2 Call-Off Contract Specification – Deliverables Context

**Overview of Requirement:** Design, build and host a new platform to replace the current Digital Social Care website. The adult social care sector and wider stakeholders need an engaging hub to host guidance, best practice, and learning resources including interactive tools and coding. It must be the 'go to' place for digital transformation of social care and comply with Government Service Standards. Specific problems we want to address via a new service include:

- Varying levels of digital maturity across the ASC sector
- Lack of confidence using and investing in new technology
- No clear way for identifying and engaging with social care digital leaders.

The successful delivery of guidance and support via the new national digital support platform is a key enabler for the wider success of the NHS Transformation Directorate Adult Social Care Digital Transformation Programme, including specific projects related to cyber security, learning opportunities and the implementation of digital social care records and other care tech. The current digital platform is not fit for purpose for future needs.
