SCHEDULE ONE**1 BACKGROUND**

Following on from the successful College Staff Survey¹ (CSS), the Department is extending the survey programme to cover other FE providers in England (i.e. Sixth Form Colleges (SFCs), Independent Training Providers (ITPs), Local Authorities (LAs) and Adult Community Learning (ACLs)) who we currently know less about in terms of workforce. The survey will be tested and piloted, and if successful, the mainstage fieldwork will proceed, with first results available by January 2020. If the CSS follow-up survey is successful, a follow-up survey for this project will be conducted a year after the mainstage and will produce results by January 2021. This follow-up survey will involve teaching/training staff and leaders who have moved roles since the mainstage, and re-surveying those who haven't moved with key questions relating to changing roles.

2 AIM

The Contractor shall use all reasonable endeavours to achieve the following aim:

- To provide high quality, robust data on FE workforce, suitable for onward data analysis, and that can be applied to a range of policy areas.

3 OBJECTIVES

The Contractor shall use all reasonable endeavours to provide insights into a variety of topics, including but not limited to:

- The composition and background of the FE profession, including how it varies across providers, regions, types of provision etc;
- The strengths and weaknesses of the 'profession²';
- The qualifications, skills and experience of teaching/training staff and leaders – from industry and teaching perspectives;
- Churn within the sector, identifying demographic pressures including how teaching/training staff and leaders move into/around/out of the sector and why;
- Vacancies that providers find difficult to fill.

4 TASKS AND METHODOLOGY

Task	Output	Date Required
Draft questionnaire	Produce draft questions for the cognitive testing and piloting.	March – April 2019

¹ <https://www.gov.uk/government/publications/college-staff-survey-2018>

² Please note that many respondents will not identify themselves as part of a teaching profession. Some will not consider themselves as teachers, due to the nature of the training they provide.

Task	Output	Date Required
Cognitive testing visits	Approach a minimum of 8 organisations (4 ITPs, 2 SFCs and 2 local authority ACLs) to take part in cognitive testing. Interview the head of HR or equivalent face-to-face to cover the staff return and the logistics of conducting the survey. The Contractor will also conduct face-to-face interviews with around 4 teaching/training staff and leaders per provider, to cognitively test the questionnaire.	May 2019
Pilot	After making any revisions from the cognitive testing, conduct a pilot of the online staff survey with the providers involved in the cognitive testing, and a pilot of the staff return with a further 30 organisations. The pilot staff survey questionnaire will have an additional question asking respondents if they had any issues, and to add their contact details if they are willing to discuss the questionnaire with researchers. The pilot will test 3 email reminders with varied subject lines and content. Providers will each receive a unique link to allow for monitoring likely response rates at each type of provider, and identifying which types will need additional support. The contractor will measure average interview length and data quality, and will gather feedback on respondents' experience completing the survey.	May 2019
Testing and piloting update	Presentation and short report (20 pages) on the cognitive testing and piloting findings delivered to the Project Steering Group.	June 2019
Finalised questionnaire	Complete an agreed suite of questions to robustly assess and describe the FE profession and wider leadership.	June 2019
Break Clause – the Department will decide whether the project should continue to the mainstage survey	Based on the cognitive testing and piloting report and presentation, the Project Steering Group will decide whether the project is suitable to move on to the mainstage fieldwork. The Department will	June 2019

Task	Output	Date Required
	reserve the right to terminate or amend this contract with 30 days' notice if there are concerns that mainstage fieldwork would not be as productive as required.	
Mainstage fieldwork	<p>Design an A4 poster about the survey, which will be emailed to providers to print out for staff noticeboards.</p> <p>Create a survey web page where individuals can go for more information, verify the authenticity of the research, and contact the contractor with any queries.</p> <p>Send an initial ministerial letter to heads of organisations about the overall project, which will give details of the mainstage. Ideally, this will request the head of organisation send a contact name for the contractor to call to collect the required staff return data.</p> <p>Send a datasheet detailing the required information, before calling to collect staff return data. This call is expected to take no more than 20 minutes.</p> <p>Instruct the providers that took part in this initial data collection to distribute an email containing a link to the online survey to all in-scope teaching/training staff and leaders.</p> <p>Send at least 3 email reminders to encourage to engagement and increase response rate.</p> <p>Use all reasonable endeavors to achieve completed questionnaires from a minimum of 4000 teaching/training staff and leaders, from c. 400 different providers (300 ITPs, 40 SFCs, 60 ACLs).</p> <p>Half of the providers, selected at random, will receive reminder emails from the Contractor, and half will receive reminder emails from the Department. The contractor will compare the responses between these two conditions, along with responses</p>	July – October 2019

