6. All invoices or credit notes must quote a valid Purchase Order number i.e. one that is in the format 8000XXXXXX. This will be found on the Purchase Order you receive.
7. A 10Mb maximum file size per email is applicable.
8. If the e-invoice is encrypted, this could result in the invoice being blocked by Arvato email security filters.

11. Do not undertake new work or supply goods or services in excess of the original Purchase Order Value.
12. If an incorrect Purchase Order number or no Purchase Order number is quoted the invoice will be returned to you. You will be able to handwrite the correct Purchase Order numbers on the invoices that are returned, however it is preferable that you change it on your system and reissue to ensure any future invoices are referenced correctly.
13. Credit notes should quote the Purchase Order number and your original invoice reference along with details of what the credit note applies to, particularly if it is not for the full value of the invoice.
14. Identify the business unit the invoice or credit note relates to e.g. DfT.
15. Shared Services Arvato cannot be responsible for any e-invoice until it has been received. Responsibility for ensuring the e-invoice is received by Arvato in a timely manner lies with the supplier. All supplier invoices and payment enquiries must be directed to Shared Services Arvato. If you contact the relevant business unit directly, they will direct you to Shared Services Arvato.
