

## 8. BIM

Explain how you intend to embed and extract data from the design model for transfer to TfL's Asset Management Systems listed in section 6 of the EIR "ST\_PJ585C-BIM-XXX-XX-REQ-IM-000001" found in Appendix 2, Volume 1, Call-off Contract Documentation

# Appendix 8

## 9. Whole Life Costing and Estimating

Tenderers are to demonstrate their approach (including quality assurance process) to whole life costing and estimating for the project at the various design stages. In particular this should demonstrate how the team specific to cost estimating (including any external resources) will be integrated to ensure that estimates are based on all relevant information and how robust costs will be obtained.
