Z Clauses

Z1 Disputes

Delete existing clause W2.1

Z2 Prevention

The text of clause 18 Prevention is deleted.

Delete the text of clause 60.1(12) and replaced by:

The *service* is affected by any of the following events

- War, civil war, rebellion, revolution, insurrection, military or usurped power;
- Strikes, riots and civil commotion not confined to the employees of the *Consultant* and sub consultants,
- Ionising radiation or radioactive contamination from nuclear fuel or nuclear waste resulting from the combustion of nuclear fuel,
- Radioactive, toxic, explosive or other hazardous properties of an explosive nuclear device,
- Natural disaster,
- Fire and explosion,
- Impact by aircraft or other aerial device or thing dropped from them.

Z3 Disallowed Costs

Add the following in second bullet of 11.2 (18) add:

(including compensation events with the Subcontractor, i.e. payment for work that should not have been undertaken).

Add the following additional bullets after 'and the cost of ' :

- Mistakes or delays caused by the *Consultant's* failure to follow standards in Scopes/quality plans
- Reorganisation of the *Consultant's* project team
- Additional costs or delays incurred due to *Consultant's* failure to comply with published and known guidance or document formats
- Exceeding the Scope without prior instruction that leads to abortive cost
- Re-working of documents due to inadequate QA prior to submission, i.e. grammatical, factual arithmetical or design errors
- Production or preparation of self-promotional material
- Excessive charges for project management time on a commission for secondments or full time appointments (greater than 5% of commission value)
- Any hours exceeding 8 per day unless with prior written agreement of the *Service Manager*
- Any hours for travel beyond the location of the nearest consultant office to the project unless previously agreed with the *Service Manager*
- Attendance of additional individuals to meetings/ workshops etc who have not been previously invited by the *Service Manager*
- Costs associated with the attendance at additional meetings after programmed Completion, if delay is due to *Consultant* performance
- Costs associated with rectifications that are due to *Consultant* error or omission
- Costs associated with the identification of opportunities to improve our processes and procedures for project delivery through the *Consultant's* involvement
- Was incurred due to a breach of safety requirements, or due additional work to comply with safety requirements
- Was incurred as a result of the *Client* issuing a Yellow or Red Card to prepare a Performance Improvement Plan
- Was incurred as a result of rectifying a non-compliance with the Framework Agreement and/or any call off contracts following an audit

Z4 Share on termination

Delete existing clause 93.3 and 93.4 and replace with:

93.3 In the event of termination in respect of a contract relating to services there is no *Consultant's* share'

Z6 The Schedule of Cost Components

The Schedule of Cost Components are as detailed in the Framework Schedule 9.

Z7 Consultant's share

54.1 The *Service Manager* assess the *Consultant's* share of the difference between the Aggregated Total of the Prices and the Aggregated Price for Service Provided to Date.

The difference is divided into increments falling within each of the share ranges. The limits of a share range are the Aggregated Price for Service Provided to Date divided by the Aggregated Total of the Prices, expressed as a percentage. The *Consultant's* share equals the sum of the products of the increment within each share range and the corresponding *Consultant's* share percentage.

54.2 If the Aggregated Price for Service Provided to Date is less than the Aggregated Total of the Prices, the Consultant is paid its share of the saving. If the Aggregated Price for Service Provided to Date is greater than the Aggregated Total of the Prices, the *Consultant* pays its share of the excess.

54.2A If, prior to Completion of the whole of the service, the Price for Service Done to Date exceeds 111% of the total of the Prices, the amount in excess of 111% of the total of the Prices is retained from the Consultant.

54.3 If, prior to the Completion Date, the Price for Service Provided to Date exceeds 110% of the total of the Prices, the amount in excess of 110% of the total of the Prices is retained from the *Consultant*.

54.4 The *Service Manager* makes a preliminary assessment of the *Consultant's* share at Completion of the Whole of the service using forecasts of the final Aggregated Price for Service Provided to Date and the final Aggregated Total of the Prices. This share is included in the amount due following Completion of the whole of the services.

54.5 The *Service Manager* makes a final assessment of the *Consultant's* share, using the final Aggregated Price for Service Provided to Date and the final Aggregated Total of the Prices. This share is included in the final amount due.

