Indexation of Fees and Rate Card rates

- 4.12 The Supplier shall be entitled to adjust the Fees and the Rate Card rates which apply in respect of any Academic Year following the Academic Year in which the TQ is launched in accordance with the provisions of clause 4.13 to reflect the impact of inflation.
- 4.13 Where the Supplier wishes to adjust the Fees and/or Rate Card rates in accordance with clause 4.12:
- 4.13.1 the Supplier shall notify the Authority in writing of the proposed percentage adjustment in the existing Fees and/or Rate Card rates and the resulting new Fees and/or Rate Card rates by the end of February in the Academic Year prior to the Academic Year in respect of which the adjustment is to apply ("**Calculation Date**");
 - 4.13.2 the proposed percentage adjustment to the relevant then current Fees or Rate Card rates must be no greater than the percentage increase in the preceding 12 months of the UK Consumer Price Index most recently published by the UK Office of National Statistics prior to the Calculation Date; and
 - 4.13.3 the proposed adjustment calculated in accordance with this clause 4.13 shall not operate to adjust the Fees or Rate Card rates for the then current Academic Year, but shall operate to adjust the Fees or Rate Card rates as applicable with effect from the immediately following Academic Year.
- 4.14 Except as set out in clause 4.13, neither the Charges, the Fees nor any other costs, expenses, fees or charges shall be adjusted to take account of any inflation, change to exchange rate, change to interest rate or any other factor or element which might otherwise increase the cost to the Supplier or Subcontractors of the performance of their obligations under this Contract.

- 5.9 The Supplier shall respond promptly to the Authority to any requests from the Authority for further information to support any Submission and/or the IfATE Approval or Accreditation process.
- 5.10 The Supplier shall not contact Ofqual directly in relation to Accreditation of the TQ unless instructed to do so by the Authority or Ofqual.
- 5.11 In respect of each Interim Milestone, the Authority and, if relevant, Ofqual will consider each Submission made in accordance with clause 5.6 and 5.7 and, within a timeframe which should allow the TQ to be developed in time for delivery in accordance with this Contract:
- 5.11.1 if the Authority considers that the Submission (or Re-Submission (as the case may be)) meets all of the requirements of paragraphs 2.1 and 2.2 of Part 1 and Annex 7 to the Service Requirements for the relevant Interim Milestone, the Authority shall:
- (i) confirm in writing that the Supplier is authorised to proceed with the design and development of the TQ; and
 - (ii) pay to the Supplier (in accordance with clause 4 (*Pricing and payments*)) the applicable Interim Milestone Payment; or

Submission") to the Authority on or prior to the date notified by the Authority, following which clause 5.11.1 or this clause 5.11.2 will apply to such Re-Submission; or

- (ii) notify the Supplier that notwithstanding the failure of the Submission (or Re-Submission (as the case may be)) to meet all of the requirements of paragraphs 2.1 and 2.2 of Part 1 and Annex 7 to the Service Requirements for the relevant Interim Milestone, the Supplier is authorised to proceed with the design and development of the TQ, provided that the relevant issues are addressed, following which the Supplier shall promptly address the issues identified as part of its ongoing development of the TQ.

5.12 The Supplier acknowledges and agrees that owing to the meeting dates scheduled for the IfATE Approval and Accreditation processes, any delay in making the Final Submission to the Authority by the Final Approval Milestone Date may cause a delay of several weeks for IfATE Approval. Accordingly, failure by the Supplier to make the Final Submission in accordance with clause 5.6 and/or 5.7 by the Final Approval Milestone Date, other than due to a breach of this Contract by the Authority, shall be a Critical Service Failure.

5.13 In respect of the Final Approval Milestone, the Authority and Ofqual will consider the Final Submission made by the Supplier in accordance with clause 5.6 and 5.7 and, within a timeframe which should allow the TQ to be developed in time for delivery in accordance with this Contract:

- (i) confirm to the Supplier in writing that the TQ has IfATE Approval and that, subject (if applicable) to clause 7.2 (*Interaction with Providers*) and clause 13.3.1 (*What may happen if there are issues with your provision of the Services*), the Supplier is authorised to proceed to make the TQ available to Approved Providers for delivery to Students in accordance with clause 6 (*Operating the TQ*); and

- (ii) pay to the Supplier (in accordance with clause 4 (*Pricing and payments*)) the Final Milestone Payment, together with any outstanding Interim Milestone Payments;
- 5.13.2 if the Authority considers that the Final Submission (or Final Re-Submission (as the case may be)) does not meet the requirements for IfATE Approval, then the Authority shall notify the Supplier in writing of the issues that need to be addressed and/or the additional information that needs to be provided and the Supplier shall within 10 Working Days (or such longer timeframe as is agreed in writing by the Authority) address such issues and resubmit the relevant documentation and/or provide such additional information, following which this clause 5.13 will apply to such Final Re-Submission; or
- 5.13.3 in exceptional circumstances (and noting that the shared intent of the Parties is to ensure that the TQ achieves Accreditation and that a TQ will not receive IfATE Approval without first achieving Accreditation), the Authority may, at its sole discretion, determine that the Final Submission (or Final Re-Submission (as the case may be)) meets the requirements for IfATE Approval notwithstanding the fact that Ofqual does not consider that the Final Submission (or Final Re-Submission (as the case may be)) meets the requirements for Accreditation, and in such event the Authority shall notify the Supplier in writing of such determination, and following such notification:
 - (i) the Supplier is, subject to clause 7.2 (*Interaction with Providers*) and clause 13.3.1 (*What may happen if there are issues with your provision of the Services*), authorised to proceed to make the TQ available to Approved Providers for delivery to Students in accordance with clause 6 (*Operating the TQ*);
 - (ii) the Authority shall pay to the Supplier (in accordance with clause 4 (*Pricing and payments*)) the Final Milestone Payment, together with any outstanding Interim Milestone Payments;

- (iii) the Supplier shall promptly apply to Ofqual to withdraw its Ofqual Recognition in respect of the TQ and the TQ shall not be regulated by Ofqual;
- (iv) the Supplier's obligation under this Contract to meet and comply with the Conditions of Recognition shall cease to apply;
- (v) the requirements on the Supplier in this Contract:
 - (A) to maintain Ofqual Recognition in respect of the TQ; and/or
 - (B) to meet the relevant requirements of Accreditation which were not met by the Final Submission or Final Re-Submission (as the case may be) pursuant to this clause 5,
 shall then cease to apply; and
- (vi) the provisions of clause 37.7 (*Resolving disputes*) and paragraph 1.6 of Part 1 of the Service Requirements shall be deemed to be deleted.

5.14 If the Supplier wishes to appeal any decision taken by the Authority in relation to IfATE Approval, the Supplier must comply with the Authority Appeal Procedure where it applies.

5.15 The Supplier acknowledges and accepts that the Authority will share, as it deems necessary, with Ofqual, the Department, ESFA, and the Route Panel:

5.15.1 all Submissions (including any Final Submission) and/or Re-Submissions (including any Final Re-Submissions) submitted by the Supplier under clause 5.6 and/or clause 5.13;

5.15.2 any information required by the Authority pursuant to clause 5.9;

5.15.3 any information required by Ofqual for the Regulation of the TQ or to perform the statutory functions of Ofqual; and/or

5.15.4 any other information it holds in relation to the Supplier,

and the provisions of clause 18 (*What must be kept confidential*) will not prevent any disclosure or sharing of documentation and/or information by the Authority under this clause 5.15.

6 Operating the TQ

- 6.1 Following IfATE Approval and, subject to clause 5.13.3 (*Submission process*), Accreditation of the TQ, the Supplier must (subject to clause 7.2 (*Interaction with Providers*) and clause 13.3.1 (*What may happen if there are issues with your provision of the Services*)) make the TQ (including (as applicable) the Products) available to Approved Providers for delivery to Students and provide the Services (other than the Initial Development Services) in accordance with the Service Requirements.

- 6.5 The Supplier shall promptly provide to the Authority such materials relating to the TQ and Student Information as are requested in writing by the Authority to enable work by or on behalf of the Authority and/or Ofqual to ensure the ongoing maintenance between Cohorts of the grades and standards of the TQ and the wider T Level Programme.
- 6.6 The Supplier shall actively promote the TQ to Eligible Providers.

