IMPORTANT WARNING

The information concerning the location and/or depth of the public utility apparatus provided on this drawing is indicative only. No guarantee as to its accuracy is either given or implied. The drawing should not be relied upon in the event of excavations or other works made near to the apparatus, which may exist at various depths and may deviate from the marked route. It should also be noted that a single line shown on the plan may indicate the presence of more than one cable, pipe or associated item.

The contractor is required to ensure that the locations of below ground services are established/confirmed on site prior to any excavations or other works which may affect the existing services.

Prior to any works on site, the contractor shall refer to:
 HSG47 - Avoiding Danger from Underground Services (by HSE)
 HGS185 - Health & Safety in Excavations (by HSE)
 Construction Information Sheet (CIS) 8 - Safety in Excavations (by HSE)
 General Series (GS) 6 - Avoidance of Danger from Overhead Electric Lines (by HSE)