93.3 If there is a termination except if Z4 applies, the *Service Manager* assesses the *Consultant's* share after certifying termination. The assessment uses as the Aggregated Price for Service Provided to Date the sum of

- the total of
 - the Defined Cost which the *Consultant* has paid and
 - which it is committed to pay for work done before termination

and

- the total of
 - the Defined Cost which the *Consultant* or *Contractor* has paid and
 - which it is committed to pay

in the *partner contract* before the date the termination certificate is issued under this contract.

The assessment uses as the Aggregated Total of the Prices the sum of

- the total of
 - the lump sum price for each activity which has been completed and
 - a proportion of the lump sum price for each incomplete activity which is the proportion of the work in the activity which has been completed

and

- the total of
 - the lump sum price for each activity which has been completed and
 - a proportion of the lump sum price for each incomplete activity which is the proportion of the work in the activity which has been completed

Add:

11.2(25) The Aggregated Total of the Prices is sum of

- the total of the Prices and
- the total of the Prices in the *partner contract*

11.2(26) The Aggregated Price for Service Provided to Date is the sum of

- the Price for Service Provided to Date and
- the Price for Service Provided to Date or the Price for Work Done to Date in the *partner contract*.

Z23 Linked contracts

Issues requiring redesign or rework on this contract due to a fault or error of the *Consultant* will neither be an allowable cost under this contract or any subsequent contract, nor will it be a Compensation event under this contract or any subsequent contract under this project or programme.

Z24 Requirement for Invoice

Add the following sentence to the end of clause 51.1:

The Party to which payment is due submits an invoice to the other Party for the amount to be paid within one week of the *Service Manager's* certificate.

Delete existing clause 51.2 and replace with:

51.2 Each certified payment is made by the later of

- one week after the paying Party receives an invoice from the other Party and
- three weeks after the assessment date, or, if a different period is stated in the Contract Data, within the period stated. If a certified payment is late, or if a payment is late because the *Service Manager* has not issued a certificate which should be issued, interest is paid on the late payment. Interest is assessed from the date by which the late payment should have been made until the date when the late payment is made, and is included in the first assessment after the late payment is made

Z25 Risks and insurance

The *Consultant* is required to submit insurances annually as Clause Z4 of the Framework Agreement

Z 29 Payment for Service Provided to Date

Delete existing clause 11.2 (21) and replace with:

"11.2 (21) The Price for Service Provided to Date is the total Defined Cost which the *Service Manager* forecasts will have been paid by the *Consultant* before the next assessment date plus the Fee. The Price for Service Provided to Date shall not exceed the forecast for the same as provided under clause 20.5"

Secondary Options

OPTION X2: Changes in the law

The *law of the project* is the law of England and Wales, subject to the jurisdiction of the courts of England and Wales

OPTION X7: Delay damages

X7 only

Delay damages for Completion of the whole of the *service* are

■■■■■

■■■■■

OPTION X10: Information modelling

The period after the Contract Date within which the *Consultant* is to submit a first Information Execution Plan for acceptance is 2 weeks

OPTION X18: Limitation of liability

The *Consultant's* liability to the *Client* for indirect or consequential loss is limited to

■■■■■

The *Consultant's* liability to the *Client* for Defects that are not found until after the *defects date* is limited to

■■■■■

The *end of liability* date is 6 years after the Completion of the whole of the *service*

OPTION X20: Key Performance Indicators (not used with Option X12)

The *incentive schedule* for Key Performance Indicators is in Schedule 17

A report of performance against each Key Performance Indicator is provided at intervals of 3 months

Y(UK)2: The Housing Grants, Construction and Regeneration Act 1996

The period for payment is 14 days after the date on which payment becomes due

Y(UK)3: The Contracts (Rights of Third Parties Act) 1999

PSC scope template

LIT 13259 NEC4 professional services contract (PSC)

Document category: COMPULSORY

Security Classification: OFFICIAL

Version: 3.0

Publish date: May 2023

Use the template on the pages that follow to assist you when preparing the scope for an NEC4 professional services contract (PSC).

Note to Project Managers:

This template is a constituent part of a PSC contract for *services* let by the Environment Agency. It is a contract document, following the NEC4 format, which is defined in the Collaborative Delivery Framework agreement for use as part of individual call-off contracts let under the framework.

Adapt the template in order to define the scope for your contract. The completed scope should be inserted into the contract document before being issued as part of the tender pack.

Use the tables on the next page to record project, contract and version information.

