<b>IPR Conditions (Y/N)</b>		<i>If yes, please complete DEFFORM 315</i>		
<b>Priority (Please Select)</b>		<b>Medium</b>		
<p><b>A. Description and Scope of Task:</b>                      The Variable Speed Tactical Generator (V-TEG) is a diesel engine powered generator providing 230 vAC, 50 Hz, single-phase power for field units. The V-TEG provides a nominal power output of 6.5 kW and has two modes of operation; normal mode and high altitude mode. The V-TEG control system is supplied by a 24 vDC power supply generated by two 12 V batteries connected in series. Control of the V-TEG is achieved via an internal Control Area Network bus communication network.</p> <p>An internal audit report completed in June 2015 recommended that a recent internal audit report highlighted that there was no legislation compliance assessment information available.</p> <p>This task is to create a V-TEG legislation compliance assessment in accordance with Def Stan 00-56 Paragraph 7.2 and JSP 454 Regulations 9 and 10.</p>
