19 August 2021

Dear **Mr Mitchener**,

CRM 2208757 – Live/Dead Check for The Springfield Pub, Springfield Boulevard, Springfield, Milton Keynes MK6 3JS

Thank you for your recent enquiry.

I can confirm when we visited the above property on 19.08.2021 we found no evidence of any live gas apparatus.

It may still be possible that gas apparatus could exist in an inaccessible or hidden location either internally or outside the property.

If, in the future you uncover any gas apparatus please do not hesitate to contact us immediately on 0800 912 1700 and we will make arrangements to carry out a safety check, or if you smell gas please call the 24 hour National Gas Emergency number, 0800 111 999 and we will send an engineer within 1-2 hours to make the situation safe.

In addition, before any work is undertaken you should refer to HSE publication HSG47 “Avoiding Danger from Underground Services” to verify and establish the actual position of mains, pipes, services and other apparatus on site. This can be found at: www.hse.gov.uk/pubns/books/hsg47.htm

If you require any further information or advise please do not hesitate to contact our customer service team on 0800 912 1700.

Yours sincerely,

Amy Wright
SGN Oxford Depot
