- Any analysis of impact on third-party systems
- Any changes/modifications to third party systems
- UAT Test Scripts - Creation and execution of user test scripts
- Change Management falls outside of VERSION 1 scope. It is assumed the ORR will manage all communications to employees and other parties affected by these changes
- Hypercare - It is not anticipated that there will be any additional support required post go-live. Support will be provided under the existing Managed Services contract.

PROJECT PLAN

Help desk will be delivered along with Knowledge Management and Case Management. It is recommended that these modules go-live together as there could be design dependencies within them.

The high-level plans below sets out our approach and timeline for delivery of the project based on the deliverables outlined in the 'Scope of Work'.

Please note that any delay in deliverables from ORR may result in us missing deadlines.

DELIVERABLES MATRIX

Deliverable	Description	Owner	Reviewer	Acceptance Criteria
Design Document (MD50 / AN100)	To be issued following the workshops outlining VERSION 1's understanding of requirements and how this will be implemented in Oracle HCM Cloud	VERSION 1	ORR	ORR review/sign-off
Config Workbooks (BR100 / MC050)	Updates to existing config workbooks with addition of new changes and removal of any configuration no longer used	VERSION 1	ORR	ORR review/sign-off
User Guide	Document for End Users on how to use Oracle Help desk Cloud	VERSION 1	ORR	ORR review/sign-off
Reporting Functional/ Specifications	Document which sets out the functional requirements for the 3 in scope Help desk and Case management reports	VERSION 1	ORR	ORR review/sign-off

ACCEPTANCE CRITERIA/ SIGN-OFF OF DELIVERABLES

The deliverables from the discovery phase will be published to ORR. All deliverables will be presented to ORR who will then provide feedback within 5 working days.

Updated Deliverables will then be provided to ORR including any feedback.

It is expected that deliverables will be signed off by email by ORR within 5 working days of receipt unless a longer review period is agreed. A longer review period would need to be assessed for impact on project timelines.

VERSION 1 RESOURCES

Role	Responsibilities

ORR OBLIGATIONS

Where obligations are not met by ORR there may be consequential impacts on schedule and costs, and this will be managed by Change Control.

The ORR should provide reasonably skilled and knowledgeable personnel during the project, including appropriate resources to manage the logistics of review feedback, sign offs and ORR acceptance of deliverables. ORR should communicate any changes in the ORR landscape that may impact on the timelines or content of deliverables.

The ORR should attend pre-agreed workshops. If further workshops are identified or required, then VERSION 1 would agree these with ORR and schedule them as required. These should be attended by relevant Subject Matter Experts provided by ORR.

ORR should sign off on deliverables, providing sufficient feedback to enable VERSION 1 to update deliverables. ORR should respond within 5 working days unless otherwise agreed.

Ensure any 3rd parties are managed in relation to dependencies in the project plan. Provision of a Project Manager or Business Manager to manage the logistics of workshops, review feedback, sign offs and ORR use acceptance testing.

Specific system-related obligations:

- Provision of account set-ups, system access privileges and identity management and access to any relevant documentation and systems

VERSION 1 OBLIGATIONS

Version 1 will perform its obligations under this Agreement in a reasonable and timely manner in accordance with the provisions of this Agreement.

ASSUMPTIONS

Where assumptions are subsequently invalidated, there may be consequential impacts on schedule and cost that will be formally managed via Change Control.

The following key assumptions that have been made:

- The scope of work is limited to the Oracle Help desk Cloud module only. No consideration has been given to third-party systems or interfaces
- ORR do not require any further vanilla walkthroughs as the team that will be working on the implementation have already been through this exercise with a Version 1 helpdesk consultant
- Configuration will be conducted in 3 environments (DEV, UAT and PROD)
- Up to 2 Help desk deep dive design workshops will be delivered during the discovery phase
- All configuration and training will be performed in the DEV environment only
- All training outside of key users will be managed by ORR
- Deployment will be carried out during working hours. A Release Plan will be provided to the ORR project manager detailing the tasks involved for Go live. The Release plan must be reviewed and signed off by ORR project manager prior to Go Live.
- ORR's upcoming quarterly updates to Oracle Cloud will not impact project timelines.
- ORR will not be refreshing the DEV environment at any point during the Help desk implementation
- Version 1 are not responsible for testing quarterly release updates during the project (unless there are mandatory features released that will impact the Helpdesk implementation)
