G-Cloud services required:	<p>Aims</p> <p>The overall project has the following aims:</p> <ul style="list-style-type: none">a. through the use of publicly available data, assess and ascertain whether buildings have potentially non-compliant external wall systems;b. through the use of publicly available data, determine the height and number of floors of buildings in the height range of >11-18m.c. to develop methodologies to estimate prevalence of potentially non-compliant external wall systems and the heights of buildings using data science and machine learning methods; andd. to understand risks and challenges in using secondary data to identify potentially non-compliant external wall systems and building heights. <p>The project will be steered through a weekly project management meeting to comprise MHCLG analytical representatives plus the suppliers project team. At this stage, given the impact of Covid-19, we envisage this being a virtual meeting. This meeting will report on progress to date and will review preliminary findings.</p> <p>Methodology</p> <p>The project will be broken into phases with the following key work packages, these milestones are based on the successful delivery of the Discovery project. Further details on these tasks is included in the final UT_OFR_MHCLG_Data_Science_EWS Discovery Report.</p>

Discovery phase: 19 November 2020 - 31 March 2021

- An MVP of the front-end development and map visualisations for clustering (>11m-18m). This will be developed and specified with MHCLG leads over the course of the project.

Project Control Gates

There will be a **Project Control Gate 1 at milestone 1.2 (Algorithms Iteration Complete – January 2021)** where MHCLG will review the performance of the algorithms and make a decision on whether or not to continue with the project based on these initial results. If the algorithms do not perform in accordance with expectations, MHCLG will have the option of ending the contract at this point without incurring any further costs. All data and algorithms will be packaged up and handed over to the MHCLG team in compliance with clauses 21 and 22.
