Total cost for 1 year maintenance			

Hedge Maintenance

All hedges are to be cut a twice a year: once before the end of February and once again in late August/early September.

Maintenance of Hard Areas

All hard areas covered by the grounds maintenance contract should be kept free of litter, obstacles and organic matter at all times. Any overhanging or abutting vegetation should be cut back. All hard areas must also be kept free of weeds, leaves and moss at all times.

Management of Litter

All sites covered by the grounds maintenance contract should be maintained in a litter-free condition.

Monitoring of the Contract

The performance of the contractor will be monitored closely by the clerk and members of the parish council who will carry out regular inspections throughout then parish. They will also respond to complaints and comments from the public. The clerk and the contractor will regularly discuss the state of the grounds maintenance and any specific issues which arise.
