UK Shared Business Services Ltd changed its name from RCUK Shared Services Centre Ltd in March 2013.

Our Customers

Department for Business Innovation & Skills

National Physical Laboratory (NPL), Teddington

As of 1st January 2015, the National Physical Laboratory (NPL) entered into a new and closer relationship with the Department for Business, Innovation and Skills (BIS).

NPL, in Teddington is the National Measurement Standards Laboratory and the largest physical sciences organisation in the UK, employing some 650 scientists and administrators housed in 400 modern laboratories and offices constructed over the last 16 years. Ever since opening in 1900, NPL has strived to deliver the highest social and economic impact through world-class measurement science, innovative applied research and knowledge services.

NPL have identified the requirement for the provision of a new-build Advanced Quantum Metrology Laboratory (AQML) adjacent to the existing Darwin Building (Building 2) to continue the advance in Quantum Metrology.

This site has been chosen because of its quiet location which provides an excellent environment for delivery of many of the demanding specifications for the laboratories.

The site is on the boundary of Bushy Park Conservation Area and is adjacent to Bushy House, a Grade II* building used by NPL primarily for conferences and meetings. The site is therefore sensitive in planning terms.

Section 4 – Specification and about this procurement

Executive Summary

The new Advanced Quantum Metrology Laboratory (AQML) will incorporate 4 no. specialised laboratories located on the ground floor. These Labs have stringent requirements for the control of temperature, humidity, vibration, acoustics and RF interference.

Via an atrium, this new building will adjoin the existing Darwin Building (Building 2), which is to be refurbished to incorporate 8 no. laboratories on the ground floor (incorporating 5 no. with inner RF shielding) along with 2 no. further floors of flexible office accommodation.

The site has been chosen due to its quiet position, which provides an excellent environment for delivery of many of the complex specifications for the laboratories. It is however on the boundary of Bushy Park Conservation Area and adjacent to Newton's Tree and Bushy House, a Grade II* building. The location is therefore sensitive in planning terms.

Detailed Specification

Please refer to **Appendix B** for copies of high-level plans advising the location, orientation and massing of the proposed AQML and existing Building 2. Of note are that these plans have been included for indicative purposes only and to provide context to the narrative included within this section.

The proposed AQML laboratories have demanding performance requirements and will present a number of technical challenges for the successful Contractor.

For the AQML Laboratories, key to the success of the project will be achieving extremely stable and tight control of temperature and humidity, whilst providing isolation from Low Frequency Acoustic Noise < 20 Hz. "Clean" Electrical Systems will be required in individual laboratories which will also need isolating from EMI and RFI interference. Vibration performance is also a significant factor, with the vibration criteria requested by NPL science to be within curve NIST A and VC-G.

The key technical criteria at this stage can be defined as follows:

1. Temperature

Area	Temperature	Tolerance
Laboratories (Building 2)	21 ⁰ C	±1.0 ⁰ C
Laboratories (AQML)	21 ⁰ C	±0.1 ⁰ C

2. Humidity

Area	Relative Humidity	Tolerance
Laboratories (Building 2)	50%	±10%
Laboratories (AQML)	45%	±5%

1. Vibration – for the AQML Laboratories the aim is to achieve VC-G.
2. Electromagnetic Interference – for the AQML Laboratories only.
3. Infrasound – for the AQML Laboratories only.
4. Electrical Noise Minimisation - electrical noise may be electromagnetically or thermally generated, both of these are unwanted in the laboratory spaces.

NPL has specified for the project to be delivered using a minimum of Level 2 BIM as defined by the UK government construction strategy. BIM will be used as part of the client's facilities management strategy and will contain specific asset data for this purpose.

Contract Duration

The project will follow a two stage design & build procurement route with the Contractor engaged to develop the design from completion of RIBA Stage 3 by the incumbent Design Team. The intention is for the successful Contractor to be appointed via a professional services contract prior to engagement in NEC3 ECC Option A at lump sum. The incumbent Design Team will be retained by the client to undertake the duties of Supervisor post-contract.

The Contract duration shall be for a period of 20 Months.
Construction Completion is expected by 30th April 2018.

In terms of the tender itself, please be advised that:

- The quality assessment score will form 70% of the total RFP evaluation.
- The cost assessment score will form 30% of the total RFP evaluation.

