Core Survey

1 SITE INFORMATION

1.1 Site boundary, extents and access arrangements

The survey is to be undertaken on the M5 J26 NB Exit Slip Road MP 218.3-217.8

All survey work is within Highways England's boundary.

Access to the site will be via the traffic management.

The location of the site is as shown on Figure 01 below:

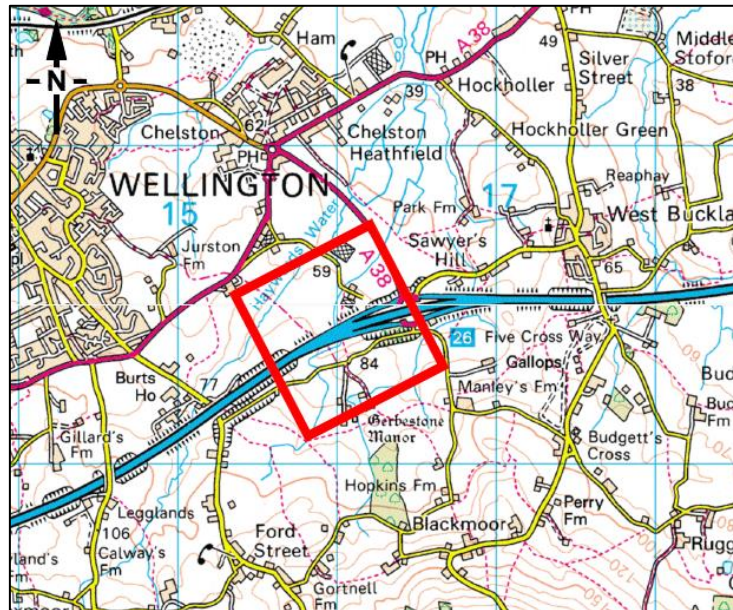

Figure 01: Location Plan

Scheme OSGR Ref:

E 315834.0035 N 19754.6813 to E 316380.0773 N 120005.0796

1.2 Pavement

Made up carriageway construction on the M5 NB, including Thin Surface Course and Hot Rolled Asphalt.

1.3 Drainage

There are highways drainage systems within the site. For details please refer to the STATs drawings attached with PCI.

Pre-survey stats check shall be undertaken prior to coring, it is anticipated however that the survey work will not interfere with any drainage apparatus.

1.4 Geotechnical

Not applicable.

1.5 Soft Estate and Environment

Not applicable.

1.6 Traffic Signs, Road Markings

Road markings are present but works should be undertaken so as not to require reinstatement of these.

1.7 Lighting

Not Applicable.

1.8 Structures and Buildings

Not Applicable.

1.9 Tunnels

Not applicable.

1.10 Technology

Traffic Loop sensors are located within the scheme extents. However, these are not affected by the survey works.

1.11 Statutory Undertakers

Utility apparatus are contained within the site, refer to STATs drawings and Pre-Construction Information.

1.12 Traffic

M5 Northbound Exit Slip Road: AADT = 3,587 vehicles / HGV% = 8.1% (2019). To provide a safe working area, traffic management will be provided by the employer.
