F3.3 If the Authority reasonably believes the Contractor has failed to supply all or any part of the Services in accordance with the Contract, professional or industry practice which could reasonably be expected of a competent and suitably qualified person, or any legislative or regulatory requirement, the Authority may give the Contractor notice specifying the way in which its performance falls short of the requirements of the Contract or is otherwise unsatisfactory.

F3.4 If the Contractor has been notified of a failure in accordance with clause F3.3 the Authority may:

(a) use all reasonable endeavours to immediately minimise the impact of such failure to the Authority and to prevent such failure from recurring; and

(b) immediately give the Authority such information as the Authority may request regarding what measures are being taken to comply with the obligations in this clause F3.5 and the progress of those measures until resolved to the satisfaction of the Authority.

Sub-contracting any part of the Contract shall not relieve the Contractor of any of its obligations or duties under the Contract.

F4.2 The Contractor shall be responsible for the acts and/or omissions of its Sub-Contractors as though they are its own. If it is appropriate, the Contractor shall provide each Sub-

Contractor with a copy of the Contract and obtain written confirmation from them that they will provide the Services fully in accordance with the Contract.

- F4.3 The Contractor shall ensure that its Sub-Contractors and suppliers retain all records relating to the Services for at least 6 years from the date of their creation and make them available to the Authority on request in accordance with the provisions of clause E9 (Audit). If any Sub-Contractor or supplier does not allow the Authority access to the records then the Authority shall have no obligation to pay any claim or invoice made by the Contractor on the basis of such documents or work carried out by the Sub-Contractor or supplier.
- F4.4 If the Authority has consented to the placing of Sub-Contracts, the Contractor shall:

 - (c) any private sector body which substantially performs the functions of the Authority

provided that any such assignment, novation or other disposal shall not increase the burden of the Contractor's obligations under the Contract.

- F4.10 Any change in the legal status of the Authority such that it ceases to be a Contracting Authority shall not, subject to clause F4.11, affect the validity of the Contract and the Contract shall bind and inure to the benefit of any successor body to the Authority.
- F4.11 If the rights and obligations under the Contract are assigned, novated or otherwise disposed of pursuant to clause F4.9 to a body which is not a Contracting Authority or if there is a change in the legal status of the Authority such that it ceases to be a Contracting Authority (in the remainder of this clause both such bodies being referred to as the "**Transferee**"):
- (a) the rights of termination of the Authority in clauses H1 and H2 shall be available to the Contractor in respect of the Transferee;
 - (b) shall be available to the Contractor in the event of respectively, the bankruptcy or insolvency, or Default of the Transferee; and
 - (b) the Transferee shall only be able to assign, novate or otherwise dispose of its rights and obligations under the Contract or any part thereof with the prior consent in writing of the Contractor.
- F4.12 The Authority may disclose to any Transferee any Confidential Information of the Contractor which relates to the performance of the Contractor's obligations under the Contract. In such circumstances the Authority shall authorise the Transferee to use such Confidential Information only for purposes relating to the performance of the Contractor's obligations under the Contract and for no other purpose and shall take all reasonable steps to ensure that the Transferee gives a confidentiality undertaking in relation to such Confidential Information.
- F4.13 Each Party shall at its own cost and expense carry out, or use all reasonable endeavours to ensure the carrying out of, whatever further actions (including the execution of further documents) the other Party reasonably requires from time to time for the purpose of giving that other Party the full benefit of the provisions of the Contract.
- F4.14 The Authority shall be entitled to novate the Contract to any other body which substantially performs any of the functions that previously had been performed by the Authority.

F5 Waiver

- F5.1 The failure of either Party to insist upon strict performance of any provision of the Contract, or the failure of either Party to exercise, or any delay in exercising, any right or remedy shall not constitute a waiver of that right or remedy and shall not cause a diminution of the obligations established by the Contract.
- F5.2 No waiver shall be effective unless it is expressly stated to be a waiver and communicated to the other Party in writing in accordance with clause A4 (Notices and Communications).
- F5.3 A waiver of any right or remedy arising from a breach of the Contract shall not constitute a waiver of any right or remedy arising from any other or subsequent breach of the Contract.

