Correcting Defects	41	
	41.1	The <i>Contractor</i> corrects a Defect whether or not the <i>Employer</i> notifies him of it.
	41.2	Before Completion, the <i>Contractor</i> corrects a notified Defect before it would prevent the <i>Employer</i> or others from doing their work.

	50.2	The <i>Contractor's</i> application for payment includes details of how the amount has been assessed. The first application for payment is for the amount due. Other applications are for the change in the amount due since the previous payment
	50.3	The amount due is
		<ul style="list-style-type: none"> • the Price for Work Done to Date • plus other amounts to be paid to the <i>Contractor</i> (including any tax which the law requires the <i>Employer</i> to pay to the <i>Contractor</i>) • less amounts to be paid by or retained from the <i>Contractor</i>.
	50.4	The <i>Employer</i> corrects any wrongly assessed amount due and notifies the <i>Contractor</i> of the correction before paying the <i>Contractor</i> .
	50.5	The <i>Contractor</i> pays <i>delay damages</i> for each day from the Completion Date until Completion.
	50.6	An amount is retained from the <i>Contractor</i> in the assessment of each amount due until Completion. This amount is the <i>retention</i> applied to the Price for Work Done to Date. The amount retained is halved in the first assessment made after Completion and remains at this amount until the <i>assessment day</i> after the Defects Certificate is issued. No amount is retained in the assessment made after the Defects Certificate has been issued.
	50.7	If the <i>Employer</i> requires a programme to be submitted, one quarter of the Price for Work Done to Date is retained in assessments of the amount due until the <i>Contractor</i> has submitted a first programme to the <i>Employer</i> showing the information which the Works Information requires.
Payment	51	
	51.1	Each payment is made within three weeks after the next <i>assessment day</i> which follows receipt of an application for payment by the <i>Contractor</i> .

- 51.2 Interest is paid if a payment is late or includes a correction of an earlier payment. Interest is assessed from the date by which the correct payment should have been made until the date when it is paid. 60.1

The following are compensation events.

- (2) The *Employer* does not allow access to and use of the *site* to the *Contractor* as necessary for the work included in this contract.
- (3) The *Employer* does not provide something which he is to provide by the date for providing it stated in this contract.
- (4) The *Employer* gives an instruction to stop or not to start any work.

- (6) The *Employer* does not reply to a communication from the *Contractor* within the period required by this contract.
- (7) The *Employer* changes a decision which he has previously communicated to the *Contractor*.
- (8) The *Employer* instructs the *Contractor* to search for a Defect and no Defect is found.
- (9) The *Contractor* encounters physical conditions which
 - are within the *site*,
 - are not weather conditions and
 - an experienced contractor would have judged, at the date of the *Contractor's* Offer, to have such a small chance of occurring that it would have been unreasonable to have allowed for them.

Only the difference between the physical conditions encountered and those for which it would have been reasonable to have allowed is taken into account in assessing a compensation event.

- (10) The *Contractor* is prevented by weather from carrying out all work on the *site* for periods of time, each at least one full working day, which are in total more than one seventh of the total number of days between the *starting date* and the Completion

Date. In assessing this event, only the working days which exceed this limit and on which work is prevented by no other cause are taken into account.

- (11) The *Employer* notifies a correction to an assumption which he has stated about a compensation event.
- (12) An event which
- stops the *Contractor* completing the *works* or
 - stops the *Contractor* completing the *works* by the Completion Date and which
 - neither Party could prevent,

 - is not one of the other compensation events stated in this contract.
- (13) A difference between the final total quantity of work done and the quantity stated for an item in the Price List.
- (14) A loss of or damage to the *works*, Plant and Materials which
- is not the fault or responsibility of the *Contractor* or

- 60.2 In judging the physical conditions for the purposes of assessing any compensation event, the *Contractor* is assumed to have taken into account
- the Site Information,
 - publicly available information referred to in the Site Information,
 - information obtainable from a visual inspection of the *site* and
 - other information which an experienced contractor could reasonably be expected to have or to obtain.

**Notifying
compensation events** 61

- 61.1 The *Contractor* notifies the *Employer* of an event which has happened or which he expects to happen as a compensation event if
- the *Contractor* believes that the event is a compensation event and □ the *Employer* has not notified the event to the *Contractor*.
- If the *Contractor* does not notify a compensation event within eight weeks of becoming aware of the event he is not entitled to a change in the Prices or Completion Date unless the event arises from an instruction of the *Employer*.
- 61.2 If the *Employer* decides that an event notified by the *Contractor*
- arises from a fault of the *Contractor*,
 - has not happened and is not expected to happen,
 - has no effect upon the Defined Cost or upon Completion or
 - is not one of the compensation events stated in this contract, he notifies the *Contractor* of his decision that the Prices and the Completion Date are not to be changed.
- If the *Employer* decides otherwise, he instructs the *Contractor* to submit a quotation for the event. The *Employer* notifies the decision to the *Contractor* or instructs the *Contractor* to submit a quotation within one week of the *Contractor's* notification to the *Employer* of the event.
- 61.3 If the *Employer* decides that the *Contractor* did not give an early warning of the event which the *Contractor* could have given, the *Employer* notifies that decision to the *Contractor* when instructing the *Contractor* to submit a quotation.