Selection Scoring criteria

Evaluation Justification Statement

In consideration of this particular requirement UK SBS has decided to evaluate Potential Providers by adopting the weightings/scoring mechanism detailed within this RFI. UK SBS considers these weightings to be in line with existing best practice for a requirement of this type.

Questionnaire	Q No.	Question subject	Maximum Marks
Selection Part F	SEL6.1	Company & Team Experience	60%
Selection Part F	SEL6.2	Collaborative Delivery under NEC3	20%
Selection Part F	SEL6.3	Project Understanding	10%
Selection Part F	SEL6.4	Design	10%

A statement that a particular requirement will be met is not in itself sufficient. Such responses, or responses that are ambiguous, may be taken as failing to meet the Requirement. Detailed information regarding how, when and to what extent a Requirement can be met must be provided where appropriate – and, in evaluating a given requirement, scores will be awarded accordingly. Furthermore, if any requirement or part of a requirement cannot be met, this must be stated explicitly along with reason why.

Selection Evaluation of criteria

Each question will be judged on a score from 0 to 100, which shall be subjected to a multiplier to reflect the percentage of the evaluation criteria allocated to that question. Where an evaluation criterion is worth 20% then the 0-100 score achieved will be multiplied by 20.

Example if a Bidder scores 60 from the available 100 points this will equate to 12% by using the following calculation: Score/Total Points available multiplied by 20 ($60/100 \times 20 = 12$)
Where an evaluation criterion is worth 10% then the 0-100 score achieved will be multiplied by 10.

Example if a Bidder scores 60 from the available 100 points this will equate to 6% by using the following calculation: Score/Total Points available multiplied by 10 ($60/100 \times 10 = 6$)
The same logic will be applied to groups of questions which equate to a single evaluation criterion.

The 0-100 score shall be based on (unless otherwise stated within the question):

0	The Question is not answered or the response is completely unacceptable.
10	Extremely poor response – they have completely missed the point of the question.
20	Very poor response and not wholly acceptable. Requires major revision to the response to make it acceptable. Only partially answers the requirement, with major deficiencies and little relevant detail proposed.
40	Poor response only partially satisfying the selection question requirements with deficiencies apparent. Some useful evidence provided but response falls well short of expectations. Low probability of being a capable supplier.
60	Response is acceptable but remains basic and could have been expanded upon. Response is sufficient but does not inspire.
80	Good response which describes their capabilities in detail which provides high levels of assurance consistent with a quality provider. The response includes a full description of techniques and measurements currently employed.
100	Response is exceptional and clearly demonstrates they are capable of meeting the requirement. No significant weaknesses noted. The response is compelling in its description of techniques and measurements currently employed, providing full assurance consistent with a quality provider.

All questions will be scored based on the above mechanism. Please be aware that there may be multiple evaluators. If so, their individual scores will be averaged (mean) to determine your final score as follows:

Example

Evaluator 1 scored your bid as 60
 Evaluator 2 scored your bid as 40
 Evaluator 3 scored your bid as 80
 Evaluator 4 scored your bid as 60
 Your final score will $(60+40+80+60) \div 4 = 60$

5.3.6 The process for shortlisting of Bidders for the award stage of the procurement shall be as follows.

5.3.7 During the Selection stage, the intention is to arrive at a short List of between 5 and 8 qualified Bidders will be considered for award stage evaluation. UK SBS at its discretion may only take forward sufficient Bidders as the intended minimum to maximum stated above. In those circumstances only the minimum to maximum number of qualified Bidders responses at award stage will be considered. To achieve this stated number of qualified Bidders, the selection questionnaires will be ranked.

5.4. Evaluation process

5.4.1 The evaluation process will feature some, if not all, the following phases

Stage	Summary of activity
Receipt and Opening	<ul style="list-style-type: none"> • RFI logged upon opening in alignment with UK SBS's procurement procedures. • Any RFI response received after the closing date will be rejected unless circumstances attributed to UK SBS or the e-sourcing tool beyond the bidder control are responsible for late submission.

Scoring of the Response	<ul style="list-style-type: none"> • Evaluation team will independently score the Response and provide a commentary of their scoring justification against the Selection criteria.
Clarifications	<ul style="list-style-type: none"> • The Evaluation team may require written clarification of Responses.
Re - scoring of the Response and Clarifications	<ul style="list-style-type: none"> • Where relevant, the Evaluation team will independently re-score the Response following receipt of replies to Clarifications and provide a commentary of their re-scoring justification against the Selection criteria.