F6 Variation

- F6.1 If, after the Commencement Date, the Authority's requirements change, the Authority may request a Variation subject to the terms of this clause F6.
- F6.2 The Authority may request a Variation by notifying the Contractor in writing of the Variation and giving the Contractor sufficient information to assess the extent of the Variation and consider whether any change to the Price is required in order to implement the Variation within a reasonable time limit specified by the Authority. If the Contractor accepts the Variation it shall confirm it in writing.
- F6.3 If the Contractor is unable to accept the Variation or where the Parties are unable to agree a change to the Price, the Authority may:
- (a) allow the Contractor to fulfil its obligations under the Contract without the Variation to the Specification; or

I2 Dispute Resolution

I2.1 The Parties shall attempt in good faith to negotiate a settlement to any dispute between them arising out of or in connection with the Contract within 20 Working Days of either Party notifying the other of the dispute and such efforts shall involve the escalation of the dispute to the finance director of the Contractor and the commercial director of the Authority.

- 12.3 If the dispute cannot be resolved by the Parties pursuant to clause 12.1 the Parties shall refer it to mediation pursuant to the procedure set out in clause 12.5 unless: (a) the Authority considers that the dispute is not suitable for resolution by mediation; or (b) the Contractor does not agree to mediation.
- 12.4 The obligations of the Parties under the Contract shall not cease, or be suspended or delayed by the reference of a dispute to mediation (or arbitration) and the Contractor and the Staff shall comply fully with the requirements of the Contract at all times.

- (a) a neutral adviser or mediator (the “**Mediator**”) shall be chosen by agreement between the Parties or, if they are unable to agree upon a Mediator within 10 Working Days after a request by one Party to the other or if the Mediator agreed upon is unable or unwilling to act, either Party shall within 10 Working Days from the date of the proposal to appoint a Mediator or within 10 Working Days of notice to either Party that he is unable or unwilling to act, apply to the Centre for Effective Dispute Resolution to appoint a Mediator;
 - (b) the Parties shall within 10 Working Days of the appointment of the Mediator meet with him in order to agree a programme for the exchange of all relevant information and the structure to be adopted for negotiations.  - (c) unless otherwise agreed, all negotiations connected with the dispute and any settlement agreement relating to it shall be conducted in confidence and without prejudice to the rights of the Parties in any future proceedings;
 - (d) if the Parties reach agreement on the resolution of the dispute, the agreement shall be recorded in writing and shall be binding on the Parties once it is signed by their duly authorised representatives;
 - (e) failing agreement, either of the Parties may invite the Mediator to provide a non-binding but informative written opinion. Such an opinion shall be provided on a without prejudice basis and shall not be used in evidence in any proceedings relating to the Contract without the prior written consent of both Parties; and
 - (f) if the Parties fail to reach agreement in the structured negotiations within 60 Working Days of the Mediator being appointed, or such longer period as may be agreed by the Parties, then any dispute or difference between them may be referred to the Courts unless the dispute is referred to arbitration pursuant to the procedures set out in clause 12.6.
- 12.6 Subject to clause 12.2, the Parties shall not institute court proceedings until the procedures set out in clauses 12.1 and 12.3 have been completed save that:

I2.7 If any arbitration proceedings are commenced pursuant to clause I2.6,

- (a) the arbitration shall be governed by the provisions of the Arbitration Act 1996 and the Authority shall give a notice of arbitration to the Contractor (the "**Arbitration Notice**") stating:
 - (i) that the dispute is referred to arbitration; and
 - (ii) providing details of the issues to be resolved;
- (b) the London Court of International Arbitration ("**LCIA**") procedural rules in force at the date that the dispute was referred to arbitration in accordance with I2.7(b) shall be applied and are deemed to be incorporated by reference to the Contract and the decision of the arbitrator shall be binding on the Parties in the absence of any material failure to comply with such rules;
- (c) the tribunal shall consist of a sole arbitrator to be agreed by the Parties;
- (d) if the Parties fail to agree the appointment of the arbitrator within 10 days of the Arbitration Notice being issued by the Authority under clause I2.7(a) or if the person appointed is unable or unwilling to act, the arbitrator shall be appointed by the LCIA;
- (e) the arbitration proceedings shall take place in London and in the English language; and

SCHEDULE 1 - SPECIFICATION

1. Executive Summary

The Care Quality Commission (CQC) is the independent regulator of health and social care in England. We make sure health and social care services provide people with safe, effective, compassionate, high-quality care and we encourage care services to improve. We do this by registering, monitoring, inspection and rating, enforcement and through the use of our independent voice.