	61.4	If the <i>Employer</i> decides that the effects of a compensation event are too uncertain to be forecast reasonably, the <i>Employer</i> states assumptions about the event when instructing the <i>Contractor</i> to submit a quotation. Assessment of the event is based on these assumptions. If any of them is later found to have been wrong, the <i>Employer</i> notifies a correction.
	61.5	A compensation event is not notified after the <i>defects date</i> .
Quotations for compensation events	62	
	62.1	A quotation for a compensation event comprises proposed changes to the Prices or rates and any delay to the Completion Date assessed by the <i>Contractor</i> . The <i>Contractor</i> submits details of his assessment with each quotation. The <i>Contractor</i> submits a quotation within two weeks of being instructed to do so by the <i>Employer</i> or, if no such instruction is received, within two weeks of the notification of a compensation event.
	62.2	The <i>Employer</i> may instruct the <i>Contractor</i> to submit a quotation for a proposed instruction or a proposed changed decision. The <i>Contractor</i> does not put a proposed instruction or a proposed changed decision into effect.
	62.3	If the <i>Contractor</i> does not provide a quotation for a compensation event within the time allowed, the <i>Employer</i> assesses the compensation event and notifies the <i>Contractor</i> of his assessment.
	62.4	The <i>Employer</i> replies within two weeks of the <i>Contractor's</i> submission. For a proposed instruction or proposed changed decision, the <i>Employer's</i> reply is <ul style="list-style-type: none"> • notification that the proposed instruction will not be given or the proposed changed decision will not be made, • notification of the instruction or changed decision as a compensation event and acceptance of the quotation or • notification of the instruction or changed decision as a compensation event and notification that the <i>Employer</i> does not agree with the quotation. For other compensation events, the <i>Employer's</i> reply is <ul style="list-style-type: none"> • acceptance of the quotation or • notification that the <i>Employer</i> does not agree with the quotation.
	62.5	If the <i>Employer</i> does not agree with the quotation, the <i>Contractor</i> may submit a revised quotation within two weeks of the <i>Employer's</i> reply. If the <i>Employer</i> does not agree with the revised quotation or if none is received, the <i>Employer</i> assesses the compensation event and notifies the assessment.
	62.6	After discussing with the <i>Contractor</i> different ways of dealing with the compensation event which are practicable, the <i>Employer</i> may instruct the <i>Contractor</i> to submit alternative quotations for a compensation event.
Assessing compensation events	63	
	63.1	For a compensation event which only affects the quantities of work shown in the Price List, the change to the Prices is assessed by multiplying the changed quantities of work by the appropriate rates in the Price List.

- 63.2 For other compensation events, the changes to the Prices are assessed by forecasting the effect of a compensation event upon the Defined Cost or, if the compensation event has already occurred, the assessment is based upon the Defined Cost due to the event which the *Contractor* has incurred. Effects on Defined Cost are assessed separately for
- people employed by the *Contractor*,
 - Plant and Materials,
 - work subcontracted by the *Contractor* and □ Equipment.
- The *Contractor* shows how each of these effects is built up in each quotation for a compensation event. The percentages for overheads and profit stated in the *Contractor's* Offer are applied to the assessed effect of the event on the Defined Cost.
- 63.3 The effects of compensation events upon the Defined Cost are assessed at open market or competitively tendered prices with deductions for all discounts, rebates and taxes which can be recovered. The following are deducted from the Defined Cost for the assessment of compensation events
- the cost of events for which this contract requires the *Contractor* to insure and
 - other costs paid to the *Contractor* by insurers.
- 63.4 A delay to the Completion Date is assessed as the length of time that, due to the compensation event, Completion is forecast to be delayed.
- 63.5 If the *Employer* has decided and notified the *Contractor* that the *Contractor* did not give an early warning of a compensation event which an experienced contractor could have given, the event is assessed as if the *Contractor* had given early warning
- 63.6 Assessment of the effect of a compensation event includes risk allowances for cost and time for matters which are at the *Contractor's* risk under this contract. The cost of preparing quotations for compensation events is not included in the assessment of compensation events.
- 63.7 Assessments are based on the assumptions that the *Contractor* reacts competently and promptly to the compensation event and that any additional cost and time due to the event are reasonably incurred.
- 63.8 A compensation event which is an instruction to change the Works Information in order to resolve an ambiguity or inconsistency is assessed as if the Prices and the Completion Date were for the interpretation most favourable to the Party which did not provide the Works Information.
- 63.9 Assessments for changed Prices for compensation events are in the form of changes to the Price List.
- 63.10 The assessment of a compensation event is not revised if a forecast upon which it is based is shown by later recorded information to have been wrong.

