Andrew & Richard

Further to my previous email regarding utility terminations, please see email below from CPPC and attached documentation, which updates the status in relation to the electrical supply

The electrical supply has been temporary isolated by Western Power and the documentation also confirms the locations of where the cables, to be retained, come into the basement

Regards

Nick Stenton | Director

Good morning Nick

Western Power have now pulled the fuses at the pub and the supply is isolated. Please see attached paperwork including a map of the cable.

They have also marked the external wall where the supply cable enters the building.

Kind regards
Mitch

Hi Lucy

Please see attached Billing form. Could the engineer call in Monday -Thursday am as this will coincide with my working hours.

We would also require a certificate to confirm the fuses have been pulled and a location of the supply cable underground for the contractor who will be demolishing the upper part of the building

Kind regards
Mitch Mitchener

Dear Mitch,

Ref: 4064106

Please find attached details relating to removing / replacing the fuse following your conversation with Mark Whitehouse last week.

Each visit to remove / replace the fuse will be £87.13 (inc VAT)

As soon as the completed form is returned we can organise a date for engineers to attend to remove the fuse so you can start your demolition works.

Please do not hesitate to contact me if you have any questions.

Regards,

Lucy Carnighan
