Dear [REDACTED]

RE: APPEAL AGAINST GWYNEDD COUNCIL'S DECISION TO REJECT PLANNING APPLICATION [REDACTED]

APPEAL REFERENCE: [REDACTED]

I write to you in reference to the decision made by the Planning Inspectorate on [REDACTED] to reject the above appeal, which was submitted by [REDACTED]

The original application was submitted to Gwynedd Council on [REDACTED]. It was rejected on [REDACTED].

[REDACTED] is concerned because the policy has changed since [REDACTED], and he claims that this application was rejected based on the new policy, although the original case was submitted in accordance with the criteria of the policy at the time.

[REDACTED] is eager to receive a further explanation with regard to the fairness of rejecting an application based on specific criteria when the application was written to conform to different criteria. Therefore, does the original application change in accordance with a change in policy?

[REDACTED] feels that he has done everything possible to conform, and several agencies have responded, including CADW and the Countryside Council for Wales, to state that they do not oppose the application in any way. Furthermore, he feels that it is unfair that his application has been rejected while other nearby wind turbines have been approved.

I would be grateful to receive any further information regarding this decision which, I hope, will allay [REDACTED] concerns. I enclose a copy of the Appeal Decision for your attention.

I look forward to your reply.

Yours very sincerely,
