### 1. The insurance you need to have

1.1 The Supplier shall take out and maintain, or procure the taking out and maintenance of the insurances as set out in the Annex to this Schedule, any additional insurances required under an Order Contract (specified in the applicable Order Form) ("**Additional Insurances**") and any other insurances as may be required by applicable Law (together the "**Insurances**"). The Supplier shall ensure that each of the Insurances is effective no later than:

1.1.1 the DPS Start Date in respect of those Insurances set out in the Annex to this Schedule and those required by applicable Law; and

1.1.2 the Order Contract Effective Date in respect of the Additional Insurances.

1.2 The Insurances shall be:

1.2.1 maintained in accordance with Good Industry Practice;

1.2.2 (so far as is reasonably practicable) on terms no less favourable than those generally available to a prudent contractor in respect of risks insured in the international insurance market from time to time;

1.2.3 taken out and maintained with insurers of good financial standing and good repute in the international insurance market; and

1.2.4 maintained for at least six (6) years after the End Date.

1.3 The Supplier shall ensure that the public and products liability policy contain an indemnity to principal's clause under which the Relevant Authority shall be indemnified in respect of claims made against the Relevant Authority in respect of death or bodily injury or third party property damage arising out of or in connection with the Deliverables and for which the Supplier is legally liable.

### 2. How to manage the insurance

2.1 Without limiting the other provisions of this Contract, the Supplier shall:

2.1.1 take or procure the taking of all reasonable risk management and risk control measures in relation to Deliverables as it would be reasonable to expect of a prudent contractor acting in accordance with Good Industry Practice, including the investigation and reports of relevant claims to insurers;

2.1.2 promptly notify the insurers in writing of any relevant material fact under any Insurances of which the Supplier is or becomes aware; and

2.1.3 hold all policies in respect of the Insurances and cause any insurance broker effecting the Insurances to hold any insurance slips and other evidence of placing cover representing any of the Insurances to which it is a party.

### **3. What happens if you aren't insured**

3.1 The Supplier shall not take any action or fail to take any action or (insofar as is reasonably within its power) permit anything to occur in relation to it which would entitle any insurer to refuse to pay any claim under any of the Insurances.

3.2 Where the Supplier has failed to purchase or maintain any of the Insurances in full force and effect, the Relevant Authority may elect (but shall not be obliged) following written notice to the Supplier to purchase the relevant Insurances and recover the reasonable premium and other reasonable costs incurred in connection therewith as a debt due from the Supplier.

### **4. Evidence of insurance you must provide**

4.1 The Supplier shall upon the Start Date and within 15 Working Days after the renewal of each of the Insurances, provide evidence, in a form satisfactory to the Relevant Authority, that the Insurances are in force and effect and meet in full the requirements of this Schedule.

### **5. Making sure you are insured to the required amount**

5.1 The Supplier shall ensure that any Insurances which are stated to have a minimum limit "in the aggregate" are maintained at all times for the minimum limit of indemnity specified in this Contract and if any claims are made which do not relate to this Contract then the Supplier shall notify the Relevant Authority and provide details of its proposed solution for maintaining the minimum limit of indemnity.

### **6. Cancelled Insurance**

6.1 The Supplier shall notify the Relevant Authority in writing at least five (5) Working Days prior to the cancellation, suspension, termination or nonrenewal of any of the Insurances.

6.2 The Supplier shall ensure that nothing is done which would entitle the relevant insurer to cancel, rescind or suspend any insurance or cover, or to treat any insurance, cover or claim as voided in whole or part. The Supplier shall use all reasonable endeavours to notify the Relevant Authority (subject to third party confidentiality obligations) as soon as practicable when it becomes aware of any relevant fact, circumstance or matter which has caused, or is reasonably likely to provide grounds to, the relevant insurer to give notice to cancel, rescind, suspend or void any insurance, or any cover or claim under any insurance in whole or in part.

