4.12 Further to paragraphs 4.8, 4.9, 4.10 and 4.11, the Authority has the right to verify the information contained in a Covid Data Return. The Authority can reasonably decide what steps it takes, or process it follows, in verifying that information.

4.13 If the Contractor does not comply with paragraphs 4.1, 4.4, 4.6, 4.8, 4.9, 4.10 or 4.11, then the Authority can exercise reasonable discretion:

6.2 The Authority will exercise reasonable discretion in deciding which Covid Data Returns are relevant for the purpose of calculating the Bridging Amount.

- (b) Disallowed Costs, and
- (c) Variance Costs.

6.4 The Bridging Amount shall be the Allowed Costs that the Authority reasonably determines the Contractor has incurred, or will incur, in the CV04 Period, subject to paragraphs 6.5, 6.6 and 6.7.

6.5 Where paragraph 8 applies, the Authority may further Adjust the Bridging Amount in accordance with the provisions in that paragraph.

6.7 Notwithstanding paragraph 2(h) of Annex 1, the Authority, in its reasonable discretion, may choose to add an additional sum to the Bridging Amount. The Authority will consider, from 1 November 2020, whether to exercise this right.

6.8 Disallowed Costs and Variance Costs shall not form part of the Bridging Amount.

6.9 Where a cost:

(a) is an Allowed Cost in paragraph 1 of Annex 1, and

(b) is a Disallowed Cost in paragraph 2 of Annex 1,

it shall be treated as a Disallowed Cost instead of an Allowed Cost.

(b) has been designated by the Authority as a Variance Cost in accordance with paragraph 9.1(b),

it shall be treated as a Variance Cost instead of an Allowed Cost.

- (a) the Authority has recalculated the Bridging Amount for a Subsequent CV04 Period, and

- (b) the Authority recalculates the Bridging Amount for a previous CV04 Period, and that recalculated Bridging Amount is higher or lower than the Bridging Amount previously calculated by the Authority for that CV04 Period.

8.2 In Adjusting the Bridging Amount for a Subsequent CV04 Period, the Authority:

- (a) can apply both paragraphs 8.1(a) and 8.1(b), and
- (b) where the Authority has recalculated the Bridging Amount in respect of two or more previous CV04 Periods, can separately apply paragraph 8.1(b) in respect of each of those previous CV04 Periods.

8.3 For the purposes of this paragraph 8, the Authority will not include the figure referred to in Table 2 Note 2 of Schedule 1 to CV03 in the value of any CV03 Interim Payment used in any Adjustment.

8.4 In paragraph 8.1(a):

- (a) where the Bridging Amount for the First CV04 Period is higher than the total sum of CV03 Interim Payments that the Authority has made or will make to the Contractor over the First CV04 Period, then
- (b) if the Authority Adjusts the Bridging Amount for a Subsequent CV04 Period to account for this, the Authority must increase that Bridging Amount by the difference between:

- (i) the Bridging Amount for the First CV04 Period, and
- (ii) the total sum of CV03 Interim Payments that the Authority has made or will make to the Contractor over the First CV04 Period.

8.5 In paragraph 8.1(a):

- (a) where the Bridging Amount for the First CV04 Period is lower than the total sum of CV03 Interim Payments that the Authority has made or will make to the Contractor over the First CV04 Period, then

 - (i) the total sum of CV03 Interim Payments that that the Authority has made or will make to the Contractor over the First CV04 Period, and
 - (ii) the Bridging Amount for the First CV04 Period.

8.6 In paragraph 8.1(b):

- (a) where the recalculated Bridging Amount for the previous CV04 Period is higher than the Authority's previous calculation of that Bridging Amount, then
- (b) if the Authority Adjusts the Bridging Amount for a Subsequent CV04 Period to account for this, the Authority must increase the Bridging Amount for the Subsequent CV04 Period by the difference between:
 - (i) the recalculated Bridging Amount for the previous CV04 Period, and
 - (ii) the Authority's previous calculation of the Bridging Amount for the previous

CV04 Period.

8.7 In paragraph 8.1(b):

- (a) where the recalculated Bridging Amount for the previous CV04 Period is lower than the Authority's previous calculation of that Bridging Amount, then
- (b) if the Authority Adjusts the Bridging Amount for a Subsequent CV04 Period to account for this, the Authority must decrease the Bridging Amount for the Subsequent CV04 Period by the difference between:
 - (i) the Authority's previous calculation of the Bridging Amount for the previous CV04 Period, and
 - (ii) the recalculated Bridging Amount for the previous CV04 Period.

