The Supplier shall ensure that each of the Insurances is effective no later than:
 - 1.1.1 the Framework Start Date in respect of those Insurances set out in the Annex to this Schedule and those required by applicable Law; and
 - 1.1.2 the Call-Off Contract Effective Date in respect of the Additional Insurances.
- 1.2 The Insurances shall be:
 - 1.2.1 maintained in accordance with Good Industry Practice;
 - 1.2.2 (so far as is reasonably practicable) on terms no less favourable than those generally available to a prudent contractor in respect of risks insured in the international insurance market from time to time;

 - 1.2.4 maintained for at least six (6) years after the End Date.
- 1.3 The Supplier shall ensure that the public and products liability policy contain an indemnity to principals clause under which the Relevant Authority shall be indemnified in respect of claims made against the Relevant Authority in respect of death or bodily injury or third party property damage arising out of or in connection with the Deliverables and for which the Supplier is legally liable.

2. How to manage the insurance

- 2.1 Without limiting the other provisions of this Contract, the Supplier shall:
 - 2.1.1 take or procure the taking of all reasonable risk management and risk control measures in relation to Deliverables as it would be reasonable to expect of a prudent contractor acting in accordance with Good Industry Practice, including the investigation and reports of relevant claims to insurers;

 - 2.1.3 hold all policies in respect of the Insurances and cause any insurance broker effecting the Insurances to hold any insurance slips and other evidence of placing cover representing any of the Insurances to which it is a party.

3. What happens if you aren't insured

- 3.2 Where the Supplier has failed to purchase or maintain any of the Insurances in full force and effect, the Relevant Authority may elect (but shall not be obliged) following written notice to the Supplier to purchase the relevant Insurances and recover the reasonable premium and other reasonable costs incurred in connection therewith as a debt due from the Supplier.

4. Evidence of insurance you must provide

- 4.1 The Supplier shall upon the Start Date and within 15 Working Days after the renewal of each of the Insurances, provide evidence, in a form satisfactory to the Relevant Authority, that the Insurances are in force and effect and meet in full the requirements of this Schedule.

5. Making sure you are insured to the required amount

- 5.1 The Supplier shall ensure that any Insurances which are stated to have a minimum limit "in the aggregate" are maintained at all times for the minimum limit of indemnity specified in this Contract and if any claims are made which do not relate to this Contract then the Supplier shall notify the Relevant Authority and provide details of its proposed solution for maintaining the minimum limit of indemnity.

6. Cancelled Insurance

- 6.1 The Supplier shall notify the Relevant Authority in writing at least five (5) Working Days prior to the cancellation, suspension, termination or non-renewal of any of the Insurances.
- 6.2 The Supplier shall ensure that nothing is done which would entitle the relevant insurer to cancel, rescind or suspend any insurance or cover, or to treat any insurance, cover or claim as voided in whole or part. The Supplier shall use all reasonable endeavours to notify the Relevant Authority (subject to third party confidentiality obligations) as soon as practicable when it becomes aware of any relevant fact, circumstance or matter which has caused, or is reasonably likely to provide grounds to, the relevant insurer to give notice to cancel, rescind, suspend or void any insurance, or any cover or claim under any insurance in whole or in part.

7. Insurance claims

- 7.1 The Supplier shall promptly notify to insurers any matter arising from, or in relation to, the Deliverables, or each Contract for which it may be entitled to claim under any of the Insurances. In the event that the Relevant Authority receives a claim relating to or arising out of a Contract or the Deliverables, the Supplier shall co-operate with the Relevant Authority and assist it in dealing with such claims including without limitation providing information and documentation in a timely manner.

- 7.2 Except where the Relevant Authority is the claimant party, the Supplier shall give the Relevant Authority notice within twenty (20) Working Days after any insurance claim in excess of 10% of the sum required to be insured pursuant to Paragraph 5.1 relating to or arising out of the provision of the Deliverables or this Contract on any of the Insurances or which, but for the application of the applicable policy excess, would be made on any of the Insurances and (if required by the Relevant Authority) full details of the incident giving rise to the claim.
- 7.3 Where any Insurance requires payment of a premium, the Supplier shall be liable for and shall promptly pay such premium.
- 7.4 Where any Insurance is subject to an excess or deductible below which the indemnity from insurers is excluded, the Supplier shall be liable for such excess or deductible. The Supplier shall not be entitled to recover from the Relevant Authority any sum paid by way of excess or deductible under the Insurances whether under the terms of this Contract or otherwise.

