Section 1 – About UK Shared Business Services

Putting the business into shared services

UK Shared Business Services Ltd (UK SBS) brings a commercial attitude to the public sector; helping Contracting Authorities improve efficiency, generate savings and modernise.

It is our vision to become the leading service provider for Contracting Authorities of shared business services in the UK public sector, continuously reducing cost and improving quality of business services for Government and the public sector.

Our broad range of expert services is shared by our Contracting Authorities. This allows our customers the freedom to focus resources on core activities; innovating and transforming their own organisations.

Core services include Procurement, Finance, Grants Admissions, Human Resources, Payroll, ISS, and Property Asset Management all underpinned by our Service Delivery and Contact Centre teams.

UK SBS is a people rather than task focused business. It's what makes us different to the traditional transactional shared services centre. What is more, being a not-for-profit organisation owned by the Department for Business, Energy & Industrial Strategy (BEIS), UK SBS' goals are aligned with the public sector and delivering best value for the UK taxpayer.

UK Shared Business Services Ltd changed its name from RCUK Shared Services Centre Ltd in March 2013.

Growing from a foundation of supporting the Research Councils, 2012/13 saw Business Innovation and Skills (BIS) transition their procurement to UK SBS and Crown Commercial Services (CCS – previously Government Procurement Service) agree a Memorandum of Understanding with UK SBS to deliver two major procurement categories (construction and research) across Government.

UK SBS currently manages £700m expenditure for its Contracting Authorities.

Our Contracting Authorities who have access to our services and Contracts are detailed [here](#).

Section 4 – Specification and about this procurement

UK Research and Innovation (UKRI) is seeking to appoint an expert change management consultant to work alongside the CEO and the Executive Committee to support the implementation of a new operating model.

BACKGROUND TO THE CONTRACTING AUTHORITY (AUTHORITY)

UKRI is a new, independent, non-departmental public body, bringing together the seven Research Councils¹, Innovate UK, and Research England. The new body is expected to maximise value from the UK government's investment in research and innovation of over £8bn per annum by 2020. This includes nearly £2bn per annum of new investment which is to be delivered through new cross-Council collaborative and innovative initiatives.

UKRI will lead the overall strategic direction of research and innovation funding in the UK, pushing the frontiers of human knowledge, and delivering benefits for UK society and the economy through world-class research and business-led innovation. UKRI needs to become more than the sum of its parts, catalysing changes within the separate organisations and providing significant cross-cutting interventions that are necessary to ensure full value is obtained from the new funds provided under the government's Industrial Strategy. This requires us to transform the way we operate.

The organisation has circa 7,500 employees (in a broad variety of scientific, technical, professional and generalist roles), primarily in the UK, with key activities in London, Swindon, Harwell, Daresbury and Bristol.

BACKGROUND TO REQUIREMENT/OVERVIEW OF REQUIREMENT

Following UKRI's formal establishment in April 2018, UKRI is moving from transitioning formal accountabilities and roles, including the appointment of new Executive Chairs and Councils, to transforming the organisation so that benefits from the integration are realised.

The Board and Executive Committee now wish to accelerate change through a transformation programme which has two key elements:

- 1) Ensure that UKRI evolves into a very high performing organisation, with exceptional capability and culture, in order to deliver excellent outcomes through both its substantial cross cutting funds and functions and its individual councils. This will require consideration of the whole of the organisation, working with the individual executive chairs to shape their council's capability and with the CEO and CFO to develop the central functions of finance, HR, operations and strategy. A key deliverable will be to shape the organisation so that it is coherent and consistent across the individual councils and the central functions, maximises capability, capacity and culture through flexible and agile ways of working and has clarity on accountability, responsibility and decision making.
- 2) Related to this we also want to deliver significant effectiveness and efficiency benefits from the integration of the nine separate legal entities through modernising all aspects of how we interact with both external and internal "customers/users", standardising processes and introducing new digital / IT systems covering the core operation of grants provision and supporting finance and HR activity, on or before 2021.

¹ The Arts and Humanities Research Council (AHRC), the Biotechnology and Biological Science Research Council (BBSRC), the Engineering and Physical Sciences Research Council (EPSRC), the Economic and Social Research Council (ESRC), the Medical Research Council (MRC), the Natural Environment Research Council (NERC), and the Science and Technology Facilities Council (STFC).

The Board and Executive Committee are developing a target operating model which will include the way the Councils operate, the way cross-cutting initiatives operate and the way that central teams support the organisation.

The UKRI Transformation Director will be responsible for leading the Councils, Executive Chairs and central teams in a programme of work to implement the new operating model in the medium term.

SCOPE OF REQUIREMENT

UKRI are looking to draw on expert and specialist support to:

- 1) Build on the work that will already have been completed on the chosen target operating model as already agreed by the CEO and his Executive Committee
- 2) Provide expert support to UKRI's Executive Committee to plan and take all early actions necessary to implement its new operating model.

The requirement will relate to:

- 1) all elements of UKRI – the Councils and all the “central” functions
- 2) the way the Councils operate, the way cross-cutting initiatives operate and the way that central teams support the organisation
- 3) This will not include activities undertaken within the scientific institutes of UKRI

THE REQUIREMENT

This requirement is expected to commence no later than 09th November 2018, subject to award of contract.

The support work is expected to take no longer than 17 working weeks.

Award Scoring criteria

Evaluation Justification Statement

In consideration of this particular requirement the Contracting Authority has decided to evaluate Potential Providers by adopting the weightings/scoring mechanism detailed within this RFP. The Contracting Authority considers these weightings to be in line with

existing best practice for a requirement of this type.

