

**Recompetition Data**

For the purposes of providing a Replacement Service, Recompensation Data shall include, but not be limited to:

- 1.1. copies of all relevant documentation, in hard and electronic copy, relevant to the Services for the purposes of Re-competition, including financial information, engineering records, spares consumptions data and training syllabus;
- 1.2. any information in the Contractor's possession or under its control which the Authority is legally required to produce at the time of Recompensation;
- 1.3. summary details of any Necessary Agreements;
- 1.4. details of all licences (including software licences), waivers, permissions or other legal provisions applicable to the support and management of the Service;
- 1.5. copies of all relevant documentation, in hard copy and in machine readable form, relevant to the Service insofar as they are necessary for the purposes of Recompensation;
- 1.6. details of all Intellectual Property Rights relevant to the provision of the Services; and
- 1.7. any information in the Contractor's possession or under its control which the Authority requires to produce at the time of a Re-competition.
