SANCCOB's most recent work includes a wildlife response feasibility assessment for Oil Spill Response Limited (OSRL) on behalf of Shell Mauritania.

SANCCOB's commitment to preparedness and response is entrenched in its organizational strategy. SANCCOB has on staff a Preparedness and Response Manager. The Preparedness and Response Manager is responsible for overseeing SANCCOB's preparedness and response operations for any oils spill, mass abandonments or disease outbreaks both locally and internationally. This includes overseeing any response operations, updating SANCCOB's contingency plan, maintaining stockpiles of oiled wildlife response equipment located in Cape Town and Gqeberha and training of all staff in incident response.

Lastly, SANCCOB forms part of a network of international oiled wildlife response organisations, known as the Global Oiled Wildlife Response System (GOWRS). GOWRS consists of ten leading international wildlife organisations available to respond to Tier 3 incidents 24/7/365. Collectively, the GOWRS has developed and standardised oiled wildlife response protocols, including the Wildlife Response Preparedness: Good Practice Guidelines for Incident Management and Emergency Response Personnel, developed for the International Association of Oil & Gas Producers (IPIECA).

REQUIREMENT

Please describe your organisational experience, demonstrating knowledge, best practise and working within oiled wildlife response on live incidents internationally.

NARRATIVE

The Southern African Foundation for the Conservation of Coastal Birds (SANCCOB) is a marine oriented non-profit organisation, operating two strategically placed seabird centres in Cape Town (Western Cape) and Gqeberha (Eastern Cape) fully equipped to respond to an oiled wildlife incident off the South African coastline (Table 1). SANCCOB treats approximately 2 500 seabirds a year, of which approximately 1 500 are endangered African penguins. SANCCOB has responded to every major oil spill affecting marine wildlife along the Southern African coastline since it was established in 1968, including Tier 3 incidents in Namibia and Tristan da Cunha in the Southern Ocean. SANCCOB was on standby to deploy for both the 2012 Bonga Oil spill in Nigeria and the Wakashio spill in Mauritius. SANCCOB is listed as the mandated oiled wildlife response organisation for seabirds in South Africa's National Oil Spill Contingency Plan.

SANCCOB maintains an oiled wildlife response team comprised of trained and experienced emergency managers, professional wildlife rehabilitators, biologists, and veterinarian. Members of the response team includes SANCCOB's head of conservation (Nicky Stander) and rehabilitation manager (Romy Klusener) who each have over 10 years' experience in rehabilitation and oiled wildlife response and a full-time veterinarian (David Roberts) who has experience working with oiled seabirds. The response team are fully trained in the Incident Management System (IMS) 300, are HAZWOPER certified and can be deployed 24/7/365 in the event of an oil pollution incident affecting sea- and coastal birds. Whilst SANCCOB specializes in waterbird rehabilitation the team has assisted with washing oiled Cape fur seals and terrapins.

Summary of the two Tier 3 spills that SANCCOB responded to:

Tristan Da Cunha [REDACTED]

On 16 March 2011 [REDACTED] ran aground on Nightingale Island spilling over 300, 000 gallons of heavy fuel oil into the waters around the island. Tristan da Cunha had no trained oiled response personnel, equipment for dealing with the spill or rehabilitation facility for oiled wildlife. This therefore necessitated a Tier 3 response and SANCCOB was being the closest oiled wildlife rehabilitation facility was activated to respond.

Over 4 000 oiled Northern rock hopper penguins were rescue by locals on the island. Unfortunately, not many of them survived the rehabilitation process (only 10 – 12%). The response was extremely challenging due to the remoteness of the island with accessibility restricted to boats only. It took the SANCCOB team several days to get to the island and by then the birds were severely compromised. Nevertheless, there were some important lessons learnt from this response and the Tristan government has taken several steps to improving its wildlife preparedness.

