A General Contract Provisions

A1. Interpretation

- a. The defined terms in the Contract shall be as set out in **Schedule 1 - Definitions**.
- b. Unless the context otherwise requires:
 - (1) The singular includes the plural and vice versa, and the masculine includes the feminine and vice versa.
 - (2) The words “include”, “includes”, “including” and “included” are to be construed as if they were immediately followed by the words “without limitation”, except where explicitly stated otherwise.
 - (3) The expression “person” means any individual, firm, body corporate, unincorporated association or partnership, government, state or agency of a state or joint venture.
 - (4) References to any statute, enactment, order, regulation, or other similar instrument shall be construed as a reference to the statute, enactment, order, regulation, or instrument as amended, supplemented, replaced or consolidated by any subsequent statute, enactment, order, regulation, or instrument.
 - (5) The heading to any Contract provision shall not affect the interpretation of that provision.
 - (6) Any decision, act or thing which the Authority is required or authorised to take or do under the Contract may be taken or done only by the person (or their nominated deputy) authorised in Schedule 3 (Contract Data Sheet) to take or do that decision, act, or thing on behalf of the Authority.
 - (7) Unless excluded within the terms of the Contract or required by law, references to submission of documents in writing shall include electronic submission.

A2. Amendments to Contract

- a. All amendments to this Contract shall be serially numbered, in writing, issued only by the Authority’s Representative (Commercial), and agreed by both Parties.
- b. Where the Authority or the Contractor wishes to introduce a change which is not minor or which is likely to involve a change to the Contract Price, the provisions of **Schedule 4 (Contract Change Process)** shall apply. The Contractor shall not carry out any work until any necessary change to the Contract Price has been agreed and a written amendment in accordance with **clause A2.a** above has been issued.

A3. Variations to Specification

- a. The Authority’s Representative may, by Notice (following consultation with the Contractor as necessary), alter the Specification as from a date agreed by both Parties and to the extent specified by the Authority, provided that any such variations shall be limited to the extent that they do not alter the fit, form, function or characteristics of the Contractor Deliverables to be supplied under the Contract. The Contractor shall ensure that the Contractor Deliverables take account of any such variations. Such variations shall not require formal amendment of the Contract in accordance with the process set out in **condition A2 (Amendments to Contract)** and shall be implemented upon receipt, or at the date specified in the Authority’s Notice, unless otherwise specified.
- b. Any variations that cause a change to:
 - (1) fit, form, function or characteristics of the Contractor Deliverables;
 - (2) the cost;
 - (3) Delivery Dates;

- (4) the period required for the production or completion; or
- (5) other work caused by the alteration,

shall be the subject to **clause A2 (Amendments to Contract)**. Each amendment under **clause A2** shall be classed as a formal change.

A4. Precedence

a. If there is any inconsistency between the different provisions of the Contract the inconsistency shall be resolved according to the following descending order of precedence:

- (1) Sections A - H (and J - L, if sections J - L are included in this Contract) of the Conditions of the Contract shall be given equal precedence with **Schedule 1 (Definitions of Contract)** and **Schedule 3 (Contract Data Sheet)**;
- (2) **Schedule 2 (Schedule of Requirements)** and, where included, (Acceptance Procedure);
- (3) the remaining Schedules; and
- (4) any other documents expressly referred to in the Contract.

b. If either Party becomes aware of any inconsistency, within or between the documents referred to in **clause A4.a** such Party shall notify the other Party forthwith and the Parties will seek to resolve that inconsistency on the basis of the order of precedence set out in **clause A4.a**. Where the Parties fail to reach agreement, and if either Party considers the inconsistency to be material to its rights and obligations under the Contract, then the matter will be referred to the dispute resolution procedure in accordance with **clause A21 (Dispute Resolution)**.

A5. Severability

If any provision of the Contract is held to be invalid, illegal or unenforceable to any extent then:

- a. such provision shall (to the extent that it is invalid, illegal or unenforceable) be given no effect and shall be deemed not to be included in the Contract but without invalidating any of the remaining provisions of the Contract; and
- b. the Parties shall use all reasonable endeavours to replace the invalid, illegal or unenforceable provision by a valid, legal and enforceable substitute provision the effect of which is as close as possible to the intended effect of the invalid, illegal or unenforceable provision.

A6. Assignment of Contract

Neither Party shall be entitled to assign the Contract (or any part thereof) without the prior written consent of the other Party.