In 2021 we published our new strategy for the changing world of health and social care. The strategy aims to make our regulation more relevant to the way care is now delivered, more flexible to manage risk and uncertainty, and it will enable us to respond in a quicker and more proportionate way as the health and care environment continues to evolve. <https://www.cqc.org.uk/about-us/our-strategy-plans/new-strategy-changing-world-health-social-care-cqcs-strategy-2021>

In order to deliver this, CQC's strategy commits the organisation to 'make it easier for people, their families and advocates to give feedback in the most convenient and suitable ways for them whenever they want. We'll also enable those who act as trusted intermediaries to share feedback with us. Working with local communities, we'll make the most of existing sources of feedback, so people don't have to repeat themselves.' It also commits CQC to 'identify better ways to gather experiences from a wider range of people and develop the skills and tools that we need to do this.'

Our Tell us about your care partnerships with national charities that represent people who use services, increase CQC's access to people's experiences of care from specific targeted communities, including those more likely to experience poorer care and inequalities, to inform our regulatory work.

This new invitation to tender ends the split we have had in recent years between organisations that bid to deliver forms via their helpline and those who generate forms and support other work via marketing and public relations activity. When bidding you should set out how you will meet the requirements, based on your ability to reach and hear from the people we need to reach and hear from.

The Requirement

- a. To increase CQC's access to people's experiences of care to support our effective regulation of care quality in services and across an area (place and integrated care systems) we seek to procure 'Tell us about your care' partners who will enable CQC to have trusted reach to people more likely to experience poor care, increase awareness of CQC, and increase CQC's

access to their experiences of care at named health and social care services to support our effective regulation of care quality.

- b. We are seeking to contract with suppliers who have trusted reach to:
 - i. People using ASC services and family carers/loved ones
 - 1. Older people
 - 2. People with a learning disability and autistic people
 - 3. Family carers/loved ones of the above
 - ii. People using inpatient mental health services and family carers/loved ones
 - iii. Inclusion health groups of socially excluded people

Suppliers will be contracted to deliver an ongoing supply of CQC Give feedback on care webforms - <https://www.cqc.org.uk/give-feedback-on-care> . Forms can be completed by the supplier on behalf of a member of the public or completed as a result of communications and engagement activity undertaken by the supplier.

- c. Tell us partners will be required to actively work with CQC on activity to publicly highlight and promote our funded partnerships through joint media and communications through both organisations owned channels
- d. Tell us partners will be required to deliver ongoing promotion of the CQC feedback webform, of CQC, our role and purpose, and our narrative about why CQC needs information about people's experiences of care to prevent poor care happening to others.
- e. Project management of the partnership within the contractor's organisation

The contractor should:

- f. Describe clearly and provide a sound methodology and supporting evidence where available (e.g. information that shows the supplier can deliver information about people's experiences of care to another organisation) for the volumes of CQC webforms they anticipate being able to deliver for what service types and what population groups (highlighting particularly our priority groups, see 3b), per quarter and per year, and at what cost. We anticipate overall costs for this supply of CQC webforms will be calculated by suppliers taking into account administrative costs, for example if the methodology for supply of forms is via a helpline, the time of a helpline worker to submit the information to CQC including any time involved in providing support and reassurance required to encourage a person to consent to share their concerns with CQC. Suppliers should also include costs for dedicated project management.

- g. Describe clearly and provide supporting evidence for the owned communication channels to specified population groups and how they will be utilised to promote CQC’s feedback webform, CQC’s role and purpose

The Authority is procuring the services for supply of CQC web forms as follows:

- Contracts will be established based on agreed anticipated webform volumes, evidenced through supply of facts and figures by the contractor
- CQC anticipates establishing multiple contracts, each delivering an agreed supply of CQC web forms
- CQC does not propose to partner with an organisation that can supply less than 100 CQC web forms per year either directly or indirectly.
- CQC regulates a wide range of health and social care services including all NHS hospitals, GPs practices, care homes, home-care agencies, dentists, independent health care providers and others. A full list of the services CQC is responsible for regulating is available from <http://www.cqc.org.uk/content/services-we-regulate>
- CQC is proposing to weight allocation of contracts to supply of CQC webforms about the services and from the population groups we have specified in 3b.
- CQC still welcomes bids from suppliers that cover other CQC regulated services and/or population groups.
- Payments will be made in arrears on a quarterly basis.

2. Cost Envelope

Cost Envelope

- f. Attend key meetings in person to review progress and discuss the service, as required by the contract manager / programme manager

- g. Attend a post contract review with the CQC to review whether the objectives of the contract were met, to review the benefits achieved; and
- h. Identify any lessons learnt for future programmes.

