## **Joint Schedule 3 (Insurance Requirements)**

### **1. The insurance you need to have**

1.1 The Supplier shall take out and maintain, or procure the taking out and maintenance of the insurances as set out in the Annex to this Schedule, any additional insurances required under an Order Contract (specified in the applicable Order Form) ("**Additional Insurances**") and any other insurances as may be required by applicable Law (together the "**Insurances**"). The Supplier shall ensure that each of the Insurances is effective no later than:

1.1.1 the DPS Start Date in respect of those Insurances set out in the Annex to this Schedule and those required by applicable Law; and

1.1.2 the Order Contract Effective Date in respect of the Additional Insurances.

1.2 The Insurances shall be:

1.2.1 maintained in accordance with Good Industry Practice;

1.2.2 (so far as is reasonably practicable) on terms no less favourable than those generally available to a prudent contractor in respect of risks insured in the international insurance market from time to time;

1.2.3 taken out and maintained with insurers of good financial standing and good repute in the international insurance market; and

1.2.4 maintained for at least six (6) years after the End Date.

1.3 The Supplier shall ensure that the public and products liability policy contain an indemnity to principals clause under which the Relevant Authority shall be indemnified in respect of claims made against the Relevant Authority in respect of death or bodily injury or third party property damage arising out of or in connection with the Deliverables and for which the Supplier is legally liable.

### **2. How to manage the insurance**

2.1 Without limiting the other provisions of this Contract, the Supplier shall:

2.1.1 take or procure the taking of all reasonable risk management and risk control measures in relation to Deliverables as it would be reasonable to expect of a prudent contractor acting in accordance with Good Industry Practice, including the investigation and reports of relevant claims to insurers;

2.1.2 promptly notify the insurers in writing of any relevant material fact under any Insurances of which the Supplier is or becomes aware; and

2.1.3 hold all policies in respect of the Insurances and cause any insurance broker effecting the Insurances to hold any insurance

slips and other evidence of placing cover representing any of the Insurances to which it is a party.

**3. What happens if you aren't insured**

3.1 The Supplier shall not take any action or fail to take any action or (insofar as is reasonably within its power) permit anything to occur in relation to it which would entitle any insurer to refuse to pay any claim under any of the Insurances.

3.2 Where the Supplier has failed to purchase or maintain any of the Insurances in full force and effect, the Relevant Authority may elect (but shall not be obliged) following written notice to the Supplier to purchase the relevant Insurances and recover the reasonable premium and other reasonable costs incurred in connection therewith as a debt due from the Supplier.

**4. Evidence of insurance you must provide**

4.1 The Supplier shall upon the Start Date and within 15 Working Days after the renewal of each of the Insurances, provide evidence, in a form satisfactory to the Relevant Authority, that the Insurances are in force and effect and meet in full the requirements of this Schedule.

**5. Making sure you are insured to the required amount**

5.1 The Supplier shall ensure that any Insurances which are stated to have a minimum limit "in the aggregate" are maintained at all times for the minimum limit of indemnity specified in this Contract and if any claims are made which do not relate to this Contract then the Supplier shall notify the Relevant Authority and provide details of its proposed solution for maintaining the minimum limit of indemnity.

**6. Cancelled Insurance**

6.1 The Supplier shall notify the Relevant Authority in writing at least five (5) Working Days prior to the cancellation, suspension, termination or nonrenewal of any of the Insurances.

6.2 The Supplier shall ensure that nothing is done which would entitle the relevant insurer to cancel, rescind or suspend any insurance or cover, or to treat any insurance, cover or claim as voided in whole or part. The Supplier shall use all reasonable endeavours to notify the Relevant Authority (subject to third party confidentiality obligations) as soon as practicable when it becomes aware of any relevant fact, circumstance or matter which has caused, or is reasonably likely to provide grounds to, the relevant insurer to give notice to cancel, rescind, suspend or void any insurance, or any cover or claim under any insurance in whole or in part.