Task	Output	Date Required
	sent before any reminder emails were sent.	
Presentation of findings	Present findings to the Project Steering Group and the external Advisory Board.	December 2019

Presentation of findings at key annual membership events of the relevant sector bodies (timing to be confirmed but after the report publication, and subject to the sector bodies' agreement).	February 2020
Break clause – the Department will decide whether the follow-up survey should go ahead	Based on the findings from the CSS churn survey, the Project Steering Group will decide whether the project is suitable to move on to the follow-up survey.	March 2020
Follow-up survey design, cognitive testing and pilot	Produce draft questions for the 10-minute follow-up survey and conduct cognitive testing before finalising. Pilot the interview to ensure the length is on track.	April – June 2020

Task	Output	Date Required
Follow-up survey fieldwork	<p>Send out a short online survey to all of the mainstage respondents who agreed to be re-contacted and screen for those who have moved/changed or left their jobs. Outputs for FE providers	Produce 3 sub-sector summary reports tailored to provider type.	February 2021

Scope

The survey will cover all ESFA-funded ITPs, SFCs (excluding academies), LAs that provide FE, and ACLs in England. There are around 1000 in scope FE providers. The target population within providers will be:

- (i) Teaching/training staff who provide a substantial proportion of course-based learning; and
- (ii) Leaders, including senior managers and governors (where relevant).

Terminology

The contractor will consult with the Working Group of relevant sectors bodies, including AELP, HOLEX and the Sixth Form College Association, and the FE Research Advisory Board of FE sector bodies and stakeholders to confirm the correct terminology to use when communicating with teaching/training staff and leaders in FE providers.

Sampling Approach

The contractor will take a census approach and invite all in-scope FE providers to complete the survey. Heads of organisation/HR or equivalent will be issued with agreed guidance on which staff are in scope and will be asked to distribute the online survey link to all eligible staff. The questionnaire will route staff to the appropriate questions and identify out of scope respondents based on their initial responses.

Ensuring high quality data

To maximise response rates and ensure data is high quality for the staff return:

- All interviewers will receive a face-to-face briefing.
- The research team will monitor fieldwork progress closely through the desktop real-time reporting system.
- Interviewers will be highly experienced at conducting research on learning and skills issues.
- Individuals will be called up to 7 times before considering withdrawing the sample. Whether a piece of sample is withdrawn will be decided on a case-by-case basis depending on the outcome of the previous calls. The contractor will ensure they call individuals at different times and across different days.
- Interviewers will make detailed notes after each call which will appear on screen for the interviewer the next time that respondent is called (hence the interviewer will know 'where things stand' and is not calling cold).
- The contractor's contact centre will be operational for this project Monday-Friday 8am-6pm. However, if call back appointments are allocated outside of those times, these will be honoured within this contract.

To maximise response rates and ensure the data is high quality for the staff survey, the contractor will ensure:

- Email invites are well-worded and concisely explain the purpose of the study and the importance of taking part. Where possible, these will be branded with DfE, sector body and potentially union support.
- Questionnaires do not exceed 10-15 minutes to complete, on average.
- On-screen questionnaires are well-presented and easy to complete. They will be mobile/laptop friendly and will also allow people to complete the survey in more than one sitting, re-entering at the point they leave it.
- A dedicated email and hotline number will be open for people to contact with any queries.

- Up to three e-mail reminders are sent to non-responders to the online survey.
- Mid-fieldwork each provider will be provided with their response numbers/response rate and a comparison with other organisations, to prompt them to encourage response.

7 STEERING COMMITTEE

The Project Manager shall set up a Steering Committee for the Project, consisting of representatives from the Department and the Contractor. The function of the Steering Committee shall be to review the scope and direction of the Project against its aims and objectives, monitor progress and efficiency, and assess, manage and review expected impact and use of the findings from the Project against an agreed Project Communication Plan, through the standard Department Communication Plan Template. The Committee shall meet at times and dates agreed by the parties, or in the absence of agreement, specified by

the Department. The Contractor's representatives on the Steering Committee shall report their views on the progress of the Project to the Steering Committee in writing if requested by the Department. The Contractor's representatives on the Steering Committee shall attend all meetings of the Steering Committee unless otherwise agreed by the Department.