Key Performance Indicators (KPIs)

- Volumes of CQC webforms to be not less than the volume agreed, about the services and/or population groups agreed, measured at quarterly intervals of the contract
- Activity plan detailing how the organisation's owned communication channels will be used (and their reach) to increase public awareness and understanding of CQC and our role and encourage people to share their care experiences via CQC's webform. There should be no gap in activity greater than 2 weeks.
- Evaluation reports on the activity at six monthly intervals using a reporting form supplied by CQC – detailing outputs and outcomes – with the ability to make revisions to remaining activity based on these insights.
- Value of information received. CQC inspectors are asked to pick from a list of structured options to indicate what regulatory value/action an individual CQC webform prompted them to take. 70% of CQC webforms received must be rated by CQC inspectors as falling into one of the categories below:
 - *Bring scheduled inspection forward*
 - *Carry out responsive inspection*
 - *Contacted another agency*
 - *Contacted provider to raise issue/seek a response*
 - *Inspection underway (will be used as evidence)*
 - *No immediate action – use to inform inspection planning*
 - *Raise safeguarding alert with local authority*
 - *Positive feedback – no action required – NB. Positive feedback may count towards no more than 10% of the total for value*

The full list of options a CQC inspector will select from to identify the value of a CQC webform is listed below:

- Already known, have explanation
 - Bring scheduled inspection forward
 - Carry out responsive inspection
 - Contacted another agency
 - Contacted provider to raise issue/seek a response
 - Inspection underway (will be used as evidence)
 - No immediate action – use to inform inspection planning
 - Raise safeguarding alert with local authority
 - No value - outside regulatory remit
 - No value - too long ago to action
 - No value - too vague, not enough info to be of use
 - Positive feedback – no action required – NB. Positive feedback may count towards no more than 10% of the total for value
 - Recent inspection, areas covered
- Contractor to respond to queries from CQC within 48 hours

SCHEDULE 2 – TENDER RESPONSE

valuation Criteria 1:

Method Statement

Please describe (with specific reference to the requirement and the outcomes expected) how it is intended to deliver the services required.

Please provide specific proposals that include (but are not limited to):

- The minimum number of CQC webforms you will deliver
- How you reach and have trust with the specific population groups set out in the requirements document
- how you will drive action to deliver against the KPIs set out in the requirements document - provide detailed examples of similar work that you have undertaken in order to provide us with an appreciation of your abilities to successfully fulfil the service requirements.
- provide details of the resources available to deliver the service requirements
- How you will monitor, measure and assure quality outcomes
- Detail around how any issues around quality of the service will be dealt with promptly

Scoring mechanism: 0 – 4 as per ITT Table 5

Weighting/Max Score: 60%

Max Word Count: N/A

Evaluation Criteria 1 Bidder Response.

- The minimum number of CQC webforms you will deliver

We will deliver an ongoing supply of CQC forms, a minimum of 250 annually, which will be completed both by our helpline on behalf of a member of the public or completed as a result of communications and engagement activity undertaken by us.

We have been delivering this service since the pilot phase. Therefore, we are confident we can reach the minimum target.

We will market this service through various means to ensure the public are aware of our partnership, and will increase this communication if we are receiving fewer forms than we expect

- How you reach and have trust with the specific population groups set out in the requirements document

We have relationships with organisations, groups and individual patients who represent adult social care services, carers, older people, people with learning disabilities, autistic people, people using inpatient mental health services, and inclusion health groups of socially excluded people. We also have a close relationship with NHS England, which engages with and supports these groups. Through these many relationships, we have built up trust with them and therefore the people they represent.

Our lived experience advisory panel, Patient Voices Matter, taught us how to reach diverse populations. By working with the panel's diverse members we have gained insights into reaching, building trust and maintaining relationships with individuals from a variety of backgrounds. Through this work we have adapted the way we work with our members, participants in our work, and our partner organisations, to ensure we always practice inclusivity and respect diversity.

We have seen an increase in people contacting us with mental health concerns and therefore expect to see a higher number of people using inpatient mental health services being in touch with us. As an organisation that focusses on patient partnership, we strive to ensure that the voices of all are represented, and will fully support all

patients that engage with us.

Within our many and varied projects that we run, we recruit patients who are members of these groups. We continue to engage with these participants even after the project has ended.

We receive good feedback about our helpline services – in terms of CQC enquiries and in general - and, therefore, expect those using it will spread the word of how easy it is to feedback about CQC via us.

We have a contract with a translation service that we can use for anyone contacting us who does not speak English as a first language.

We are a member of the Helplines Partnership and certified with the Helplines Standard, which is a nationally recognised quality standard that defines and certifies best practice in helpline work.

