

WA12995 - Evaluation of the SE Framework for Integrated Care Vanguard Programme

Contracts Finder Notice

Additional Information

The key aims of the evaluation are to:

1. identify learning around the impact and outcomes of each vanguard that supports the development of future local and regional partnerships and projects seeking to improve outcomes for CYP with complex needs;
2. support the development of local KPIs that measure the impact/outcome of the vanguard projects;
3. contribute to regional and national learning regarding further development and implementation of the FfIC and service model design;
4. work with CYP and their families to generate insights into their experience of the services, the impact on their lives, and how services may be further improved;
5. engage with staff and organisations involved in development of the vanguards, to understand their experiences of mobilisation and delivery, and how services may be further improved;
6. understand the return on investment / value for money delivered by the vanguards;
7. provide recommendations in terms of next steps for the SE FfIC programme;
8. contribute to the development of a regional strategy to improve outcomes for vulnerable CYP with complex needs.

The contract value of this procurement is under the threshold that is subject to the full regime of current EU procurement legislation and governed by the Public Contracts Regulations 2015. Therefore, the rules of this Regime do not apply.
