

## **Housing 21 IT Infrastructure requirements for cabling services.**

### **Requirement**

Housing 21 are seeking expressions of interest from suppliers that can provide the installation of data and voice infrastructure into our existing Extra Care and Retirement Living schemes across England plus one location in Wales.

This includes, but is not limited to:

- Cat 6 Structured Cabling to offices and communal areas.
- Wiring closets/cabinets and associated patch panels, cable management, shelving, fan tray, PDU etc.
- Trunking / Containment where required.
- Fibre optic backbones between wiring closets/cabinets where required.
- Installation of networking equipment if requested – e.g., Routers, Switches, Access Point etc.
- Additional small electrical works as required to support the above.
- Cable Testing and Documentation.

Requirements may vary from adding a single additional network point at one location, to supporting a major project rollout at multiple locations.

### **Details**

All works are to be completed to the current Housing 21 IT Department IT Infrastructure Specifications document.

### **Locations**

Housing 21 would like to form local lists of suppliers across the following four regions:

<b>North</b>	<b>Central</b>	<b>South-West</b>	<b>South-East</b>
