X17: Low service damages

If Option X17 is used

Service Credits will be used to maintain service delivery through the contract, based on the Key Performance Indicators set out below (monitored and recorded on a quarterly basis).

The Service Credits approach is set out below:

- Contractors are required to score **at least 80%** per quarter. If they achieve a score below this, they are required to submit a Performance Improvement Plan to the Service Manager to set out how they will improve their performance to the required levels.
- If a Contractor **scores below 70%**, service credits would apply on a sliding scale basis as seen below (the below numbers have been used as an example and will be calculated based on a quarterly price from the returned pricing schedule):

KPI Score	Percentage retained	Amount retained per quarter (based on weekly fee quarter)	Equivalent amount retained per week
66-70	30		
61-65	40		

51-60	50		
45-50	75		
Below 45	100		

- If in the **following quarter** the Contractor then scores **above 80**, any retained credits from the previous quarter would be repaid (this relates to the previous quarter only and not any previous quarters).
- Alternatively, if in the **following quarter** the Contractor **scores between 70 and 80**, half of the retained credits from the previous quarter only would be repaid. The other half of the retained credits are permanently lost.
- OR if the Contractor does not reach a score of 80 in the following quarter, all previous retained credits are permanently lost.

Examples are shown in the following table:

EXAMPLE: OUTCOMES BASED ON KPI's	SUPPLIER KPI SCORE FOR QUARTER					ACTION TAKEN
	Quarter 1	Q2	Q3	Q4	Q5	
Contractor KPI score above 80	82					No action taken
A score of less than 80 in any quarter requires the Contractor to provide an Improvement Plan		76				Contractor must provide an Improvement Plan
A score of less than 70 in any quarter results in service credits applying: every percentage below 70 results in the same reduction in % payments of the quarterly invoice amount (to a capped maximum reduction of 100% of management fee)			66			EA retains 30% of the management fee from the quarterly invoiced totals Contractor must provide an Improvement Plan
If following a Service Credit quarter, the Contractor KPI score exceeds 80 in the following quarter , any retained service credits from the previous quarter would be repaid				81		Service Credits from previous quarter (30% of management fee) are paid (along with regular quarterly payment).

<p>OR</p> <p>If following a Service Credit quarter, in the next quarter the Contractor KPI score achieves a score of 70 but fails to achieve a score of 80, half of the service credits retained in the previous quarter are paid; half are permanently lost.</p> <p>The Contractor is required to provide an Improvement Plan</p>				72	<p>Half of the previously retained 30% is repaid (15% along with regular quarterly payment), (15% of previous quarters management fee) is permanently retained.</p> <p>Contractor must provide an Improvement Plan</p>
<p>OR</p> <p>If following a Service Credit quarter, in the next quarter the Contractor KPI score again fails to achieve a score of 70, the same % is deducted from the quarterly invoice amount (to a capped maximum reduction of 100%)</p>				50	<p>EA retains 75% of management fee from the quarterly invoiced totals AND the previously retained 30% of management fee is permanently retained.</p> <p>Contractor must provide an Improvement Plan</p>
<p>If following two Service Credit quarters, the Contractor KPI score exceeds 80 in the following quarter, any retained service credits from the previous quarter only would be repaid</p>				81	<p>Service Credits from previous quarter (100% of management fee) are paid, along with regular quarterly payment. Note that any previously retained Service Credits are not repaid.</p>

X18: Limitation of liability

If Option X18 is used

The *Contractor's* liability to the *Client* for indirect or consequential loss is limited to

For any one event, the *Contractor's* liability to the *Client* for loss of or damage to the *Client's* property is limited to

The *Contractor's* liability for Defects due to its design of an item of Equipment is limited to

The *Contractor's* total liability to the *Client* for all matters arising under or in connection with the contract, other than excluded matters, is limited to

The *end of liability date* is

6

years after the end of the Service Period

X 23

If Option X23 is used

The maximum service period is

1

Years after the starting date

The *periods* for extension are

Order

Period for extension (months)

notice date

First

Second

Third

Fourth

If there are *criteria for extension*

The *criteria for extension* are

(3)

X24: The accounting periods

If Option
X24 is
used and
Option C
is not
used

The *accounting periods* are

28th April 2025 to 31st March 2026

Y(UK)2: The Housing Grants, Construction and Regeneration Act 1996

If Y(UK)2 is used
and the date on
which a payment is
due is not fourteen
weeks after the end
of the *accounting
period* or Service
Period

The period is

weeks

If Y(UK)2 is used
and the final date for
payment is not

fourteen days after the date on which payment becomes due

The period for payment is

21

days after the date on which payment becomes due

Z: Additional conditions of contract

If Option Z is used

The *additional conditions of contract* are

Z Clauses

Clause No.	Clause
Z1	Z1 Environment Agency as regulatory authority Z1.1 The Environment Agency's role as a regulatory authority and as Client under the contract is separate and distinct. Actions taken in one capacity are deemed not to be taken in the other. Z1.2 Where statutory consents must be obtained from the Environment Agency in its capacity as a regulatory authority, the Contractor is responsible for obtaining these and paying fees. The Client's acceptance of a tender and the Client's instruction or variation of the works does not constitute statutory approval or consent. Z1.3 An action by the Environment Agency as regulatory authority is the action of Other.
Z2	Z2 Framework Agreement Z2.1 The Contractor shall ensure at all times during this contract it complies with all the obligations and conditions of the Asset Operations Operation, Maintenance, Response Framework Agreement made with the Client.
Z3	Z3 Data Protection Z3.1 The requirements of the Data Protection Schedule shall be incorporated into this contract
Z4	Z4 Liabilities and insurance Z4.1 Civil data protection claims and regulatory fines for breaches of Data Protection Legislation are excluded from any limit of liability stated.
Z5	Z5 Risks and insurance Z5.1 Replace clause 84.1 with the following Insurance certificates are to be submitted to the <i>Service Manager</i> on an annual basis.
Z6	Z6 Resolving Disputes Z6.1 Delete clause W2.1
Z31	Z31 Price Adjustment for Inflation TSC The Client recognises the ongoing pricing uncertainty with regards to inflation. The Client will mitigate this uncertainty through this clause. Z31.1 Defined terms: a) The index is Office for National Statistics (ONS) CPI (UK, 2015=100). b) The Base Date Index (B) is the latest available index published by ONS prior to the Contract Date. c) The Latest Index (L) is the latest available index published by ONS before the date of assessment of an amount due. d) The Price Adjustment Factor (PAF) at each date of assessment of an amount due is $0.9((L-B)/B)$. Z31.2 Application rules. The provisions of this clause [Z31] shall apply provided that: a) The Price for Service Provided to Date is less than or equal to the total of the Prices and b) Inflation remains positive ie L is greater than B. Z31.3 Price Adjustment Factor. If an index is changed after it has been used in calculating a PAF, the calculation is not changed. The PAF calculated at the last assessment date before the Completion Date for the whole of the works is used for calculating an amount for price adjustment after that date. Z31.4 Price adjustment Options A and B. Each amount due includes an amount for price adjustment which is the sum of <ul style="list-style-type: none">The change in the Price for Service Provided to Date since the last assessment of the amount due multiplied by the PAF andThe amount for price adjustment included in the previous amount due
