## SCHEDULE TWO (2) - SPECIFICATION OF SERVICES

This section sets out the Authority's requirements.

### 1. Overview

The Authority is the UK Government Department responsible for the environment, food and farming and rural affairs. The Authority's priorities are to secure a healthy natural environment; a sustainable, low-carbon economy; a thriving farming sector and a sustainable, healthy and secure food supply. Further information on the Authority can be found at:

<https://www.gov.uk/government/organisations/department-for-environment-food-rural-affairs>

APHA is responsible for safe-guarding animal and plant health for the benefit of people, the environment and the economy. Amongst others, APHA engages with farmers, industry groups and the public and acts as an interface between industry and government. APHA has responsibility for applying and providing expert advice to decision makers and rapidly responding to emergencies in case of outbreak of diseases. Further information on APHA can be found at:

<https://www.gov.uk/government/organisations/animal-and-plant-health-agency>

### 2. Overview

The Contractor is required to develop four (4) to six (6) key case studies, that include impact assessment, of key areas of science undertaken within APHA. The APHA Science Strategy outlines the key sciences areas and disciplines at APHA. Link: [APHA Science Strategy 2021-2026](#)

There is an option for APHA to utilise the optional contract extension period that may require the Contractor to use the case studies to scale up to an overall impact assessment of APHA Science.

### 3. Background

This is part of the work seeking to raise the profile of APHA, its science and scientists, across Government, Nationally and Internationally. In the coming years, the Science Capability in Animal Health programme will be delivering development of the APHA Weybridge site to improve existing facilities and establish new, world-class facilities, and developing a thorough understanding of the impact of APHA's existing science will provide a baseline on which further developments can be made.

UK Universities use the [Research Excellence Framework \(REF\)](#) to evidence their research outputs. The primary purpose of the REF is to assess the quality of research. Much of APHA's science is applied and so the impact case studies are required to provide an assessment that will benchmark APHA's science in comparison to other non-academic organisations, whilst also providing information for future funding bids, collaboration and wider profile raising.

## 4. Specific Requirements

- 4.1 The requirement is for development of four (4) to six (6) impact case studies. The case studies must be equivalent to those developed in UK Universities using the Research Excellence Framework (see link above). The impact case studies required do not need to meet the exact detail and requirement within the REF, but this framework must be used to understand the type of output required.
- 4.2 The impact case study must be a narrative which describes how a particular scientific research output or area of scientific work, conducted at APHA over a set time period, resulted in an effect on, change or benefit to, the economy, society, culture, public policy, quality of life, health or the environment. Impact includes the reduction or prevention of harm, risk, cost or other negative effects. APHA requires assessment of the impact that the case study demonstrates in the following areas: Social, Technological, Economic, Environmental, Political, Legal and Ethical.
- 4.3 The impact of the case study topics chosen will be assessed using qualitative and quantitative evidence (where available).
- 4.4 The criteria used by the Contractor to assess the impact of research must relate to the reach and significance of the scientific outputs using the guidance below;
  - **Reach** – this is the extent and/or diversity of the beneficiaries of the impact. Reach can be assessed in terms of the extent to which beneficiaries have been reached, but is not assessed in purely geographic terms, nor in terms of absolute numbers of beneficiaries. The criteria will be applied wherever the impact occurred, regardless of geography or location, and whether in the UK or abroad.
  - **Significance** - will be understood as the degree to which the impact has enabled, enriched, influenced, informed or changed the performance, policies, practices, products, services, understanding, awareness or wellbeing of the beneficiaries.
- 4.5 Case studies must include a consideration of strengths, weaknesses, opportunities and threats and identify any key gaps.
- 4.6 The impact case studies must relate to the APHA Science Strategy 2021-2026 and will contribute towards the suite of metrics being developed to evaluate and monitor the performance of APHA science, its impact and the evidence of that impact.
- 4.7 The Contractor will work with APHA Lead Scientists and Portfolio Leads to identify and prioritise the key scientific output areas that impact case studies will be developed for. An example could be an impact case study of the contribution APHA science has made to the avian influenza outbreaks between 2018 and 2022.
- 4.8 The Contractor will meet weekly with the APHA Project Lead, via an online meeting

platform, to discuss and review Service delivery progress.

- 4.9 The Services are expected to be provided remotely however, where appropriate, APHA will endeavour to meet with the Contractor in person at APHA, Woodham Lane, New Haw, Addlestone, Surrey, KT15 3NB.
- 4.10 The Services includes the outputs, activities and deliverables found in Section 5 of the specification.
- 4.11 For the purposes of deliverable 2. c) (in Table A below), a final draft must not have sections missing from the case study and must be prepared as being ready for final review by APHA.