7 Interaction with Providers

- 7.1 The Supplier shall, in accordance with the requirements set out in paragraph 3 of Part 1 of the Service Requirements, operate a procedure to receive applications for Provider Approval from Eligible Providers that wish to make the TQ available to

7.1.1 it shall not be entitled or permitted to:

- (i) the Eligible Provider is an Approved Provider;

11.1.2 implement, carry out and complete such steps (and within such time) as the Authority shall reasonably require arising out of the review of the Risk Register and/or the Issues Log pursuant to clause 5.5.1 (*Developing the TQ and achieving IfATE Approval and Accreditation*) and paragraph 3.1 of Schedule 15, (*Monitoring of Performance*) provided always that where the Supplier fails to implement, carry out and complete such steps in accordance with such requirements (including within such time), such failure shall (notwithstanding the provisions of clauses 13.2.1 to 13.2.10 (*What may happen if there are issues with your provision of the Services*)) be deemed to give rise to a right for the Authority to issue written notification of Designated Action to the Supplier, to which the provisions of this Contract (including clause 13.2 (*What may happen if there are issues with your provision of the Services*)) shall apply.

- 11.2 The Supplier shall provide all of the back-office systems and business processes necessary to enable the delivery of the Services, including IT systems, data security systems, accounting and administrative services.
- 11.3 The Supplier shall:
- 11.3.1 actively promote the T Level for which it is the TQ provider, coordinated in partnership with, and with the Approval of, the Authority; and
 - 11.3.2 adhere to the Authority's guidelines in respect of all publicity and marketing material produced by the Supplier (or its Subcontractors) in relation to the T Level for which it is the TQ provider.
- 11.4 The Supplier shall, following any reasonable request from the Authority:
- 11.4.1 participate in and support any promotional activities intended to increase the uptake of T Levels by Providers and/or Students; and
 - 11.4.2 without prejudice to its obligations in Schedule 4 (*Co-operation*) and Schedule 15 (*Monitoring of Performance*), attend and participate in any such meetings as the Authority may reasonably convene from time to time in connection with the T Levels Programme.

Part 2 - Service Definition Table

This Part 2 sets out the outcomes each Service must deliver and the minimum requirements the Supplier must meet when delivering each Service.

Service Requirement 1: Designing, developing and managing TQ content			
Outcomes The Specification of Content is sufficiently clear and appropriately detailed to ensure Approved Providers can properly prepare Students for the TQ assessments. The knowledge, understanding, skills and behaviours specified in the Outline Content in relation to the TQ Core Component are up-to-	SR1.1 Specification of Content requirements	1	The Specification of Content must cover all aspects of the Outline Content. The Supplier must show that it has covered all aspects of the Outline Content in the TQ at an appropriate depth for a level 3 qualification.
		2	The Specification of Content must elaborate on the Outline Content. The Supplier shall, in the Specification of Content, elaborate on (and not simply replicate) the Outline Content to: (a) enable accurate interpretation of the Specification of Content by Approved Providers (including to facilitate a clear and consistent understanding by Approved Providers of what is required to be taught and assessed for the TQ and to enable Approved Providers to determine (i) the level of competence required for staff who assess learning and (ii) any other physical requirements (such as facilities and hardware) integral to successful learning for the TQ); (b) support Student progression and adaptability; (c) enable Students to achieve Threshold Competence in relation to each Occupational Specialist Component; and

date and ensure that the TQ has continued currency among Employers and other end-users (including higher education providers). The knowledge, understanding, skills and behaviours specified in the Outline Content in relation to each Occupational Specialist Component are up-to-date and ensure that the TQ has continued currency among Employers and other end-users (including higher education providers).		(d) ensure that, where the Outline Content specifies English, mathematics and digital content, such content shall be integrated within the rest of the content in such manner as shall ensure such content is delivered and assessed in appropriate occupationally specific contexts. 3 Any additional material must be faithful to the Outline Content. The Supplier shall ensure that the Specification of Content does not include entirely new content that is not included in the Outline Content, unless otherwise agreed by the Authority. Where the Supplier considers that it is necessary to include entirely new content, it shall provide a clear and detailed rationale as part of its Assessment Strategy included with the Submission for Interim Milestone 1 to the Authority and the Authority shall consider whether such new content may be included as part of the Specification of Content, provided always that the Authority's decision as to whether such new content may be included as part of the Specification of Content shall be final. 4 Components must follow the same structure as set out in the Outline Content. The Supplier shall not move elements of the Outline Content which relate to one Component into another Component, unless otherwise agreed by the Authority. Where the Supplier considers that it is necessary to move such Outline Content from one Component to another, it shall provide a clear and detailed rationale as part of its Assessment Strategy for Submission at Interim Milestone 1 to the Authority and the Authority shall consider whether such Outline Content may be moved, provided always that the Authority's decision as to whether such Outline Content may be moved shall be final. 5 The TQ has two types of Component. The Supplier shall ensure that: (a) the TQ has only two types of Component and is not unitised any further, such that only the TQ Core Component and each Occupational Specialist Component are formally graded;
--	--	--

		(b) the TQ Core Component clearly assesses the core knowledge, understanding, skills and behaviours relevant to all occupations within the T Level; and (c) each Occupational Specialist Component clearly assesses the occupationally specific knowledge, understanding, skills and behaviours relevant to the occupations within the T Level.
	6	The TQ must not be biased towards any Occupational Specialist Component. Where there is more than one Occupational Specialist Component for the TQ, the Supplier shall ensure that the TQ Core Component is not biased towards any particular Occupational Specialist Component. This is to ensure fairness for all Students, to support learning in their chosen Occupational Specialist Component.
	7	The TQ and its Components must be appropriately titled. The Supplier shall ensure that the TQ and the Components reflect the titling conventions in the Outline Content. The Supplier shall agree the title of the TQ with the Authority and shall then use only this agreed title to refer to the TQ.
	8	The Specification of Content must support fair access to attainment, including for Students with special educational needs and/or disabilities. Without prejudice to the Supplier's obligations in clause 3.1.7 (<i>How the Services must be supplied</i>) and clause 31 (<i>Equality, diversity, human rights and anti-slavery</i>), the Supplier shall comply with all applicable Law and shall ensure that the Specification of Content is inclusive, including providing for Reasonable Adjustments and Special Consideration (as defined in SR 2.4 and SR 2.5 (respectively) below). The Supplier shall provide evidence that it has considered and addressed all such applicable Law relating to delivery of fair access to the TQ.
	9	Set recommended Guided Learning hours for each part of each Component. The Supplier shall ensure that the Specification of Content details the recommended Guided

		Learning hours for each part of the TQ Core Component and each Occupational Specialist Component, including the recommended Guided Learning hours for both delivery and assessment of each such part of each such Component, provided that (i) such recommended hours are between a minimum of 900 hours and a maximum of 1400 hours and (ii) the maximum number of hours within the recommended range for the TQ Core Component are no more than 50%, and no less than 20%, of the overall time for the TQ. The Supplier may choose to take into account the relevant indicative hours set out in Annex 11 (<i>Guided Learning Hours</i>) to this Service Requirement when determining the recommended Guided Learning hours. The Supplier shall provide a clear and detailed rationale for such recommended Guided Learning hours as part of its Assessment Strategy included with the Submission for Interim Milestone 2 to the Authority and the Authority shall consider whether such proposed recommended Guided Learning hours may be included as part of the Specification of Content, provided always that the Authority's decision as to whether such recommended Guided Learning hours may be included as part of the Specification of Content shall be final.
	10	Combination of Occupational Specialist Components. Where a T Level features more than one Occupational Specialist Component (and unless determined by the Outline Content), the Supplier shall propose 'options' for permitted combinations (and confirm any prohibited combinations) of Occupational Specialist Components. The Supplier shall make it clear that Approved Providers can select the Occupational Specialist Component they wish to deliver. Where options are given, the Supplier shall justify how any combinations are compatible and achievable within the duration of the TQ. It is recommended that the Supplier does not give Students the option to study more than two Occupational Specialist Components. Where the Supplier proposes to give Students the option to study more than two Occupational Specialist Components, it must provide a clear and detailed rationale as part of its Assessment Strategy for Submission at Interim Milestone 1 to the Authority and the Authority shall consider whether such rules of combination are appropriate, provided always that the Authority's decision as to whether such rules of combination are appropriate shall be final. The Supplier shall be clear about any combinations that are prohibited.