Call-Off Schedule 20 (Call-Off Specification)

INTRODUCTION AND BACKGROUND TO THE AUTHORITY

The Department for Education (DfE) is the department for realising potential. We enable children and learners to thrive, by protecting the vulnerable and ensuring the delivery of excellent standards of education, training, and care. This helps realise everyone's potential – and that powers our economy, strengthens society, and increases fairness.

The DfE's Digital and Technology Directorate's aim is to deliver high quality IT services to end users to enable DfE staff to support in delivering departmental objectives and priority outcomes.

OVERVIEW OF REQUIREMENT

The End User Compute (EUC) function within DfE is responsible for the management and supply of laptops for all members of the Authority's staff. This includes the need to ensure that there is sufficient stock available to support the fulfilment of new requests (new starters) and the replacement of damaged/legacy devices.

Failure to refresh legacy devices represents an operational risk to the department, and could impact on DfE's ability to meet key departmental priorities should new starters or existing users not be able to access suitable devices.

The Authority is seeking the provision of a number of laptops to 'restock' current devices, and support the EUC team's continuous device refresh programme.

SPECIFICATION

DEVICES

The Authority is seeking the provision of the Microsoft devices outlined at paragraph 3.3 of this Appendix B.

The Contract is expected to commence on 25th June 2024 and run for a period of two (2) months until 31st August 2024.

The required hardware, inclusive of product name, product SKU and volumes is detailed in the table below:

VOLUME	SKU	PRODUCT NAME	PRODUCT DESCRIPTION
1600	ZJQ-00004	Microsoft Surface Laptop 6	<ul style="list-style-type: none">• Colour – Black• Display – 13.5"• Processor – Intel Core i5• Memory – 16GB RAM• Storage – 256GB SSD

All hardware should be supplied with a 'power supply' suitable for UK use, and meet the [Greening government: ICT and digital services strategy 2020-2025](#).

The Authority requires standard manufacturer warranty to be supplied with all devices. The successful Supplier must also transfer title and ownership of the hardware to the Authority.

Where possible, the Authority's preference would be for the transfer of title and ownership, and the application of standard manufacturer warranty to be deferred until the required devices have been successfully delivered to the Authority's nominated address(es). Potential Providers are expected to outline whether warranty, title and ownership can be deferred until delivery within their response to 'Pricing Schedule – Laptop Refresh 2024 – itt_3057'.

ORIGINAL EQUIPMENT MANUFACTURER (OEM) DISCOUNTS

Potential Providers (and/or distributors if used in the supply of devices) must be an accredited resale partner(s) of Microsoft products in order to submit a Call-Off Tender.

In discussions with Microsoft, The Authority have negotiated a discount of up to 12% (including any reseller discounts) to be applied across all devices. Potential Providers must also ensure that any further applicable discounts that are available to the Authority for required devices are applied within the Call-Off Tender submission (e.g., any relevant public sector discounts, any relevant educational discounts, any relevant discounts through Crown Commercial Service Memorandum of Understandings, etc).

When submitting a Call-Off Tender, Potential Providers will be required to confirm that they are able to adhere to the Further Competition Timetable as set out within Section 4 of this ITT, and will allocate sufficient resources to ensure that the order is placed with Microsoft by 25th June 2024 and that delivery is completed prior to 31st July 2024.

For the avoidance of doubt, DfE may be unable to provide a PO to the successful Supplier ahead of 25th June 2024 due to internal procedures. If DfE are unable to provide a PO, it is expected that the successful Supplier will still proceed with placing an order with Microsoft, as the executed Contract shall govern the supply of services, and the Authority's payment obligations.

Alongside their standard channels with the OEMs, Potential Providers can contact DfE's account contacts for pricing:

- Microsoft – Joel Roach (Joelroach@microsoft.com).

DELIVERY

In order to ensure that all relevant discounts can be applied, The Authority requires that the full order is placed with Microsoft by 25th June 2024. When submitting a Call-Off Tender, Potential Providers will be required to confirm that they are able to guarantee that orders will be placed with the OEM by 25th June 2024.

Due to potential operational issues that may be caused by late delivery, The Authority requires all hardware to be delivered by no later than 31st July 2024. When submitting a Call-Off Tender, Potential Providers will be required to confirm that they are able to guarantee delivery of all hardware by 31st July 2024.