A7. Waiver

- a. No act or omission of either Party shall by itself amount to a waiver of any right or remedy unless expressly stated by that Party in writing. In particular, no reasonable delay in exercising any right or remedy shall by itself constitute a waiver of that right or remedy.
- b. No waiver in respect of any right or remedy shall operate as a waiver in respect of any other right or remedy.

A8. Third Party Rights

Notwithstanding anything to the contrary elsewhere in the Contract, no right is granted to any person who is not a Party to the Contract to enforce any term of the Contract in its own right and the Parties to the Contract declare that they have no intention to grant any such right.

A9. Governing Law

- a. Subject to **clause A9.d**, the Contract shall be considered as a contract made in England and subject to English Law.

b. Subject to **clause A9.d and A21 (Dispute Resolution)** and without prejudice to the dispute resolution process set out therein, each Party submits and agrees to the exclusive jurisdiction of the Courts of England to resolve, and the laws of England to govern, any actions proceedings, controversy or claim of whatever nature arising out of or relating to the Contract or breach thereof.

c. Subject to **clause A.9.d** any dispute arising out of or in connection with the Contract shall be determined within the English jurisdiction and to the exclusion of all other jurisdictions save that other jurisdictions may apply solely for the purpose of giving effect to this clause A9 and for the enforcement of any judgment, order or award given under English jurisdiction.

d. If the Parties agree pursuant to the Contract that Scots Law should apply then the following amendments shall apply to the Contract:

(1) **Clause A9.a, A9.b and A9.c** shall be amended to read:

“a. The Contract shall be considered as a contract made in Scotland and subject to Scots Law.

b. Subject to **clause A21 (Dispute Resolution)** and without prejudice to the dispute resolution process set out therein, each Party submits and agrees to the exclusive jurisdiction of the Courts of Scotland to resolve, and the laws of Scotland to govern, any actions, proceedings, controversy or claim of whatever nature arising out of or relating to the Contract or breach thereof.

c. Any dispute arising out of or in connection with the Contract shall be determined within the Scottish jurisdiction and to the exclusion of all other jurisdictions save that other jurisdictions may apply solely for the purpose of giving effect to this **clause A9** and for the enforcement of any judgment, order or award given under Scottish jurisdiction.”

(2) **Clause A21.b** shall be amended to read:

“In the event that the dispute or claim is not resolved pursuant to **clause A21.a** the dispute shall be referred to arbitration. Unless otherwise agreed in writing by the Parties, the arbitration and this clause **A21.b** shall be governed by the Arbitration (Scotland) Act 2010. The seat of the arbitration shall be Scotland. For the avoidance of doubt, for the purpose of arbitration the tribunal shall have the power to make provisional awards pursuant to Rule 53 of the Scottish Arbitration Rules, as set out in Schedule 1 to the Arbitration (Scotland) Act 2010.”

e. Each Party warrants to each other that entry into the Contract does not, and the performance of the Contract will not, in any way violate or conflict with any provision of law, statute, rule, regulation, judgement, writ, injunction, decree or order applicable to it. Each Party also warrants that the Contract does not conflict with or result in a breach or termination of any provision of, or constitute a default under, any mortgage, contract or other liability, charge or encumbrance upon any of its properties or other assets.

f. Each Party agrees with each other Party that the provisions of this **clause A9** shall survive any termination of the Contract for any reason whatsoever and shall remain fully enforceable as between the Parties notwithstanding such a termination.

g. Where the Contractor's place of business is not in England or Wales (or Scotland where the Parties agree pursuant to this Contract that Scots Law should apply), the Contractor irrevocably appoints the solicitors or other persons in England and Wales (or Scotland where the Parties agree pursuant to the Contract that Scots Law should apply) detailed in **Schedule 3 (Contract Data Sheet)** as its agents to accept on its behalf service of all process and other documents of whatever description to be served on the Contractor in connection with any litigation or arbitration within the English jurisdiction (or Scottish jurisdiction where the Parties agree pursuant to this Contract that Scots Law should apply) arising out of or relating to the Contract or any issue connected therewith.

A10. Entire Agreement

This Contract constitutes the entire agreement between the Parties relating to the subject matter of the Contract. The Contract supersedes, and neither Party has relied upon, any prior negotiations, representations and undertakings, whether written or oral, except that this condition shall not exclude liability in respect of any fraudulent misrepresentation.