Namibia – Mystery Spill (Source Kemper et al. 2009)

In April 2009 a spill of unknown origin occurred just off the coastline of Southern Namibia oiling 171 African Penguins. Oiled penguins were rescued by staff from the Namibian Ministry of Fisheries and Marine Resources from the 4 main penguin breeding colonies (all islands). 161 African penguins were taken to the coastal town of Lüderitz for rehabilitation the remaining 10 underwent rehabilitation on the island. SANCCOB was deployed to assist with the spill as the small rehabilitation facility in Lüderitz was small to cope with the volume of birds. The facility can hold around 30 African penguins.

After being washed, 129 penguins were evacuated from Lüderitz to SANCCOB's rehabilitation facility in Cape Town, South Africa. This involved a remarkable 20 hr journey by truck in well-ventilated transport boxes. All 129 survived the journey. Of the 155 penguins that survived, 113 were released in Cape Town and returned to their breeding colonies. This was the first ever trans-border evacuation of a species and the longest transport by road. The response was successful with very few mortalities.

3.1 The Order Form is an offer by the Authority to purchase the Deliverables subject to and in accordance with the terms and conditions of the Contract.

3.2 The Supplier is deemed to accept the offer in the Order Form when the Authority receives a copy of the Order Form signed by the Supplier.

3.3 The Supplier warrants and represents that its Tender Submission and all statements made and documents submitted as part of the procurement of Deliverables are and remain true and accurate.

4. What needs to be delivered

4.1 All Deliverables

(a) The Supplier must provide Deliverables: (i) in accordance with the Specification and Tender Submission; (ii) to a professional standard; (iii) using all reasonable skill and care; (iv) using Good Industry Practice; (v) using its own policies, processes and internal quality control measures as long as they don't conflict with the Contract; (vi) in accordance with such policies and procedures of the Authority (as amended from time to time) that may be specified in the Contract (vii) on the dates agreed; and (viii) in compliance with all applicable Law.

(b) Without prejudice to the Specification the Supplier must provide Deliverables with a warranty of at least 90 days (or longer where the Supplier offers a longer warranty period to the Authority) from Delivery against all obvious damage or defects.

4.2 Goods clauses

- (a) All Goods Delivered must be capable of meeting the requirements set out in the Specification and be either (i) new and of recent origin, (ii) reused or (iii) recycled.
- (b) All manufacturer warranties covering the Goods will be assigned to the Authority on request and for free.
- (c) The Supplier transfers ownership of the Goods on completion of Delivery (including off-loading and stacking) or payment for those Goods, whichever is earlier.
- (d) Risk in the Goods transfers to the Authority on Delivery but remains with the Supplier if the Authority notices any damage or defect following Delivery and lets the Supplier know within three Working Days of Delivery.

The Supplier must take back any primary packaging where it is possible to do so. Packaging must be 100% re-usable, recyclable or compostable, use recycled content where reasonably practicable and support the Government's commitment to eliminate single use plastic.
- (h) All Deliveries must have a delivery note attached that specifies the order number, type, quantity of Goods, contact and details of traceability through the supply chain.
- (i) The Supplier must provide all tools, information and instructions the Authority needs to make use of the Goods. This will include, where appropriate, any operation manuals which, unless specified otherwise, will be written in English and provided in electronic form.

Goods must be disposed of in line with the waste management hierarchy as set out in Law. The Supplier will provide evidence and transparency of the items and routes used for disposal to the Authority on request.
- (k) The Authority can cancel any order or part order of Goods which have not been Delivered. If the Authority gives less than 14 calendar days' notice then it will pay the Supplier's reasonable and proven costs already incurred on the

cancelled order as long as the Supplier takes all reasonable steps to minimise these costs.

(l) The Supplier must at its own cost repair, replace, refund or substitute (at the Authority's option and request) any Goods that the Authority rejects because they don't conform with clause 4.2. If the Supplier doesn't do this it will pay the Authority's costs including repair or re-supply by a third party.