The Scope is owned by the Environment Agency, but can be contributed to by any project party prior to Pricing. Use the best skilled professional in a technical area. Ensure stakeholders have checked the document for pricing for areas of their interest. It is much preferable to resolve differences of opinion prior to contract commitment than after, whether that difference is within the EA, with key stakeholder or with the supplier. Engage with Principal Designer, Senior User, End User, Contractor, Consultant, NEAS, commercial lead, estates, ECC PM or ARP Eng (if relevant)

Ensure the full document including the Scope is checked by the Commercial Services Manager before issue for pricing.

This page should be deleted before the scope is inserted into the PSC.

Environment Agency

NEC4 professional services contract (PSC)

Scope

Project / contract Information

Project name	Yorkshire Area Bridges - Bridge Consultancy 2021-23
Project 1B1S reference	
Contract reference	
Date	24/05/2023
Version number	1
Author	

Revision history

Revision date	Summary of changes	Version number
24/05/2023	DRAFT issue	1
14/06/2023	Updated Site List (17no sites)	2

This Scope should be read in conjunction with the version of the Minimum Technical Requirements and Exchange Information Requirements current at the Contract Date. In the event of conflict, this Scope shall prevail. The *service* is to be compliant with the following version of the Minimum Technical Requirements and Exchange Information Requirements:

Document	Document Title	Version No	Issue date
LIT 13258	Minimum Technical Requirements	V.12	Dec 2021
LIT 17641	Exchange Information Requirements	E.I.R 3.0	01/12/2022

Details of the *services*

Details of the *services* are:

1. Description of the work:

1.1 Objective

The objective of the project is to ensure that 17no bridge structures, namely:

- Barmston Sea Outfall
- Burstwick New Clough Walkways
- Carlinghow Trash Screen
- Castle Mill Sluices FB
- Clifton Ings Intake Footbridge
- Clifton Ings Outfall Footbridge
- Fishlake Footbridges (brick)
- Fishlake Footbridges (concrete)
- Great Culvert PS FB
- Great Culvert PS Platform
- Plaxtons
- Sands
- Saville Street Trash Screen
- Sheriff Highway
- Waterside PS Culvert & Platform
- Beverley Beck Syphon (Listed)
- Skeffling PS Culvert

are inspected and assessed to ensure that they are safe for use by Environment Agency staff and workforce, landowners and the public.

This project is to:

- carry out a risk-based programme of inspection and assessment
- identify any defects and any necessary remedial works
- complete an inspection and assessment report for these structures.

The *Consultant* will be responsible for all access requirements, including but not limited to obtaining the relevant permits, consents and safe management of any necessary site visits and survey works.

1.2 Outcome Specification

The *Consultant* shall deliver Principal Inspection Reports for 17no Bridges (listed in Section 1.1) to ensure that the bridges are safe for use by our staff and workforce, landowners, and the public.

The report must include all requirements in the 'Environment Agency Principal Inspection Report Section Requirement' document, included in Appendix 5.

The reports will also be used to identify future maintenance works to ensure they meet current road usage requirements.

Once approved, the documents will be included in the Environment Agency bridge records for future reference.

1.3 Outputs and Deliverables

The *Consultant* shall provide input to product descriptions for key outputs and deliverables that the *Consultant* shall produce. Agree the list of products with the *Client* and submit the product description for the *Client's* approval before commencing work on the product.

The Consultant shall produce the following key documents for this commission:

- 18no Principal Inspection reports submitted as pdf documents for inclusion in the Environment Agency bridge records.

1.4 Health & Safety

Health, Safety and Wellbeing (HSW) is the number one priority of the Client. The Consultant shall promote and adopt safe working methods and shall strive to deliver design solutions that provide optimum HSW to all.

The Consultant shall follow and comply with the requirements outlined in the Safety, health environment and wellbeing (SHEW) Code of Practice (LIT 16559).

2. Consultant Project Management

In managing the *service* the *Consultant* shall follow all the requirements as set out in the Collaborative Delivery Framework schedules and the relevant content of the Minimum Technical Requirements.

In managing the *service* the *Consultant* shall:

- Contribute monthly to the updates to the project risk register.
- Provide input to project efficiency CERT Form.
- Attend progress meetings and prepare record minutes within a week for the *Client* to issue.