A11. Disclosure of Information

- a. Subject to **clauses A11.d, A11.e, A11.h and A14** each Party:
- (1) shall treat in confidence all Information it receives from the other;
 - (2) shall not disclose any of that Information to any third party without the prior written consent of the other Party, which consent shall not unreasonably be withheld, except that the Contractor may disclose Information in confidence, without prior consent, to such persons and to such extent as may be necessary for the performance of the Contract;

 - (2) has the right to use or disclose the Information in accordance with other Conditions of the Contract; or
 - (3) can show:
 - (a) that the Information was or has become published or publicly available for use otherwise than in breach of any provision of the Contract or any other agreement between the Parties;
 - (b) that the Information was already known to it (without restrictions on disclosure or use) prior to receiving the Information under or in connection with the Contract;
 - (c) that the Information was received without restriction on further disclosure from a third party which lawfully acquired the Information without any restriction on disclosure; or
 - (d) from its records that the same Information was derived independently of that received under or in connection with the Contract;
- provided that the relationship to any other Information is not revealed.
- e. Neither Party shall be in breach of this condition where it can show that any disclosure of Information was made solely and to the extent necessary to comply with a statutory, judicial or parliamentary obligation. Where such a disclosure is made, the Party making the disclosure shall ensure that the recipient of the Information is made aware of and asked to respect its confidentiality. Such disclosure shall in no way diminish the obligations of the Parties under this condition.
- f. The Authority may disclose the Information:

and for the purposes of the foregoing, references to disclosure on a confidential basis shall mean disclosure subject to a confidentiality agreement or arrangement containing terms no less stringent than those placed on the Authority under this condition.

g. Before sharing any Information in accordance with **sub-clause A11.f** above, the Authority may redact the Information. Any decision to redact Information made by the Authority shall be final.

h. The Authority shall not be in breach of the Contract where disclosure of Information is made solely and to the extent necessary to comply with the Freedom of Information Act 2000 (the "Act") or the Environmental Information Regulations 2004 (the "Regulations"). c. The Authority may consult with the Contractor before redacting any Information from the Transparency Information in accordance with **clause A14.b**. The Contractor acknowledges and accepts that its representations on redactions during consultation may not be determinative and that the decision whether to redact Information is a matter in which the Authority shall exercise its own discretion, subject always to the provisions of the Freedom of Information Act 2000 or the Environmental Information Regulations 2004.

b. The Contractor shall ensure, to the extent that they are applicable, that the Conditions of the Contract are reflected in any subcontracts for any part of the Contractor Deliverables.

c. In all circumstances the Contractor shall ensure that all subcontracts in relation to this Contract include:

If any claim or action relevant to such authorisation arises, it shall be promptly notified to the Authority. The Contractor is not authorised to enter into any substantive correspondence in such matter nor in any way to act on behalf of the Authority in any such claim or action. Any arrangement between the Contractor and Subcontractor to enable the Contractor to underwrite their indemnities to the Authority under this Condition is a matter between the Contractor and the Subcontractor.

g. Where the Contractor subcontracts work under the Contract, which is likely to be subject to foreign export control, the Contractor shall use reasonable endeavours to incorporate in each subcontract the terms set out in the relevant parts of **SC3 Schedule “Export Licence”**. b. Each notice of change of Control shall be taken to apply to all contracts with the Authority.

c. The Authority may, acting reasonably, terminate the Contract by giving written notice to the Contractor within six (6) months of the Authority being notified or becoming aware that the Contractor has undergone a change of Control where the Contractor has failed to address the Authority’s concerns to the Authority’s satisfaction in accordance with **clause A18.a**, or has failed to supply or withheld the Information required under **clause A18.a**.

1.0 Introduction

1.1 The equipment covered by this Statement of Work (SoW) is managed by the Vehicle Support Team (VST), Armoured Tracks Portfolio (ATP) who provides the capability for BDSG to ensure there are sufficient repaired armoured vehicle seats available to support the requirements of Army HQ Command Acquisition Support Plan (CASP) and Army Training activities and Operational commitments. Table 1A provides detail of the equipment covered by this SoW

3.2 This document is intended as an outline specification detailing the engineering requirement to enable a company to apply their expertise to produce a compliant product that meets the in-service user requirements, which shall be acceptable to the Authority and for which a warranty shall be provided. The performance of completed assemblies shall meet or exceed that of any earlier Build Standards. Should any differences exist between the OEM and MoD specifications, either in build or test criteria, the MoD will generally take precedence. Clarification should be sought from the Babcock DSG Repair Manager (RM).