**7. Insurance claims**

  - c) detail the process for managing any security risks from Subcontractors and third parties authorised by the Buyer with access to the Deliverables, processes associated with the provision of the Deliverables, the Buyer Premises, the Sites and any ICT, Information and data (including the Buyer's Confidential Information and the Government Data) and any system that could directly or indirectly have an impact on that Information, data and/or the Deliverables;
  - d) be developed to protect all aspects of the Deliverables and all processes associated with the provision of the Deliverables, including the Buyer Premises, the Sites, and any ICT, Information and data (including the Buyer's Confidential Information and the Government Data) to the extent used by the Buyer or the Supplier in connection with this Contract or in connection with any system that could directly or indirectly have an impact on that Information, data and/or the Deliverables;
  - e) set out the security measures to be implemented and maintained by the Supplier in relation to all aspects of the Deliverables and all processes associated with the provision of the Goods and/or Services and shall at all times comply with and specify security measures and procedures which are sufficient to ensure that the Deliverables comply with the provisions of this Contract;
  - f) set out the plans for transitioning all security arrangements and responsibilities for the Supplier to meet the full obligations of the security requirements set out in this Contract and, where necessary in accordance with paragraph 2.2 the Security Policy; and
  - g) be written in plain English in language which is readily comprehensible to the staff of the Supplier and the Buyer engaged in the provision of the Deliverables and shall only reference documents which are in the

possession of the Parties or whose location is otherwise specified in this Schedule.

### **4.3 Development of the Security Management Plan**

- 4.3.1 Within twenty (20) Working Days after the Start Date and in accordance with Paragraph 4.4, the Supplier shall prepare and deliver to the Buyer for Approval a fully complete and up to date Security Management Plan which will be based on the draft Security Management Plan.
- 4.3.2 If the Security Management Plan submitted to the Buyer in accordance with Paragraph 4.3.1, or any subsequent revision to it in accordance with Paragraph 4.4, is Approved it will be adopted immediately and will replace the previous version of the Security Management Plan and thereafter operated and maintained in accordance with this Schedule. If the Security Management Plan is not Approved, the Supplier shall amend it within ten (10) Working Days of a notice of non-approval from the Buyer and re-submit to the Buyer for Approval. The Parties will use all reasonable endeavours to ensure that the approval process takes as little time as possible and in any event no longer than fifteen (15) Working Days from the date of its first submission to the Buyer. If the Buyer does not approve the Security Management Plan following its resubmission, the matter will be resolved in accordance with the Dispute Resolution Procedure.
- 4.3.3 The Buyer shall not unreasonably withhold or delay its decision to Approve or not the Security Management Plan pursuant to Paragraph 4.3.2. However a refusal by the Buyer to Approve the Security Management Plan on the grounds that it does not comply with the requirements set out in Paragraph 4.2 shall be deemed to be reasonable.
- 4.3.4 Approval by the Buyer of the Security Management Plan pursuant to Paragraph 4.3.2 or of any change to the Security Management Plan in accordance with Paragraph 4.4 shall not relieve the Supplier of its obligations under this Schedule.

### **4.4 Amendment of the Security Management Plan**

- 4.4.1 The Security Management Plan shall be fully reviewed and updated by the Supplier at least annually to reflect:
  - 1) emerging changes in Good Industry Practice;
  - 2) any change or proposed change to the Deliverables and/or associated processes;
  - 3) where necessary in accordance with paragraph 2.2, any change to the Security Policy;
  - 4) any new perceived or changed security threats; and
  - 5) any reasonable change in requirements requested by the Buyer.

**DPS Schedule 6 (Order Form Template and Order Schedules)**

4.4.2 The Supplier shall provide the Buyer with the results of such reviews as soon as reasonably practicable after their completion and amendment of the Security Management Plan at no additional cost to the Buyer. The results of the review shall include, without limitation:

- 1) suggested improvements to the effectiveness of the Security Management Plan;
- 2) updates to the risk assessments; and
- 3) suggested improvements in measuring the effectiveness of controls.

4.4.3 Subject to Paragraph 4.4.4, any change or amendment which the Supplier proposes to make to the Security Management Plan (as a result of a review carried out in accordance with Paragraph 4.4.1, a request by the Buyer or otherwise) shall be subject to the Variation Procedure.

4.4.4 The Buyer may, acting reasonably, Approve and require changes or amendments to the Security Management Plan to be implemented on timescales faster than set out in the Variation Procedure but, without prejudice to their effectiveness, all such changes and amendments shall thereafter be subject to the Variation Procedure for the purposes of formalising and documenting the relevant change or amendment.