If the Parties have not chosen an adjudicator, either Party may ask the <i>Adjudicator nominating body</i> to choose one. The <i>Adjudicator nominating body</i> chooses an adjudicator within four days of the request. The chosen adjudicator becomes the <i>Adjudicator</i>.</p> <p>(3) The <i>Adjudicator</i>, his employees and agents are not liable to the Parties for any action or failure to take action in an adjudication unless the action or failure to take action was in bad faith.</p>

The adjudication 93.3

- (1) A Party may refer a dispute to the *Adjudicator* if
- the Party notified the other Party of the dispute within four weeks of becoming aware of it and
 - between two and four further weeks have passed since the notification.
- If a disputed matter is not notified and referred within the times set out in this contract, neither Party may subsequently refer it to the *Adjudicator* or the *tribunal*.
- (2) The Party referring the dispute to the *Adjudicator* includes with his referral information to be considered by the *Adjudicator*. Any more information is provided within two weeks of the referral. This period may be extended if the *Adjudicator* and the Parties agree.
- (3) The *Adjudicator* may take the initiative in ascertaining the facts and the law related to the dispute. He may instruct a Party to take any other action which he considers necessary to reach his decision and to do so within a stated time.
- (4) A communication between a Party and the *Adjudicator* is communicated to the other Party at the same time.
- (5) If the *Adjudicator's* decision includes assessment of additional cost or delay caused to the *Contractor*, he makes his assessment in the same way as a compensation event is assessed.
- (6) The *Adjudicator* decides the dispute and notifies the Parties of his decision and his reasons within four weeks of the referral. This period may be extended by up to two weeks with the consent of the referring Party, or by any period agreed by the Parties. If the *Adjudicator* does not notify his decision within the time allowed, either Party may act as if the *Adjudicator* has resigned.
- (7) Unless and until the *Adjudicator* has notified the Parties of his decision, the Parties proceed as if the matter disputed was not disputed.
- (8) The *Adjudicator's* decision is binding on the Parties unless and until revised by the *tribunal* and is enforceable as a matter of contractual obligation between the Parties and not as an arbitral award. The *Adjudicator's* decision is final and binding if neither Party has notified the other within the times required by this contract that he intends to refer the matter to the *tribunal*.

Review by the tribunal 93.4

- A Party may refer a dispute to the *tribunal* if
- the Party is dissatisfied with the *Adjudicator's* decision or
 - the *Adjudicator* did not notify a decision within the time allowed and a new adjudicator has not been chosen,
- except that neither Party may refer a dispute to the *tribunal* unless they have notified the other Party of their intention to do so not more than four weeks after the end of the time allowed for the *Adjudicator's* decision.

If the United Kingdom Housing Grants, Construction and Regeneration Act 1996 as amended by the Local Democracy, Economic Development and Construction Act 2009 (the Act) applies to this contract, the following additional conditions apply.

Definitions 1.1

- (1) The payment due date for an application for payment by the *Contractor* is the *assessment* day which follows receipt of that application.
- (2) The final date for payment is three weeks after the payment due date.

Assessing the amount due 1.2 The *Contractor's* application for payment is the notice of payment specifying the sum that the *Contractor* considers to be due at the payment due date (the notified sum). The *Contractor's* application states the basis on which the amount is calculated and includes details of the calculation.

- 1.3 The following replaces clause 50.4

If the *Employer* intends to pay less than the notified sum, he notifies the *Contractor* of the amount which the *Employer* considers to be due not later than seven days (the prescribed period) before the final date for payment. The *Employer's* notification states the basis on which the amount is calculated and includes details of the calculation. A Party pays the notified sum unless he has notified his intention to pay less than the notified sum.

Compensation event 1.4 If the *Contractor* exercises his right under the Act to suspend performance, it is a compensation event.

The adjudication 1.5 The following replaces clause 93.3(1)
A Party may issue to the other Party a notice of his intention to refer a dispute to adjudication at any time. He refers the dispute to the *Adjudicator* within one week of the notice.

1.6 The *Adjudicator* may in his decision allocate his fees and expenses between the Parties.
1.7 The *Adjudicator* may, within five days of giving his decision to the Parties, correct the decision to remove a clerical or typographical error arising by accident or omission.
1.8 If the *Adjudicator's* decision changes an amount notified as due, payment of the sum decided by the *Adjudicator* is due not later than seven days from the date of the decision or the final date for payment of the notified amount, whichever is the later.
