## Call-Off Schedule 20 (Call-Off Specification)

This Schedule sets out the characteristics of the Deliverables that the Supplier will be required to make to the Buyers under this Call-Off Contract

### **GLD: Provision of eDisclosure Services for the Covid-19 Inquiry**

This specification is for Lot 2: End-to-End Service Package for four projects, although each client department's data must be segregated, access restricted to named users, and generally separate exercises run for each client department. Costs will also need to be disaggregated between individual departments.

As the inquiry has only recently published its Terms of Reference, this specification proceeds on the basis of best assumptions. In particular it assumes a 5 year Inquiry period and a certain number of Rule 9 disclosure requests. Due to the large volumes of data that are expected, this specification contemplates significant advice and support from the supplier prior to review and throughout the project in order to enable the client departments to adopt a strategic approach to their material, including potential best use of the technology (e.g. technology-assisted review).

The following client departments have been abbreviated as follows:

**Department for Education (DfE);**

**Ministry of Justice (MoJ);**

**Department for Transport (DfT);**

**Department for Levelling up, Housing and Communities (DLUHC).**

**Please provide a brief summary of the case including the nature of the dispute, the sums involved and estimated timeframe to conclusion**

The Government has established a statutory inquiry pursuant to the Inquiries Act 2005 – see Inquiry terms of reference here [UK Covid-19 Inquiry | The independent public inquiry to examine the Covid-19 pandemic in the UK \(public-inquiry.uk\)](https://public-inquiry.uk). The above client departments expect to be core participants in the inquiry, and each holds a substantial volume of data potentially relevant to the matters the inquiry will be considering. The departments require the assistance of a supplier to manage that data and generally to support each department in engaging with the inquiry