**5. Security breach**

5.1 Either Party shall notify the other in accordance with the agreed security incident management process (as detailed in the Security Management Plan) upon becoming aware of any Breach of Security or any potential or attempted Breach of Security.

5.2 Without prejudice to the security incident management process, upon becoming aware of any of the circumstances referred to in Paragraph 5.1, the Supplier shall:

5.2.1 immediately take all reasonable steps (which shall include any action or changes reasonably required by the Buyer) necessary to:

- a) minimise the extent of actual or potential harm caused by any Breach of Security;
- b) remedy such Breach of Security to the extent possible and protect the integrity of the Buyer and the provision of the Goods and/or Services to the extent within its control against any such Breach of Security or attempted Breach of Security;
- c) prevent an equivalent breach in the future exploiting the same cause failure; and
- d) as soon as reasonably practicable provide to the Buyer, where the Buyer so requests, full

details (using the reporting mechanism defined by the Security Management Plan) of the Breach of Security or attempted Breach of Security, including a cause analysis where required by the Buyer.

- 5.3 In the event that any action is taken in response to a Breach of Security or potential or attempted Breach of Security that demonstrates non-compliance of the Security Management Plan with the Security Policy (where relevant in accordance with paragraph 2.2) or the requirements of this Schedule, then any required change to the Security Management Plan shall be at no cost to the Buyer.

**When you should use this Schedule**

2.1 The Supplier acknowledges that the Buyer wishes to ensure that the Deliverables, represent value for money to the taxpayer throughout the Contract Period.

## **DPS Schedule 6 (Order Form Template and Order Schedules)**

Crown Copyright 2021

2.2 This Schedule sets to ensure the Contracts represent value for money throughout and that the Buyer may terminate the Contract by issuing a Termination Notice to the Supplier if the Supplier refuses or fails to comply with its obligations as set out in Paragraphs 3 of this Schedule.

2.3 Amounts payable under this Schedule shall not fall within the definition of a Cost.

### **3. BENCHMARKING**

#### **3.1 How benchmarking works**

3.1.1 The Buyer and the Supplier recognise that, where specified in DPS Schedule 4 (DPS Management), the Buyer may give CCS the right to enforce the Buyer's rights under this Schedule.

3.1.2 The Buyer may, by written notice to the Supplier, require a Benchmark Review of any or all of the Deliverables.

3.1.3 The Buyer shall not be entitled to request a Benchmark Review during the first six (6) Month period from the Contract Start Date or at intervals of less than twelve (12) Months after any previous Benchmark Review.

3.1.4 The purpose of a Benchmark Review will be to establish whether the Benchmarked Deliverables are, individually and/or as a whole, Good Value.

3.1.5 The Deliverables that are to be the Benchmarked Deliverables will be identified by the Buyer in writing.

3.1.6 Upon its request for a Benchmark Review the Buyer shall nominate a benchmarker. The Supplier must approve the nomination within ten (10) Working Days unless the Supplier provides a reasonable explanation for rejecting the appointment. If the appointment is rejected then the Buyer may propose an alternative benchmarker. If the Parties cannot agree the appointment within twenty (20) days of the initial request for Benchmark review then a benchmarker shall be selected by the Chartered Institute of Financial Accountants.

3.1.7 The cost of a benchmarker shall be borne by the Buyer (provided that each Party shall bear its own internal costs of the Benchmark Review) except where the Benchmark Review demonstrates that the Benchmarked Service and/or the Benchmarked Deliverables are not Good Value, in which case the Parties shall share the cost of the benchmarker in such proportions as the Parties agree (acting reasonably). Invoices by the benchmarker shall be raised against the Supplier and the relevant portion shall be reimbursed by the Buyer.

#### **3.2 Benchmarking Process**

3.2.1 The benchmarker shall produce and send to the Buyer, for Approval, a draft plan for the Benchmark Review which must include:

- a) a proposed cost and timetable for the Benchmark Review;
- b) a description of the benchmarking methodology to be used which must demonstrate

**DPS Schedule 6 (Order Form Template and Order Schedules)**

Crown Copyright 2021

that the methodology to be used is capable of fulfilling the benchmarking purpose; and

c) a description of how the benchmarker will scope and identify the Comparison Group.