### **7. Insurance claims**

7.1 The Supplier shall promptly notify to insurers any matter arising from, or in relation to, the Deliverables, or each Contract for which it may be entitled to claim under any of the Insurances. In the event that the Relevant Authority receives a claim relating to or arising out of a Contract or the Deliverables, the Supplier shall co-operate with the Relevant Authority and assist it in dealing with such claims including without limitation providing information and documentation in a timely manner.

7.2 Except where the Relevant Authority is the claimant party, the Supplier shall give the Relevant Authority notice within twenty (20) Working Days after any insurance claim in excess of 10% of the sum required to be insured pursuant to Paragraph 5.1 relating to or arising out of the provision of the Deliverables or this Contract on any of the Insurances or which, but for the application of the applicable policy excess, would be made on any of the

Insurances and (if required by the Relevant Authority) full details of the incident giving rise to the claim.

7.3 Where any Insurance requires payment of a premium, the Supplier shall be liable for and shall promptly pay such premium.

7.4 Where any Insurance is subject to an excess or deductible below which the indemnity from insurers is excluded, the Supplier shall be liable for such excess or deductible. The Supplier shall not be entitled to recover from the Relevant Authority any sum paid by way of excess or deductible under the Insurances whether under the terms of this Contract or otherwise.

## Order Schedule 2 (Staff Transfer)

Buyers will need to ensure that appropriate provisions are included to deal with staff transfer on both entry and exit, and, irrespective of whether TUPE does apply on entry if there are employees eligible for New Fair Deal pension protection then the appropriate pensions provisions will also need to be selected.

If there is a staff transfer from the Buyer on entry (1st generation) then Part A shall apply.

If there is a staff transfer from former/incumbent supplier on entry (2nd generation), Part B shall apply.

If there is both a 1st and 2nd generation staff transfer on entry, then both Part A and Part B shall apply.

If either Part A and/or Part B apply, then consider whether Part D (Pensions) shall apply and the Buyer shall indicate on the Order Form which Annex shall apply (either D1 (CSPS), D2 (NHSPS), D3 (LGPS) or D4 (Other Schemes)). Part D pensions may also apply where there is not a TUPE transfer for example where the incumbent provider is successful.

If there is no staff transfer (either 1st generation or 2nd generation) at the Start Date then Part C shall apply and Part D pensions may also apply where there is not a TUPE transfer for example where the incumbent provider is successful.

If the position on staff transfers is not known at the bid stage, include Parts A, B, C and D at the bid stage and then update the Buyer Contract Details before signing to specify whether Parts A and/or B, or C and D apply to the Contract.

Part E (dealing with staff transfer on exit) shall apply to every Contract.

- 2.9 The Supplier shall update the Continuous Improvement Plan as and when required but at least once every Contract Year (after the first (1<sup>st</sup>) Contract Year) in accordance with the procedure and timescales set out in Paragraph 2.3.
- 2.10 All costs relating to the compilation or updating of the Continuous Improvement Plan and the costs arising from any improvement made pursuant to it and the costs of implementing any improvement, shall have no effect on and are included in the Charges.
- 2.11 Should the Supplier's costs in providing the Deliverables to the Buyer be reduced as a result of any changes implemented, all of the cost savings shall be passed on to the Buyer by way of a consequential and immediate reduction in the Charges for the Deliverables.
- 2.12 At any time during the Contract Period of the Order Contract, the Supplier may make a proposal for gainshare. If the Buyer deems gainshare to be applicable then the Supplier shall update the Continuous Improvement Plan so as to include details of the way in which the proposal shall be implemented in accordance with an agreed gainshare ratio.

