

### **Instructions for Sample Submissions for OIP/0071 General Service Tentage**

As part of the OIP/0071 Procurement of General Service Tentage and Associated Items Tendering process Tenderers are required to submit samples for testing as per DEFFORM 47 Annex F – Tender Evaluation Stage 7 - Tenderer Trials of the ITT Documentation.

All samples must be received by [REDACTED] by 15:00, Tuesday 31<sup>st</sup> August. It is the responsibility of the Tenderer to ensure that all samples are received by the correct date and time. The address for sample submission is noted below:

[REDACTED]  
[REDACTED]

[REDACTED]

The Tender shall supply the following 12 x 12 items for trialing:

- 2 x Tent End Section NSN 8340-99-282-9697.
- 1 x Roof & Wall Section Mk4 NSN 8340-99-872-2429.
- 2 x 1.5m<sup>2</sup> (Minimum) Fabric Sample (finished around all 4 sides using the same materials and construction as the finished edge of the proposed item) of each colour proposed (Green/Green and Green/White). Length, width, face and reverse directions should be indicated.
- 1 x Sample Trade Packaging Bag for transportation.

In advance of the trials the Authority requests the following information by the 30/07/21

- Type of material being submitted to ensure that the correct testing equipment is available. i.e. PVC, Canvas
- Whether the material being submitted is single ply or 2 ply etc

Please note the following when submitted samples:

- The 1.5m samples need to be correctly finished around the edges.
- The samples and tents delivered must have full build instructions (both hard and soft copies).

[REDACTED] do not have any forklifts available and as such the Authority requests that a tail lift truck, or similar, be used for delivery so that pallet trucks can be used to offload

Following the completion of the Testing the tested tents will require collection from the test house. The Authority will notify all Tenderers when collection can be arranged.

Many Thanks

OI DT