- Deliver a monthly progress report in the *Client's* standard template [REDACTED] giving progress against programme, deliverables received and expected through IDP and MIDP, financial summary against programme and forecast project carbon.
- Provide a backup to application for payment in accordance with the *Client's* standard template [REDACTED] Submission of an application for payment without this format of backup sheet will not be recognised and treated as a compliant submission.
- Commission capital forecast to be entered on FastDraft monthly & Project forecast carbon outturn to be entered onto FastDraft monthly. The *Consultant* is required to provide a monthly forecast on FastDraft for both carbon and cost in accordance with FHU

- Attend project board meetings as required.
- Ensure quarterly input into framework performance assessment/environmental Performance Measures.
- Ensure the *Consultant's* environmental lead provides monthly progress and risk reviews to the *Client* and attends progress meetings, as invited.
- Maintain and show how accurate and up to date information on the whole-life cost and carbon is driving optimum solutions at all stages of design development.
- Capture lessons learnt relevant to scheme delivery for the EA PM to include in the scheme lessons learnt log to be appended to the FBC.

The contract will be administered using FastDraft.

Procurement of subcontractors

Subcontractors need to be selected using best value processes.

This requires the Consultant to demonstrate that they have made reasonable attempts to obtain three competitive tenders for [REDACTED]

The only exception to this is work which has been accepted (in writing) by the hub Commercial Services Manager for strategic suppliers or for emergency work.

Definition of completion and defects

Completion is only achieved when all of the *services* have been provided and accepted by the *Employer*. Population of the *Employer's* latest version of the Project Cost Tool, or its successor, is an absolute requirement of Completion.

A Defect is any *service* provided which is not in accordance with the scope, the law or acceptable good practice in the industry. This includes any *service* which is not in accordance with the work practices stated as being employed by the *Consultant* to ensure the quality of their *services* is consistent with their quality plan.

2. Drawings, site information or reports already available

Existing information that will be made available to the *Consultant* is listed in Appendix 4

3. Specifications of standards to be used

Inspections are to be in accordance with CS450 Inspection of Highway Structures (latest version found on the DMRB)

Assessments are to be in accordance with CS454 Assessment of Highway Bridges (latest version found on the DMRB)

The Consultant shall work in accordance with the latest version of the Environment Agency's SHEWCoP (version 5.0 January 2023).

The Consultant shall work in accordance with the latest version of the Environment Agency's MTRs (version 12 December 2021).

4. Constraints on how the *Consultant* provides the services

Data

The Consultant shall handle, manage data in accordance with the framework schedules and Exchange Information Requirements (EIR).

5. Requirements of the programme

The Start date will be confirmed in the P31 programme.

The completion date is to be prior to 31st March 2024.

The programme complies with the requirement of Clause 31 and also includes alignment and submission of the BEP and Master Information Delivery Plan (MIDP).

The Consultant shall provide a detailed programme in Microsoft Project format meeting all requirements of Cl.31 of the Conditions of Contract.

The Consultant shall provide a baseline programme for the project start up meeting and shall update the programme monthly for progress meetings with actual and forecast progress against the baseline.

The programme shall also include alignment and submission of the BIM Execution Plan (BEP) and Master Information Delivery Plan (MIDP).

The programme shall cover all the activities and deliverables in the project, and include all major project milestones from commencement to the end of the reporting, consultation and approvals stage.

Scheme Name and number

18/05/23

The programme shall include review and consultation periods for drafts, scoping letters, statutory consultation etc.

The programme shall include time for access to land, permitting and statutory agreements.

The programme shall identify time risk allowance on the activities and float.

6. Services and other things provided by the *Client*

a) Access to Environment Agency systems and resources including:

- Asite.
- FastDraft.
- Collaborative Delivery Community SharePoint access.

b) 'Environment Agency Principal Inspection Report Section Requirement' document

c) British NGR of the bridges requiring inspection

d) Historic inspection reports (where available)

Appendix 1 – BIM Protocol

The *Consultant* shall adhere to the Environment Agency's Exchange Information Requirements (EIR) framework level minimum technical requirements.

All *Client* issued information referenced within the Information Delivery Plan (IDP) requires verifying by the *Consultant* unless it is referenced elsewhere within the Scope.

<https://www.asite.com/login-home>

The *Consultant* shall register for an Asite Account and request access to the project workspace to view the IDP.
