Annex 2 – Specification
*Annex 2 - Specification***1. Overview**

- 1.7. The Authority requires that the Contractor has the ability to accurately measure and track market price changes against each of the Products within the Authority's Product Range as listed in Appendix A – Authority Product Range throughout the life of the Agreement and to report on these in the Benchmark Reports.
- 1.8. The Contractor must have the ability to present information on market price increases and decreases in comparison to price adjustments proposed by the Prison Food Supplier or the Authority.
- 1.9. The Contractor shall not participate in or undertake behaviour which is or is apparently intended to or has the consequence of distorting, to the benefit of the Prison Food Supplier or otherwise, the benchmark data that it uses and the provision of the Services to the Authority.

2. Mapping the Authority's Products

- 2.1. The Contractor shall ensure that prices for all Products listed in the Authority's Product Range (Appendix A) can be successfully measured and tracked against comparable products or categories throughout the life of the Agreement.
- 2.2. To achieve the requirement as set out in paragraph 2.1, the Contractor shall produce a Mapped Catalogue which will contain all Products listed within the Authority's Product Range (Appendix A) successfully mapped against product data held within its own systems as set out in paragraph 2.3. The Mapped Catalogue will be available in excel format and will contain the information as agreed between the Parties.
- 2.3. The mapping should deliver the best match for the Authority and Prison Food Supplier, so they can understand the market movement and decide if the prices for Products the Authority purchases are in line with general market price movements.
- 2.4. The Products within the Authority's Product Range (Appendix A) shall be mapped against a comparable product or category and case size supplied by a sample of suppliers which in the Contractor's professional opinion provides a fair comparator for benchmarking purposes.
- 2.5. For prisoner food which is non-resale, brand for brand mapping is not essential as the Authority or Prison Food Supplier may decide to switch brand so market movement can be considered for the general market.
- 2.6. For non-prisoner food which is re-sale then brand mapping may be beneficial.

Benchmarking Services for Prison Food Supply

- 2.7. The Authority is reliant on the expertise of the Contractor to select the best mapping based on the available information to be approved by the Authority.
- 2.8. Estimated annual quantities and pack sizes are provided in Appendix A to enable the Contractor to understand the Authority size and scope and provide background to enable the best product mapping.
- 2.9. No later than 45 Working Days (80 Working Days for the Authority's Fresh Produce Product Range) prior to the Planned Supply Commencement Date of the Prison Food Supply Contract, the Contractor shall map the Products against its own data in order to be able to provide a Baseline Tracker.
- 2.10. The Contractor must have the ability to track and monitor the performance of the Authority's Products identified by their Product Code, and have the capability to swap and monitor changes to Product Codes which may occur throughout the life of the Agreement.
- 2.11. Where a Product is determined to be Halal, Kosher or any other specific Product, the Contractor shall ensure that this is mapped against a suitably comparable product.
- 2.12. The Contractor recognises that the Authority may request supporting information to authenticate Products referenced to be Halal, Kosher or any other specific Product.
- 2.13. The Contractor shall provide all supporting information to the Authority no later than 10 Working Days after the request. Where supporting information is not available or access is denied, the Contractor shall confirm in writing why the information is not available and any reasonable actions to be put in place to recover the information.
- 2.14. Throughout the life of the Agreement, where the Contractor is unable to map a Product due to the agreed mapped product information no longer being available within its own system or as otherwise determined, the Contractor must identify the most suitable alternative product / category to be mapped to enable the measure and tracking of the Authority's Product Range to take place and inform the Authority immediately and agree any changes with the Authority.
- 2.15. If no alternative product / category can be determined for whatever reason, the Authority shall determine how the Contractor shall measure and track the Product for the purposes of the Quarterly Benchmark Report.

Annex 3 Contract Price

Introduction

This Annex describes the pricing and payment mechanism in respect of the Services, including the breakdown of the Contract Price.

Defined terms

Capitalised terms in this Schedule shall have the meaning set out in Annex 1 – section 1 (Definitions and Interpretation).

The Contract Price

The Contract Price as set out in Appendix A to this Annex shall be the sole source of remuneration for the Contractor under the Agreement.

The Contractor shall have no recourse to the Authority for any additional costs, fees, charges, taxes, duties or expenses associated with the performance of this Agreement. Quarterly Benchmark Reports issued in the same Contract Year must be the same price regardless of whether they fall in separate calendar or financial years.

Ordering

The Authority shall place Orders on its own payment system (as at the Commencement Date, Oracle).

Where, as determined by the Authority, the transmission or receipt of an Order is prevented by the failure of the payment system or the Contractor's own system, the Contractor shall accept an oral Order.

The Authority user shall issue a purchase order for the required Services at the agreed Contract Price to a dedicated Contractor email address in .pdf format.

The Contractor will invoice in respect of delivered Service and payment will be managed by a standard three-way match 'P2P' system. The Contractor shall quote the relevant purchase order number on an invoice as a pre-requisite for triggering payment.

Payment

The Authority shall pay the Contract Price to the Contractor where the delivery of the Service is received by a Receipt Note and the Receipt Note matches the purchase order information.

Contract Price Adjustment

The Contract Price shall not be amended during the Initial Contract Period unless otherwise agreed by both Parties and confirmed in writing. Anticipated inflation should be included in the Contract Price.

Where this Agreement is extended by the Authority pursuant to clause 4.2, the Parties shall agree an adjustment to the Contract Price. For the first year of any period of extension the Contract Price may be increased where the percentage increase is equal to or less than the percentage increase of CPI measured over the preceding 3 months. The Contract Price for subsequent years of any period

Benchmarking Services for Prison Food Supply

of extension may be increased where the percentage increase is equal to or less than the percentage increase of CPI measured over the previous 12 months.

Where CPI is negative, this shall not result in any decrease in the Contract Price. By way of 2 examples, where:

CPI increase from January – March 2021 (3 months) is 1%

CPI increase from April 2021 – March 2022 (12 months) is 1%

Example 1 - Price spread evenly across 4 years