3.2.2 The benchmarker, acting reasonably, shall be entitled to use any model to determine the achievement of value for money and to carry out the benchmarking.

3.2.3 The Buyer must give notice in writing to the Supplier within ten (10) Working Days after receiving the draft plan, advising the benchmarker and the Supplier whether it Approves the draft plan, or, if it does not approve the draft plan, suggesting amendments to that plan (which must be reasonable). If amendments are suggested then the benchmarker must produce an amended draft plan and this Paragraph 3.2.3 shall apply to any amended draft plan.

3.2.4 Once both Parties have approved the draft plan then they will notify the benchmarker. No Party may unreasonably withhold or delay its Approval of the draft plan.

3.2.5 Once it has received the Approval of the draft plan, the benchmarker shall:

a) finalise the Comparison Group and collect data relating to Comparable Rates. The selection of the Comparable Rates (both in terms of number and identity) shall be a matter for the Supplier's professional judgment using:

(A) market intelligence;

(B) the benchmarker's own data and experience;

(C) relevant published information; and

(D) pursuant to Paragraph 0 below, information from other suppliers or purchasers on Comparable Rates;

b) by applying the adjustment factors listed in Paragraph 0 and from an analysis of the Comparable Rates, derive the Equivalent Data;

c) using the Equivalent Data, calculate the Upper Quartile;

d) determine whether or not each Benchmarked Rate is, and/or the Benchmarked Rates as a whole are, Good Value.

3.2.6 The Supplier shall use all reasonable endeavours and act in good faith to supply information required by the benchmarker in order to undertake the benchmarking. The Supplier agrees to use its reasonable endeavours to obtain information from other suppliers or purchasers on Comparable Rates.

3.2.7 In carrying out the benchmarking analysis the benchmarker may have regard to the following matters when performing a comparative assessment of the Benchmarked Rates and the Comparable Rates in order to derive Equivalent Data:

(a) the contractual terms and business environment under which the Comparable Rates are being

- provided (including the scale and geographical spread of the customers);
- (b) exchange rates;
- (c) any other factors reasonably identified by the Supplier, which, if not taken into consideration, could unfairly cause the Supplier's pricing to appear non-competitive.

### 3.3 Benchmarking Report

3.3.1 For the purposes of this Schedule **"Benchmarking Report"** shall mean the report produced by the benchmarker following the Benchmark Review and as further described in this Schedule.

3.3.2 The benchmarker shall prepare a Benchmarking Report and deliver it to the Buyer, at the time specified in the plan Approved pursuant to Paragraph 0, setting out its findings. Those findings shall be required to:

- (a) include a finding as to whether or not a Benchmarked Service and/or whether the Benchmarked Deliverables as a whole are, Good Value;
- (b) if any of the Benchmarked Deliverables are, individually or as a whole, not Good Value, specify the changes that would be required to make that Benchmarked Service or the Benchmarked Deliverables as a whole Good Value; and
- (c) include sufficient detail and transparency so that the Party requesting the Benchmarking can interpret and understand how the Supplier has calculated whether or not the Benchmarked Deliverables are, individually or as a whole, Good Value.

The Parties agree that any changes required to this Contract identified in the Benchmarking Report shall be implemented at the direction of the Buyer in accordance with Clause 24 (Changing the contract).

## Order Schedule 20 (Order Specification)

**DPS Schedule 6 (Order Form Template and Order Schedules)**

Crown Copyright 2021

This Schedule sets out the characteristics of the Deliverables that the Supplier will be required to make to the Buyers under this Order Contract

**Part A – Detailed Procurement Requirements****A1 What is the background of the procurement?**

Smart Data is the secure sharing of customer data, upon the customer's request, with authorised third-party providers (ATPs) who often enhance the customer data with broader, contextual 'business' data. These ATPs provide the customer with innovative services to improve decision making and engagement in a market. Open Banking is the only currently active Smart Data scheme with new powers introduced in Parliament in the Data (Use and Access) Bill.