The Department has set up the FE Research Advisory Board of sector representatives including UCU, Unison, FE Commissioner's office, NEU, CUREE, ASCL, AELP, Hoxex, ETF, SFCA, and AoC. The Advisory Board will provide advice and insight on the project.

The Department has also set up a Working Group of relevant sector representatives, including but not limited to AELP, Hoxex and SFCA. The Working Group will work more closely with the project than the Advisory Board, and will provide feedback on the terminology, engagement strategies and research tools used in this project.

8. RISK MANAGEMENT

The Contractor will keep up to date on risk management and will ensure they have plans in place to mitigate against potential risks. The Contractor will flag any risks to deliverables to the Department as soon as they arise, not waiting for the next scheduled meeting. The following table sets out the current risk assessment.

Risk	Level of risk {& after mitigation}	Potential impact	Measures to minimise the risk
Some subgroups less engaged/ more difficult to access, resulting in response bias	High {After mitigation: Medium}	High	Our methodology takes into account the high proportion of fractional/part-time teaching staff including those on casual or zero hours contracts, through use of an online approach which will reduce any potential response bias from full-time/ permanent members of staff being more likely to have work telephone numbers or be around to pick up paper questionnaires. We will ensure that representatives from all the main categories of providers and staff are included in the piloting to fully test the questionnaires and the success of the introduction to the survey in engaging different groups of staff. If needed tailored communications with certain groups (e.g. those on casual contracts) can be introduced to 'sell' the survey, and we will work with DfE and stakeholders to publicise the survey across the sector. Where possible the employment profile of the achieved sample will be compared with the collated profile data provided by institutions and other parties such as the ETF – where necessary, weighting will be applied to correct for any under-represented groups.
Lower than anticipated response rates	High {Medium}	High	We propose multiple sector engagement strategies including using a Ministerial letter encouraging provider support, gaining

			<p>endorsements from employer organisations and unions, and branding the survey/ using publicity materials such as an information poster and survey web page, to build sector engagement.</p> <p>The mainstage spans the summer holidays and therefore we propose starting fieldwork with 6th form colleges in mid-September rather than in July.</p> <p>Sending out an infographic of the main stage headline findings will also help to encourage response to the follow-up survey.</p>
Response bias at provider level	Medium {Low}	High	We will conduct a non-response analysis to understand any bias in providers not participating in the main stage. Where provider HR managers decline to participate where possible we will conduct a 'lighttouch' interview to understand what we can about their workforce, to aid non-response analysis (or if feasible use SIR data). If it appears that providers with certain characteristics are more likely to decline, we might recommend sending a second targeted ministerial letter, urging participation.
Questionnaire does not meet DfE information needs	Low/ medium {Low}	High	We will obtain a clear briefing from DfE about the research questions and how they want to use the data. We will also bear in mind how data will be reported throughout the design period to ensure that we end up with unambiguous results. Cognitive testing and piloting will check questionnaire coverage and understanding.
Key personnel ill or leave	Low/ medium {Low}	Low	Our project team includes two Directors and a Senior Research Manager, providing coverage for any senior absence. All team members will be kept up-to-date of the survey progress so able to 'pick up' the project at any stage. We also have 20+ researchers in our Learning and Skills team for additional cover.
Not completing reporting on time	Low/ medium {Low}	Medium	Having a large team on the study and undertaking the data processing throughout the course of the project as responses are received. 9 DATA COLLECTION

The Department seeks to minimise the burdens on Schools, Children's Services and Local Authorities (LAs) taking part in surveys.

When assessing the relative merits of data collection methods the following issues should be considered;

- only data essential to the project shall be collected;
- data should be collected electronically where appropriate/preferred;
- questionnaires should be pre-populated wherever possible and appropriate;
- schools must be given at least four working weeks to respond to the exercise from the date they receive the request; and
- LAs should receive at least two weeks, unless they need to approach schools in which case they too should receive 4 weeks to respond;

The Contractor shall clear all data collection tools with the Department before engaging in field work.

The Contractor shall check with the Department whether any of the information that they are requesting can be provided centrally from information already held.