- 7.3.3 In paragraphs 7.3.1 and 7.3.2 above the term 'person' includes but is not limited to any person, firm, body or association, corporate or incorporate.
- 7.3.4 UK SBS may disclose detailed information relating to Responses to its employees, agents or advisers and UK SBS may make any of the Contract documents available for private inspection by its officers, employees, agents or advisers. UK SBS also reserves the right to disseminate information that is materially relevant to the procurement to all Bidders, even if the information has only been requested by one Bidder, subject to the duty to protect each Bidder's commercial confidentiality in relation to its Response (unless there is a requirement for disclosure as explained in paragraphs 7.4.1 to 7.4.3 below).
- 7.3.5 All Central Government Departments and their Executive Agencies and Non Departmental Public Bodies are subject to control and reporting within Government. In particular, they report to the Cabinet Office and HM Treasury for all expenditure. Further, the Cabinet Office has a cross-Government role delivering overall Government policy on public procurement - including ensuring value for money and related aspects of good procurement practice.

For these purposes, UK SBS may disclose within Government any of the Bidders documentation/information (including any that the Bidder considers to be confidential and/or commercially sensitive such as specific bid information) submitted by the Bidder to UK SBS during this Procurement. Subject to section 7.4 below, the information will not be disclosed outside Government. Bidders taking part in this RFI consent to these terms as part of the competition process.

- 7.3.6 From 2nd April 2014 the Government is introducing its new Government Security Classifications ("GSC") classification scheme to replace the current Government Protective Marking System ("GPMS"). A key aspect of this is the reduction in the number of security classifications used. All Bidders are encouraged to make themselves aware of the changes and identify any potential impacts in their Bid, as the protective marking and applicable protection of any material passed to, or generated by, you during the procurement process or pursuant to any Contract awarded to you as a result of this tender process will be subject to the new GSC from 2nd April 2014. The link below to the Gov.uk website provides information on the new GSC: <https://www.gov.uk/government/publications/government-security-classifications>
- 7.3.7 UK SBS reserves the right to amend any security related term or condition of the draft contract accompanying this RFI to reflect any changes introduced by the GSC. In particular where this RFI is accompanied by any instructions on safeguarding classified information (e.g. a Security Aspects Letter) as a result of any changes stemming from the new GSC, whether in respect of the applicable protective marking scheme, specific protective markings given, the aspects to which any protective marking applies or otherwise. This may relate to the instructions on safeguarding

classified information (e.g. a Security Aspects Letter) as they apply to the procurement as they apply to the procurement process and/or any contracts awarded to you as a result of the procurement process.

7.4 Freedom of information

- 7.4.1 In accordance with the obligations and duties placed upon public authorities by the Freedom of Information Act 2000 (the 'FoIA') and the Environmental Information Regulations 2004 (the 'EIR') (each as amended from time to time), UK SBS may be required to disclose information submitted by the Bidder to the to UK SBS.
- 7.4.2 In respect of any information submitted by a Bidder that it considers to be commercially sensitive the Bidder should complete the Freedom of Information declaration question defined in the Question FOI1.2.
- 7.4.3 Where a Bidder identifies information as commercially sensitive, UK SBS will endeavour to maintain confidentiality. Bidders should note, however, that, even where information is identified as commercially sensitive, UK SBS may be required to disclose such information in accordance with the FoIA or the Environmental Information Regulations. In particular, UK SBS is required to form an independent judgment concerning whether the information is exempt from disclosure under the FoIA or the EIR and whether the public interest favours disclosure or not. Accordingly, UK SBS cannot guarantee that any information marked 'confidential' or "commercially sensitive" will not be disclosed.
- 7.4.4 Where a Bidder receives a request for information under the FoIA or the EIR during the procurement, this should be immediately passed on to UK SBS and the Bidder should not attempt to answer the request without first consulting with UK SBS.
- 7.4.5 Bidders are reminded that the Government's transparency agenda requires that sourcing documents, including RFI templates such as this, are published on a designated, publicly searchable web site, and, that the same applies to other sourcing documents issued by UK SBS, and any contract entered into by UK SBS with its preferred supplier once the procurement is complete. By submitting a response to this RFI Bidders are agreeing that their participation and contents of their Response may be made public.

7.8.4 Bidders must form their own opinions, making such investigations and taking such advice (including professional advice) as is appropriate, regarding their Responses, without reliance upon any opinion or other information provided by UK SBS or their advisers and representatives.