Smart Data schemes have huge potential benefits to UK consumers and businesses. We hope to build on the success of Open Banking, which has over 11 million active users. Whilst Open Banking was originally a competition measure, we have seen significant innovation, often from smaller FinTechs and SMEs, in delivering new services to consumers using the data sets made available<sup>2</sup>.

A Smart Data scheme is the collection of rules, frameworks and governance that facilitates the secure sharing of data. Open Banking is an active example of a regime that is comparable to a 'Smart Data scheme. A use case is the individual outcomes from that policy, so for example Open Banking has a use case that allows users to transfer money through phone number. The government also committed to delivering Open Banking regulations as a part of their election manifesto in 2024.<sup>3</sup>

We are looking to procure research to help strengthen our understanding of the costs and benefits of different Smart Data schemes. Currently our evidence base is based on Open Banking<sup>4</sup>. Latest evidence<sup>5</sup> suggests Open Banking figures overestimate the costs for other sectors, as banking data is higher risk than most other data that could be used within a scheme and it was also the first scheme and had to complete a lot of innovation that other schemes will be able to copy. This project will allow us to understand where potential benefits of Smart Data outweigh the costs, using scheme specific estimates.

We require that this research will build upon the previous research into Smart Data completed within DBT and externally (please see the footnote<sup>6</sup> for a link to a collection of previous Smart Data research completed/commissioned by DBT). One example of the previous research that links to this work is a project called 'Estimating benefits of Smart Data to small and micro firms and third-party providers'<sup>7</sup> completed by Frontier Economics on behalf of the Department for Business, Energy and Industrial Strategy. This work provided an initial review of the evidence to demonstrate the potential scale of the benefits over a 5-year timeframe. Benefits were estimated separately for ATPs and SMFs across 4 sectors. For ATPs, estimates focused on potential relative productivity gains and growth in the number of ATPs. For SMFs estimates focused on potential cost savings.

**DPS Schedule 6 (Order Form Template and Order Schedules)**

Crown Copyright 2021

The key sectors this research focusses on are: Banking, Finance, Telecoms, Energy, Transport, Retail and Home Buying.

Across the seven sectors the costs and benefits are likely to vary heavily, depending on factors including the industries' existing structure for data sharing. The relevant authority has therefore identified 5 example Smart data use cases to help frame and focus this requirement. These example use cases have been identified through a prior research requirement, and include:

- 2 use cases that combine finance and energy data to enhance access to more effective solutions for reaching Net Zero. One of these could include consumer-based data such as the use cases identified in the Smart Data Discovery Challenge<sup>8</sup> or SME data such as the use identified in Project Perseus.<sup>9</sup>
- A use case that combines finance and retail data to give consumers more accurate information about their shopping patterns, as identified in the Smart Data Discovery Challenge.<sup>10</sup>
- A use case that uses business data to more accurately track the business's own domestic and international supply chains, as identified in the Smart Data Discovery Challenge.<sup>11</sup>
- A use case that combines data used in selling and buying houses to provide a quicker, more accurate process, as identified in the Smart Data Discovery Challenge.<sup>12</sup>

For regulation to be effective, it is important we understand the economic modelling for each sector to influence other Government departments (OGDs) to progress Smart Data schemes where the benefits outweigh the costs. This research will also help inform individual secondary legislation scheme design as it may show that certain costs and benefits depend on the scheme design or sector.

This research is needed to allow policymakers in other Government departments to understand potential costs and benefits of a Smart Data scheme in their sector. This information will then help to inform decisions of whether that scheme should be taken forward within secondary legislation.

The overarching objective for this project is therefore to better understand the potential costs and benefits of Smart Data schemes, using estimations derived from sector specific data.