If the order is not placed with the OEM by 25th June 2024 and/or hardware is not delivered by 31st July 2024, this may be classed as a Critical Service Failure by the Authority. In

accordance with Call-Off Schedule 14 (Service Levels), if a Critical Service Level Failure occurs, the Authority may exercise its right to Compensation for Critical Service Level Failure, including the right to terminate for material Default. This shall include the right for the Authority to cancel any order for hardware not delivered by this date, without any financial impact.

For example, if the successful Supplier is only able to deliver 75% of the required devices by the required date, the Authority would reserve the right to cancel the order for the remaining 25% of devices. The Authority shall also have the right to return (with the successful Supplier providing a credit) any hardware which has already been delivered to the Authority prior to the required date. In this event, the Authority would be liable for the payment of return delivery charges.

Office locations for the delivery of hardware:

- London – Sanctuary Buildings, Great Smith Street, London, SW1P 3BT;
- Coventry – Cheylesmore House, 5 Quinton Road, Coventry, CV1 2WT;
- Manchester – Piccadilly Gate, Store Street, Manchester, M1 2WD;
- Sheffield – 2 St Paul's Place, 125 Norfolk Street, Sheffield, S1 2FJ; and,
- Darlington – Bishopsgate House, Feethams, Darlington DL1 5QE.

If required, the Authority can provide a 'for the attention of' contact for each site following Contract Award.

The estimated split of hardware to be delivered per DfE site (as identified above) is set out within the below table, and should be used by Potential Providers to calculate any delivery charges. Upon Contract Award, the Authority shall reserve the right to flex the actual delivery volume splits required per location, although it is expected that any required volume changes will be negligible.

OFFICE LOCATION	VOLUME
London	600
Coventry	300
Manchester	200
Sheffield	400
Darlington	100

Potential Providers **must** ensure hardware is shipped via tracked and signed for delivery. Deliveries may be made via any suitable method to the Authority's nominated addresses (e.g., palletised goods, split delivery, etc).

Potential Providers should endeavour to implement practices/processes to help reduce carbon emissions in service delivery across the entire supply chain.

Potential Providers should submit their pricing responses with delivery charges inclusive within the unit pricing for the required devices. The Authority will not accept delivery charges that are submitted as a separate line item within Potential Providers Call-Off Tender submissions.

ASSET MANAGEMENT SUPPORT

The Authority also requires the successful Supplier to provide 'asset management support'. Alongside management of the registering and secure movement of the hardware, the successful Supplier will need to provide asset tagging for each device.

Following Contract commencement, the Authority's Project Team will provide the successful Supplier with asset stickers/tags for all devices. The successful Supplier will be required to confirm the applicable delivery details to allow shipment of the asset stickers/tags.

Following receipt of the asset stickers/tags, the successful Supplier will then be expected to 'tag' each device, and accurately record the asset reference against each associated device serial number which will be shipped to the Authority.

The successful Supplier will be expected to provide a report to the Authority which details:

- Asset Number Reference
- Device Serial Number
- Shipping Date
- Authority Office Location

Potential Providers are expected to outline any applicable charges for the provision of asset management support services within their response to 'Pricing Schedule – Laptop Refresh 2024 – itt_3057.' Potential Providers should submit a fixed price for the provision of asset management support services.

DEAD ON ARRIVAL

The successful Supplier will be expected to provide replacement items for any hardware that is determined to be Dead on Arrival (DoA), at no charge to the Authority.

Hardware shall be deemed DoA by the Authority if any of the following conditions are met:

- The hardware is visibly damaged;
- The hardware is not working in the manner as expected upon arrival; and/or,
- The security seal on the hardware has been compromised.

The Authority reserves the right to submit a DoA claim to the successful Supplier within ten (10) Working Days following receipt of such item (with 'receipt' meaning the delivery of an item to a nominated DfE office), with a replacement item to be supplied by the successful Supplier within the subsequent five (5) Working Days following notification.

For the avoidance of doubt, the DoA process will not negate the requirement for the provision of standard manufacturer warranty to be supplied for all devices, and the successful Supplier will be obligated to support the Authority in the event that any faults are identified within the warranty period provisioned.

SOCIAL VALUE – MODERN SLAVERY

In accordance with [Procurement Policy Note 02/23: Tackling Modern Slavery in Government Supply Chains](#), Central Government Departments are required to ensure modern slavery risks are identified and managed effectively within their supply chains. The Authority have completed a 'Modern Slavery Assessment' for this procurement, and it has been classified as 'high risk'. The successful Supplier will be required to:

Complete the [Modern Slavery Assessment Tool](#) (MSAT) within 30 calendar days of Contract Start Date;

Where the successful Supplier's completed MSAT identifies any red / yellow risks, provide an Action Plan, within 30 days of provision of the completed MSAT, which addresses what actions the Supplier will take to mitigate against the risk that have been identified (e.g., through the introduction of new processes).

