Wandle Valley Regional Park. *'Bringing the Park to Life – From Vision to Reality'*.

Procurement of HLF Resilience Programme Consultancy Team.

Title:

Bringing the Park to Life – From Vision to Reality

Client:

Wandle Valley Regional Park Trust

Summary:

Following a period of consultation resulting in the development of a strategy for the Wandle Valley Regional Park Trust and a successful bid to the Heritage Lottery Funds Resilient Heritage Programme, the Trust wish to procure the services of a multi disciplinary consultancy/ consortium team to support the Trust in its business development and growth.

This will involve business planning, governance reviews and implementation, developing finance and funding models, sub regional spatial planning and implementation framework plans for the delivery of green infrastructure, stakeholder and wider community engagement and participation in a Pan London learning programme.

Term:

The multidisciplinary team will be appointed for a maximum of 12 months.

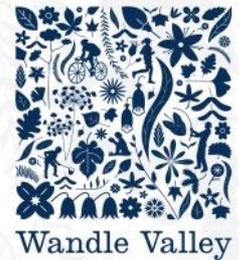

Value:

There is an upper maximum threshold of £122,000.00, for this project.

Keywords:

1. Landscape Architecture
2. Architecture
3. Legal
4. Heritage Lottery Fund
5. Governance
6. Sub regional partnership/ landscape scale
7. Business Planning
8. Spatial planning frameworks
9. Third Sector

Multidisciplinary team competencies:

The Trust wish to recruit a multi-disciplinary team who has clear understanding and demonstrable experience of:

- Strategic planning on a sub-regional landscape scale
- Experience of working on HLF projects and understanding of heritage and social value of landscape scale
- Working with diverse local communities and stakeholders
- A clear understanding of the current political and financial constraints and opportunities for delivering a Green Infrastructure framework
- Understanding of working with the Third Sector
- Development of partnerships and governance structures for a non-statutory sub regional partnership
- Business planning and delivery planning that enhances, explores and creates a setting for innovation and entrepreneurship
- Development of governance structures that can offer a new way of working on a strategic landscape scale
- Development of shared outcomes evaluation and the necessity to value social impact of GI
- Recognition that this project will form a Pan London learning component that will share its findings with a wider audience

The team should include:

- Design practice with Landscape Architect as Lead Consultant and support Landscape Architects with experience of strategic landscape scale planning
- Planning specialist

- Architect for detailed design to submit and secure planning permission for Culvers Lodge
- Business planning and business development specialist with competencies and understanding of social enterprise, social finance, circular, collaborative and participatory economies, finance models
- Spatial Delivery Plan development specialist with understanding of Natural Capital Accounting
- Governance and partnership development specialist for new Trust Board and delivery body for the Regional Park
- Legal advice specialist for governance structures, new governing bodies, trading bodies, social enterprise, co working space set ups, lease agreements
