## 19 DISPUTE RESOLUTION

19.1 The Parties shall attempt in good faith to negotiate a settlement to any dispute between them arising out of or in connection with the Agreement and such efforts shall involve the escalation of the dispute to an appropriately senior representative of each Party.

19.2 If the dispute cannot be resolved by the Parties within one month of being escalated as referred to in clause 19.1, the dispute may by agreement between the Parties be referred to a neutral adviser or mediator (the "**Mediator**") chosen by agreement between the Parties. All negotiations connected with the dispute shall be conducted in confidence and without prejudice to the rights of the Parties in any further proceedings.

19.3 If the Parties fail to appoint a Mediator within one month, or fail to enter into a written agreement resolving the dispute within one month of the Mediator being appointed, either Party may exercise any remedy it has under applicable law.

## 20 GENERAL

20.1 Each of the Parties represents and warrants to the other that it has full capacity and authority, and all necessary consents, licences and permissions to enter into and perform its obligations under the Agreement, and that the Agreement is executed by its duly authorised representative.

---

OFFICIAL

- 20.2 A person who is not a party to the Agreement shall have no right to enforce any of its provisions which, expressly or by implication, confer a benefit on him, without the prior written agreement of the Parties.
- 20.3 The Agreement cannot be varied except in writing signed by a duly authorised representative of both the Parties.
- 20.4 The Agreement contains the whole agreement between the Parties and supersedes and replaces any prior written or oral agreements, representations or understandings between them. The Parties confirm that they have not entered into the Agreement on the basis of any representation that is not expressly incorporated into the Agreement. Nothing in this clause shall exclude liability for fraud or fraudulent misrepresentation.
- 20.5 Any waiver or relaxation either partly, or wholly of any of the terms and conditions of the Agreement shall be valid only if it is communicated to the other Party in writing and expressly stated to be a waiver. A waiver of any right or remedy arising from a breach of contract shall not constitute a waiver of any right or remedy arising from any other breach of the Agreement.
- 20.6 The Agreement shall not constitute or imply any partnership, joint venture, agency, fiduciary relationship or other relationship between the Parties other than the contractual relationship expressly provided for in the Agreement. Neither Party shall have, nor represent that it has, any authority to make any commitments on the other Party's behalf.
- 20.7 Except as otherwise expressly provided by the Agreement, all remedies available to either Party for breach of the Agreement (whether under the Agreement, statute or common law) are cumulative and may be exercised concurrently or separately, and the exercise of one remedy shall not be deemed an election of such remedy to the exclusion of other remedies.
- 20.8 If any provision of the Agreement is prohibited by law or judged by a court to be unlawful, void or unenforceable, the provision shall, to the extent required, be severed from the Agreement and rendered ineffective as far as possible without modifying the remaining provisions of the Agreement, and shall not in any way affect any other circumstances of or the validity or enforcement of the Agreement.

## **21 NOTICES**

- 21.1 Any notice to be given under the Agreement shall be in writing and may be served by personal delivery, first class recorded or, subject to clause 21.3, e-mail to the address of the relevant Party set out in the Award Letter, or such other address as that Party may from time to time notify to the other Party in accordance with this clause:
- 21.2 Notices served as above shall be deemed served on the Working Day of delivery provided delivery is before 5.00pm on a Working Day. Otherwise delivery shall be deemed to occur on the next Working Day. An email shall be deemed delivered when sent unless an error message is received.
- 21.3 Notices under clauses 15 (Force Majeure) and 16 (Termination) may be served by email only if the original notice is then sent to the recipient by personal delivery or recorded delivery in the manner set out in clause 21.1.

## **22 GOVERNING LAW AND JURISDICTION**

The validity, construction and performance of the Agreement, and all contractual and non-contractual matters arising out of it, shall be governed by English law and shall be subject to the exclusive jurisdiction of the English courts to which the Parties submit.

## **ANNEX 2 – PRICE SCHEDULE**

**Prices will remain firm for the duration of the Contract and any extensions. All rates are exclusive of VAT.**

**REDACTED**

## **ANNEX 3 – STATEMENT OF REQUIREMENT**

### **1. SCOPE OF REQUIREMENT**

- 1.1 The aim of this Contract is to investigate the burning behaviour of selected types of cladding materials (specifically non-ACM), using physical testing at bench/intermediate scale in a laboratory setting, so that the Customer can consider the risk of external fire spread and ensure that its guidance is adequate.
- 1.2 The results of the research are intended to be used to consider the risk of fire spread that selected materials (incorporated as part of a cladding system) could present and, in particular, any risks that might not be readily apparent from standardised small and medium scale classification tests.
- 1.3 This research relates only to the external cladding of buildings. Cladding of other structures, such as bridges, is outside the scope of this contract.
- 1.4 The Customer may also require ad-hoc advice about the fire performance of cladding, or additional testing or research being undertaken on materials either directly related to the test programme, more general research may also be required, this will be agreed with the supplier on an ad-hoc basis.

## 1.5 THE REQUIREMENT

1.6 The aim of the research is to provide technical information about the fire performance of cladding that can be used to demonstrate compliance with requirement B4 of the Building Regulations 2010.

1.6.1 The project objectives are to:

- Improve the understanding of the burning behaviour for selected cladding system samples.
- Improve the understanding of implications on safety levels within the buildings in which the selected cladding materials are installed.
- Identify cladding materials that require further investigation.

1.6.2 The specific tasks required for the project are:

- Establish and manage an expert steering group to advise on the project.
- Establish the current state of knowledge about the fire performance of cladding materials.
- Review the cladding materials suggested by the Customer and identify other cladding materials that could present unacceptable fire spread.
- Develop a bench/intermediate-scale test methodology to assess the fire performance of identified materials when incorporated as part of cladding system.
- Undertake bench/intermediate-scale testing of agreed types of cladding materials.
- Based upon the results of bench/intermediate scale tests and expert knowledge, assess whether the fire performance of each of the types of cladding material tested is likely to comply with the external fire spread requirement B4 of the Building Regulations 2010.
- Select cladding materials (based on fire dynamics identified in the bench/intermediate testing), that would benefit from further investigation, such as via large scale system testing to British Standard BS8414-1, in order to demonstrate a wall system's compliance with Building Regulations guidance.
- Assess likely fire interactions of each of the cladding materials tested with common fixing systems, other building elements (e.g. windows) and other materials used in the external wall construction (e.g. insulation, membranes).

#### **Task 7 Assessment**

- Compare the test results against the performance criteria for each of the materials tested.
- Identify typical construction build-ups for each material tested.
- Based upon the indicative bench/intermediate scale test results and expert judgment, assess whether the fire performance of each of the materials tested could be expected to comply with requirement B4 if used in each of the typical build-ups.
- Identify where additional testing (e.g. large scale testing to BS 8414) is needed, e.g. for borderline cases.
- Prepare a technical report on the assessment.

#### **Task 8 Publishable report**