- How you will drive action to deliver against the KPIs set out in the requirements document - provide detailed examples of similar work that you have undertaken in order to provide us with an appreciation of your abilities to successfully fulfil the service requirements.

Last year we answered 3,586 helpline enquiries including those relating to CQC tell us your care. Over the course of 2021 and 2022, CQC have received an average of 246 pieces of feedback per year, as a result of the Patients Association.

As part of our externally funded programmes we support patient engagement for two national-level audits run by the NHS Benchmarking Network, and on average 15 projects annually. Each project involves supporting organisations to hear from patients and carers in a meaningful way. Delivering projects for a range of organisations including the Department of Health and Social Care, various NHS Trusts and agencies and corporates requires a robust tracking and monitoring function to ensure delivery against each project's KPIs.

At the core of our funded work is the support we provide to patients and carers to enable them to engage in the project in a meaningful way that allows their contribution to be heard and acted on by the commissioning organisation. All of our projects have

different participant criteria including demographic variation for age, gender, ethnicity etc. but also geographic, health conditions, learning disabilities and mental health conditions. An anonymous cross section survey we carry out to capture the diversity of our membership currently at 3,000 members has shown that 55% of our membership is elderly, 25% have learning disabilities, 17% have used mental health services and 29% are carers. This is the breakdown we have used to set our KPIs against the number of forms in the required categories we hope to complete.

Example 1

NHS England is working with us to better understand the needs of patients and their current issues regarding the evidence-based values intervention programme for three sets of interventions. We have facilitated three rounds of interventions with over five workshops bringing together a diverse range of participants to discuss the programme, building in patient support and signposting for participants, as these can be sensitive and emotive topics. Our recommendations have ensured patients' views have influenced the design and roll out process of the programme.

Example 2

We partner with NHS Benchmarking on the CVD^{PREVENT} national audit. The Cardio Vascular Disease Prevent audit is part of a broader strategic objective outlined in the NHS Long Term Plan to prevent 150,000 strokes, heart attacks and cases of dementia over the next ten years. As a partner we have established and maintained a patient and carer panel of 35 participants from across the seven NHS regions with a range of health conditions. Thus far CVD Prevent has published a report highlighting national opportunities for improvement in CVD prevention and treatment of high-risk CVD conditions using data from GP systems. In addition we have also supported the development of a data and improvement tool GP's to identify groups who could most benefit from quality improvement activity locally.

Example 3

The Patients Association has been working with the NHS Benchmarking Network to

develop their National Audit on Care at End of Life survey and pilot it with the friends and family members of bereaved people for this national audit. We have provided a means for people to call in and complete the survey over the phone via our helpline service should there be any difficulty accessing it online. Over the last few years our helpline has taken 938 calls from people completing the end of life survey. We hope to better understand care at the end of life and how this impacts patients and their families in England, Wales and Northern Ireland. This audit looks to establish whether appropriate structures, policies and training are in place to support high quality care at the end of life as well as assess compliance with national guidance on care at the end of life – One Chance to Get it Right, NICE Guideline and the NICE Quality Standards for end of life care. We have supported three cycles of the audit and are working on round four now. The audit outputs enable stakeholders to identify areas of improvement and hence improve patient, family and carer experience at the end of life. Our input has helped contribute to the survey being simplified for bereaved callers, and on a wider scale it has seen trusts embed improved practices for people at end of life in hospital.

- Activity plan how the organisation’s owned communication channels will be used (and their reach) to increase public awareness and understanding of CQC and our role and encourage people to share their care experiences via CQC’s webform

Historically low numbers of people sharing their care will be addressed by a more active promotional campaign for the duration of the partnership. We will promote our partnership with the CQC on Tell Us Your Care in order to achieve via:

- On our website
 - We will augment the [existing feature](#) we have on our website with quarterly blogs or reports that will either specifically discuss the partnership or comment on a CQC report to give us the opportunity to discuss how important it is people share their experiences.
 - In 2022, we had around 250,000 visitors to our website.
- In our weekly e-newsletter
 - A monthly article on our partnership, either in the weekly helpline case feature or a simple reminder of Tell Us Your Care.
 - We will add a footer to the newsletter about Tell Us Your Care with a link to the webform.
 - Our e-newsletter is sent to around 3,600 people a week and has an open rate of about 45%.
- In Patient Voice, our twice yearly membership magazine
 - A half-page advertorial each issue about Tell Us Your Care and why it’s so

important to report experiences of health and social care.

