

## Saffron Walden Town Council, SWTC

### Expression of Interest – Play Area Refurbishments and Splash Park installation – Anglo American Playing Fields, Saffron Walden, CB10 2DX

SWTC is seeking to appoint contractors for the design, build and installation of new play equipment and secondly a splash park at Anglo-American Play Area, Saffron Walden, CB10 2DX.

These projects could be completed together or alongside one another by different contractors but we require all works to be completed by **Spring 2023**.

The photographs below illustrate the location of the current play area, which is next to one basketball court with a small green in the middle. The existing play area requires refurbishment, and the small green is the proposed location of the splash park.

SWTC at this stage is seeking contractors interested in the project, we are currently hosting a four-week public consultation to better understand the likes and dislikes of the current play area and this will help when finalising designs.

Our specification and requirements include:

- A splash park of 234m2, mains once used system and holding tanks.
- Refurbished play area – which is known as an “older children’s” play area including a rope climbing frame and zip wire which we would like to see retained, but we are open to new and exciting ideas.
- All installed equipment and wet pour must have standard industry warranties and provided at times of quotes.
- Please provide details of current installations to the Town Council who may then subsequently visit each site to evaluate the standard and quality of equipment and installation

At this stage, this is purely an expression of interest to tender for the works and a selection process will be undertaken and three suitable contractors will be contacted for tender.

All contractors must hold the following insurance:

- Employers liability - £10,000,000
- Public liability - £10,000,000
- Products liability - £5,000,000

When submitting your expression of interest, please provide evidence of your insurance cover.

The following will be required if you are a selected tenderer:

- Risk Assessments and method statements must be provided by the contractor before any contracts of works are awarded
- Full cost and design specification

Further details and specifications will be shared to contractors who are interested in this exciting project.

Please return your expression of interest by **23<sup>rd</sup> March 2022 to -**

Georgia Arnold, Office Administrator and Committee Clerk
