## II.1) Scope of the procurement

### II.1.1) Title

Value of the field:

Expansion or provision of new general practitioner medical surgery and associated facilities serving the residents of the Ashingdon Road development, Rochford (SS4)

Reference number:

ACE-0775-2024-MSE

### II.1.2) Main CPV code

Select an option:

85100000

### II.1.3) Type of contract

Select an option:

Services

### II.1.4) Short description

Value of the field:

This Intended Approach Notice to follow the Most Suitable Provider Process, pursuant to The Health Care Services (Provider Selection Regime) Regulations 2023 (the Regulations). The Contracting Authority, NHS Mid and South Essex Integrated Care Board (the Authority) is using the most suitable provider process (the Process) as defined by Regulations 6(6) and 10) to award a Land Option ("the Contract") via a mixed procurement (commencing 25th March 2025), for the development and delivery of a General Practitioner Medical Surgery and associated facilities and services under a General Medical Services (GMS) contract (the Requirement).

The opportunity is deemed to comprise a mixture of in-scope health care services and out-of-scope non-healthcare services. The main subject-matter of the contract is deemed an in-scope health care service because the estimated lifetime value of the health care services being delivered under the MSPs existing GMS contract is higher than the value of the one-off sum associated with the Land Option and associated capital works (non-healthcare services). The Authority is of the view that separating out the process around selecting an appropriate GP Practice to award the Land Option to, from the selection of a GP Practice to deliver general medical services from the healthcare premises developed on the land would have a materially adverse impact on the Authority's ability to act in accordance with the procurement principles. Further details of the Authorities assessment leading to the decision to undertake a mixed procurement under PSR can be found in detail at the attached document titled Supplementary Information for the PIN \_ Ashingdon Road 04.03.

For avoidance of doubt, this Process will not result in the Authority and the most suitable provider (MSP) entering into a new contract. The Authority is responsible for running the Process as the legal entity responsible for commissioning Primary Medical Services in Mid and South Essex. The Authority and existing GP Practices that have expressed an initial interest in being considered as the MSP are already within contractual arrangements via each Practice's existing GMS. Instead, the Process intends to identify and award the opportunity to enter a Land Option with Bloor Homes and Rochford District Council. The Authority is expecting the council/developer to transfer the land directly to the MSP following the successful conclusion of this exercise. The MSP will be responsible for working with the council to develop the site for delivery under their existing GMS contract. Further work will be needed as the site develops to amend the MSP's existing contract to reflect any proposed plans (for example, whether it is an additional branch site or a relocation).

The development has made a financial contribution of £262,300 available to the MSP that purchases the land, to support the improvement of healthcare services in Rochford, which is the value that has been communicated in this Notice as the estimated total value. The MSP will be required to source the necessary capital to implement the requirement through solutions such as partnering with a specialist healthcare facility developer or some form of borrowings. No further capital resource is available through the NHS to support build costs.

The estimated lifetime value of the Land Option may be between £3.75m and £5.25m based on an NHS compliant build costing in the region of £5,000-7,000 per square meter. The planning permission shows the land could accommodate a healthcare building of 750m<sup>2</sup> plus on-site parking. The estimated lifetime value of the existing GMS/PMS contract could be between £26m and £99m depending on which Practice is selected (because it is based on the global annual sum of their existing contract and a 45-year contract duration).

#### II.1.5) Estimated total value

Value excluding VAT: (for framework agreements or dynamic purchasing systems - estimated total maximum value for the entire duration of the framework agreement or dynamic purchasing system):  
262300

Currency:

Pound sterling

Select an option:

45215000, 45215100, 45215130, 45215140, 70122000, 85000000, 85120000, 85121000, 85121100, 85141000

##### II.2.3) Place of performance

NUTS code:

UKH3

Main site or place of performance:

Rochford, Essex

##### II.2.4) Description of the procurement

(nature and quantity of works, supplies or services or indication of needs and requirements):

Under a Section 106 Agreement, Rochford District Council and the developer Bloor Homes have made available an opportunity via a land option (expiring November 2025) and a financial contribution of £262,300, for a local healthcare provider to purchase land at Ashingdon Road for the provision of capital projects to expand existing or provide new general practitioner medical surgery/surgeries and associated facilities that serve or will serve the residents of the Development. This could be to either relocate existing services or develop a branch surgery premises subject to following appropriate contractual processes for any proposed relocation, including any necessary public engagement as well as compliance with relevant ICB and NHSE governance.