## **5. Key Outputs, Activities and Deliverables**

A timeline along with required outputs, activities and deliverables for the Services can be found in Table A below, these are linked to the milestones in Section 6 of this Specification:

## 6. Milestone and Payment Schedule

The Contractor is responsible for completing the following milestones, APHA shall provide written confirmation that milestones are achieved. Invoices will only be approved for payment upon satisfactory completion of the relevant milestone. Table B shows the milestones that are required to be achieved, these are linked to Table A in Section 5 of this Specification.

as evidence of their work on their website (for example), but no further sharing of the final documents is permitted to take place without APHA and the Authority's approval.

## **8. Service Commencement**

Service Commencement is week commencing 21<sup>st</sup> February 2022. The Services shall be provided within Working Hours on Working Days.

## **9. Optional Contract Extension**

APHA requires the option to extend the contract period in six (6) week blocks up to a total of eighteen (18) weeks.

The options for extending this contract shall be for any or all of the following purposes:

- a) To allow additional time for delivery of the Services. This shall not be for additional payments and will only be permitted to enable delivery of the Services.
- b) To allow for the option of an overall impact assessment of APHA Science to be produced by the Contractor. This shall be invoiced separately in line with the requirements outlined in part 10 of this Specification. This shall be extended with a lead time to be agreed with the Contractor.

## **10. Optional Overall Impact Assessment of APHA Science**

If APHA requires a contract extension for the purposes of delivery of an overall impact assessment of APHA Science, this must meet the following requirements:

- Impact case studies must be used to scale up to produce an overall impact assessment of APHA Science linked to APHA Science strategy;
- The overall impact assessment must use the REF framework to understand the type of output required;
- Impact assessment of APHA Science in the following areas: Social, Technological, Economic, Environmental, Political, Legal and Ethical.
- Overall impact assessment must meet the requirements outlined in Part 4 of this Specification.

The final overall impact assessment must, as a minimum, include the following:

- Executive Summary;
- Background, Purpose and Focus, Current Situation;
- Science area & Inputs used;

- Time period considered;
- Activities undertaken;
- Rationale and Analysis which may include - The value of APHA science to Defra, Devolved Administrations, Other Government Departments, Academia, the public, Nationally and Internationally; Quantifying benefits; Assessment of cost vs. benefit; to Defra, Devolved Administrations, Other Government Departments, Academia, the public, Nationally and Internationally;
- Outputs;
- Impacts identified including the wider Impact of APHA science;
- Conclusions and Recommendations (if any);
- Collaborators involved.

The Contractor is responsible for the outputs, activities and deliverables for the overall impact assessment that can be found in Table C below. Contract dates will be agreed with the Contractor in advance of commencing the optional contract extension for the overall impact assessment of APHA Science.

**Table C:**

## **11. Performance Management Framework (including Key Performance Indicators and Service Credits)**

As part of the Authority's continuous drive to improve the performance of all Contracts, this PMF will be used to monitor, measure, and control all aspects of the Contractor's performance of contract responsibilities.

The purpose of the PMF is to set out the obligations on the Contractor, to outline how the Contractor's performance will be evaluated and to detail the sanctions for performance failure. The Contractor is responsible for the performance of any sub- contractors.

KPIs are essential to align Contractor performance with the requirements of the Authority and to do so in a fair and practical way. KPIs must be realistic, measurable and achievable; they also have to be met otherwise indicating that the service is failing to deliver. Without the use of service credits in such a situation, this service failure places strain on the relationship as delivery falls short of agreed levels.

The proactive approach to correcting failures and addressing their cause improves the relationship and enables a partnership rather than a confrontational style of working. Its focus is on managing and improving service.

The Authority shall review performance against KPI's and, if appropriate, instigate meetings and work closely with the Contractor to agree action plans. The Authority expects the Contractor to agree and implement these plans. If this does not happen, only then shall service credit principles be applied.

### **The KPIs for this Contract are set out at Annex A**

#### **Service Credit Principles**

The use of service credits is governed by the following principles:

Service credits sit within the wide service management approach being pursued by the Contractor and the Authority. Use of service credits does not preclude any other remedy for failure of performance available to the Authority under the terms and conditions of the contract.

The service credit regime shall be instigated on each occasion where there is a service failure. Failure to meet a KPI may also give rise to a remediation plan.

- KPIs with a service credit rating of one (1) will have a service credit of three per cent (3%) of the invoice amount for the monitoring period, applied for each KPI

failure.

- KPIs with a service credit rating of two (2) will have a service credit of five per cent (5%) of the invoice amount for the monitoring period, applied for each KPI failure.
- The maximum annual service credit to be applied will be no more than ten per cent (10%) of the total annual contract value per Contractor.

The Authority has full and complete discretion on whether to claim all, part or none of a service credit to which it is due.

Service credits claimed shall be paid to APHA as a credit note within one (1) month following the date at which the service credits were applied.

The full, agreed service credit regime will operate from the Contract start date until the end of the contract period. The KPIs may be adjusted to ensure that they are appropriate and achievable.