(m) The Authority will not be liable for any actions, claims, costs and expenses incurred by the Supplier or any third party during Delivery of the Goods unless and to the extent that it is caused by negligence or other wrongful act of the Authority or its servant or agent. If the Authority suffers or incurs any damage or injury (whether fatal or otherwise) occurring in the course of Delivery or installation then the Supplier shall indemnify from all losses, damages, costs or expenses (including professional fees and fines) which arise as a result of or in connection with such damage or injury where it is attributable to any act or omission of the Supplier or, where related to the Contract, any of its subcontractors or suppliers.

4.3 Services clauses

(a) Late delivery of the Services will be a breach of the Contract.

(g) On completion of the Services, the Supplier is responsible for leaving the Authority's premises in a clean, safe and tidy condition and making good any damage that it has caused to the Authority's premises or property, other than fair wear and tear and any pre-existing cleanliness, safety or tidiness issue at the Authority's premises that existed before the commencement of the Term.

(h) The Supplier must ensure all Services, and anything used to deliver the Services, are of the required quality and free from damage or defects.

The Supplier shall not be entitled to assert any credit, set-off or counterclaim against the Authority in order to justify withholding payment of any such amount in whole or in part.

then the Authority may:

- (i) require that the Supplier provide to the Authority (for its approval) a plan setting out how the Supplier will ensure continued performance of the Contract (in the case of (a)) or improve its sustainability conduct or performance (in the case of (b)) and the Supplier will make changes to such plan as reasonably required by the Authority and once it is agreed then the Supplier shall act in accordance with such plan and report to the Authority on demand

34.1 As soon as it is aware of it the Supplier and Supplier Staff must report to the Authority any actual or suspected breach of Law or breach of its obligations under the Contract.

34.2 Where an actual or suspected breach is notified to the Authority under clause 34.1, the Supplier will take such action to remedy any breach as the Authority may reasonably require. Where the breach is material, the Authority has the right to terminate under clause 11.4.

34.3 The Supplier must not retaliate against any of the Supplier Staff who in good faith reports a breach listed in clause 34.1.

35. Resolving disputes

35.1 If there is a dispute between the Parties, their senior representatives who have authority to settle the dispute will, within 28 days of a written request from the other Party, meet in good faith to resolve the dispute.

35.2 If the dispute is not resolved at that meeting, the Parties can attempt to settle it by mediation using the Centre for Effective Dispute Resolution (CEDR) Model Mediation Procedure current at the time of the dispute. If the Parties cannot agree on a mediator, the mediator will be nominated by CEDR. If either Party does not wish to use, or continue to use mediation, or mediation does not resolve the dispute, the dispute must be resolved using clauses 35.3 to 35.5.

35.3 Unless the Authority refers the dispute to arbitration using clause 35.4, the Parties irrevocably agree that the courts of England and Wales have the exclusive jurisdiction to:

- (a) determine the dispute;
- (b) grant interim remedies;
- (c) grant any other provisional or protective relief.

35.4 The Supplier agrees that the Authority has the exclusive right to refer any dispute to be finally resolved by arbitration under the London Court of International Arbitration Rules current at the time of the dispute. There will be only one arbitrator. The seat or legal place of the arbitration will be London and the proceedings will be in English.

35.5 The Authority has the right to refer a dispute to arbitration even if the Supplier has started or has attempted to start court proceedings under clause 35.3, unless the Authority has agreed to the court proceedings or participated in them. Even if court proceedings have started, the Parties must do everything necessary to ensure that the court proceedings are stayed in favour of any arbitration proceedings if they are started under clause 35.4.

35.6 The Supplier cannot suspend the performance of the Contract during any dispute.

35.7 The provisions of this clause 35 are without prejudice to the Authority's right to terminate or suspend the Contract under clause 11.

36. Which law applies

36.2 The courts of England and Wales shall have jurisdiction to settle any dispute or claim (whether contractual or non-contractual) that arises out of or in connection with the Contract or its subject matter or formation.
