

Corby Urgent Care Centre (NHS Northamptonshire ICB)

PIN Advert – Market Engagement Event (MEE) Invite Notification

NHS Northamptonshire Integrated Care Board (ICB) (the Authority) is seeking to procure a service for the Corby Urgent Care Centre under NHS Standard Contract arrangements with the objective to provide timely treatment for less serious illnesses and injuries which require immediate care but which do not require the full services of an Accident & Emergency Department. The scope of practice in Urgent Treatment Centres must include minor illness and injury in adults and children of any age, including wound closure, removal of superficial foreign bodies and the management of minor head and eye injuries.

Potential bidders will also need to consider an approach to support the following needs:

- Support a reduction in emergency admissions by working collaboratively with community-based services.
- Provide a Continuing Care Clinician and wellness hub that meets the needs of the local population.
- Contribute to reducing ambulance conveyance to A&E.

The service will be based in the purpose-built facility on the Willowbrook site, Cottingham Road, Corby, Northamptonshire for the duration of the contract. The opening hours will be 8am – 8pm, 365 days a year. The contract will be for a period of 5 years, commencing April 2024, with an indicative annual value of £8,000,000.

The procurement is anticipated to go live in mid-June 2023, and Northamptonshire ICB wish to invite interested organisations to a market engagement event which will be held on Thursday 22nd June 2023 from 11am to 12pm. If your organisation is interested and would like to participate and attend this event, please email your details (name, organisation, designation, email id, contact number) to agem.procurementnorthants@nhs.net by no later than 10am on Wednesday 21st June 2023. Please note, the event will be facilitated using MS Teams.

Addition for Sharing and Collaborating:

Organisations that may wish to work collaboratively with other organisations to provide the service are requested to return the attached consent form to share their contact details.
