Annex 3 – Specification

1. Background

APHA requires a service and repair Agreement for Equipment located at three APHA sites (Weybridge, Penrith & Starcross).

All of these instruments support veterinary disease surveillance and research, and are primarily used to aid critical disease investigations.

2. Requirements

APHA requires a Crosslab Silver Agreement for the Equipment. This shall include the following:

- Unlimited phone support to resolve hardware and software issues. Available within Working Hours, with a target two (2) hour phone response;
- Annual on-site Preventative Maintenance visit.
- Unlimited Corrective Maintenance visits including travel, labour and parts;
- Priority response time of two (2) Working Day's for engineer to attend on-site for Corrective Maintenance visits, or loan instrument shipped to site, free of charge, in the event of Equipment failure.

3. Corrective Maintenance and Response Times

The Contractor shall provide APHA with priority resource allocation over non-contract customers.

Prior to a service engineer being dispatched to provide repair service, the Contractor may request APHA by telephone to set out the technical problem being encountered in reasonable detail in writing and/or to perform basic test procedures, and/or to run diagnostic software problems.

Repair Parts shall be provided by the Contractor within two (2) Working Days of the need for Repair Parts being identified by the Contractor, or loan instrument shipped to site free of charge, in the event of Equipment failure.

The Contractor shall continue to work on any defective Equipment covered by this agreement until it is fully functional. Repair work may be curtailed temporarily whilst additional spares or information is obtained. Under these circumstances, repair work shall recommence on the next practicable Working Day.

The Contractor shall use reasonable but commercially prudent endeavours to

provide a resolution to the satisfaction of APHA within two (2) Working Days, or failing that with a deadline for a resolution to the satisfaction of APHA.

4. Warranty

Any Repair Parts replaced during the last three (3) months of the term of the Agreement will be warranted against further failure for a period of up to ninety (90) days after the expiry or the termination of this Agreement.

5. Support Agreement Limitations:

The Agreement does not cover, and the Contractor shall not be liable for, any service made necessary by any of the following:

- a) any wilful abuse or misuse of the Equipment;
- b) use of the Equipment by a third party not being an employee of the Customer acting in the course of his employment;
- c) failure to observe and execute specified operating procedures laid down by the manufacturer including, where appropriate, routine maintenance work, which are the responsibility of the Customer;
- d) contamination of the Equipment or any part thereof which is not attributable to Equipment malfunction;
- e) any service, repair work or replacement parts required because of changes in set up, or relocation of the Equipment;
- f) the use of any software (media) not supplied by the Contractor. It is the responsibility of the Customer to ensure that all added electronic files including software and transport media are virus free. The Contractor shall not be liable for any claims resulting from damage caused by failure to install and maintain adequate virus protection when the Customer allows the use of the Contractor's computers for any other purpose than specified by the Contractor. The Contractor shall not be liable for any claims resulting from damage caused by any adjustments, maintenance to the operating system or software installations performed by the Customer's IT personnel. In the case where the Customer's IT personnel must install software and/or adapt the operating system for the purpose of networking the workstation the Contractor recommends that this is completed in accordance with the Contractor's published guidelines and a system back-up is made prior to any change being carried out.

Essential Equipment modifications as determined by the Contractor shall be included within these services provided under the Agreement, and no further charge shall be made.

7. Access to APHA for Corrective and Preventative Maintenance

An FM Provider controls access to APHA locations and requires confirmation of contractor's insurance and certificates of competency / training, plus they will retain a copy of the contractor's RAMS.

RAMS must be received by the FM Provider two (2) weeks prior to an on-site visit.

An updated version will also be required on an annual basis.

The FM Provider will administer the 'Permit to Work' process in the Permit Office / FM Provider office on site. They will provide the contractor's engineer with copies of Building Entry permits that must be signed on arrival and departure of the required building by APHA. The Contractor's staff will be escorted to and from the Permit Office by a designated officer from the Authority.

When arriving on site for the first time, the Contractor's staff will be required to attend a site safety induction (before commencing their work) and they must allow time

within their schedule for this to take place. Inductions usually take no more than forty-five (45) minutes and are valid for twelve (12) months.

The Contractor, whilst on site, shall adhere to the Authority's and FM Provider's health and safety policies and procedures.

8. Additional Information

The Equipment provider will ensure that APHA is aware of any communications or safety alerts applicable to the Equipment at any time during the life of the Contract.

9. Performance Management Framework (including Key Performance Indicators and Service Credits)

As part of the Authority's continuous drive to improve the performance of all Contracts, this Performance Management Framework (PMF) will be used to monitor, measure and control all aspects of the Contractor's performance of contract responsibilities.

The purpose of the PMF is to set out the obligations on the Contractor, to outline how the Contractor's performance will be evaluated and to detail the sanctions for performance failure. The Contractor is responsible for the performance of any sub-contractors.

Key Performance Indicators (KPIs) are essential in order to align Contractor performance with the requirements of the Authority and to do so in a fair and practical way. KPIs have to be realistic, measurable and achievable; they also have to be met otherwise indicating that the service is failing to deliver. Without the use of service credits in such a situation, this service failure places strain on the relationship as delivery falls short of agreed levels.

The proactive approach to correcting failures and addressing their cause improves the relationship and enables a partnership rather than a confrontational style of working. Its focus is on managing and improving service.

The Authority shall review performance against KPI's and, if appropriate, instigate meetings and work closely with the Contractor to agree action plans. The Authority expects the Contractor to agree and implement these plans. If this does not happen, only then shall service credit principles be applied.

The KPIs for this Contract are set out at Annex B.

Service Credit Principles

The use of service credits is governed by the following principles:

Service credits sit within the wide service management approach being pursued by the Contractor and the Authority. Use of service credits does not preclude any other remedy for failure of performance available to the Authority under the terms and conditions of the contract.

The service credit regime shall be instigated on each occasion where there is a service failure. Failure to meet a KPI may also give rise to a remediation plan.

- KPIs with a service credit rating of 1 will have a service credit of 3% of the invoice amount for the monitoring period, applied for each KPI failure
- KPIs with a service credit rating of 2 will have a service credit of 5% of the invoice amount for the monitoring period, applied for each KPI failure
- The maximum annual service credit to be applied will be no more than 10% of the total annual contract value per Contractor.

The Authority has full and complete discretion on whether to claim all, part or none of a service credit to which it is due.

Service credits claimed shall be paid to APHA as a credit note within one (1) month following the date at which the service credits were applied.

The full, agreed service credit regime will operate from the Contract start date until the end of the contract period. The KPIs may be adjusted to ensure that they are appropriate and achievable.