- Patient Voice is sent to the membership of the Patients Association, about 3,000 people.
- On our social media
 - We will support CQC's periodic themed pushes of #BecauseWeAllCare using assets provided by the CQC.
 - On Twitter, our most busy channel, we will post two tweets a week to increase public awareness and understanding of CQC and its role, and encourage people to report care experiences via CQC's webform. We will also tweet independently about our partnership and the value of reporting one's care. Every post will link either to our website or directly to the webform.
 - We have around 24,800 followers on Twitter.
 - On LinkedIn, every other month (ie six posts a year) we will post about our relationship, leveraging external factors such as awareness weeks or government reports, to encourage awareness. Every post will link either to our website or directly to the webform.
 - We have nearly 900 followers on LinkedIn, which is a comparatively new channel for us.
 - On Facebook, once a month, we will put up a friendly post, perhaps with a short case study, about the value of reporting one's care, along with a link to the webform.
 - We have nearly 1,600 followers on Facebook.
- Letters to members
 - We write to our members, 3,000 and growing, every quarter with an update on our activities. We will include information on the partnership and why they should report their experiences to the CQC.
- In our email signatures
 - Every member of staff has mention of our partnership in their signature.
- Through word of mouth
 - We will include brief details of our partnership in the boilerplate of any press release we issue, or presentation we make as part of our external engagement work.
- Provide details of the resources available to deliver the service requirements

We have a trusted freephone helpline, which anyone can telephone or email to get information and guidance. Our trained helpline advisers answer enquiries directly from people who are concerned about their care, unsure where to turn, or who need advice on what options are available to them. The helpline is open from 9.30am-5pm on weekdays and we receive thousands of calls each year.

The helpline team has been delivering this service for the CQC for many years, therefore understanding the process in its entirety and efficiently managing a range of CQC enquiries. The team also supports NHS Benchmarking's National Audit of Care at End of Life (NACEL) and, therefore, is trained in dealing sensitively with people who are upset, angry or worried.

The implementation of the work will be managed by Sarah Tilsed, Head of Patient Partnership, who will act as the point of contact for the CQC for queries. Shivani Shah, Head of Programmes is an experienced project manager, and her skills building relationships with external partners is invaluable to the delivery of the goals of this partnership. They will be supported by Head of Communications & Marketing, Maya Anaokar, who brings over 20 years' experience working in communications, PR and marketing.

- How you will monitor, measure and assure quality outcomes?

We have used a secure customer relations management (CRM) system to monitor our work with CQC for many years. This shows how many pieces of feedback we pass on to CQC, how many enquiries we get where the person decides not to pass on feedback via us, and the reasons for why they do not wish to do so. This all gets passed on to our trustees.

Over the course of the partnership that the Patients Association has had with the CQC we have constantly evolved and improved our approach to referrals, and the current team of helpline advisers have developed an excellent process for submitting high-quality webforms and capturing vital information from callers (as can be seen from the low percentage of referrals that are rejected as having insufficient information). We have also been collecting information about the reasons callers don't want us to make referrals on their behalf and we feel there is a great opportunity to work closely with the CQC to develop resources and messaging to help quell these concerns and ensure patients develop a better level of trust in the process of sharing their care experiences with you.

If we feel the numbers of people contacting the CQC via us is low, we will ensure we increase the marketing of the service. The helpline team know that they can contact the

CQC for support with this partnership at any time.

- Detail around how any issues around quality of the service will be dealt with promptly

In terms of low quality due to low numbers, we will ensure that we increase our publicising of the service.

Low quality around the helpline's customer service will be dealt with by the Head of Patient Partnership, who manages the helpline team. As a team, we will review the process of taking CQC enquiries and will consider if we need a CQC colleague to run a session with the team, which is offered as part of the contract.

Our advisers receive many compliments from people contacting the helpline, which are added to our CRM system, and highlights the quality of our service. They attend a monthly meeting with an external supervisor, where they can discuss any concerns, difficulties, questions, or themes arising. This outlet and additional resource ensures that our advisers are working to a high quality.

Evaluation Criteria 2:

Social value

- How will your organisation work to help others?
- How will you consider equality and diversity in the provision and operation of services? For example, this could include ensuring the workforce is representative of the communities served as part of this contract.
- How will you protect and support the most vulnerable people?

Weighting/Max Score: 10%

Max Word Count: N/A

Evaluation Criteria 2 Bidder Response.

- How will your organisation work to help others?

The Patients Association's strategy focusses on patient partnership and therefore we help others to have the knowledge and confidence to be a partner in their care, and by ensuring they share their experiences with organisations to improve their services, to the benefit of all.