9 VARIANCE COSTS

9.1 If the costs that the Contractor includes in a Covid Data Return are higher than the costs set out in the Baseline by 10% or more, then:

- (a) the Contractor must provide the Authority with an explanation for that variance, and
- (b) the Authority can, in its reasonable discretion, designate some or all of the costs that exceed the amount set out in the Baseline as Variance Costs.

9.2 If the costs that the Contractor includes in a Covid Data Return are lower than the costs set out in the Baseline by 10% or more, then the Contractor must provide the Authority with an explanation for that variance.

9.3 The Authority, in its reasonable discretion, determines the set of costs that are used as the Baseline.

 - (b) the Contractor's Tender for the Contract.
- 9.5 The Authority, in its reasonable discretion, decides what information is relevant for the purpose of establishing the Baseline.
- 9.6 If the Authority uses information provided by the Contractor when establishing the Baseline, then:

 - (b) the use of the information provided by the Contractor is without prejudice to any right that the Authority has, under the Contract or otherwise, to verify that information.
- 9.7 The Authority must notify the Contractor of the Baseline after the Authority has established it.
- 9.8 After the Baseline has been established, any changes to the Baseline must be agreed by the Authority and the Contractor in accordance with the Change Control Procedure.
- 9.9 This paragraph 9 does not prejudice any other right that the Authority has under the Contract or otherwise. This includes, but is not limited to, rights:

(c) to calculate the Bridging Amount and Covid Monthly Payments, and

(d) to validate Cost Claims.

10 COVID MONTHLY PAYMENTS

10.1 The Contractor agrees and acknowledges that payment of a Covid Monthly Payment by the Authority does not constitute confirmation by the Authority that it is a valid calculation of the Allowed Costs for the relevant Month and is without prejudice to any of the Authority's rights under this Contract or otherwise to check, validate or otherwise verify the validity of such Covid Monthly Payment.

10.2 Without prejudice to anything else in this paragraph 10, the Authority shall have no obligation to make any Covid Monthly Payments to the Contractor where costs are incurred after the end of the Covid Relief Period.

The Covid Monthly Payment will be calculated by dividing the Bridging Amount by the number of Months in the Subsequent CV04 Period. The Authority may reasonably require the Contractor to provide any appropriate supporting information it considers necessary before making payment.

10.4 The Contractor shall notify details of the Contractor's bank account and address to the Authority via the Authority ICT System. The Authority shall send notifications of Fees paid to that address.

10.5 At any time and/or times (including, for the avoidance of doubt, at any time and/or times before and/or after payment has been made by the Authority to the Contractor) the Authority shall be reasonably entitled to seek to establish that any Covid Monthly Payment does not exceed the Allowed Costs for the relevant Month. At all times the Contractor shall provide all necessary assistance as requested by the Authority to enable the Authority to establish that any Covid Monthly Payment does not exceed the Allowed Costs for the

relevant Month.

11 VALIDATION

Pre-payment validation

- 11.1 Before payment of any Covid Monthly Payment by the Authority to the Contractor, in respect of each Covid Monthly Payment, the Authority may undertake a check(s) to verify the validity of each Cost Claim. For the avoidance of doubt, where the Authority has undertaken any check(s) pursuant to this paragraph 11.1 it reserves the right to include such Cost Claim in the relevant Cost Claim Sample for the Cost Claim Validation Period in which it falls.
- 11.2 The Authority shall be entitled to reject any Cost Claims made by the Contractor which fail any check(s) undertaken by the Authority pursuant to paragraph 11.1 without undertaking any further check(s).

Post-payment validation

- 11.3 At any time during the Contract Period, for any Cost Claim Validation Period the Authority may carry out a check(s) of all, or a sample, of the Cost Claims which have been made within a Cost Line (i) under this Contract only; or (ii) under all CV04 Contracts, (as the case may be) during such Cost Claim Validation Period (each such sample hereinafter being referred to as follows: a “**Cost Claim Sample**”).
- 11.4 For each Cost Claim Sample:
- (a) the Authority will determine the Cost Line and the range of Cost Claims from which the Authority will draw the sample,
 - (b) the Authority will determine whether the sample is drawn from this Contract only or from all CV04 Contracts,

- (c) the Authority will determine the sample size,
- (d) the Authority will determine the Cost Claim Validation Period and may, for the avoidance of doubt, include any period of time:
 - (i) during which the Authority carried out any check(s) in respect of Cost Claims pursuant to paragraph 11.1, or