Provide a detailed Supply Chain Map to the appropriate tier (as deemed acceptable by the Authority) for all hardware provisioned under the Contract within 30 calendar days of Contract Start Date;

Ensure no goods within the supply chain are provided by suppliers located within the Xinjiang region of China;

Deliver against an agreed social value key performance indicator (SV KPI), which shall be developed from the successful Supplier's Tender submission; and,

Adhere to the modern slavery clauses detailed within Joint Schedule 5 (Corporate Social Responsibility) of the Call-Off Contract.

Potential Providers will be expected to detail in their response to 'Quality Questionnaire – Laptop Refresh 2024 – itt_3057' how they will identify and manage the risks of modern slavery in relation to the hardware supplied under the Call-Off Contract, in addition to meeting the obligations outlined at paragraphs 4.1.1 – 4.1.6 above.

- 2.1. The Supplier shall be aware of and comply the relevant [HMG security policy framework](#), [NCSC guidelines](#) and where applicable Departmental Security Standards which include but are not constrained to the following paragraphs.
- 2.2. Where the Supplier will provide products or Services or otherwise handle information at OFFICIAL for the Buyer, the requirements of [Cabinet Office Procurement Policy Note – Use of Cyber Essentials Scheme certification - Action Note 09/14](#) dated 25 May 2016, or any subsequent updated document, are mandated, namely that “contractors supplying products or services to HMG shall have achieved, and will be expected to retain Cyber Essentials certification at the appropriate level for the duration of the contract”. The certification scope shall be relevant to the Services supplied to, or on behalf of, the Buyer.
- 2.3. Where paragraph 2.2 above has not been met, the Supplier shall have achieved, and be able to maintain, independent certification to ISO/IEC 27001 (Information Security Management Systems Requirements). The ISO/IEC 27001 certification must have a scope relevant to the Services supplied to, or on behalf of, the Buyer. The scope of certification and the statement of applicability must be acceptable, following review, to the Buyer, including the application of controls from ISO/IEC 27002 (Code of Practice for Information Security Controls).
- 2.4. The Supplier shall follow the UK Government Security Classification Policy (GSCP) in respect of any Buyer’s Data being handled in the course of providing the Services and will handle all data in accordance with its security classification. (In the event where the Supplier has an existing Protective Marking Scheme then the Supplier may continue to use this but must map the HMG security classifications against it to ensure the correct controls are applied to the Buyer’s Data).
- 2.5. Buyer’s Data being handled in the course of providing an ICT solution or service must be separated from all other data on the Supplier’s or sub-contractor’s own IT equipment to protect the Buyer’s Data and enable the data to be identified and securely deleted when required in line with paragraph 2.14. For information stored digitally, this must be at a minimum logically separated. Physical information (e.g., paper) must be physically separated.

- 2.6. The Supplier shall have in place and maintain physical security to premises and sensitive areas used in relation to the delivery of the Services, and that store or process Buyer's Data, in line with ISO/IEC 27002 including, but not limited to, entry control mechanisms (e.g. door access), CCTV, alarm systems, etc.
- 2.7. The Supplier shall have in place and maintain an appropriate user access control policy for all ICT systems to ensure only authorised personnel have access to Buyer's Data. This policy should include appropriate segregation of duties and if applicable role-based access controls (RBAC). User credentials that give access to Buyer's Data or systems shall be considered to be sensitive data and must be protected accordingly.
- 2.8. The Supplier shall have in place and shall maintain procedural, personnel, physical and technical safeguards to protect Buyer's Data, including but not limited to:
- physical security controls;
 - good industry standard policies and processes;
 - malware protection;
 - boundary access controls including firewalls, application gateways, etc;
 - maintenance and use of fully supported software packages in accordance with vendor recommendations;
 - use of secure device configuration and builds;
 - software updates and patching regimes including malware signatures, for operating systems, network devices, applications and services;
 - user identity and access controls, including the use of multi-factor authentication for sensitive data and privileged account accesses;
 - any services provided to the department must capture audit logs for security events in an electronic format at the application, service and system level to meet the department's logging and auditing requirements, plus logs shall be:
 - retained and protected from tampering for a minimum period of six months;
 - made available to the department on request.
- 2.9. The Supplier shall ensure that any Buyer's Data (including email) transmitted over any public network (including the Internet, mobile networks or unprotected enterprise network) or to a mobile device shall be encrypted when transmitted.