Service Requirement 2: Assessment design and delivery		
Outcomes The TQ provides for optimal assessment and reliable evidence of a Student's attainment in relation to the knowledge, understanding, skills and behaviours specified in the Outline Content. The TQ supports fair access to attainment for all Students who take the TQ.	SR 2.1 Assessment quality	1 The Supplier shall ensure that: (a) the Scheme of Assessment, the TQ Specimen Assessment Materials and the TQ Live Assessment Materials provide the optimum balance of the assessment principles set out below; and (b) the Assessment Strategy sets out a detailed rationale to explain how the TQ Specification, the TQ Specimen Assessment Materials and the TQ Live Assessment Materials meet these assessment principles. Assessment principles 1 Validity. The extent to which the TQ assessments (including the TQ Specimen Assessment Materials and the TQ Live Assessment Materials) effectively measure what they are intended to measure. This includes the extent to which TQ assessments (including the TQ Specimen Assessment Materials and the TQ Live Assessment Materials) allow Students to produce assessment evidence for the TQ that clearly corresponds to the Specification of Content and ensures the Specification of Content is not under-represented or misrepresented. 2 Reliability. This is about consistency and so concerns the extent to which the various stages in the TQ assessment process generate outcomes that would be replicated were the assessment repeated. The reliability of an assessment is affected by a range of factors, such as the sampling of assessment tasks and inconsistency in marking by human assessors. Reliability is critical to ensuring standards of attainment are equivalent over time (comparable performance). 3 Comparable performance. The extent to which the same grade for a Component with the

		same title indicates a comparable level of Student performance across Approved Providers (nationally) and over time.
		4 Minimising bias. Ensuring that a TQ assessment (including the TQ Specimen Assessment Materials and the TQ Live Assessment Materials) does not produce unreasonably adverse outcomes for Students who share a particular characteristic. The Supplier should seek to ensure all Students are treated fairly and the assessment (including the TQ Specimen Assessment Materials and the TQ Live Assessment Materials) complies with all applicable Law.
		5 Minimising malpractice. Ensuring the TQ design (including the TQ Specimen Assessment Materials and the TQ Live Assessment Materials) and processes relating to the delivery of the TQ assessments limit malpractice, including attempts by candidates to communicate with each other during an assessment and failures by Provider staff to comply with Supplier instructions regarding storage of Student assessment evidence.
		6 Appropriate demand. This relates to the level of difficulty of a TQ assessment task (including within the TQ Specimen Assessment Materials and the TQ Live Assessment Materials) and the requirements of the relevant part of the Specification of Content which is to be assessed and any expectations of performance at specified grades. Demand should be appropriate to a level 3 qualification.
		7 Manageability. The feasibility of carrying out the TQ assessment processes. A manageable assessment process is one that has reasonable expectations of Students, Approved Providers and (where appropriate) Employers. This will be based on the impact of the assessment process on Students, Approved Providers and (where appropriate) Employers as against the usefulness of the outcomes.
	SR 2.2	The Supplier shall:

	General assessment delivery requirements	1 specify when the TQ assessments can be undertaken during the relevant Academic Year (taking into account any dates prescribed by the Key Dates Schedule for the relevant Academic Year) so that Students have sufficient time to generate assessment evidence and/or demonstrate the required knowledge, understanding, skills and behaviours; 2 notwithstanding the number of Assessors (and Moderators where permitted in accordance with the Approved Assessment Strategy) identified in the Implementation Plan and/or the Resource Plan, ensure a sufficient number of qualified and trained Assessors (and such Moderators) are available to assess Students' assessment evidence for the TQ; 3 train Assessors (and Moderators where permitted in accordance with the Approved Assessment Strategy) so that their judgements in relation to the TQ assessments are consistent and accurate and applied in line with the standards defined by or through such training; 4 sample the marking of live TQ assessments (to ensure accuracy and consistency) and, where such marking is not accurate and/or consistent, take all such steps as are necessary to ensure that such marking is accurate and consistent; 5 ensure the TQ Live Assessment Materials are made available to Approved Providers in English (online and/or in hard copy (as applicable)); 6 ensure the TQ Live Assessment Materials are available at the right time (online and/or in hard copy (as applicable)) in accordance with this Contract; 7 ensure that TQ Live Assessment Materials are free from errors and where any errors are identified in the TQ Live Assessment Materials they are dealt with appropriately, including through the issue of an erratum and by taking all such actions as are necessary to ensure that Students are not disadvantaged as a result of such errors;
--	--	--

		8 where Student assessment evidence for the TQ is required to be generated under supervised conditions: (a) ensure that the nature of the supervised conditions and the hours for such supervised conditions are detailed in the TQ Specification; and (b) provide a clear and detailed rationale as part of its Assessment Strategy for Submission at Interim Milestone 2 to the Authority and the Authority shall consider whether such hours are appropriate, provided always that the Authority's decision as to whether such hours are appropriate shall be final; 9 ensure that Approved Providers comply with the Approved Provider's Quality Assurance Process, including: (a) keeping Students' assessment evidence for the TQ secure during and after assessment; and (b) verifying that a Student's assessment evidence for the TQ has been solely produced by that Student; 10 following IfATE Approval, monitor the delivery of the TQ to identify any feature which could disadvantage a group of Students who share a particular characteristic and shall, as soon as reasonably practicable following identification of such a feature, take such steps as are necessary to minimise the feature being an unnecessary barrier to Student attainment; 11 monitor and investigate instances of malpractice and/or maladministration relating to the TQ in accordance with paragraph 3 (TQ Provider Approval and monitoring services) of Part 1 of this Service Requirements;
--	--	--

		12 ensure final marks awarded by Assessors (and Moderator final marks and/or judgements, where permitted in accordance with the Approved Assessment Strategy) in relation to the TQ are collected for each Student and checked for accuracy by the relevant date specified in the Implementation Plan; and 13 where marking is to be applied to Student assessment evidence for the TQ by Assessors (and/or by assessors employed or engaged by Approved Providers and/or Moderation is to be undertaken in relation to such marking (in circumstances where the Approved Assessment Strategy allows for use of assessors employed or engaged by the Approved Provider)), ensure: (a) such Assessors (and assessors and Moderators) are appropriately trained and competent; (b) such Assessors (and Moderators) have no personal interest in the outcome of the marking; and (c) marking and Moderation is conducted in a way which secures the accuracy of marking and a consistent approach to marking, provided always that where the Supplier determines that such marking and/or Moderation is not being undertaken accurately and consistently, it shall correct any inaccuracies and/or inconsistencies and shall take (or shall (where necessary) procure that the relevant Approved Provider and/or Moderator shall take (as the case may be)) all necessary steps to prevent any future recurrence of such inaccuracy and/or inconsistency.
	SR 2.3 Confidentiality of TQ Live Assessment	1 The Supplier shall ensure that it has all necessary processes in place to ensure that, where TQ Live Assessment Materials are confidential (including the content of or information about such TQ Live Assessment Materials), all such TQ Live Assessment Materials remain confidential.