3.3 The demanding operational role of Armed Service equipment is significantly different to that of equivalent commercial equipment. It is essential to ensure that this equipment proves reliable when used and that the end user has the necessary confidence that it will survive the rigours of Service application.

3.4 It is a requirement of the MoD that Contractors hold a current recognised third party Quality Accreditation Certification (UKAS or International equivalent). For the work requirement of this specification, the Contractor shall be registered in accordance with the requirement of ISO 9001:2008 suitably scoped as a minimum to fully support the repair activities required for this type of equipment. The Contractor will need to demonstrate how they intend to manage the transition to ISO 9001:2015 by September 2018.

3.5 There may be circumstances, such as urgent operational requirements (UOR) where it will be to the Authority's benefit to accept delivery of products that do not conform to contract requirements, as detailed in Defence Standard 05-61 (Part 1) (Concessions), but there must be a clear and demonstrable benefit to the Authority and approval must be given by the Babcock DSG RM, (in writing), before this takes place.

3.6 Any quantities referred to are estimated quantities only. The Authority may order more or less than those referred to. Any figures are for guidance only and no guarantee can be given that any specific quantities of repairable items will become available.

2.0 Publications

2.1 Contractors are responsible for obtaining the latest OEM publications, parts lists and supersession lists for the equipment, these drawings and spares lists will be required to be issued to the RM, in order to allow for engineering discussions and scrutiny of any Strip and Survey Reports.

2.2 Publications produced by the MoD for Service use are, in general, based upon the commercial publications but the format is specific to the Service user. Contractors are responsible for obtaining and maintaining the latest issues of these publications.

2.3 Publications applicable to the assemblies within this requirement are covered in Table 2 below:

AQAP 2105	NATO Requirements for Deliverable Quality Plans

3.0 Documentation

3.1 A draft quality plan (QP) will be required at the ITT stage to demonstrate how equipment is to be managed. The completed QP shall be submitted within three months of the commencement of the contract. The QP should identify all risk areas and detail how they will be mitigated and managed throughout the duration of the contract. The QP shall reference procedures, developed in accordance with the Contractors Quality Registration, which detail how control of the repair relating to the Company Quality Assurance processes will be achieved. Inspection and test points

shall be clearly indicated. Documentation relating to critical or safety related items and assemblies shall be highlighted.

3.2 Following the provision of equipment for repair under this contract¹, the Contractor is required to submit a strip survey report to the Babcock DSG Repair Manager (RM) fully identifying the requirement for all work relating to the assembly, including costs. No work shall be undertaken by the Contractor until this strip survey report and the associated costs have been sanctioned by the Babcock DSG RM and authority is given to proceed.

3.3 At the commencement of the Contract, and thereafter at reasonable intervals depending upon need arising and priorities, the Babcock DSG RM and Contractor shall agree a "production plan" for the repair. The Contractor shall provide a monthly report on the progress of the repair work against the plan to the Babcock DSG RM. This '*Contract Status Report*' must include expected delivery dates, financial accrual information and any mitigating factors to support repair and/or delivery variations.

3.4 Records, comprising repair, calibration, inspection, modifications, spares, configuration changes and test reports as applicable and defined in this specification, shall be maintained by the Contractor. Additionally the Contractor is to keep records of all visits / survey reports, approvals and costs incurred in the repair / manufacture of the Contractors deliverables. Where there is a legislative requirement, documents are to be kept for the period specified in that legal requirement. All records must be made available to the Authority as required.

4.0 Repair Policy

4.1 Assemblies submitted for repair will have been removed from service for a multitude of reasons². The requirement for the remanufacture of these assemblies is to give an expected life of not less than eighty percent of that of a new assembly. This specification is not to be considered as comprehensive for the work requirement and is not to be used as a reason to limit any work on the assembly. It is the Contractor's responsibility to produce a comprehensive repair specification for each item and to ensure that the quality of the assembly returned after refurbishment shall meet the requirement of "as new" with the stated life requirement.

4.2 Fully priced estimates shall be required for any assembly not considered by the repairer as economic to repair. These must be submitted at the survey stage (before work commences) and not be a result of back stripping or cannibalisation. The Authority will only agree Beyond Economic Repair (BER) classification where the Contractor has been able to demonstrate that their cost to repair is greater than the eighty percent of new buy cost³ as supplied to the MoD. Once BER has been agreed the Authority will issue disposal instructions for the scrapped carcass accordingly.