 - (i) the numbers and/or value of Cost Claims within a Cost Line, and/or
 - (ii) the value of the Cost Linefrom which the sample is drawn during the Cost Claim Validation Period,
- (g) the sample size may vary between Cost Claim Samples depending on whether the Cost Claims within a Cost Line from which the sample is drawn during the Cost Claim Validation Period are drawn from this Contract only or from all CV04 Contracts,
- (h) the sample may include Cost Claims within a Cost Line in respect of which the Authority undertook a check(s) pursuant to paragraph 11.1, in which case the Authority may rely upon any evidence relating to that Cost Claim with that Cost Line generated through such checks in order to verify the validity of such Cost Claim

pursuant to paragraph 11.3 without carrying out any additional check(s) in respect of that Cost Claim within that Cost Line, and

- (i) the sample may include Cost Claims within a Cost Line which were included in any other Cost Claim Sample pursuant to paragraph 11.3, in which case the Authority may rely upon any evidence relating to that Cost Claim within a Cost Line generated through such checks in order to verify the validity of such Cost Claim within a Cost Line pursuant to paragraph 11.3 without carrying out any additional check(s) in respect of that Cost Claim within that Cost Line.

11.5 In respect of each Cost Claim Sample, where any error or over claim has been identified by the Authority (in its reasonable opinion) in a Cost Claim Sample, the Authority shall be entitled to:

- (a) recover in part or in full (as the Authority in its reasonable discretion deems appropriate) from the Contractor the amount or value of all Cost Claim Fails,
- (b) determine (in its reasonable discretion) the Cost Claim Error Rate,
- (c) extrapolate the Cost Claim Error Rate across all of the Cost Claims in respect of which payment has been made by the Authority to the Contractor (in respect of any CV04 Contract) in that Cost Claim Validation Period to produce an aggregate value of monies overpaid (the “**Cost Claim Aggregate Error Amount**”), and
- (d) recover in part or in full (as the Authority in its reasonable discretion deems appropriate) from the Contractor a sum or sums equal to the Cost Claim Aggregate Error Amount less the sum of any monies recovered by the Authority pursuant to paragraph 11.5(a).

Contractors and their Sub-contractors are encouraged to pay employees (and seek employment opportunities for customers at or above) the National Living Wage.

3.2 Contractors and their Sub-contractors must have policies and processes in place for recording and eliminating the occurrence of health and safety related incidents.

- 3.3 The Authority requires full Sub-contractor transparency and compliance with HM Government policy initiatives including the support and capacity building of micro-organisations, small and medium sized organisations, prompt payment, and support for economic growth.
- 3.4 Contractors must engage their Sub-contractors in a manner consistent with the Authority's treatment of its direct Contractors. This includes, but is not limited to, appropriate pricing, volume management, service fee flow, charging for central and corporate services, fiduciary and financial risk management, and applying transparent and appropriate contractual measures where the Sub-contractor underperforms against its contracts and the spirit of those contracts.
- 3.5 The Authority will not tolerate bribery, corruption or fraud in any form and Contractors must conduct their business honestly, fairly and free from such behaviours. Contractors, and the Sub-contractor, must protect against these behaviours and report any instances or concerns to the Authority immediately. The Authority takes a zero tolerance approach to bribery, corruption and fraud, and will investigate any instance of suspected bribery, corruption or fraud.
- 3.6 The Authority's employees, employees of the Authority's Contractors, and service users have the right to be treated with respect in all circumstances. The Authority will not tolerate discrimination, harassment, victimisation, bullying, intimidation or disrespect to the Authority's staff, stakeholders or service users.
- 4 VALUE**
- 4.1 Value for Money ("VfM") and financial transparency are essential requirements to the Authority's commissioned work. All Contractors and their Sub-contractors must seek to maximise value including by improving performance and quality of services throughout the life of the contract / relationship.
- 4.2 Contractors must demonstrate that they are pursuing continuous improvement throughout the contract and Sub-contracts, and apply stringent and robust financial controls, management and governance to reduce waste and improve efficiency in their internal operations and within the Sub-contracts. The Authority expects Contractors and their Sub-contractors to demonstrate openness and honesty and be realistic about their performance, in all circumstances.
- 4.3 The Authority expects to obtain value for money and to be able to demonstrate long-term value for

money to the UK taxpayer. This means that contracts should be priced to offer sustainable value throughout their life, including when changes are made to the contract.