	Materials	2	If, notwithstanding the processes referred to above, a breach of confidentiality in relation to the TQ Live Assessment Materials does occur (including through the loss, theft or transmission of confidential TQ Live Assessment Materials) or is either suspected by the Supplier or alleged by any other person (and where there are reasonable grounds for that suspicion or allegation), such matter shall be notified to the Authority in accordance with paragraph 3.2 of Part 1 of this Service Requirements and the provisions of paragraphs 3.3 to 3.5 (inclusive) of such Part 1 of this Service Requirements shall apply.
	SR2.4 Reasonable Adjustments		“Reasonable Adjustments” means such adjustments to and/or exemptions from the TQ Live Assessment Materials (as applicable) as are necessary and reasonable (in the context of what is being assessed) to enable a Student with special educational needs and/or disabilities to demonstrate his or her knowledge, understanding, skills and behaviours to the level of attainment required. The Supplier shall: 1 have in place clear arrangements for making Reasonable Adjustments; 2 explain (in the Assessment Strategy) how Reasonable Adjustments will be made to support fair access to attainment; and 3 provide details of such arrangements to Approved Providers, in each case, taking into account and (where applicable) implementing the process, approach and/or system agreed between the T Level Awarding Organisations pursuant to paragraph 2.1.8 of Schedule 4 (<i>Co-operation</i>).
	SR2.5 Special		“Special Consideration” means consideration to be given to a Student who has experienced a temporary illness, injury or other event outside of the Student’s control and which has had, or is reasonably likely to have had, a material effect on that Student’s ability to take a TQ assessment or

	Consideration	demonstrate his or her level of attainment in a TQ assessment. The Supplier shall: 1 have in place clear arrangements for Special Consideration; 2 explain (in the Assessment Strategy) how Special Considerations will be applied to support fair access to attainment; and 3 provide details to Approved Providers of how to request such Special Consideration, in each case, taking into account and (where applicable) implementing the process, approach and/or system agreed between the T Level Awarding Organisations pursuant to paragraph 2.1.8 of Schedule 4 (<i>Co-operation</i>).
	SR 2.6 TQ Core Component assessment design and delivery	1 The TQ assessments must be appropriately weighted. Where there is more than one Occupational Specialist Component for the TQ, the Supplier shall not weight the assessment of the TQ Core Component more heavily towards any one Occupational Specialist Component. This is to ensure fairness for all Students, to support learning in their chosen Occupational Specialist Component. 2 The Supplier shall assess the TQ Core Component using two distinct methods, as follows: (a) the core knowledge and understanding shall be assessed using an External Examination; and (b) the core skills and relevant aspects of core knowledge shall be assessed through the Employer Set Project in accordance with paragraph 3 below, in each case, as referred to in the Specification of Content.

		3 Evidence generated by a Student in assessments of the Employer Set Project should be marked by an Assessor. However, in very exceptional circumstances set out in the Approved Assessment Strategy, an Approved Provider may be permitted to mark assessment evidence generated by a Student only where the Supplier: (i) puts in place robust arrangements which ensure that such marking achieves valid and reliable outcomes; (ii) uses an approach that is as close to complete independence as possible (such arrangements and approach to be detailed in the Approved Assessment Strategy); and (iii) procures that all such marking is subject to Moderation. 4 Assessment objectives. The Supplier shall: (a) set out the assessment objectives for each of the External Examination and the Employer Set Project; and (b) specify the relevant weightings as between the External Examination and the Employer Set Project, in each case, in the Scheme of Assessment. 5 Minimum performance requirements for the TQ Core Component must be clearly defined. The Supplier shall ensure that: (a) the External Examination and the Employer Set Project are each assessed using compensatory assessment methods, such that high performance in one part of the TQ Core Component assessment compensates for lower performance in another; and (b) the minimum performance requirements for each judgemental grade required for the TQ Core Component shall reference each of the External Examination and the Employer Set Project.
--	--	---

		6 Devise the External Examination to assess the full range of knowledge and understanding outlined in the TQ Core Component. The Supplier shall ensure that: (a) the External Examination will sample from the full breadth of relevant parts of the Specification of Content; and (b) an indicative sampling grid for the Term is included within the Assessment Strategy. 7 Assessment of core skills and relevant aspects of knowledge through Employer Set Project. The Supplier shall develop briefs for Employer Set Projects and shall ensure that: (a) such briefs are developed in collaboration with Employers; (b) each such brief enables a Student to demonstrate core skills and relevant aspects of core knowledge in an occupationally relevant context; and (c) the Assessment Strategy outlines how such briefs will continue to be relevant to the TQ Core Component throughout the Term and how the Supplier will ensure that such Employer Set Projects do not become predictable and how they will keep pace with the needs of industry, in each case, so that new briefs for Employer Set Projects are made available by the Supplier in each Academic Year. 8 Engage with relevant Employers to set clear project briefs. The Supplier shall: (a) engage with Employers to ensure that sufficient project brief(s) is/are made available to enable Students to demonstrate skills across the breadth of the available Occupational Specialist Component(s), provided always that where the Supplier
--	--	---

		proposes to make available only one project brief in respect of the TQ to Students and/or proposes to utilise a project brief in respect of more than one Occupational Specialist Component, then: (i) the Supplier shall provide a detailed rationale for such proposals as part of its Assessment Strategy included with the Submission for Interim Milestone 1 to the Authority; (ii) the Authority shall consider whether such proposals are acceptable; and (iii) the Authority's decision as to whether such proposals are acceptable shall be final; (b) engage with Employers to ensure that each project brief: (i) has clear objectives, which align with the Specification of Content and which aim to motivate Students; (ii) requires Students to solve a real world problem; (iii) enables Students to generate sufficient assessment evidence to meet the objectives referred to in (i) immediately above; (iv) clearly sets out the arrangements and restrictions for Approved Providers to support Students in carrying out and completing the Employer Set Project; and (v) allows sufficient time to enable Students to generate sufficient assessment evidence; and (c) obtain evidence of validation from each Employer involved in setting the brief(s) that they approve such brief(s) (and the Supplier shall make available to the Authority a
--	--	--

		copy of such evidence on request by the Authority).	
	SR 2.7 Occupational Specialist Component assessment design and delivery	1	Assessment of performance outcomes. The Supplier shall ensure that: (a) the assessment materials for each Occupational Specialist Component assess all performance outcomes detailed in the Specification of Content for that Occupational Specialist Component; and (b) so far as is reasonably practicable, each assessment is synoptic to reflect how knowledge, understanding, skills and behaviours are drawn together and implemented to develop meaningful occupationally relevant Student assessment evidence, which attests to Threshold Competence, provided always that where the Supplier reasonably determines that it is not possible to assess performance outcomes synoptically, the Supplier shall provide a clear and detailed rationale as part of its Assessment Strategy for Submission at Interim Milestone 1 to the Authority and the Authority shall consider whether it is acceptable not to assess performance outcomes synoptically, provided always that the Authority's decision as to whether such approach is appropriate shall be final.
		2	Evidence generated by a Student in assessments of each Occupational Specialist Component should be marked by an Assessor. However, in very exceptional circumstances set out in the Approved Assessment Strategy, an Approved Provider may be permitted to mark assessment evidence generated by a Student only where the Supplier: (i) puts in place robust arrangements which ensure that such marking achieves valid and reliable outcomes; (ii) uses an approach that is as close to complete independence as possible (such arrangements and approach to be detailed in the Approved Assessment Strategy); and (iii) procures that all such marking is subject to Moderation.
		3	Exemplifying the expected standards of attainment. The Supplier shall, for each Occupational Specialist Component, produce Guide Standard Exemplification Materials

		(which shall be validated by Employers) for the purposes of IfATE Approval and for the First Teach Cohort and, for each Academic Year following grade awarding for the First Teach Cohort, produce Grade Standard Exemplification Materials (which shall be validated by Employers).	
Service Requirement 3: Grading and Awarding			
Outcomes Grades awarded for the TQ Core Component and each Occupational Specialist Component are reliable and allow Employers and other end-users (including higher education providers) to accurately identify a Student's level of attainment and effectively differentiate their performance. The TQ supports fair access to attainment for all Students who take the TQ.	SR 3.1	1	The Supplier shall undertake grading and awarding in accordance with the relevant part of the Approved Assessment Strategy.

