Please note these specific Key Performance Indicators will be reviewed in the high level quarterly review meetings. Where any single issue/ incident can be deemed to fit into more than one category, the non-compliance should only be scored against the most appropriate.

Performance:

Non-Compliant – Non-compliances in the same Lot within the month. This will result in the FSA applying the service credit regime. Supplier is to complete an action log to demonstrate how the issue (s) has/have been resolved and measures put in place to prevent re-occurrence.

Service Failures - Every instance of service failure will result in FSA applying the service credit regime. For service failures the supplier must produce an action plan detailing why the service failure occurred, how this has been rectified and how this will be prevented from happening in the future, not only at the premises in which the failure occurred but in all other premises that the supplier is contracted to provide a service within the Lot. If the service failure is not agreed by FSA that it is closed within the month, it will roll over into the next month.

Service Credit Regime:

Non-Compliant – A service credit of 0.25% of the value of the monthly invoice of the supplier for the Lot, in which the non-compliance has occurred, will be applied for every repeated instance of non-compliance in a rolling 3 month period within the same category within the Lot.

Service Failures – A service credit of 0.5% of the value of the monthly invoice of the supplier for the Lot will be applied for every instance of a service failure.

Capping of Service Credits – Service Credits, raised as result of both non-compliances and service failures, will be limited to 1/12th of 5% of the lot value for the rolling 3 month period.
