DESCRIPTION OF THE WORK

A13 DESCRIPTION OF THE WORK

110 PREPARATORY WORK BY OTHERS

- Works: Carried out under a separate contract and completed before the start of work on site for this Contract.
- Description: None.

120 THE WORKS

- Description: To achieve the security requirements within the existing collections store on the first floor of Explosion Museum it is proposed to fit new sash locks to the existing windows and upgrade the current fixings on the security grilles to security type bolts. Alongside this the existing modern door will be replaced with a set of double security doors from the Royal Marines Museum. To improve the environmental conditions within the store it is proposed to install an air conditioning unit on the wall at high level internally.

To create the collections workspace it is proposed to build a new timber boarded partition to match the existing modern glazed and timber screen at the top of the stairs. This screen will also be relocated to create a corridor with direct access to the new collections workspace. The door removed from the collections store will be installed as a secondary door to ensure there are two safe means of escape in the event of a fire. New lighting, power and data will be installed, this will be surface fixed, following wall and ceiling junctions to minimise visual impact except where these are located on the new partitions and can be concealed and flush mounted. As per the collections store an air conditioning unit will be installed. .

130 WORK BY OTHERS CONCURRENT WITH THE CONTRACT

- Description: None.

140 COMPLETION WORK BY OTHERS