- 2.10. The Supplier shall ensure that any Buyer's Data which resides on a mobile, removable or physically uncontrolled device is stored encrypted using a product or system component which has been formally assured through a recognised certification process agreed with the Buyer except where the Buyer has given its prior written consent to an alternative arrangement.
- 2.11. The Supplier shall ensure that any device which is used to process Buyer's Data meets all of the security requirements set out in the NCSC End User Devices Platform Security Guidance, a copy of which can be found at: <https://www.ncsc.gov.uk/guidance/end-user-device-security> and <https://www.ncsc.gov.uk/collection/end-user-device-security/eud-overview/eud-security-principles>.
- 2.12. Whilst in the Supplier's care all removable media and hardcopy paper documents containing Buyer's Data must be handled securely and secured under lock and key when not in use and shall be securely destroyed when no longer required, using either a cross-cut shredder or a professional secure disposal organisation. The term 'lock and key' is defined as: "securing information in a lockable desk drawer, cupboard or filing cabinet which is under the user's sole control and to which they hold the keys".
- 2.13. When necessary to hand carry removable media and/or hardcopy paper documents containing Buyer's Data, the media or documents being carried shall be kept under cover and transported in such a way as to ensure that no unauthorised person has either visual or physical access to the material being carried. This paragraph shall apply equally regardless of whether the material is being carried inside or outside of company premises. The term 'under cover' means "that the information is carried within an opaque folder or envelope within official premises and buildings and within a closed briefcase or other similar bag or container when outside official premises or buildings".
- 2.14. In the event of termination of Contract due to expiry, as a result of an Insolvency Event or for breach by the Supplier, all information assets provided, created or resulting from provision of the Services shall not be considered as the Supplier's assets and must be returned to the Buyer and written assurance obtained from an appropriate officer of the Supplier that these assets regardless of location and format have been fully sanitised throughout the Supplier's organisation in line with paragraph 2.15.

- 2.15. In the event of termination, equipment failure or obsolescence, all Buyer's Data and Buyer's Information, in either hardcopy or electronic format, that is physically held or logically stored by the Supplier must be accounted for and either physically returned or securely sanitised or destroyed in accordance with the current HMG policy using an NCSC-approved product or method.

Where sanitisation or destruction is not possible for legal, regulatory or technical reasons, such as data stored in a cloud system, Storage Area Network (SAN) or on shared backup tapes, then the Supplier shall protect (and ensure that any sub-contractor protects) the Buyer's Information and Buyer's Data until such time, which may be long after termination or expiry of the Contract, when it can be securely cleansed or destroyed.

Evidence of secure destruction will be required in all cases.

- 2.16. Access by Supplier Staff to Buyer's Data, including user credentials, shall be confined to those individuals who have a "need-to-know" in order to carry out their role; and have undergone mandatory pre-employment screening, to a minimum of HMG Baseline Personnel Security Standard (BPSS); or hold an appropriate National Security Vetting clearance as required by the Buyer. All Supplier Staff must complete this process before access to Buyer's Data is permitted.
- 2.17. All Supplier Staff who handle Buyer's Data shall have annual awareness training in protecting information.
- 2.18. Notwithstanding any other provisions as to business continuity and disaster recovery in the Contract, the Supplier shall, as a minimum, have in place robust business continuity arrangements and processes including IT disaster recovery plans and procedures that conform to ISO 22301 to ensure that the delivery of the Contract is not adversely affected in the event of an incident. An incident shall be defined as any situation that might, or could lead to, a disruption, loss, emergency or crisis to the Services delivered. If an ISO 22301 certificate is not available the supplier will provide evidence of the effectiveness of their ISO 22301 conformant business continuity arrangements and processes including IT disaster recovery plans and procedures. This should include evidence that the Supplier has tested or exercised these plans within the last 12 months and produced a written report of the outcome, including required actions.
- 2.19. Any suspected or actual breach of the confidentiality, integrity or availability of Buyer's Data, including user credentials, used or handled in the course of providing the Services shall be recorded as an incident. This includes any non-compliance with the Departmental Security Standards and these provisions, or other security standards pertaining to the solution.