## Order Schedule 20 (Order Specification)

### 1. Introduction

In March 2021, BEIS, UKRI and IPO completed the [BEIS-UKRI Commercialisation Pipeline: Identifying near term opportunities from R&D intensive technologies in the UK](#). The methodology behind this was published in October 2021. The Commercialisation Pipeline work underpinned the Technology Strand of [BEIS Innovation Strategy](#) with [an accompanying evidence paper](#). To build on this, we are seeking to procure evidence to enable us to compare the “size of the prize” in the market potential from commercialising or adopting each of the main emerging technologies. This additional information would be useful in any future prioritisation exercise of a similar nature.

### 2. Background to the Requirement

The [Net Zero Research and Innovation Framework](#) sets out key net zero research and innovation challenges for the UK over the next 5 to 10 years. The [National AI Strategy](#) recognises the power of AI to increase resilience, productivity, growth and innovation across the private and public sectors. Some of these technologies will be captured within this project.

This work will feed into analysis which seeks to inform decision making at the centre of government on what technologies to prioritise. Go Science have conducted initial analysis of this building on the BEIS-UKRI commercialisation work, and ideally the supplier will provide a solution complementary to that.

This project will help to inform preparations for future fiscal events, acting as a cross-government evidence base to inform wider strategic policy choices, and supporting the horizon scanning function in GO-Science.

### 3. Aims & Objectives

In assessing potential market impacts, currently we use a series of published estimates derived from various consultancies. These estimates use different methods, are for different timescales, and can have differing scope (e.g. one is a central estimate, another is the maximum potential impact).

We want a consistent and realistic set of estimates of market potential we can use for policy reports, analysis and Ministerial speeches. The outputs from this project may also feed into analysis which seeks to inform decision making at the centre of government on which technologies to prioritise.

Objective: To fill an evidence gap on market projections for emerging technologies via publication of an analytical report, and to provide the underlying analysis for use in government.

### 4. Scope

The scope of the project is economic projections for the potential impact on the UK economy of a range of emerging technologies, in a fixed and comparable timeframe.

The methodology must use a credible economic approach.

**DPS Schedule 6 (Order Form and Order Schedules)**

Crown Copyright 2021

The period of agreement will run to 31 December 2023.

## 5. Requirement

### Scope of Technologies

We have defined a list of essential technologies which form part of the 7 Technology Families outlined in the Innovation Strategy and are key technologies of interest within the policy team. We also have a list of optional technologies which cover the remaining 7 Technology Families and the ongoing GO-Science Taxonomy development. As a minimum, bidders must be able to provide assessments for the essential list of 12 technologies, plus at least 3 optional technologies to a minimum of 15 assessments. Geoengineering is likely to have no/negligible market size and could be omitted from the list.

The current 12 technologies forming the essential list of technologies will be expanded to at least 15 in total, with additional technologies agreed at the inception meeting. Each of the technologies and sub-technologies listed below, including both essential and optional, will have a technical definition provided by GO-Science that is to be used as the formal definition whilst exploring market potential within each technology. This definition comprises descriptions and a set of keywords designed to encompass all subsidiary technologies that collectively define the full area.

#### Essential:

- Artificial Intelligence and Machine Learning
- Augmented and virtual reality/ extended reality
- Digital Twins
- Quantum technology
- Photonics
- Advanced sensing
- Robotics and autonomous systems
- Autonomous vehicles
- Synthetic Biology/Engineering Biology
- Agritech
- Semiconductors
- Future Telecoms

#### Optional:

- AI, Digital, and Advanced Computing (Extended reality, Blockchain, High-performance computing, Cyber security, Future computing, Synthetic environments, Data management technology)
- Electronics, Photonics, and Quantum (Sensors, Micro electronics)
- Energy and Environment Technologies (Energy generation, Energy storage, Energy management systems, Waste management, Carbon capture, Geoengineering, Renewables, Fuel Cells, Hydrogen)

**DPS Schedule 6 (Order Form and Order Schedules)**

Crown Copyright 2021

production and infrastructure, Nuclear energy technology, Novel Batteries, Advanced charging technologies, Mechanical energy storage technology, Carbon capture, utilisation and storage, Heating, ventilation, air conditioning (HVAC) and cryogenics, Novel fuel technology)