The minimum pass grade standard for each Occupational Specialist Component attests to Threshold Competence, meets Employer expectations, and is as close to full occupational competence as possible.		
Service Requirement 4: Provider Approval		
Outcomes Approved Providers are capable of delivering the TQ to meet the required standards and expectations.	SR4.1	1 The Supplier shall receive and process applications from Eligible Providers to become Approved Providers in accordance with the relevant part of the Approved Assessment Strategy. 2 The Supplier shall (within 30 Working Days) following receipt of an application for Provider Approval from an Eligible Provider: (a) assess that Eligible Provider against the Provider Approval Criteria to determine whether such Eligible Provider satisfies all of the requirements of the Provider Approval Criteria; (b) notify that Eligible Provider of the outcome of its application; and (c) where the Eligible Provider satisfies all of the requirements of the Provider Approval

		Criteria, grant Provider Approval in respect of such Eligible Provider.
Service Requirement 5: Provider Support		
Outcomes Approved Providers are fully supported to plan and deliver (including to properly prepare Students for assessment) the TQ to meet the required standards and expectations.	SR 5.1	The Supplier shall ensure that Approved Providers are fully supported to promote, plan and deliver the TQ, including: 1 setting out in the TQ Specification any guidance and support available to the Approved Provider in respect of the TQ, which may include guidance as to sequencing of assessment of any Component; 2 providing a telephone, email and internet facility and ensuring that sufficient, suitably trained contact staff are available to: (a) answer Approved Providers' queries regarding the Provider Services and/or the TQ (including enquiries and/or queries about results); (b) deal with complaints in relation to the Provider Services and/or the TQ; and (c) ensure that such queries and/or complaints (and any queries about the T Level Programme, including different programme elements and work placements) are directed to the relevant individual at the Supplier, the Authority or other Stakeholder (as applicable); 3 ensuring that such training, resources and other information relating to the TQ, as is necessary to assist Approved Providers' administration and examination officers, is available, including in relation to: (a) key dates for administration of the TQ;

		(b) how to use any systems to upload materials; and (c) which forms should be used to enable Approved Providers to claim completion of the TQ by the relevant Student;
	4	ensuring that such training, resources and other information relating to the TQ, as is necessary to assist Approved Providers' teaching staff, is available to ensure the requirements of the TQ are clear and Students can be well prepared for assessment for the TQ, including: (a) exemplifying (through the provision of and/or training in relation to the application of the Guide Standard Exemplification Materials) the expected standards of performance for the TQ for the First Teach Cohort, so that the Approved Providers are able to design effective courses and have a clear understanding of the quality and standards their Students need to achieve; and (b) through the provision of sample questions/tasks (in addition to the TQ Specimen Assessment Materials), which can be used by Approved Providers to effectively prepare Students for live TQ assessments;
	5	undertaking intermittent reviews to ensure that the support remains fit for purpose, taking account of feedback from Approved Providers and amending the support packages as necessary;
	6	aligning training and resources with any wider FE Professional Readiness to Deliver T Levels training and support offered by the Authority; and
	7	supporting Approved Providers on agreed promotional activity, as appropriate following any reasonable request from the Authority.

Service Requirement 6: Student registration and Student entry		
Outcomes Unique identification of Students	SR 6.1	The Supplier shall procure that Approved Providers register each Student undertaking the TQ in a way that permits the Student to be clearly and uniquely identified.
Service Requirement 7: TQ Results		
Outcomes Accurate and complete results	SR 7.1	The Supplier shall ensure that all results which it issues are accurate and complete and reflect the outcome of the awarding process.
Service Requirement 8: TQ Post-Results Services		
Outcomes The TQ provides for optimal assessment and reliable evidence of a Student's attainment in relation to the knowledge, understanding, skills and behaviours specified in the Outline Content.	SR 8.1 Assessment Review	The Supplier shall ensure a transparent and effective process for review of marks (or (where applicable) Review of Moderation (as defined in Annex 10 (Additional Services) to this Service Requirements) for each Component.

The TQ supports fair access to attainment for all Students who take the TQ.		
	SR 8.2 Appeals Process	1 The Supplier shall operate an appeals process, which enables Approved Providers to appeal: (a) the results of TQ assessments undertaken by Students or (in the case of an appeal in respect of an individual Student) results of TQ assessments undertaken by that Student (including in either case the outcome of a Review of Marking and/or Review of Moderation); (b) any decisions regarding Reasonable Adjustments and/or Special Consideration for Students or (in the case of an appeal in respect of an individual Student) decisions regarding Reasonable Adjustments and/or Special Consideration for that Student; and (c) decisions which have resulted in action taken against that Approved Provider or (in the case of an appeal in respect of an individual Student) that Student in relation to the TQ, in either case, following an investigation into malpractice or maladministration, (together or individually (as the case may be) an “Appeal”). 2 Where, as a result of an Appeal, the Supplier identifies that there is or was (as the case may be) a failure in its TQ assessment process affecting more than one Student, it shall: (a) notify the Authority of such failure (including full details of the impact of such failure); (b) identify all Students who have (or who may reasonably be expected to have) been affected by the failure;

		(c) correct or, where it cannot be corrected, mitigate as far as possible the effect of the failure; and (d) take all such steps as are necessary to ensure that such failure does not recur in the future, and the provisions of paragraphs 3.2 to 3.5 (inclusive) of Part 1 of this Service Requirements shall apply in respect of such failure.
Service Requirement 9: Reporting		
Outcomes Accurate and timely information and data is available throughout the Term	SR 9.1	The Supplier shall ensure that the Management Information is provided to the Authority as follows. In the case of: 1 the Development Phase Report, in accordance with clause 5.5 (Developing the TQ and achieving IfATE Approval and Accreditation); 2 the Operational Delivery Report, in accordance with paragraph 3.1 of Schedule 15 (<i>Monitoring of Performance</i>); 3 the information and data generated pursuant to paragraph 5 of Part 1 of this Service Requirements, in accordance with paragraph 5.4 of Part 1 of this Service Requirements; 4 the information and data generated pursuant to paragraph 8 of Part 1 of this Service Requirements, in accordance with paragraph 8.2 of Part 1 of this Service Requirements; 5 the information and data relating to the delivery of the Additional Services in accordance with paragraphs 5.3, 6.1.3 and 9.1.2 of Part 1 of this Service Requirements, in each Contract Month; and

		6	the information and data relating to adjustment to the Fees pursuant to clauses 4.12 and 4.13 (<i>Pricing and payments</i>), in accordance with clause 4.13.1 (<i>Pricing and payments</i>).

Part 3 - Product Descriptions

This Part 3 sets out the Product Description for each Product.

Product	Description
Assessment Strategy	A clear and detailed explanation for how the TQ meets the outcomes/overall measures and requirements for each Service. In relation to the design of the TQ, the Assessment Strategy shall include details of and a clear and detailed rationale for: • how the design of the TQ will ensure compliance (including ongoing compliance) with all relevant requirements of this Service Requirements; • (i) individual assessment time for each TQ assessment, for example in terms of covering the required part of the Specification of Content effectively and balancing reliability and manageability, and (ii) combined assessment time for the different TQ assessments; • the number of marks for each individual TQ assessment, for example in terms of covering the required part of the Specification of Content effectively and balancing reliability and manageability; • the approach to differentiating for the available grade range in each case; • how Students' interests will be protected if there are changes to the Specification of Content; • the Guided Learning hours for each Component, taking into account the requirements of SR 1.1 (9) of Service Requirement 1;

Exceptional circumstances shall include the following factors: ○ where the assessment evidence generated by Students is likely to arise spontaneously and/or be ephemeral in nature and where this may lead to significant or insurmountable logistical difficulties in terms of the Supplier arranging to be present for every assessment; ○ where the assessment would require repeat measurement over an extended period of time, potentially including measurement of multiple aspects across multiple Students, rather than measurement on a single occasion and where this may lead to significant or insurmountable logistical difficulties in terms of the Supplier being present for the whole period of the assessment; ○ where the presence of an Assessor could significantly affect the assessment, for example because it may place undue pressure on Students and therefore undermine fairness, or could require the

	assessment to be designed and/or completed in an artificial way which would undermine validity; and ○ where the presence of an Assessor is not possible owing to issues of sensitivity and/or confidentiality with respect to individuals required to participate in the assessment(s), provided always that the factor(s) giving rise to a claim by the Supplier of the existence of any exceptional circumstances are relevant to the content of the TQ, the risks to the validity or manageability of the assessment arising as a result of such factor(s) are significant and such factor(s) and/or risk(s) cannot be managed or mitigated without marking being undertaken by an Approved Provider; • the approach to coverage of the Outline Content, including: ○ how Outline Content has been covered overall and in each TQ assessment; ○ how Outline Content has been elaborated on where necessary; ○ if applicable, why it is necessary to move elements of the Outline Content which relate to one Component into another Component; and ○ if applicable, why it is necessary to include entirely new content that is not included in the Outline Content in the Specification of Content; • the approach to: ○ mapping of the Specification of Content in TQ Specimen Assessment Materials; ○ coverage of the Specification of Content over time; and ○ ensuring the assessments for the TQ Core Component and each Occupational Specialist Component support fair access to attainment, including the approach to Reasonable Adjustments and Special Consideration; • the assessment objectives and weightings for the External Examination and the Employer Set Project; • the approach to targeting assessment objectives in the External Examination and the Employer Set Project, and to targeting performance outcomes in each Occupational Specialist Component;