¹ For the purposes of DEFCON 611 all contractor deliverables issued under the contract will be issued as a Contract work Item (formerly on Contract Loan) basis.

² The contractor is advised that no guarantee can be given or responsibilities accepted by the Authority regarding the completeness or correctness of equipment issued for repair, or give any indications of the level of repair required.

³ This is the general guide criteria but can be varied depending upon stock levels, new buy time limits and supply urgency, the Babcock DSG Repair Manager will advise in all BER requests.

4.3 Any remanufacture of the assembly and its ancillaries shall be to the latest MoD approved OEM specification and modification state, using approved procedures in accordance with the current service / workshop manual for the item. Completed assemblies, including ancillaries, shall be tested to the OEM test specification. The performance and quality standard of the assembly shall meet or exceed the requirement of the OEM specification. Records of performance tests and results as applicable shall be supplied as stated in this specification. All assemblies and ancillaries shall be covered by a warranty as defined in the terms and conditions of the Contract.

4.4 Procurement of all replacement parts used in the repair shall be the responsibility of the Contractor. All parts shall meet or exceed the OEM specification and shall be purchased from approved suppliers. Certificates of Conformity (CoC) shall be obtained for all parts which have not been sourced through the OEM and shall be made available to the Babcock DSG RM or a nominated representative when requested.

4.5 The following items are to be considered as mandatory 100% replacement components, regardless of their condition:

4.5.1 All seals, 'O' rings and gaskets.

4.5.2 All throw away locking devices, tab washers, nyloc nuts, split pins, retaining rings and locking wire.

4.5.3 All flexible hoses.

4.5.4 All 'P' clips.

4.5.5 Screws, nuts, bolts and spacers.

4.5.6 Any shelf-life items.

4.6 The Contractor has an obligation towards safety. Any failures or incidents in relation to the equipment which affects safety shall be reported to the Babcock DSG RM without delay. The Babcock DSG RM shall be entitled to require action to be taken to correct the failure and to prevent reoccurrence.

4.7 All modifications approved by the OEM and MoD as defined in the latest technical documentation shall be incorporated as part of the repair. Unauthorised modifications shall not be incorporated.

4.8 Pre-modified units are required to be uplifted to the new build standard including latest modifications.

4.9 The Strip and Survey Reports (SSR) are to contain menu priced repairs based on the severity of the inspection standards. All SSR reports are to be submitted to the RM in the first instance before any repairs are carried out. The SSR prices are the final cost and cannot attract a different price once all work is complete.

5.0 Repair Requirement

5.1 Assemblies received for repair are to be checked for correct nomenclature and part number and a report produced detailing the modification status (if applicable), serial number, any significant damage and/or missing items.

5.2 Any discrepancies in the items delivered should be reported using MoD Form 445 (Discrepancy Report). These reports shall be completed in accordance with the criteria laid down in the Defence Logistics Framework and distributed as required by the Contract with two copies to the issuing depot and one to the Babcock DSG RM.

5.3 All assemblies and ancillaries must be completely emptied, stripped and thoroughly cleaned and degreased. A detailed inspection of all components shall be carried out, with a full survey report raised to establish the extent of the work requirements. The survey report shall be sent to the Babcock DSG RM for repair approval as per para 3.2.

5.4 The scope of the repairs to be carried out shall be determined from the survey against the OEM specification. At this stage, all those components being replaced are to be disposed of using Contractor's formal quality control procedures. All remaining components shall be inspected to establish their suitability for re-use or reclamation. Those found not suitable are to be disposed of by the Contractor once approval for the repair has been given by the Babcock DSG RM.

5.5 Assemblies are to be rebuilt in accordance with the latest OEM specification using reclaimed and new components, incorporating all approved modifications where applicable.

5.6 The Contractor shall permanently fix an identification plate to the assembly indicating that they have been subject to repair. The plate shall record:

5.6.1 Re-manufactured for MoD.

5.6.2 Authority's Job Number (e.g. PR100012345).

5.6.3 Date of re-manufacture.

5.6.4 Assembly Serial Number (if applicable).

a.

5.6.5 Warranty period (as per the Contract)

6 Performance and Test Acceptance

6.1 On completion of repair the assembly shall be subjected to suitable static and dynamic testing and acceptance by the Contractor.

