

# **The Greenfield Centre UPVC Window and Door Repairs**

## **Background**

Winterbourne Parish Council own The Greenfield Centre:

Park Lane,  
Winterbourne  
BS36 1NJ

It was first used as an infant school, then a teacher training center and now a community building housing the Parish Council.

There are solar panels on the roof of this section.

## **Issues**

Much of the structure is UPVC. One of the sides has been sinking due to insufficient foundations and supports. This has caused damp and also some of the windows and doors can't close as they are twisting.

There are 16 windows in total and 2 doors.

## **Rectification**

We are looking for the whole side of the building to be replaced.