ANNEX 1 – QUALIFICATION PURPOSE

The purpose of the level 3 TQ is to ensure Students have the knowledge, skills and behaviours needed to progress into skilled employment or higher level technical training relevant to the T Level.¹

To achieve this, each level 3 TQ must:

- provide reliable evidence of Students' attainment in relation to:
 - the core knowledge and skills relevant to the Route and Occupational Specialist Component(s) covered by the TQ; and
 - the knowledge, skills and behaviours required for at least one Occupational Specialist Component relevant to the TQ;
- be up-to-date, ensuring the knowledge, skills and behaviours needed for the Occupations have continued currency among Employers and other end-users;
- ensure maths, English and digital skills are developed and applied where they are essential to achieve occupationally relevant outcomes;
- ensure the minimum pass grade standard for Occupational Specialist Components attests to Threshold Competence, meets employer expectations, and is as close to full occupational competence as possible;
- allow end users to accurately identify Students' level of attainment and effectively differentiate their performance;
- provide a clear and coherent basis for development of suitably demanding high-quality level 3 courses, which enable Students to realise their potential;
- provide Students with the opportunity to manage and improve their own performance; and
- support fair access to attainment for all Students who take the TQ, including those with special educational needs and disabilities.

¹ The Authority may only grant IfATE Approval of the qualification "if satisfied that by obtaining the qualification a person demonstrates that he or she has attained as many of the outcomes set out in the standards as may reasonably be expected to be attained by undertaking a course of education" (sA2DA(3) of the 2009 Act).

Introduction

T Levels are new, two-year, technical study programmes, designed with employers to give young people the skills that industry needs. T Levels will provide a mixture of:

- technical knowledge and skills specific to their chosen industry or occupation
- an industry placement of at least 45 days in their chosen industry or occupation
- relevant maths, English and digital skills.

T Levels will become one of three major options when a student reaches level 3, alongside apprenticeships for students who wish to study and train for a specific occupation 'on the job', and A levels for students who wish to continue academic education.

When they complete a T Level study programme, students will be able to choose between moving into a skilled occupation or further study, for example, a higher or degree level apprenticeship, or higher level technical study, including higher education.

Technical education has been categorised into fifteen different technical routes, according to occupational specialism. T Levels will be available across eleven of those routes, with occupations in the remaining four routes accessible through an apprenticeship only. Most routes have been split into a number of pathways; the T Level will broadly sit at pathway level. The occupations within scope for each T Level are set out in the Institute of Apprenticeships' occupational maps.

Outline content

This outline content has been produced by [T Level panels](#) of employers, professional bodies and providers, based on the same standards as those used for apprenticeships. The outline content will form the basis of the qualification specifications for T Level qualifications, which will be developed by awarding organisations for approval by the Institute for Apprenticeships. Awarding organisations will be appointed after a procurement process.

The diagram below demonstrates how the same standard created by employer-led Trailblazer groups is used for both apprenticeships, and as the basis for this outline content. It also shows that this outline content will be used by awarding organisations to develop the full Technical Qualification (TQ) specification.

Colleges and other education and training providers will decide how to structure the T Level courses they offer, based on the qualification specifications. This will enable them to deliver the study programme's mandatory components in the most effective way for students.

T Level study programmes will include the following mandatory elements:

- a 'core' set of underpinning knowledge, concepts and skills, tailored for their chosen industry and occupation: 'core content'
- specialist training covering occupational or industry-specific skills: 'occupational specialist content'
- an industry placement with an employer, which will last for a minimum of 45 working days.

The diagram below demonstrates the different elements of a T Level programme. This outline content relates solely to the Technical Qualification part of a T Level programme.

1800 hours over two years (with flexibility)

Purpose Statement

Qualification Purpose

The purpose of the level 3 Technical Qualification is to ensure students have the knowledge and skills needed to progress into skilled employment or higher level technical training relevant to the T Level.¹

To achieve this, each level 3 Technical Qualification must:

- provide reliable evidence of students' attainment in relation to:
 - the core knowledge and skills relevant to the route and occupational specialisms covered by the qualification
 - the knowledge and skills required for at least one occupational specialism relevant to the qualification.
- be up-to-date, providing the knowledge and skills needed for the occupations to have continued currency among employers and others.
- ensure that maths, English and digital skills are developed and applied where they are essential to achieve occupationally relevant outcomes.
- ensure that the minimum pass grade standard for occupational specialisms attests to threshold competence, meets employer expectations, and is as close to full occupational competence as possible.
- allow the accurate identification of students' level of attainment and the effective differentiation of their performance.
- provide a clear and coherent basis for development of suitably demanding high-quality level 3 courses, which enable students to realise their potential.
- provide students with the opportunity to manage and improve their own performance.
- support fair access to attainment for all students who take the qualification, including those with special educational needs and disabilities (SEND).

¹ The Institute for Apprenticeships may only approve the qualification "if satisfied that by obtaining the qualification a person demonstrates that he or she has attained as many of the outcomes set out in the standards as may reasonably be expected to be attained by undertaking a course of education" (sA2DA(3) of the 2009 Act).

Technical Qualification Design

T Level programmes will differ in length to reflect the requirements of different occupations, but are expected to last 1800 hours over two years (on average).

To accommodate legitimate differences in content across T Levels, we propose that the total time for the Technical Qualification:

- will fall within a defined range of between 900 and 1400 hours
- is no less than 50% of the time for the T Level programme as a whole and
- is no more than 75% of the total time for the programme as a whole.

Component	Content	Assessment	Grading	Planned Hours
Core Students complete one component which covers all the core content	Knowledge and understanding of contexts, concepts, theories and principles relevant to the T Level Ability to apply core knowledge and skills, through a project, to meet employer-set requirements	Assessed through an externally set test and an employer-set project	Six point scale plus ungraded (U) A* – E and U	Between 20% and 50% of the qualification time
Occupational specialisms Students must complete at least one, or more depending on the minimum requirements specific to the qualification	The knowledge and skills needed to achieve threshold competence	Synoptic assessment of performance outcomes, to determine whether a student meets the minimum requirements for threshold competence	Three point scale plus ungraded (U) Distinction, Merit, Pass and Ungraded	Between 50% and 80% of qualification time

Digital: Digital Production, Design and Development

This outline content includes reference to specific digital applications, software and platforms, though it is anticipated that these would require frequent updates to reflect technical developments. They have been included in this document in italics for easy identification.

Awarding organisations will need to ensure that students have an up-to-date knowledge of the legal and regulatory obligations relating to employment in the occupations relevant to the T Level, and understand the practical implication of these on their work.

Core content

The core content relates to the whole route, and the pathway that the Technical Qualification covers. This content will vary depending on the requirements of the route and the pathway or occupations covered by the scope of the Technical Qualification.

The core content focuses on students' knowledge and understanding of contexts, concepts, theories, principles and core skills relevant to the T Level. This could include, where appropriate, assessment of knowledge, understanding and skills relevant to the route and the pathway. This breadth of content will help to ensure students are able to apply their skills in a variety of contexts and for a variety of different purposes.

The core content is assessed through an examination and a practical employer-set project. Awarding organisations can integrate knowledge in the employer-set project, to contextualise core skills. The allocation of content to each type of assessment will need to be approved by the Institute for Apprenticeships.

Employer-set project

The employer-set project ensures students have the opportunity to combine core knowledge and skills to develop a substantial piece of work in response to an employer-set brief.

This employer set project is designed to be used in relation to Digital Production Design and Development.

To ensure consistency in project scope and demand, awarding organisations will develop assessment objectives, which require learners to:

- plan their approach to meeting the brief
- apply core knowledge and skills as appropriate
- select relevant techniques and resources to meet the brief
- use maths, English and digital skills as appropriate
- realise a project outcome and review how well the outcome meets the brief.

The awarding organisation will work with a relevant employer or employers, to devise a set brief that:

- ensures a motivating starting point for students' projects, for example, a real-world problem to solve
- ensures students can generate evidence that covers the assessment objectives
- is manageable for providers to deliver
- is officially approved by the AO and employer.

