| Ref | Date Raised | Document | Section / Page | Clarification Question | Response |
|-----|-------------|----------|---|---|--|
| 001 | 20/12/21 | ITT | 4 - Required Telephony System Specification | From the ITT we can see you want to migrate your existing Spliceom system in to a cloud based system. Is the Growth Hub willing to consider a solution that is not spliceom and more a system that is open sip/pure cloud and will not tie the end user in to propriety Handset hardware. | As specified in the Invitation to Tender, we are looking for a provider to support our current phone system and therefore will not consider alternative solutions. |