4.4 The Authority's minimum expectation is that contracts are delivered to meet targets and that Contractors will continually improve value and quality through continuous improvement, improved performance and improved quality.

4.5 The Authority does not expect Contractors to exploit an incumbent, monopoly position, Sub-contractor(s), urgent situation(s), or an imbalance of capability or information to impose opportunistic pricing.

4.6 The Authority expects Contractors to work in good faith to resolve any disputes promptly and fairly during the life of a contract through good relationship management and, where appropriate, use contractual dispute resolution mechanisms, recognising that taxpayer and Contractor interests are rarely best served by litigation.

4.7 The Authority expects Contractors to seek opportunities to improve value and social value in contracts and to share best practice with the Authority and other authorities / Contractors.

5 REPUTATION AND CONFLICT

5.1 The Authority expects Contractors and their Sub-contractors to behave ethically, comply with legal and industry requirements and seek to implement best practice.

5.2 Contractors must be honest when representing their work for the Authority, their performance of the contract and their relationship with the Authority. The Authority expects Contractors to protect the HM Government's reputation and ensure that neither they nor any of their partners or Sub-contractors bring the government into disrepute, for example by engaging in any act or omission which may diminish public trust in HM Government.

5.3 The Authority requires Contractors to mitigate against any real or perceived conflict of interest through their work with HM Government. A Contractor with a position of influence gained through a contract must not use that position to disadvantage any other Contractor or reduce the potential for future competition, for example by creating a technical solution that locks in the Contractor's own goods or services.

5.4 The Contractor and their Sub-contractors must conduct business in compliance with competition (anti-trust) laws and must not seek to co-ordinate the market with other Contractors or their Sub-contractors in a way that restricts competition.

6 COUNTER FRAUD AND CORRUPTION

6.1 Contractors must adhere to anti-corruption laws, including but not limited to the Bribery Act 2010, and money laundering regulations. Contractors must have robust processes to ensure that the Sub-contractors in their supply chain also comply with these laws.

6.2 The Authority has a zero tolerance to any form of corrupt practices including extortion and fraud, and will investigate any suspected instances. The Authority expects Contractors to be vigilant and to proactively identify fraud, and the risk of fraud, in their business. Contractors must have robust systems, controls and/or control environments to protect against the potential for fraud, including, but not limited to, prohibiting perverse employee reward systems.

6.3 Contractors and their Sub-contractors must declare to the Authority any instances or allegations of unethical behaviour by an existing or previous member of staff, or where there is a known or suspected conflict of interest. Contractors must immediately notify the Authority where fraudulent practice and/or financial irregularity is suspected or discovered and disclose any interests that might affect their decision-making or the advice that they give to HM Government.

7 FINANCIAL TRANSPARENCY OBJECTIVES

7.1 The Contractor acknowledges that the provisions of Schedule 4 (Fees and Payment) are designed to facilitate the objectives set out below. The Contractor will cooperate with the Authority so that:

Annex 1: Calculation Methodology for Financial Indicators

The Contractor shall ensure that it uses the following general and specific methodologies for calculating the Financial Indicators against the Financial Target Thresholds:

General methodology

1. **Terminology:** The terms referred to in this Annex are those used by UK companies in their financial statements. Where the entity is not a UK company, the corresponding items should be used even if the terminology is slightly different (for example a charity would refer to a surplus or deficit rather than a profit or loss).
2. **Groups:** Where the entity is the holding company of a group and prepares consolidated financial statements, the consolidated figures should be used.

3. **Foreign currency conversion:** Figures denominated in foreign currencies should be converted at the exchange rate in force at the relevant date for which the Financial Indicator is being calculated.
4. **Treatment of non-underlying items:** Financial Indicators should be based on the figures in the financial statements before adjusting for non-underlying items.

Specific Methodology

Financial Indicator	Specific Methodology
Debt Ratio	<i>Debt ratio = total liabilities / total assets All elements used to calculate the debt ratio are available on the face of the Balance Sheet in a standard set of financial statements.</i>
Acid Test	<i>Acid test = (current liabilities – inventory) / current liabilities All elements used to calculate the acid test are available on the face of the Balance Sheet in a standard set of financial statements.</i>
Operating Cash Flow Ratio	<i>Operating Cash Flow Ratio = Operating Cash Flow / Revenue x 100 All elements used to calculate the operating cash flow ratio are available in the Profit and Loss account and Cash Flow statement in a standard set of financial statements.</i>