For digital production design and development, in achieving the assessment objectives and meeting the brief, students must demonstrate the following core skills:

- reflective evaluation
- communicate information clearly to a technical and non-technical audience
- work with others in a collaborative manner to allow for/ encourage faster, better and more efficient achievement of goals
- develop software such as create software to operate a simple process to solve a problem
- create an artefact such as an app, website or data services
- apply a logical approach to solving problems, identifying and fixing defects and proposing software solutions
- ensure software development activity mitigates risks to security.

Occupational Specialist Content

Specialist content is structured into different occupational specialisms, which correspond to the apprenticeship standards listed on the occupational map covered by the T Level. Occupational specialisms ensure students develop the knowledge and skills necessary to achieve 'threshold competence' in the occupational specialism.

Achievement of threshold competence signals that a student is well placed to develop full occupational competence, with further support and development, once in work (including an apprenticeship). The knowledge and skills listed are required to achieve one or more 'performance outcomes'. These indicate what the student will be able to do as a result of learning and applying the specified knowledge and skills.

In essence, each performance outcome describes, at a high level, what the student 'can do' to have achieved threshold competence in an occupational specialism.

Maths, English and digital skills

Maths

The completion of a level 2 mathematics qualification (GCSE mathematics or Functional Skills) is a minimum exit requirement for all T Levels. This will ensure that all students have demonstrated fluency and competence in mathematics, and are able to recognise the importance of mathematics in their own lives, in work and to society. Achievement of a level 2 mathematics qualification will also provide the foundation to access mathematics at a higher level, if required.

Technical Qualifications should contain sufficient and appropriate maths to help students reach threshold competence in their chosen specialism(s). The following General Maths Competencies (GMCs) have been developed with input from the Royal Society Advisory Committee on Maths Education (ACME), and awarding organisations will need to embed these, and the underpinning maths, into the specifications and assessments being developed as part of the Technical Qualification.

The GMCs below are relevant to this particular Technical Qualification:

- Communicate using mathematics
- Estimate, calculate and error-spot
- Optimise work processes
- Process data
- Represent with mathematical diagrams
- Understand data
- Use rules and formulae
- Work with proportion.

Awarding organisations who are awarded an exclusive license will need to integrate these into the Technical Qualification specifications and assessments, drawing upon a more detailed framework of maths that underpins the GMCs, currently being developed in association with the Royal Society ACME.

English

The completion of a level 2 English qualification (English language GCSE or Functional Skills) is a minimum exit requirement for all T Levels. This will ensure that all students have demonstrated that they can read fluently, communicate and write effectively, and demonstrate a confident control of Standard English.

The specifications for Technical Qualifications should ensure that students acquire the technical vocabulary, and gain the practical communication skills (written and oral), needed to achieve threshold competence in their chosen occupational specialism(s).

The assessments for Technical Qualifications should ensure that students:

- Know the correct technical vocabulary and use it appropriately
- Apply their communication skills (written and oral) appropriately, using Standard English
- Use accurate spelling, punctuation and grammar.

Digital

Technical Qualifications should contain sufficient and appropriate digital skills to help students reach threshold competence in their chosen specialism(s).

This Technical Qualification should support students to develop the digital knowledge and skills needed in order to:

- Act safely and responsibly in digital environments
- Develop and project a positive digital identity and manage digital reputation
- Adopt professional approaches to using digital communications and social media
- Be aware of information security and the security controls that can be used to mitigate security threats within solutions and services
- Boolean and set operations (AND OR and NOT)
- Follow licensing guidelines, using only approved and licensed software applications
- Choose devices, applications, software and systems relevant to different tasks, having assessed their benefits and constraints
- Collate, manage, access and use digital data in spreadsheets, databases and other formats, and interpret data by running queries, data analyses and reports
- Qualify information sources, evaluating their reliability and suitability for a purpose
- Share information securely
- Take a critical approach to evaluating information in terms of its provenance, relevance, value and credibility
- Understand and apply appropriate accessibility requirements e.g. W3C
- Understand digital media as a social, political and educational tool, and of digital media production as a technical practice
- Understand digital research methods and data analysis tools and techniques
- Understand how data is used in professional and public life
- Understand innovation, enterprise and project management in digital settings
- Understand the benefits and risks involved in digital participation
- Understand the rules of copyright and open alternatives e.g. creative commons, and reference digital works appropriately in digital contexts
- Use business etiquette when communicating
- Use digital evidence to solve problems and answer questions
- Using rules and formulae (Boolean search criteria).