6.2 Final testing of all assemblies shall be carried out in accordance with SUPACAT / MoD procedures and standards. Where discrepancy exists between the SUPACAT and MoD test specification the MoD specification will generally take precedence but the Contractor shall ultimately seek clarification from the Babcock DSG RM. It is the responsibility of the Contractor to ensure that all test equipment is maintained and calibrated.

6.3 Inspection/test records shall be retained for all assemblies for a period of six years in accordance with the relevant contract reference and made available for the Babcock DSG RM or nominated representatives of the Authority upon request.

7 Preservation & Packing

7.1 Completed assemblies shall be internally and externally preserved in accordance with DEF STAN 81-62 and DEF STAN 81-41.

7.2 All completed assemblies are to be painted, if applicable, to OEM specification in Light Stone Chemical Agent Resistant Coating (CARC) or as referenced to DEFSTAN 80-208 and in accordance with the general procedures as laid down in DEF STAN 03-32.

7.3 Completed assemblies are to be packed in accordance with the relevant Service Packaging Instruction Sheet (SPIS) and to the level shown in the contract or order.

7.4 Any replacement wood used in packaging must be International Standards For Phytosanitary Measures (ISPM 15) compliant and carry the Forestry Commission, Heat Treated, mark (see below) (DEFCON 129 refers).~~Remove Red Text~~

Schedule 7– Export Licence (i.a.w. condition K12) for Contract No: IRM17/1328 This Condition should also be replicated, by Contractors in relevant subcontracts.

Export Licence

1. In this Condition the following words and expressions shall have the meanings set respectively against them:

- a. “Agreement” means this subcontract;
- b. “Authority” means the Secretary of State for Defence of the United Kingdom of Great Britain and Northern Ireland;
- c. “Contract” means Contract No [insert MOD Contract No] between the Authority and the Contractor;
- d. “Contractor” means [insert name of prime contractor];
- e. “First Party” means [insert name of purchaser];
- f. “Second Party” means [insert name of supplier].

2. In this Condition, “foreign” and “Overseas” shall be understood from the position of the Authority and be regarded as “non-UK”.

3. The Second Party shall notify the First Party promptly if the Second Party becomes aware that all or part of any article or service (including information and software) to be delivered under the Agreement is or will be subject to a non-UK export licence, authorisation or exemption or any other related transfer control that imposes or will impose end use, end user, re-export or re-transfer or re-export restrictions, or restrictions on disclosure to individuals based upon nationality, affecting the Authority, the Contractor or both. This does not include the Intellectual Property-specific restrictions of the type referred to in **clause D1 (Third Party Intellectual Property – Rights and Restrictions)** of the First Party’s Conditions of Contract.

4. If requested by the First Party, the Second Party shall give the First Party a summary of every existing or expected licence and restriction referred to in **clause 3** and any related obligation or restriction to the extent that they place an obligation or restriction upon the First Party or the Authority with which the First Party or the Authority must comply, including to the extent applicable to such obligations or restrictions:

- a. the exporting nation, including the export licence number (where known);
- b. the article or service (including software and Information) affected;
- c. the nature of the restriction and obligation;
- d. the authorised end use and end users and other parties;
- e. any specific restrictions on access by third parties, or by individuals based upon their nationality, to the articles or to anything Delivered or used in the performance or fulfilment of the services; and
- f. any specific restrictions on re-transfer or re-export of the articles or of anything Delivered or used in the performance or fulfilment of the services.

The Second Party shall not be required to disclose any of the provisos to a licence (or even the existence of them) to the extent that they do not relate to an obligation or constraint with which the First Party or the Authority must comply.

5. When an export licence is required from a foreign government for the performance of the Agreement, the Second Party shall promptly consult with the First Party on the licence requirements and, where the Second Party is the applicant for the licence:

- a. ensure that when end use or end user restrictions, or both, apply to all or part of any Article or Service to be Delivered under the Contract, the Second Party, unless otherwise agreed with the Authority, identifies in the licence application:

(1) the end user as: Her Britannic Majesty’s Government of the United Kingdom of Great Britain and Northern Ireland (hereinafter “HM Government”), and

(2) the end use as: For the Purposes of HM Government;