The land available can accommodate a healthcare building of 750m<sup>2</sup> plus on-site parking. The Most

Suitable Provider will be required to source the necessary capital through solutions such as partnering with a specialist healthcare facility developer or some form of borrowings. No further capital resources are available through the NHS to support any build costs.

The Authority received authorisation through its Executive Committee in July 24, to identify the Most Suitable Provider (MSP) to take forward this opportunity. In applying the MSP process, the Authority has considered the five Key Criteria and undertaken appropriate pre-market engagement to update its knowledge of relevant providers including understanding their ability to deliver the Requirement to the relevant local population and connections with other parts of the system. Expressions of interest were sought by the Authority from GP Practices in two Primary Care Networks (PCN), Rayleigh & District, and Rochford. Four Practices have confirmed provisional interest. The Authority is of the view, taking into account the likely providers, the restrictions placed upon it via the Section 106 and all relevant information available to it at this time, that it is likely to be able to identify the MSP without running a competitive process.

To satisfy the Regulations, the Authority intends to undertake appropriate due diligence to assess the MSP in accordance with Regulation 19 (Basic Selection Criteria) and Regulation 20 (Exclusions) and with reference to the Key Criteria (Regulation 5), ensuring the most suitable provider has the legal and financial capacities and the technical and professional abilities to deliver the Requirement over the term. Additionally, the Authority may hold a structured dialogue session(s) with the MSP to further assess the MSP against the Key Criteria. As a result of a successful conclusion to such assessment and process, the Authority intends to make a decision to award the proposed Land Option to the MSP.

Further details can be found at sections II.2.4) , II.2.14) and VI.3).

#### II.2.14) Additional information

Value of the field:

This is a Provider Selection Regime (PSR) intended approach notice. The awarding of this contract is subject to the Health Care Services (Provider Selection Regime) Regulations 2023. For the avoidance of doubt, the provisions of the Public Contracts Regulations 2015 do not apply. The award decision-maker for this process is NHS Mid and South Essex Integrated Care Board (ICB).

Section VI: Complementary information

VI.2) Information about electronic workflows

VI.3) Additional information

Value of the field:

The Authority will observe a minimum of 14 days after the day on which this Notice of Intention / Prior Information Notice is submitted for publication, prior to commencing its assessment of the MSP in accordance with Schedule 5 of PSR.

The deadline for any potential practices to express an interest in this opportunity is midnight on the 14th day beginning the day after this Notice is published. Please direct enquiries to the named contact within this Notice for further information by the deadline. Phase 1 - Qualification is intended to commence with the basic selection criteria being published to the identified Practices on 25th March 2025. The deadline for responses to the Qualification phase is 14th April 2025, at 12:00 Noon.

The basic selection criteria that potential practices must demonstrate they can meet to be considered within Phase 1 - Qualification of this process are contained within the attached document titled Supplementary Information for the PIN \_ Ashingdon Road 04.03. This document also contains the Authority's detailed assessment of how it made the decision to undertake a mixed procurement under the Regulations. This document can be made available free of charge by requesting such from the named contact herein and has been provided as supplementary information due to the character limits restricting such content being communicated within this Transparency Notice.

In accordance with Regulation 21 of the PSR the Authority is maintaining a Conflicts of Interest Register for this Process and any conflicts / how they are managed will be published alongside the confirmation of the decision to select the MSP in due course.