Questionnaire	Q No.	Question subject	Maximum Marks
Price	AW5.2	Price	30%
Quality	AW6.4	Understanding	15%
Quality	AW6.5	Knowledge and Expertise	15%
Quality	AW6.6	Methodology	15%
Quality	AW6.7	Project Plan and Potential Challenges	15%
Quality	AW6.8	Interview	10%

Award Evaluation of criteria

Non-Price elements

Each question will be judged on a score from 0 to 100, which shall be subjected to a multiplier to reflect the percentage of the evaluation criteria allocated to that question.

Where an evaluation criterion is worth 20% then the 0-100 score achieved will be multiplied by 20%.

Example if a Bidder scores 60 from the available 100 points this will equate to 12% by using the following calculation:

$$\text{Score} = \{\text{weighting percentage}\} \times \{\text{bidder's score}\} = 20\% \times 60 = 12$$

The same logic will be applied to groups of questions which equate to a single evaluation criterion.

The 0-100 score shall be based on (unless otherwise stated within the question):

0	The Question is not answered or the response is completely unacceptable.
10	Extremely poor response – they have completely missed the point of the question.
20	Very poor response and not wholly acceptable. Requires major revision to the response to make it acceptable. Only partially answers the requirement, with major deficiencies and little relevant detail proposed.
40	Poor response only partially satisfying the selection question requirements with deficiencies apparent. Some useful evidence provided but response falls well short of expectations. Low probability of being a capable supplier.
60	Response is acceptable but remains basic and could have been expanded upon. Response is sufficient but does not inspire.
80	Good response which describes their capabilities in detail which provides high levels of assurance consistent with a quality provider. The response includes a full description of techniques and measurements currently employed.
100	Response is exceptional and clearly demonstrates they are capable of meeting the requirement. No significant weaknesses noted. The response is compelling in its description of techniques and measurements currently employed, providing

full assurance consistent with a quality provider.

All questions will be scored based on the above mechanism. Please be aware that there may be multiple evaluators. If so, their individual scores will be averaged (mean) to determine your final score as follows:

Example

Evaluator 1 scored your bid as 60

Evaluator 2 scored your bid as 40

Evaluator 3 scored your bid as 80

Evaluator 4 scored your bid as 60

Your final score will $(60+40+80+60) \div 4 = 60$

Price elements will be judged on the following criteria.

The lowest price for a response which meets the pass criteria shall score 100.

All other bids shall be scored on a pro rata basis in relation to the lowest price. The score is then subject to a multiplier to reflect the percentage value of the price criterion.

For example - Bid 1 £100,000 scores 100.

Bid 2 £120,000 differential of £20,000 or 20% remove 20% from price scores 80

Bid 3 £150,000 differential £50,000 remove 50% from price scores 50.

Bid 4 £175,000 differential £75,000 remove 75% from price scores 25.

Bid 5 £200,000 differential £100,000 remove 100% from price scores 0.

Bid 6 £300,000 differential £200,000 remove 100% from price scores 0.

Where the scoring criterion is worth 50% then the 0-100 score achieved will be multiplied by 50

In the example if a supplier scores 80 from the available 100 points this will equate to 40% by using the following calculation: Score/Total Points multiplied by 50 $(80/100 \times 50 = 40)$

The lowest score possible is 0 even if the price submitted is more than 100% greater than the lowest price.

5.5. Evaluation process

5.5.1 The evaluation process will feature some, if not all, the following phases

Stage	Summary of activity
Receipt and Opening	<ul style="list-style-type: none">• RFP logged upon opening in alignment with UK SBS's procurement procedures.• Any RFP Bid received after the closing date will be rejected unless circumstances attributed to the Contracting Authority or the e-sourcing tool beyond the bidder control are responsible for late submission.

- 7.3.2.2 The disclosure is made for the sole purpose of obtaining legal advice from external lawyers in relation to the procurement or to any Contract arising from it; or

UK SBS and the Contracting Authority also reserve the right to disseminate information that is materially relevant to the procurement to all Bidders, even if the information has only been requested by one Bidder, subject to the duty to protect each Bidder's commercial confidentiality in relation to its Response (unless there is a requirement for disclosure as explained in paragraphs 7.4.1 to 7.4.3 below).
- 7.3.5 All Central Government Departments and their Executive Agencies and Non Departmental Public Bodies are subject to control and reporting within Government. For these purposes, the Contracting Authority may disclose within Government any of the Bidders documentation/information (including any that the Bidder considers to be confidential and/or commercially sensitive such as specific bid information) submitted by the Bidder to the Contracting Authority during this Procurement. Subject to section 7.4 below, the information will not be disclosed outside Government. Bidders taking part in this RFP consent to these terms as part of the competition process.

- 7.3.6 The Government introduced its new Government Security Classifications ("GSC") classification scheme to replace the current Government Protective Marking System ("GPMS"). A key aspect of this is the reduction in the number of security classifications used. All Bidders are encouraged to make themselves aware of the changes and identify any potential impacts in their Bid, as the protective marking and applicable protection of any material passed to, or generated by, you during the procurement process or pursuant to any Contract awarded to you as a result of this tender process will be subject to the new GSC from 2nd April 2014. The link below to the Gov.uk website provides information on the new GSC:

aspects to which any protective marking applies or otherwise. This may relate to the instructions on safeguarding classified information (e.g. a Security Aspects Letter) as they apply to the procurement as they apply to the procurement process and/or any contracts awarded to you as a result of the procurement process.