- Advanced Materials and Manufacturing (Advanced materials, 2D materials)
- Bioinformatics and Genomics (Omics, Personalised and precision medicine, Disease control (human), Medical imaging, Targeted therapeutics)
- Future Telecoms (Fibre, Radio/Backhaul, Optical Communications, Edge Computing, Cloud Computing, Quantum Internet)
- Other (Recycling Technology, Human Augmentation, PNT Technology, Effector Technology, Medical Devices, Vaccines and therapeutics, Aerospace propulsion systems, Terrestrial propulsion systems)

**Scope of Economic outputs:**

We have proposed two types of projections/estimates, Type 1 reflecting core requirements, and Type 2 adding an extra layer of detail and complexity. The Contracting Authority highly values Type 2 requirements but understands the potential challenges in delivering them; bidders should note the high value placed on these requirements in tender assessment. A bid using all of the available budget and high quality responses for Type 2 requirements will score preferentially over a bid at low cost delivering Type 1 requirements and lower scope Type 2 requirement where equal in other respects.

**Resources provided by the Contracting Authority:**

- A taxonomy to define technologies in scope and accompanying search terms (bibliometrics), that will both be used to define data search strategies
- Subject to licensing agreements, GO-Science may be able to share aggregate commercial data from our data providers to support the analysis being undertaken by the contractor. This will be confirmed at a later stage
- Support to QA of products where possible subject matter experts available through BEIS and GO Science.

**Type 1: Direct impacts - core:**

- Direct GDP / turnover and employment impacts within the UK market i.e., from the direct production and sales of this technology by the supplier base.
- Future market value globally. The share of the global market that we may be able to serve (e.g., export share)
- Timeframe of projection to 2030 (or alternative fixed point of comparison that you may suggest)
- A range of cautious and more ambitious scenarios

**Type 2: Including wider impacts on the economy - stretch:**

- Productivity impacts due to adoption / use of the technology by the wider business base
- Wider quantitative economic growth impact due to adoption
- Wider employment impacts

Where methodology allows, we are open to other useful outputs such as qualitative insights.

It is anticipated that this project will be delivered in two phases; with a contract review at the end of March 2023 to consider contractor responses on detailed method and the outputs of a pilot study in at least one technology area. 20% of the overall contract value will be payable on acceptance of products supporting contract review.

**DPS Schedule 6 (Order Form and Order Schedules)**

Crown Copyright 2021

**6. Deliverables****Deliverables:**

1. An internally consistent / coherent set of market projections, for specified technology areas, that can be meaningfully compared with each other.
2. A MS Word report and accompanying PowerPoint slide pack that may be published in the future.
3. A clear explanation of the methodology used to calculate the market projections, and the caveats around the proper use and interpretation of the findings.
4. Pilot outputs for at least one initial technology area.
5. Copies of any underlying modelling work, for example in Excel spreadsheets
6. A completed Quality Assurance checklist, using the BEIS template (Annex A), for any modelling

**Outcomes/ expectations:**

To produce a consistent set of market projections for emerging technology impacts that are useful for a range of government purposes.

Total contract value shall not exceed £250,000 excluding VAT. The contract shall not exceed 31st December 2023. There will be a break clause on 31st March 2023 to allow the Department to review the contract. The Pricing Schedule shall reflect costs prior to the break clause as 'Phase 1' and those following as 'Phase 2'.

Deliverables 3 and 4 as described in 'Objectives' above (detailed method and pilot outputs) must be delivered at least one week in advance of the contract review. A suggested split of approximately 20% of the overall budget prior to contract review point is offered by the Contracting Authority.

The awarded supplier must be available for an inception meeting approximately one week after contract award. The inception meeting will also cover when to have routine catch-ups about the projects progress and more detailed meetings such as workshops.
