Dear [REDACTED]

Re:

Agreement for the provision of northwest behavioural science community of practice contract – tender reference DN 453632 dated December 2019 – December 2021

Owing to the Covid pandemic the work was paused with agreement by both parties and resumed March 2020 - you the “supplier” agreed to honour the requirements of the contract and have continued to work with Health Education England (as the authority) until March 2022

The value of the contract extension is £15k – total value of the contract is therefore £45k.

Notwithstanding anything to the contrary in the Contract the Authority wishes to extend the Contract Term by 12 months (from the current expiry date **March 2022**. As a consequence, the Contract Term will now expire on **March 31st, 2023**

The amendment to the Contract set out in this letter will become effective on signature of this letter by both parties.

Except as amended by this letter and any previous changes, mutually agreed in writing, the Contract shall remain unchanged.

Yours sincerely,

[REDACTED]

For and on behalf of Health Education England

Alex Reppold, Director of Performance and Delivery, North West.