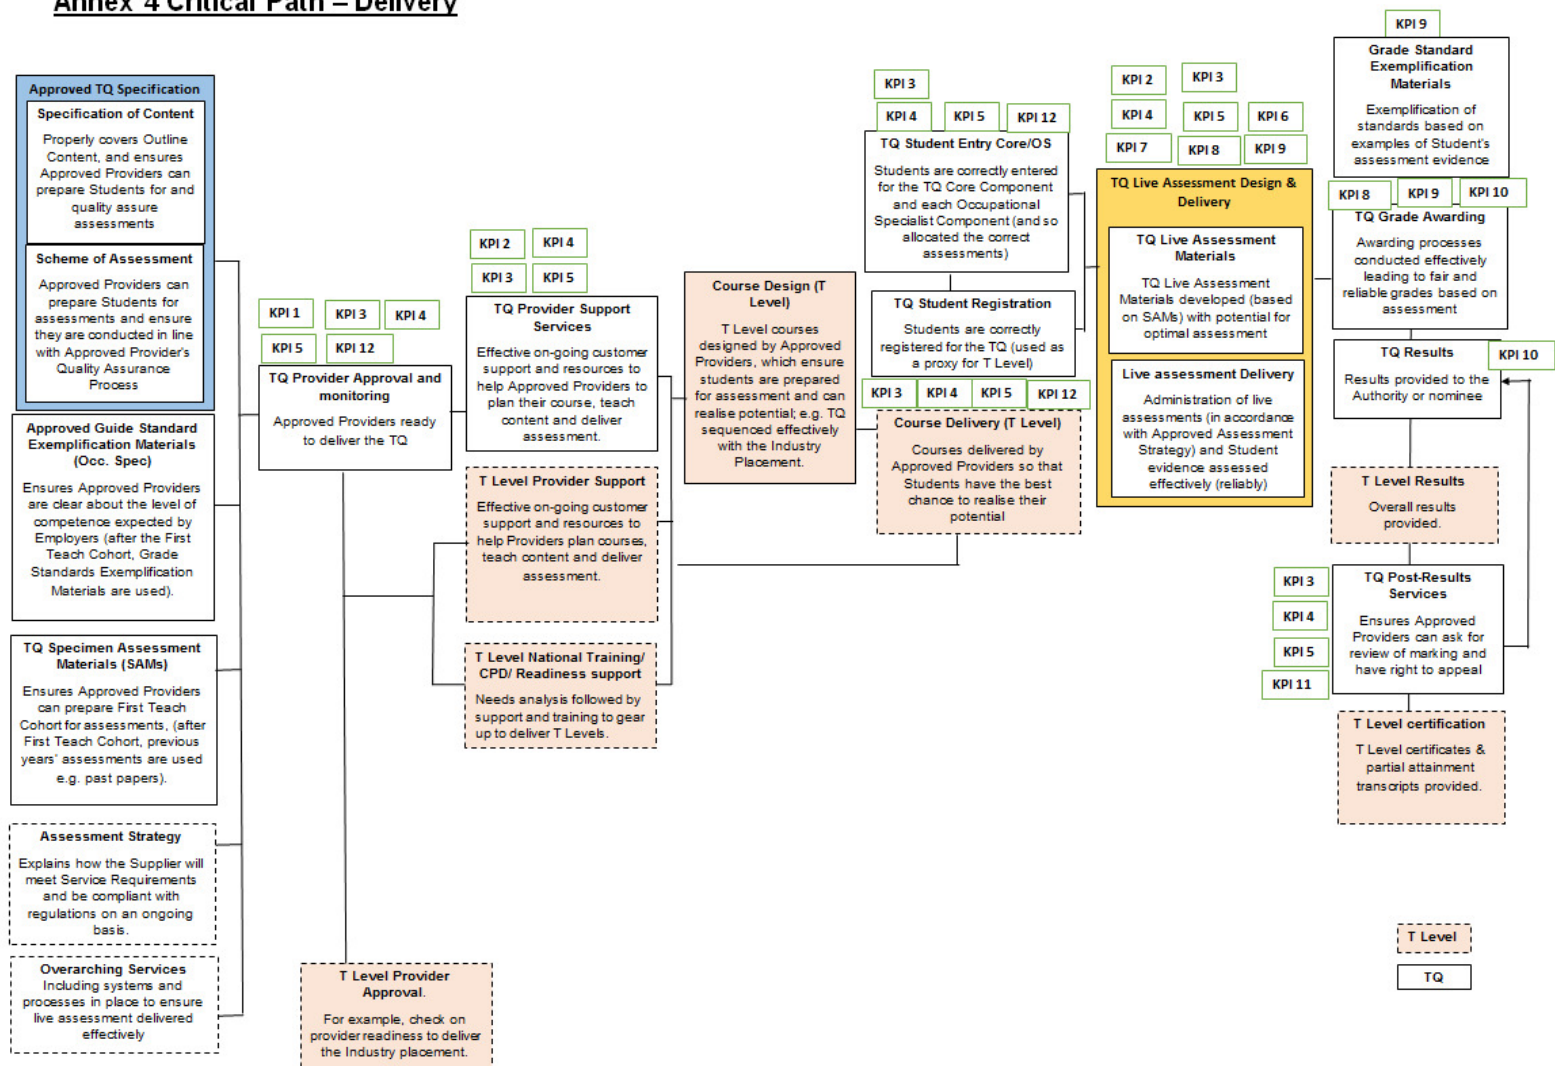

Awarding organisations who are awarded an exclusive license will need to integrate these into the Technical Qualification specifications and assessments.

Schedule 10

Business Continuity

Business Continuity: The Management System

What is Business Continuity?

Business Continuity means making sure we can always provide the services Pearson Education Ltd (PEL) offers. If we have a business disruption we've made plans that will minimise the impact on our staff, customers, stakeholders and business. Our business continuity management system is the framework behind these plans.

The provision of the TQ by the awarding organisation Pearson Education Ltd is a fundamental part of the business continuity management system (BCMS) covering the following processes:

- Qualification design and approval
- Learner registration and certification
- Centre approval and monitoring
- Scanning and processing of examination materials
- Assessment and awarding
- Customer support services

Our management system consists of:

1. **Teams** that make decisions and put our plans into action if we have an incident.
2. **Plans** to get operations back up and running after an incident.
3. **Procedures** we follow to make sure our plans are accurate and useful.

We test our plans regularly to ensure they are viable and we communicate with colleagues around the business to keep them informed about the work we're doing. We monitor our progress against objectives and KPIs and seek to continually improve our management system by holding regular management reviews. Examples of our teams are

- 1) **Teams: Incident Management Team (IMT)** The Incident Management Team decides which business activities get priority if we have a significant incident. Only members of the IMT can invoke our disaster recovery plans. The IMT is made up of ERT members and business leaders. This team is classified as a 'Bronze' Team in the Pearson Crisis Management Protocol, i.e. Pearson 'Blue Book'.
Pearson UK Resilience Responsible for making sure the business is well prepared in the event of a disruption. Ensures plans are in place to keep our critical activities going, trains staff on their BC responsibilities, coordinate external ISO 22301 audits, and tests our BC plans. Verifies that Pearson's BCMS meets the requirements of ISO 22301 and reports on its performance to senior management
- 2) **Plans –Business Impact Analysis (BIA)** The Business Continuity Policy requires Departments to complete an annual Business Impact Analysis (BIA) to ensure that we record, review and evaluate the critical processes we need to deliver our regulated and contractual awarding organisation activities successfully. BIAs outline each team's critical processes, their inter-dependencies, the systems they use, the impact their loss would have on the business, and who will recover. **Business Recovery Plan (BRP)** BRPs set out how critical business processes will be recovered once an incident has been declared. Critical processes and risks identified in team BIAs are mitigated in BRPs.
- 3) **The Procedures** Business Impact Analysis Procedure. Continual Improvement Procedure. Legal and Regulatory Requirements Procedure. Monitoring, Maintenance and Review Procedure and a Risk Assessment Procedure.

We also have a **Significant Issue Management process** where Pearson responds to issues or incidents affecting delivery (i.e. not a physical site, or operational continuity issue, but something that may adversely affect our delivery, or our service to Providers or Learners).

Pearson employs a four stage approach to such issues:

- 1) Establish the Issue Management Team
- 2) Communication
- 3) Issue Management
- 4) Close down and Lessons Learned

Pearson's **Security breach protocol** is committed to protecting Pearson users, business partners, customers, and the company from illegal or damaging actions by individuals, either knowingly or unknowingly

All components of our Business Continuity Management System make the wellbeing and interests of learners paramount.

If a Subsequent Transfer is a Relevant Transfer then the Authority or Replacement Supplier will inherit liabilities in respect of the Relevant Employees with effect from the Relevant Transfer Date.

- 8.2 The Supplier shall and shall procure that any Subcontractor shall on receiving notice of termination of this Agreement or otherwise, on request from the Authority and at such times as required by TUPE, provide in respect of any

person engaged or employed by the Supplier or any Subcontractor in the provision of the Services, the Supplier's Provisional Supplier Personnel List and the Staffing Information together with any additional information required by the Authority, including information as to the application of TUPE to each individual listed on the Supplier's Provisional Supplier Personnel List. The Supplier shall notify the Authority of any material changes to this information as and when they occur.

- 8.5 The Supplier warrants to the Authority and the Replacement Supplier that the Supplier's Provisional Supplier Personnel List, the Supplier's Final Supplier Personnel List and the Staffing Information ("**TUPE Information**") will be true and accurate in all material respects and that no persons are employed or engaged in the provision of the Services other than those included on the Supplier's Final Supplier Personnel List.
- 8.6 The Supplier shall and shall procure that any Subcontractor shall ensure at all times that it has the right to provide the TUPE Information under Data Protection Legislation.
- 8.7 Any change to the TUPE Information which would increase the total employment costs of the staff in the 12 months prior to the Expiry Date and/or the period following the date of service of a Termination Notice by either Party, shall not (so far as reasonably practicable) take place without the

Authority's prior written consent, unless such changes are required by law. The Supplier shall and shall procure that any Subcontractor shall supply to the Authority full particulars of such proposed changes and the Authority shall be afforded reasonable time to consider them.

- 8.8 In the 12 months prior to the Expiry Date and the period following the date of service of a Termination Notice by either Party, the Supplier shall not and shall procure that any Subcontractor shall not materially increase or decrease the total number of staff listed on the Supplier's Provisional Supplier Personnel List, their remuneration, or make any other change in the terms and conditions of those employees without the Authority's prior written consent.

- 8.10 The Supplier shall indemnify and keep indemnified in full the Authority and at the Authority's request each and every Replacement Supplier against all Employee Liabilities relating to:
- 8.10.1 any person who is or has been employed or engaged by the Supplier or any Subcontractor in connection with the provision of any of the Services; or
- 8.10.2 any trade union or staff association or employee representative, arising from or connected with any failure by the Supplier and/or any Subcontractor to comply with any legal obligation, and whether any such claim arises or has its origin before or after the Relevant Transfer Date.
- 8.11 The Authority will and/or shall ensure that any Replacement Supplier will indemnify and keep indemnified in full the Supplier against any liability to the extent only arising from any failure by the Authority and/or any Replacement Supplier to comply with their obligations under TUPE.

- 8.12 The parties shall co-operate to ensure that any requirement to inform and consult with the employees and or employee representatives in relation to any Relevant Transfer as a consequence of a Subsequent Transfer will be fulfilled.
- 8.13 The parties agree that the Contracts (Rights of Third Parties) Act 1999 shall apply in respect of paragraph 8.2 to paragraph 8.10 to the extent necessary to ensure that any Replacement Supplier shall have the right to enforce the obligations owed to, and indemnities given to, the Replacement Supplier by the Supplier or the Authority in its own right under the Contracts (Rights of Third Parties) Act 1999.
- 8.14 Despite paragraph 8.13, it is expressly agreed that the parties may by agreement rescind or vary any terms of this Agreement without the consent of any other person who has the right to enforce its terms or the term in question despite that such rescission or variation may extinguish or alter that person's entitlement under that right.