## **A2 Detailed requirements**

The requirement is for a research project that will:

- Understand the costs to business of enabling a level of data sharing needed for the 5 Smart Data use cases identified
- Create quantitative estimates of the benefits to consumers for Smart Data use cases
- Understand where and how costs and benefits may vary between use cases

**DPS Schedule 6 (Order Form Template and Order Schedules)**

Crown Copyright 2021

We invite bidders to critique the suggested methodology and to suggest alternatives based on their research expertise. However, we propose that the requirements shall include a two-branch approach to achieve this:

**A qualitative research branch, focussed on at least 50 interviews covering:**

- In-depth interviews with data holders and data infrastructure experts on:
  - i. the current state of the data infrastructure for the data sets relevant to the use cases
  - ii. What is needed to enable a level of data sharing needed for the use cases
  - iii. The cost to get from i. – ii.
- Interviewing use case experts on:
  - i. Which data sets improve existing services related to the use cases (and by how much)
  - ii. The cost of completing the service prior to the use case. For example, this could be the cost of gathering and confirming the information in the data sets before or during the service (i.e. the cost of gathering data needed to buy a house before Smart Data).
- Surveying or interviewing the use case customers on:
  - i. The current consumer journey prior to the use case i.e. how this task / action would be completed without the use case
  - ii. Their willingness to pay for a service before and after Smart Data is implemented
  - iii. Their current time cost and general experience of the service prior to the use case.
  - iv. On whether they do or do not take part in activities that the use case is related to. If they do not, is it related to uncertainty or hassle?
- We would require the supplier to send a data sheet to participants ahead of the interview to give an overview of what we are wanting to ask and ensure they are prepared. This would also allow us to collect accurate costs and benefits as it allows for the participants to be prepared with accurate quantitative estimations.

**A quantitative analysis branch, containing:**

- Economic models of the use cases, using the estimates in branch 1 combined to get a more accurate total £ value for the costs and benefits of the chosen use cases
- The analysis could also isolate the specific costs associated with certain data sets or enabling certain aspects of the chosen use cases
- If the results from branch 1 allow, then this analysis could also be extended to include detailed evidence on how the relative costs and benefits vary between use cases. Use cases could also be categorised by the Smart Data schemes that they rely upon to get an

**DPS Schedule 6 (Order Form Template and Order Schedules)**

Crown Copyright 2021

estimate of the potential benefit spanning from these use cases that are attributable to specific Smart Data schemes.

The two branches should lead to a **final reporting stage**, which would include:

- The collation and summary of findings.
- A presentation of findings and recommendations to DBT, with time for questions and challenge.
- The production of a final, in-depth report of the findings. This will include recommendations for consideration by UKG when implementing Smart Data scheme and possibly for consideration by DBT during the progress of the DISD Bill. This should include at least three rounds of drafting, and comments from DBT.
- We would also require, that due to the tight timelines, the supplier has enough staff to ensure the team can complete each branch in detail with high quality outputs but also be planning and organising the reporting phase. We would require that two research branches are carried out in parallel, using an iterative approach, where the results of the analysis are used to inform the interview strategy and vice-versa. We are open to the supplier making their own assessment of the timeline, whilst ensuring the final deadline is the 31<sup>st</sup> March 2025.

The research shall aim to address the following research questions:

**Costs:**

- What standard of business data infrastructure is needed for effective Smart Data use cases?
- What are the quantitative costs of Smart Data to business?

**Benefits:**

- What improved services could be delivered through Smart Data? I.e. how much 'better' is each use case for the customer compared to the existing service?
- What would customers be willing to pay for this Smart Data service versus the existing service?
- What are the quantitative benefits of Smart Data?

**Qualitative Research**

This branch shall involve in-depth interviews with data holders, sector experts and consumers. We would require the supplier to engage with at least 50 participants, through interviews and for each use case analysed would require at least:

- 3 x Data holders (this number may vary depending on the number of sectors included within the use case)

**DPS Schedule 6 (Order Form Template and Order Schedules)**

Crown Copyright 2021

- 4 x sector experts on either the previous service or the Smart Data use case
- 3 x Consumers

It shall cover the following research questions:

- What is the consumer journey for the service prior to the use case(s)?
- What are the data holders and data infrastructure experts perceived understanding of the current data infrastructure relevant to the chosen use case(s)?
- How do data holders and data infrastructure experts think this compares to the level of data infrastructure needed for the chosen use case(s)?
- What do the data holders and data infrastructure experts think are the quantitative costs of getting to the level of data infrastructure needed for the chosen use case(s)?
- Which data sets do sector experts think will improve the accuracy of existing services relevant to the chosen use case(s) and by how much?
- What do sector experts think the cost of the relevant service is before and after Smart Data?
- What are consumers' willingness to use their data for the chosen use cases?
- What are consumers current time costs and general experience for the services before the use case?
- Do consumers take part in the activities that the use cases are related to? If not, is this related to hassle or uncertainty?

