Supplies  
United Kingdom with some limited requirements overseas, including but not limited to UK MoD bases located overseas.  
NUTS code UK

**II.3) Information on framework agreement**

**II.4) Short description of nature and quantity or value of supplies or services:**

The Technology Products and Services category forms part of the newly formed Technology Pillar within Crown Commercial Service (CCS).

The priority for Technology Products and Services over the next 12 months is to work extensively with the market and customers to set out our strategic direction for this category.

Recognising market advancements and the challenges being faced by public sector customers Technology Products and Services will be seeking to develop 'integrated' commercial solutions for the supplier of commodity technology and technology services to assist customers with digital transformation.

These solutions will form part of the overall Technology category commercial offerings, which will continue to include Framework Agreements for the other specific category areas: Cloud and Digital, and Network Services.

For the avoidance of doubt any competitive activity resulting from this Notice will focus on establishing a procurement route for commodity technology products.

Working in collaboration with the Ministry of Defence and public buying organisations YPO, ESPO, CBC and NEPO, CCS aim to provide customers with a market leading commercial solution for their commodity technology requirements, to drive value, benefits and savings for the public sector and to support customers through digital transformation.

The purpose of the PIN is to:

1. Give advance notice that Crown Commercial Service (CCS) as the Contracting Authority, is to consider undertaking a tendering exercise to set up a new contracting vehicle to service Central Government and Wider Public Sector Organisations for their commodity technology hardware and software requirements.
2. Gauge the market interest in this procurement.
3. Identify suppliers who would like to assist in developing a world class technology goods supply chain for the public sector.

Further details of this procurement and our stakeholder engagement can be found here;

<http://ccs-agreements.cabinetoffice.gov.uk/procurement-pipeline>

Background information and a previous strategy briefing can be found here:

<https://www.gov.uk/government/publications/technology-strategy>

If you have not yet registered on the eSourcing Suite, this can be done online at <https://gpsesourcing.cabinetoffice.gov.uk> by following the link 'Supplier eSourcing Registration'.  
Please note that, to register, you must have a valid DUNS number (as provided by Dun and Bradstreet) for the organisation which you are registering and who will be entering into a contract if invited to do so.  
Full instructions for registration and use of the eSourcing Suite can be found at: <https://www.gov.uk/government/publications/esourcing-tool-guidance-for-suppliers>  
By registering for the eSourcing Suite in this way, you will then be in a position to 'express an interest' in any future Crown Commercial Service (CCS) procurement activity when it is announced by the publication of an OJEU Contract Notice initially on <http://ted.europa.eu/TED/main/HomePage.do> and subsequently on <https://www.contractsfinder.service.gov.uk>  
For technical assistance on use of the e-Sourcing Suite please contact the CCS Technical Support Desk email:  
[eEnablement@crowncommercial.gov.uk](mailto:eEnablement@crowncommercial.gov.uk)  
From 2.4.2014 the Government is introducing its new Government Security Classifications (GSC) classification scheme to replace the Government Protective Marking Scheme (GPMS). A key aspect of this is the reduction in the number of security classifications used. All potential suppliers should make themselves aware of the changes as it may impact on this Requirement. The link below to the Gov.uk website provides information on the new GSC:  
<https://www.gov.uk/government/publications/government-security-classifications>
- VI.3) **Information on general regulatory framework**