We have a free helpline, which helps people with a wide range of queries about their care navigate the system to ensure they get the support they need. We raise awareness of both our and other organisations' services so that patients have the information they need to get help and support. We have a range of resources on our website to help others have the knowledge they need on a variety of topics across health and social care; these include articles, blogs, videos, checklists, magazines, webinars, and reports.

We ensure that people's experience of health and social care is shared so that others can benefit by ensuring that changes are made as a result. We run webinars (that are then saved on our website) where patients, charities, and NHS England amongst others discuss certain topics to raise awareness and to help others; and share a weekly newsletter that has a reach of thousands of people.

We sit on and are part of a plethora of steering groups and alliances, including us chairing the Digital Coalition. Others that we are part of include the NHS Assembly, Outpatient Recovery & Transformation Program, Patient Safety Commissioner Advisory Group, National Primary Care Transformation Board, Healthcare Inequalities Improvement Network, Maternal Mental Health Alliance, NICE's VCS Forum Steering Group, Rural Support Network, Government COVID Inquiry, and the National Data Advisory Group. This ensures that we can feedback patient experiences that we are hearing and act on any national updates as soon as possible to ensure patients are aware and supported as much as possible. We have relationships with charities, representative bodies, government departments, and NHS England, which mean we can share information that will help others and work together in partnership to utilise our reach and knowledge.

We run focus groups where patients discuss their experiences in order that improvements can be made from those learnings. We invite patients to speak in other organisations' webinars so that their voice is getting shared further than our audience.

We run both large-scale and small/ rapid surveys asking people about their experiences of care. These learnings are used to raise awareness of what needs to change and are publicised to our stakeholders. Our recent survey was completed by around 2,000 people and found that although most people had positive experiences when dealing with healthcare staff, half of respondents had struggled to contact the service they needed. Among respondents who said their health and care needs affected their day-to-day lives, more than half said the impact of those needs on their mental health meant they were unable to perform day-to-day tasks and just under half of these said their health and care needs make them feel lonely or isolated.

Smaller surveys may lead to us hosting a webinar, creating a new resource, or improving the way we work.

- How will you consider equality and diversity in the provision and operation of services? For example, this could include ensuring the workforce is representative of the communities served as part of this contract.

Our helpline team who deliver this are diverse and have a range of experiences amongst them. We have a translation service – written and verbal - that we provide to anyone contacting us, therefore for anyone where English is not their first language, we can support them. Our helpline can be phoned or emailed and therefore for those not on the internet they can call our team free of charge. We will fill in online forms on behalf of callers if they do not feel comfortable doing so themselves.

In our lived experience advisory panel, Patient Voices Matter, we recruited a diverse panel with a wide of backgrounds, conditions, and experiences. We learnt a lot from the panel, both in terms of what patients experience and what we can do as an organisation to improve our processes to ensure they are more accessible. For example we now create a visual summary of themes discussed in Patient Voices Matter and our focus groups, have a Jargon Busting Dictionary so that complex words used in the health system are explained, wider options of communication methods for those engaging in focus groups, and a Healthcare Organisations Explained leaflet so people have an understanding of who does what in the plethora of healthcare organisations.

- How will you protect and support the most vulnerable people?

We have a safeguarding procedure for people who we come into contact with who need extra support. When recruiting people for our engagement work (such as focus groups, webinars, and blogs) we will assess their vulnerability to determine whether it would be appropriate for them to be involved, and if not, we will put them in touch with our helpline team. For those who are involved with our work, we ensure there is ongoing communication and support in place, including safeguarding if needed, and will supply contact details of the helpline.

1. INTRODUCTION

This Schedule 8 covers:

- 1.2 wider aspects of security relating to the Services;
- 1.3 the creation of the Security Plan;
- 1.4 audit and testing of the Security Plan; and
- 1.5 breaches of security.