The supplier shall send a data sheet to participants ahead of the interview to give an overview of what we are wanting to ask and ensure they are prepared. This would also allow us to collect accurate costs and benefits as it allows for the participants to be prepared with accurate quantitative estimations. The data sheet shall differ depending on which types of subjects and sector that the data sheet is sent to.

We would like to collect the data sheets as we require the supplier to complete quantitative analysis in Branch 2. This would allow another chance for the participants to go away and get accurate cost and benefits estimates that can be used and for the modelling to be developed with initial figures ahead of the completion of the interviews. If the first time the participants are asked about the estimates is within an interview, the participant may not be prepared with accurate quantitative estimations. The data sheets should allow for more accurate analysis and a higher number of potential costs and benefit estimates.

The supplier shall:

- Develop a qualitative research strategy to answer the key research questions
- Develop a sampling strategy across the key stakeholders and sectors identified, designed to deliver on this qualitative research strategy.

- Provide access to a defined consumer sample, with the specified characteristic that the consumer has used a similar service to the 5 use cases identified
- Find contacts, and recruit key stakeholders based on this sampling strategy.
- Develop topic guides to cover the research topic that are adapted both for each of the stakeholders, the areas of focus, and to answer the research questions.
- Develop a data sheet that is adapted both for each of the stakeholders and the areas of focus and to answer the research questions
- Piloting and testing these topic guides and data sheets to ensure effectiveness at answering the research questions
- Conduct as many interviews and stakeholders as is necessary to reach topic saturation across each of the stakeholders, the areas of focus, and to answer the research questions. This shall involve no less than 50 participants, across all interviews conducted.
- Sending out the data sheet ahead of each interview and following up at least two times afterwards to maximise completion rate. They shall involve a completion rate of no less than 80%.
- Analyse the data from the qualitative research, to derive key themes and quotations for each of the research questions
- Analyse the data from the data sheets and qualitative research, and the key themes, to develop a set of evidence-based cost and benefits of Smart Data schemes.

### Quantitative Analysis:

This branch of the methodology should aim to iteratively combine the findings of analysis with the qualitative branch, to get accurate total £ value for the costs and benefits of the chosen use cases.

This branch should be started alongside the start of branch 1, with the quantitative use case models being built with proxy numbers and then using the data sheets and interviews to complete them with accurate figures.

We would require the analysis to isolate the specific costs associated with certain data sets or in enabling certain aspects of the chosen use cases. If the results from this branch and the qualitative analysis branch allow, we would also require detailed evidence on how the relative costs and benefits vary between use cases and categorised by the Smart Data schemes that they rely upon to get an estimate of the potential benefit spanning from these use cases that are attributable to specific Smart Data Schemes.

The supplier shall:

- Develop a quantitative research strategy to answer the key research questions, combining the results from the first and second branch of research
- Analyse the data received to develop a set of evidence-based costs and benefits for each use case

## DPS Schedule 6 (Order Form Template and Order Schedules)

- Isolate where specific costs are within a use case
- Categorise the costs and benefits to Smart Data schemes
- Develop and adopt an approach to quality assure the quantitative research branch
- Include a formal write up of the findings from branches 1 and 2 including the final estimates for publication as part of the final research report

### A3 Deliverables

#### Process outputs

The department envisages that the contractor will transparently undertake quality assurance for each defined product within the research and provide documented details of its process and outcome to DBT.

Meetings will be held virtually throughout the research process to provide interim outputs and updates on the research. Lastly, upon conclusion of the research, the contractor will provide a publishable full report and executive summary in March 2025 and provide a virtual presentation summarising the key findings of the full report.

