Staffordshire County Council E-Tendering Portal User Guide

Important Information - Points to remember

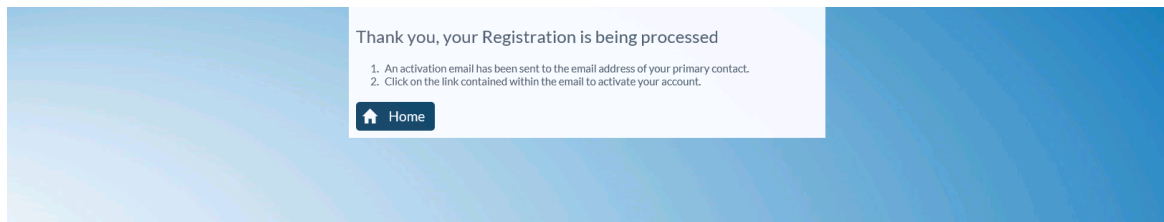

- It is the supplier's responsibility to ensure that a copy of ALL documentation is retained by the supplier prior to any submission.
- The supplier is required to download this document (and any other) from the portal to a secure location on their own server / computer drive. From this location the supplier is then able to populate and save the questionnaire as requested.
- Please ensure no individual attachment is greater than **10MB** in file/memory size.
- It is recommended that all submissions are PDF formatted prior to submission.
- Ensure that no uploaded portal attachments possess any software virus that prevents the County Council opening the documents post-deadline. Ensure also that any software media / file types used are commonplace to the County Council and that file types are not corrupt when uploaded. **It is always recommended to present documents in a PDF format to avoid such issues.** The County Council reserves the right to disqualify any tender submission which cannot be opened (for the reasons discussed) post-deadline.
- **NOTE** – It is the suppliers' responsibility to maintain an 'active' tender account throughout the process. Accounts tend to become inactive if a supplier mistakenly keys-in an incorrect password several times. It is not the responsibility of the Council to monitor the status of tenderer accounts. Please note for suppliers' who are subsidiaries or franchises of an organisation you will need to have your own email account and register for a password unique to your organisation.
- Please be aware that any tender communications may not be available to view if an account is inactive. In the first instance, please contact the Buyer direct to get the account re-instated. It is required that the supplier regularly checks the status of their tender accounts during a procurement. The Council is not responsible for any missed communications (or the consequences) due to inactive accounts or periods where suppliers take annual leave etc.
- It is the suppliers responsibility to update the eTendering portal with any changes in its staffing
- All returns must be made via the portal only and within the stated timescales.
- Suppliers are required to submit all clarification questions which arise during the Procurement period **in writing using the eTendering portal only**
- Suppliers who decide that they do not wish to apply for an opportunity once they have registered an interest can decline the opportunity. This makes the supplier "inactive" on the opportunity and you will no longer receive dialogues or alerts for that opportunity.