2. PRINCIPLES OF SECURITY

- 2.1 The Contractor acknowledges that the Authority places great emphasis on confidentiality, integrity and availability of information and consequently on the security of the Premises and the security for the Contractor System. The Contractor also acknowledges the confidentiality of Authority Data.
- 2.2 The Contractor shall be responsible for the security of the Contractor System and shall at all times provide a level of security which:
 - 2.2.1 is in accordance with Good Industry Practice and Law;
 - 2.2.2 complies with HMG Security Policy Framework; and
 - 2.2.3 meets any specific security threats to the Contractor System.
- 2.3 Without limiting paragraph 2.2, the Contractor shall at all times ensure that the level of security employed in the provision of the Services is appropriate to maintain the following at acceptable risk levels (to be defined by the Authority):
 - 2.3.1 loss of integrity of Authority Data;

 - 2.3.3 unauthorised access to, use of, or interference with Authority Data by any person or organisation;

- 3.2 A draft Security Plan provided by the Contractor as part of its bid is set out herein.
- 3.3 Prior to the Commencement Date the Contractor will deliver to the Authority for approval the final Security Plan which will be based on the draft Security Plan set out herein.
- 3.4 If the Security Plan is approved by the Authority it will be adopted immediately. If the Security Plan is not approved by the Authority the Contractor shall amend it within 10 Working Days of a notice of non-approval from the Authority and re-submit to the Authority for approval. The Parties will use all reasonable endeavours to ensure that the approval process takes as little time as possible and in any event no longer than 15 Working Days (or such other period as the Parties may agree in writing) from the date of its first submission to the Authority. If the Authority does not approve the Security Plan following its resubmission, the matter will be resolved in accordance with clause 19 (Dispute Resolution). No approval to be given by the Authority pursuant to this paragraph 3.4 may be unreasonably withheld or delayed. However any failure to approve the Security Plan on the grounds that it does not comply with the requirements set out in paragraphs 3.1 to 3.4 shall be deemed to be reasonable.
- 3.5 The Security Plan will set out the security measures to be implemented and maintained by the Contractor in relation to all aspects of the Services and all processes associated with the delivery of the Services and shall at all times comply with and specify security measures and procedures which are sufficient to ensure that the Services comply with:

- 3.7 If there is any inconsistency in the provisions of the above standards, guidance and policies, the Contractor should notify the Authorised Representative of such inconsistency immediately upon becoming aware of the same, and the Authorised Representative shall, as soon as practicable, advise the Contractor which provision the Contractor shall be required to comply with.

- 3.8 The Security Plan will be structured in accordance with ISO/IEC27002 and ISO/IEC27001 or other equivalent policy or procedure, cross-referencing if necessary to other schedules of the Contract which cover specific areas included within that standard.

The Authority may notify the Contractor of the results of such tests after completion of each such test. Security Tests shall be designed and implemented so as to minimise the impact on the delivery of the Services.
- 5.3 Where any Security Test carried out pursuant to paragraphs 5.1 or 5.2 reveals any actual or potential security failure or weaknesses, the Contractor shall promptly notify the Authority of any changes to the Security Plan (and the implementation thereof) which the Contractor proposes to make in order to correct such failure or weakness. Subject to Approval in accordance with paragraph 4.3, the Contractor shall implement such changes to the Security Plan in accordance with the timetable agreed with the Authority or,

otherwise, as soon as reasonably possible.  - 6.2.4 investigate the incident and produce a detailed report for the Authority within 5 working days of the discovery of the incident.
- 6.3 Such steps shall include any action or changes reasonably required by the Authority. If such action is taken in response to a breach that is determined by the Authority acting reasonably not to be covered by the obligations of the Contractor under the Contract, then the Contractor shall be entitled to refer the matter to the variation procedure set out in the Contract.
- 6.4 The Contractor shall as soon as reasonably practicable provide to the Authority full details (using such reporting mechanism as may be specified by the Authority from time to time) of such actual, potential or attempted breach and of the steps taken in respect thereof.

7. CONTRACT EXIT – SECURITY REQUIREMENTS

In accordance with clause H7 of the Contract, on termination of the Contract, either via early termination or completion of the Contract then the Contractor will either return all data to the Authority or provide a certificate of secure destruction using an industry and Authority approved method. Destruction or return of the data will be specified by the Authority at the time of termination of the Contract.

8. AUDIT AND PROTECTIVE MONITORING

- 8.1 The Contractor shall collect audit records which relate to security events in delivery of the service or that would support the analysis of potential and actual compromises. In order to

facilitate effective monitoring and forensic readiness such Contractor audit records should (as a minimum) include:

8.1.1 regular reports and alerts setting out details of access by users of the service, to enable the identification of (without limitation) changing access trends, any unusual patterns of usage and/or accounts accessing higher than average amounts of Authority Data. The retention periods for audit records and event logs must be agreed with the Authority and documented.

8.2 The Contractor and the Authority shall work together to establish any additional audit and monitoring requirements for the ICT Environment.

8.3 The Contractor shall retain audit records collected in compliance with this Paragraph 8.3 for a period of at least 6 months.