#### Branch 1 (Deliverable 1)

Qualitative research completed: At least 50 interviews completed with data holders, sector experts and consumers across the five chosen use cases. It is required that a data sheet is sent to every participant ahead of the interview. Alongside a summary of results, the supplier must provide the following research materials within Branch 1:

- Interview Guides
- Data sheet templates
- Interview Transcript
- Framework for deciding who will be asked what questions
- Completed data sheets for each participant

#### Branch 2 (Deliverable 2)

Quantitative Analysis completed: This branch should create an estimated total cost and benefit for each of the five use cases. A model should be built for each use case using data from branch 1. We require the supplier to develop a quantitative research strategy and share this with DBT. As part of this deliverable, we must receive the models, any calculations and the methodology behind the calculations alongside the data used within each model.

#### Final Report (Deliverable 3)

DBT requires a report of around 40 - 60 pages of a publishable standard and a presentation of the key findings from the report.

The final report must include but is not limited to:

- a. An executive summary

**DPS Schedule 6 (Order Form Template and Order Schedules)**

b. A summary of the methodology used at each branch and any underlying assumptions and caveats.

e. A summary of outputs from Branches 1 and 2, including a description of the methodology used, a thematic analysis against the research question, and anonymised quotations to support and illustrate each theme

f. A set of evidence-based costs and benefits for the use cases identified

f. Written detail of findings from each branch

g. The supplier will provide a virtual presentation to DBT to disseminate the main findings in the final report.

h. The final report and presentation are to be completed by the 31<sup>st</sup> March 2025

i. The supplier should respond to a minimum of three rounds of drafting, to incorporate DBT's comments on the final report.

The report and presentation should be in plain English and should follow the government's style<sup>13</sup> and accessibility guidance<sup>14</sup>.

Furthermore, the supplier should provide upon request cleaned, anonymised data sets of any data gathered during the research. The following footnotes contain three writing guides on gov.uk, and an external guide for writing in Plain English.<sup>15</sup> This is an example of a previous research publication on Smart Data.<sup>16</sup> Further guidance on accessibility on GOV.UK will be shared ahead of drafting and publication.

#### **A4 Key dates and milestones**

##### **Timetable**

When is it needed by?

31<sup>st</sup> March 2025

Are there any milestones or interim dates? We are open to the supplier making their own assessment of the timeline; however, an anticipated example is outlined below:

**A5 Dependencies**

There are no internal dependencies, other than the need to schedule in input from DBT to guide the project and comment on the design of key research material and publication in depth.

**A6 Intellectual property**

DBT will own all IP created by the project without limitation.

**Supplier requirements****A7 Experience and capability**

We require that the supplier has research skills related to qualitative research and that the supplier has the quantitative research skills in order to guide the research and interpret the findings on the subject matter of this research: economic modelling.

**A8 Standards**

**Digital Accessibility.** It is the law that all content on government websites is accessible. DBT aims to publish all content including PDF files as a web page in HTML. If it is expected a programme will require the contracting supplier to create files that will be published to a DBT website (such as research contracts), you will need to ensure the specification of requirements ensure that files align with accessibility standards; there is [internal DBT guidance](#) to support this thinking. You should [contact DDaT](#) as early as possible if you are unsure what requirements you will need to scope in the specification to ensure your programme supports the legal accessibility standards. There is [central guidance and tools for digital accessibility](#) which should be shared with the contracting supplier upon contract implementation, where relevant.

### **2. How the contract works**

2.1 The Supplier is eligible for the award of Order Contracts during the DPS Contract Period.

2.2 CCS does not guarantee the Supplier any exclusivity, quantity or value of work under the DPS Contract.

2.3 CCS has paid one penny to the Supplier legally to form the DPS Contract. The Supplier acknowledges this payment.

2.4 If the Buyer decides to buy Deliverables under the DPS Contract it must use DPS Schedule 7 (Order Procedure) and must state its requirements using DPS Schedule 6 (Order Form Template and Order Schedules). If allowed by the Regulations, the Buyer can:

- (a) make changes to DPS Schedule 6 (Order Form Template and Order Schedules);
- (b) create new Order Schedules;

9.7 In spite of any other provisions of a Contract and for the avoidance of doubt, award of a Contract by the Buyer and placement of any contract task under it does not constitute an authorisation by the Crown under Sections 55 and 56 of the Patents Act 1977 or Section 12 of the Registered Designs Act 1949. The Supplier acknowledges that any authorisation by the Buyer under its statutory powers must be expressly provided in writing, with reference to the acts authorised and the specific IPR involved.