10. CONSENT ARRANGEMENTS

The Department and the contractor shall agree in advance of any survey activity taking place the consent arrangements that shall apply for each of the participant groups. All participants should be informed of the purpose of the research, that the Contractor is acting on behalf of the Department and that they have the option to refuse to participate (opt out). Contact details should be provided including a contact person at the Department. Children who are 16 or over will usually be able to give their own consent but even where this is so, the Contractor, in consultation with the Department, should consider whether it is also appropriate for parents, guardians or other appropriate gatekeepers (e.g. schools, Local Authorities) to be informed when a child has been invited to participate in research.

11. PROJECT COMMUNICATION PLAN

The Contractor shall work with the Project Manager and Steering Group to agree the content of the Project Communication Plan on the standard Department Communication Plan Template at the start of the Project, and to review and update at agreed key points in the Project and at the close of the Project. The Communication Plan shall set out the key audiences for the Project, all outputs intended for publication from the Project, the likely impact of each output, and dissemination plans to facilitate effective use by the key audiences.

Description	Details
Subject matter of the processing	Staffing levels, qualifications, recruitment and retention levels, workforce development needs and job satisfaction within the FE workforce within 6 th form colleges, independent training providers, and adult and community learning providers.
Duration of the processing	<p>Data will be processed in three stages subject to a break clause between each stage:</p> <p>Stage 1 – April to June 2019 Stage 2 – July 2019 to February 2020 Stage 3 – April 2020 to February 2021</p> <p>Personal contact data will need to be securely retained for those participants who agree to be re-contacted at each survey point, in order to enable follow-up.</p> <p>The survey data will be anonymised for analysis purposes (ie it will retain a unique sample identifier to enable longitudinal analysis, but the datafile itself will not contain names, addresses or other contact details).</p>
Nature and purposes of the processing	<p>The nature of the processing will involve collecting and storing data for analysis purposes, and collecting and storing data for the purpose of contacting those respondents who agree to re-contact, to keep in touch with them about the survey between the mainstage and follow-up by emailing them an infographic, and to then invite them to take part in the follow-up survey. Participants will only be re-contacted if they have explicitly agreed to this and have provided their contact details for this purpose.</p> <p>Survey data collected during fieldwork will be anonymised in the analysis file (ie names, addresses and other contact information removed). Sample contact details (names, addresses, email, phone number) will be stored separately from the survey responses.</p>

	<p>The purpose of the processing is to conduct research on behalf of the Department to provide insights into staffing levels, skills needs, and recruitment and retention issues among the FE provider workforce within 6th form colleges, independent training providers, and adult and community learning providers.</p>
Type of Personal Data	<p>For Stage 1 – name, work email and work phone number of HR or equivalent managers in FE providers taking part in the cognitive testing and piloting; name and work contact details for staff interviewed as part of the cognitive testing (including demographic details on gender, ethnicity, age group, and whether has a disability/health condition, nationality)</p> <p>For Stage 2 - name, work email and work phone number of HR or equivalent managers in FE providers taking part in the mainstage survey, together with demographic details (as above) if they are also a senior manager/leader within the provider. Plan for return and destruction of the data once the processing is complete UNLESS requirement under union or member state law to preserve that type of data	<p>How long the Contractor will keep data is separated into two categories.</p> <p>CONFIDENTIAL (broadly, regular Job folders) and RESTRICTED (broadly, Secure Files job folders) which includes any files containing personally identifiable information including contact details.</p> <p>Data retention is governed by this classification. Confidential data is included as part of the Contractor's general Business Continuity procedures by way of daily incremental backups (backups are encrypted in transit and at rest). A backup period covers one calendar month after which a new backup set will be established. The previous backup sets will be retained for 12 months, for archival purposes and for potential data recovery requests which extend beyond a previous months archives. All data backups are fully indexed.</p>

	<p>Maintaining file, file contents search capability via backup application interface. Backups are accessible only by the Contractor's IT administrative staff, with access governed by the Associate Director of IT.</p> <p>Restricted data backups are handled separately to general Business Continuity procedures. The backups are accessible only by the Associate Director of IT and data recovery procedures are subject to restricted data access controls (with data controller authority) as detailed below. RESTRICTED data is stored encrypted, in a restricted area of the Contractor's system and subject to access controls. A data controller (Research Manager) manages access rights based on the principle of least privilege, with access right grants and revokes on demand. The entire process of restricted data access is in addition to controls, audited down to file level for who did what and when.</p> <p>CONFIDENTIAL data is accessible only via an authorised logon accounts.</p> <p>Data destruction principals follow guidelines issued via DoD 5220.22-M. Depending on the task at hand (determined by the granularity of the data in question) two data sanitisation applications will be employed.