Incidents shall be reported to the Buyer immediately, wherever practical, even if unconfirmed or when full details are not known, but always within 24 hours of discovery. If incident reporting has been delayed by more than 24 hours, the Supplier should provide an explanation about the delay.

Incidents shall be reported through the Buyer's nominated system or service owner.

Incidents shall be investigated by the Supplier with outcomes being notified to the Buyer.

- 2.20. The Supplier shall ensure that any IT systems and hosting environments that are used to handle, store or process Buyer's Data shall be subject to independent IT Health Checks (ITHC) using an NCSC CHECK Scheme ITHC provider before go-live and periodically (at least annually) thereafter. The findings of the ITHC relevant to the Services being provided are to be shared with the Buyer in full without modification or redaction and all necessary remedial work is to be carried out. In the event of significant security issues being identified, a follow up remediation test may be required, as determined by the Buyer upon review of the ITHC findings.
- 2.21. The Supplier or sub-contractors providing the Services will provide the Buyer with full details of any actual or future intent to develop, manage, support, process, or store Buyer's Data outside of the UK mainland. The Supplier or sub-contractor shall not go ahead with any such proposal without the prior written agreement from the Buyer.
- 2.22. The Buyer reserves the right to audit the Supplier or sub-contractors providing the Services within a mutually agreed timeframe but always within seven days of notice of a request to audit being given. The audit shall cover the overall scope of the Services being supplied and the Supplier's, and any sub-contractors', compliance with the paragraphs contained in this Appendix.
- 2.23. The Supplier and sub-contractors shall undergo appropriate security assurance activities and shall provide appropriate evidence including the production of the necessary security documentation as determined by the Buyer. This will include obtaining any necessary professional security resources required to support the Supplier's and sub-contractor's security assurance activities such as: a Security and Information Risk Advisor (SIRA) certified to NCSC Certified Cyber Security Consultancy (CCSC) or NCSC Certified Cyber Professional (CCP) schemes.
- 2.24. Where the Supplier is delivering an ICT solution to the Buyer they shall design and deliver solutions and services that are compliant with the HMG Security Policy Framework in conjunction with current NCSC Information

Assurance Guidance and Buyer's Policy. The Supplier will provide the Buyer with evidence of compliance for the solutions and services to be delivered. The Buyer's expectation is that the Supplier shall provide written evidence of:

- Compliance with HMG Minimum Cyber Security Standard.
- Any existing security assurance for the Services to be delivered, such as: ISO/IEC 27001 / 27002 or an equivalent industry level certification.
- Any existing HMG security accreditations or assurance that are still valid including: details of the awarding body; the scope of the accreditation; any caveats or restrictions to the accreditation; the date awarded, plus a copy of the residual risk statement.
- Documented progress in achieving any security assurance or accreditation activities including whether documentation has been produced and submitted. The Supplier shall provide details of who the awarding body or organisation will be and date expected.

Additional information and evidence to that listed above may be required to ensure compliance with DfE security requirements as part of the DfE security assurance process. Where a request for evidence or information is made by the Buyer, the Supplier will acknowledge the request within 5 working days and either provide the information within that timeframe, or, if that is not possible, provide a date when the information will be provided to the Buyer. In any case, the Supplier must respond to information requests from the Buyer needed to support the security assurance process promptly and without undue delay.

- 2.25. The Supplier shall contractually enforce all the Departmental Security Standards and these provisions onto any third-party suppliers, sub-contractors or partners who could potentially access Buyer's Data in the course of providing the Services.
- 2.26. The Supplier shall comply with [the NCSC's social media guidance: how to use social media safely](#) for any web and social media-based communications. In addition, any Communications Plan deliverable must include a risk assessment relating to the use of web and social media channels for the programme, including controls and mitigations to be applied and how the NCSC social media guidance will be complied with. The Supplier shall implement the necessary controls and mitigations within the plan and regularly review and update the risk assessment throughout the contract period. The Buyer shall have the right to review the risks within the plan and approve the controls and mitigations to be implemented, including requiring the Supplier to implement any additional

reasonable controls to ensure risks are managed within the Buyer's risk appetite.

- 2.27. Any Supplier ICT system used to handle, store or process the Buyer's Data, including any Supplier ICT systems connected to systems that handle, store or process the Buyer's Data, must have in place protective monitoring at a level that is commensurate with the security risks posed to those systems and the data held. The Supplier shall provide evidence to the Buyer upon request of the protective monitoring arrangements in place needed to assess compliance with this requirement.