- b. include in the submission for the licence a statement that "information on the status of processing this license application may be shared with the [insert name of the Contractor] and the Ministry of Defence of the United Kingdom";
- c. include in the submission the information that the First Party (and any intermediary parties in the supply chain, as applicable) and the Contractor will be recipients and users of the items, including information, for the performance of the Contract.
6. If the information required under **clauses 3 and 4** has been provided previously to the First Party by the Second Party, the Second Party may satisfy these requirements by giving details of the previous notification and confirming they remain valid and satisfy the provisions of **clauses 3 and 4**.
7. If the Second Party becomes aware of any changes in the information notified previously under **clause 3, 4 or 6** that would affect the Contractor's or the Authority's ability to use, disclose, re-transfer or re-export an item or part of it as is referred to in those clauses, the Second Party shall notify the First Party promptly of the change.
8. If the Second Party or any subcontractor in the performance of the Agreement needs to export materiel for which an export licence from a foreign government is required, the responsibility for instituting expeditious action to apply for and obtain the licence shall rest with the Second Party or that subcontractor. The First Party will liaise with his purchaser to enable the Authority to provide all reasonable assistance in obtaining and maintaining any export licence from the foreign government with regards to any defence or security issue that may arise.
9. Where the Agreement performance requires the export of items for which a foreign export licence is required, the Second Party shall include the dependencies for the export licence application, grant and maintenance in the Agreement risk register and in the risk management plan for the Agreement, with appropriate review points. Where there is no requirement under the Agreement for a risk management plan the Second Party shall submit an Export Licence Plan for agreement with the First Party.
10. The Authority may make a written request to the Contractor to seek a variation to the licence conditions to a foreign export licence to enable the Authority to re-export or re-transfer a licensed item or licensed information from the UK to a non-licensed third party. If the Authority makes such a request that is transmitted to the Second Party by the First Party, the Second Party shall, or procure that the Second Party's subcontractor will, expeditiously consider whether or not there is a reason why it should object to making the request and, where it has no such objection, file an application to seek a variation of the applicable export licence in accordance with the procedures of the licensing authority. The First Party shall provide information, certification and other documentation necessary to support the application for the requested variation that it has received. A fair and reasonable charge for this service based on the cost of providing it will be borne by the Authority.
11. Where the Second Party subcontracts work under the Agreement, which is likely to be subject to foreign export control, the Second Party shall use reasonable endeavours to incorporate in each subcontract the same terms as set out in these **clauses 1 - 14**. Where it is not practicable to include these said terms, the Second Party shall report that fact and the circumstances to the First Party.
12. Where the First Party provides materiel (information and items, including software) to enable the Second Party to perform the Agreement, and that materiel is subject to a non-UK export licence or other related technology transfer control as described in **clause 3**:
- a. the First Party may, or at the request of the Second Party, undertake to, give the Second Party a summary of every non-UK export licence or other related technology transfer control of which it is aware that would affect the Second Party's ability to perform the Agreement including, to the extent applicable to the Second Party's performance of the Agreement:
- (1) the exporting nation, including the export licence number (where known);
 - (2) the items or information affected;
 - (3) the nature of the restriction and obligation;
 - (4) the authorised end use and end users;
 - (5) any specific restrictions on access or use by third parties, or by individuals based upon their nationality, to the items or information affected; and
 - (6) any specific restrictions on re-transfer or re-export to third parties of the items or information affected.

b. This will not include Intellectual Property specific restrictions of the type mentioned in **clause D1 (Third Party Intellectual Property – Rights and Restrictions)** in relation to the First Party's Conditions of Contract instead of the Contractor.

c. The Second Party and its subcontractors, where access by these restrictions is also authorised, shall abide by the lawful restrictions so notified by the First Party.

d. The Second Party shall notify the First Party immediately if it is unable for whatever reason to abide by any restriction advised by the First Party to the Second Party under clause 12.

13. Where restrictions are advised by the First Party to the Second Party under **clause 12**, the First Party and the Second Party shall act promptly to mitigate their impact. If these restrictions adversely affect performance of the Agreement by the Second Party, then the First Party shall consult with the Second Party on alternative solutions and the terms of the Agreement shall be amended to give effect to the agreed solution. If no alternative solution satisfying the essential terms of the Agreement is agreed by the Parties then the First Party shall have the right to terminate the Agreement. Termination under these circumstances will be in accordance with the principles of **clause A22 (Termination for Convenience)** of the First Party's Conditions of Contract.

14. Without prejudice to United Kingdom Government's position on the validity of any claim by a foreign government to extra-territoriality, the Authority has undertaken to provide the Second Party with all reasonable assistance to facilitate the granting an export licence by a foreign Government in respect of performance of the Agreement.
